Marianna,

Forgive me for getting back to you so late! I just looked at the clock and was shocked to see the time!!

Please do tell the GSAB that the committee plans to withdraw all of the proposed charge changes that refer to the graduate school. Here is a summary for the charges that contain such proposed changes:

Academic Standards Committee
Admission and Retention Policies
Calendar Committee
Educational Planning and Policies Committee
Student Academic Appellate Committee

Of course, these proposals are on the Faculty Senate agenda, so the committee does intend to make a report about the proposals. That report will include an explanation about the reasons for the proposals and the committee's rationale for withdrawing the reports at this time.

Again, please forgive the tardiness of this reply to your earlier message,
Catherine
