CALL 770-836-4566**

Chief William McIntosh, born during the Revolutionary War of a full-blooded Creek Indian mother and a Tory infantry captain of Scottish ancestry, became the most widely acclaimed Creek Indian chief in the Southeast. In his twentieth year he debated a land treaty with President Thomas Jefferson. In his third decade he was a brigadier general in Andrew Jackson's army in the Creek War and the first Seminole War. In his early forties, he was killed by Upper Creek Indians at his plantation along the Chattahoochee River. To some of his fellow Creeks, he was a traitor who disobeyed the law of the Creek Nation by signing away the remaining Indian lands in Georgia. To Georgians, he was a hero who understood what was best for his people. In less than a year, another treaty was signed and the Creek Indians gave up all their lands to Georgia in exchange for land in the West. No one was assassinated after this treaty was signed. Intertwined with McIntosh's career are many fascinating tales of life on the Southern frontier, as seen through the eyes of a brilliant man, born half-white, but raised as a Creek Indian.

(Detach below and mail with check. Retain map above for reference.)
