**Explain why the program is being discontinued. If the program addresses high priority needs, how will those needs be addressed by other programs? Describe steps to be taken to allow students enrolled in the program to complete their courses of study.**

The MS in RTA has been identified as a "low producing" program, falling just below the UNC threshold for enrolled/graduated students. After two years of increased recruitment activities to increase enrollment, student numbers remain below the threshold. The degree program meets a very specialized need for a terminal degree in Recreational Therapy in the state (as well as nationally); we will continue to meet the needs of such students by offering a concentration in Recreational Therapy Administration (or alternative title) in a restructured MS in Recreation and Park Administration (RPA). The restructuring process for the RPA degree is currently underway.

**Consequences of Discontinuation**

*How many faculty members will be reassigned?* Currently six faculty members hold licensure and certification that qualify them to serve the RTA MS degree. These individuals will be reassigned within the Department of Recreation and Leisure Studies to teach similar courses in the to-be-approved concentration in RTA (or similarly titled degree), which will be a part of a reconfigured RPA MS degree.

*How many staff will be reassigned?* NONE

*How many EPA non-faculty will be reassigned?* NONE

*How many faculty, staff, or EPA non-faculty will be discontinued?* NONE

*How much funding is to be reallocated based on this discontinuation?* NONE

MEMORANDUM

I have reviewed the request from the Department of Recreation and Leisure Studies to discontinue the Master of Science in Recreational Therapy Administration (51.2309). I note that Dean Glen Gilbert, College of Health and Human Performance, indicated his support for this discontinuation on March 1, 2013.

My signature below indicates that I also concur with this discontinuation request.
