Mr. Robert Harrell,
Shelby, N.C.

My dear Student,

It is with pleasure that I find you closely connected to the first step in the solution of your domestic problems--that of the re-union with your wife; I congratulate you.

I trust also that you will be able to have some time alone--unannoyed by others ; some time in which to again become acquainted with the richest contributions of life that each can give the other--the contribution of beautiful love and joyous companionship with an ever increased desire and trend toward a future that will contain more joy ,more hope and more achievements than you have as yet experienced. Later on, your children will be drawn into the circle and you will be happy in the fact that in union there is strength.

As regards materials for sdvertising Bio-Psychology, I beg to say that the time will come when you will be able to be of mutual service to others and to the School, but I realize now that you are heavily taxed and therefore suggest that you just speak a good word for the Science as opportunity arises, and to those who really feel that they might like to take the course after they really understand what it would cost them, I suggest that you tell them to write for information and mention your name. Of course the address CHATTANOOGA, TENNESSEE is sufficient. Wherever we are the inquiries will be forwarded to us. We have found it impracticable to send out expensive literature unless prospective students indicate serious interest. I do so appreciate your feelings of gratitude and am looking forward to the time when you will be a Doctor of Bio-Psychology, spreading the good work among those whom you contact. To know that your wife is to become interested will add strength to your efforts, and we all realize that as long as we keep ourselves active and in line with the Good, the Beautiful and the True, we cannot go far afield. All things work together for good for those that love the Lord and keep his commandments.

With all good wishes for a bright and happy year for you and yours, I am,

Yours for the More Abundant Life,

Consequitur quodcumque petit

W. Marcus Taylor
