Dear Sirs:

In regard to the 2,13" inserted tooth Edger Saws which we ordered for you in October we beg to say we have letter from factory stating that in the process of manufacture they lost one, a defect showing up in the steel. They have therefore had to make up a new saw which has caused the delay. We have the promise, however, that they will ship these saws the last of this week or early next week by express. We regret the delay very much and so does the factory but of course accidents of this kind are liable to happen.

Very truly yours,
