MEMORANDUM

TO: Dr. Robert Morrison
Chair, Faculty Senate

FROM: Chancellor William V. Muse *W. Muse*

DATE: January 2, 2003

RE: December Resolutions

I am hereby approving the resolutions recommended by the Faculty Senate on December 3, 2002 with the following modifications or exceptions:

- 02-42 This resolution would no longer be necessary since the position of Senior Associate Vice Chancellor for Academic Affairs has been eliminated.
- 02-43 The proposal to provide all retired faculty with a free Zone A permit may not be consistent with maintaining an oversell ratio of 1.1 in that lot. A final determination as to whether retired faculty permits will be in Zone A or B will be made before the plan is implemented. Additionally, it is not clear that a public transportation system that merges the Student Transit System with the City of Greenville is in the best interest of our students or the University; further analysis and consideration will be needed before a final decision is made.

If you have any questions about these modifications or exceptions, please let me know.
