Subject: Follow-up matter for the Residential Concentration in Construction Management
Attachments: Marked Catalog Copy mark up p292-294 FINAL(4).doc

Importance: High

Hello EPPC,

As you recall, we unanimously approved the new Residential Concentration in Construction Management last month, and it is listed that way in our minutes as exactly that. However, due to an oversight by me, as well as poor communication for those presenting the program, we were actually supposed to vote upon 2 separate concentrations within the B.S. in Construction Management. Those two concentrations are Residential Construction Management (RCM) and Commercial Construction Management (CCM). Please see the attached document.

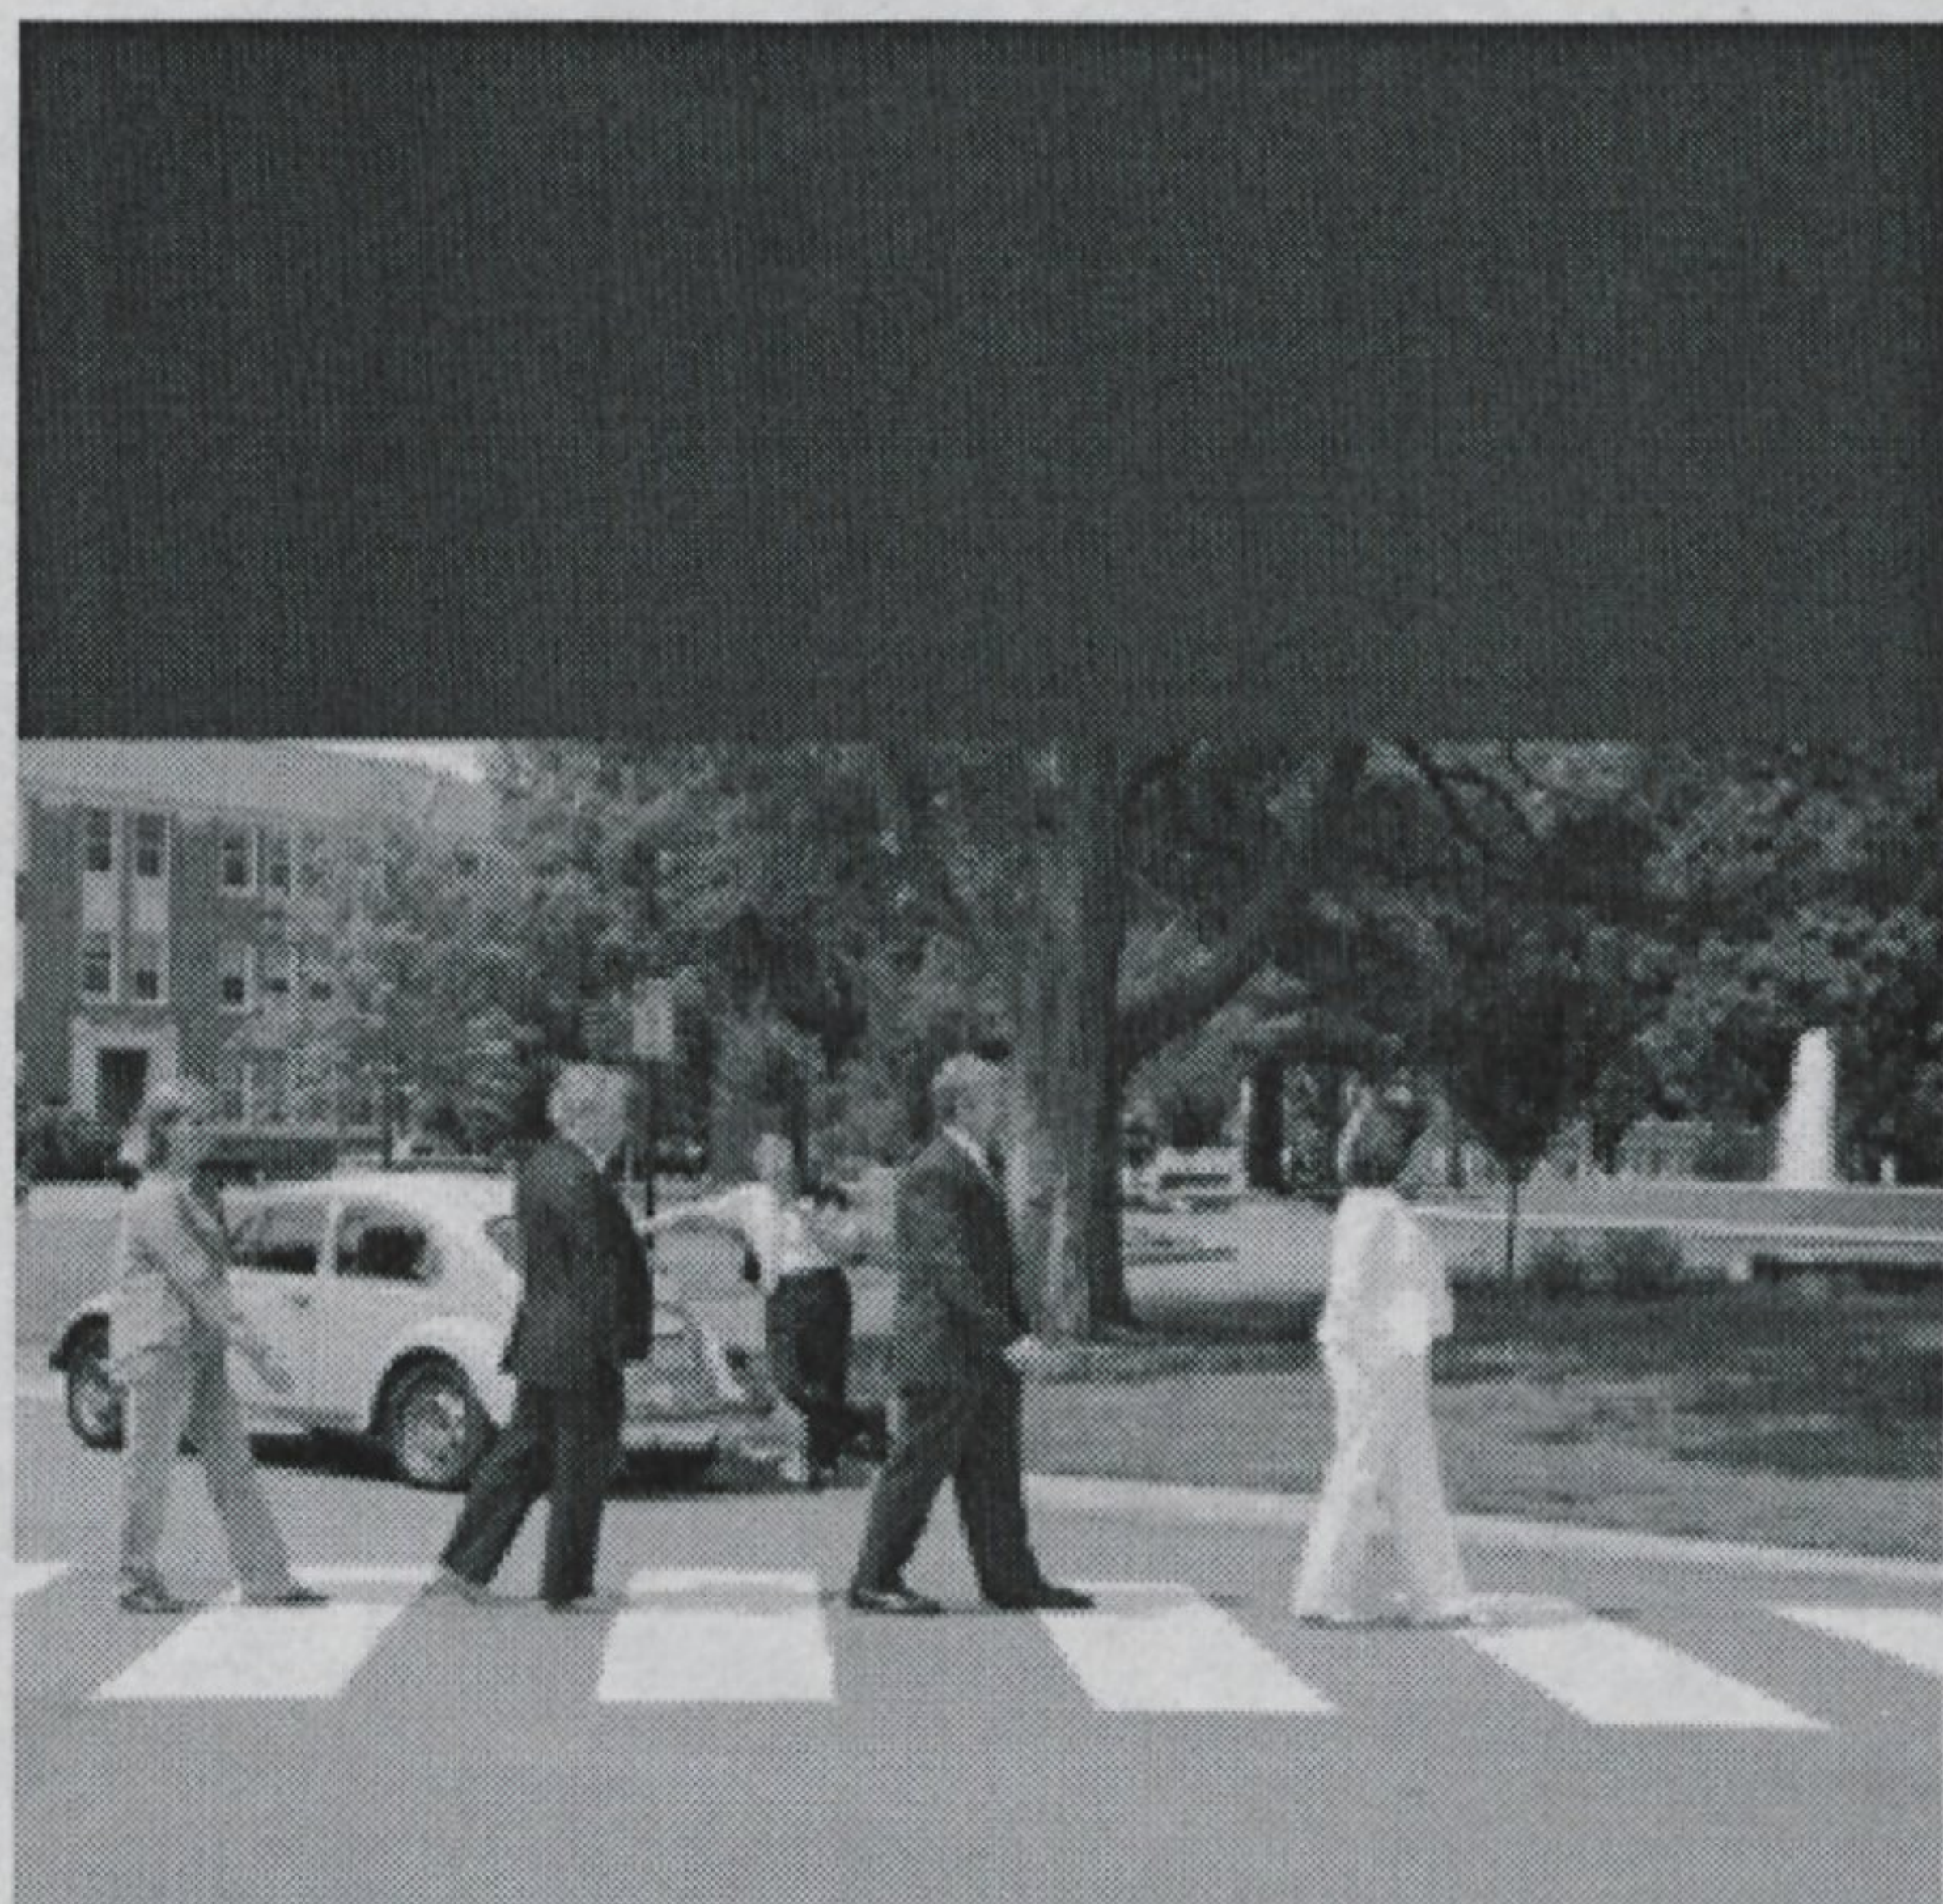

Unfortunately, our minutes do not reflect that we approved the Commercial Construction Management concentration, and thus they need us to vote on this issue to proceed with the changes to the program.

If all of you are in agreement with me doing those, I think we can move and vote on this by email. All of the issues presented to us by the program representatives remain the same, so there is really no need to have the present it to us again. If we can do it by email, we can then give them the green light to move on.

Does anybody object to an email vote?

Thanks,
Scott
