Lori:

I checked with the chancellor on this question. He asked me to let you know that he is working with the Board chair to review questions such as these, but they don't anticipate any change this semester.

He also said that he believes that student, alumni and staff leadership are also key constituents that need to be invited to such events, but to expand the invitation lists to include all those is probably not feasible. We're trying to balance all these questions.

Just a reminder that the chair of the faculty is, in fact, invited to all the BOT receptions.

John

**Subject:** Board of Trustee Social

John – I have been asked to inquire of the possibility of inviting the 4 Faculty Officers to the Board of Trustees' evening social gathering that occurs each time prior to the formal Board meetings. It was noted that Faculty Officers were once invited to these gatherings yet have failed to receive invitations for the past year or so. Please let me know how we should proceed. Thanks. - Lori
