Dear Admiral Eller:

Dwight Algood has just told me of the very worth-while project you have been asked to undertake for Bucknell University.

I hasten to send along my good wishes for your success and happiness in this challenging assignment. There is so much to be accomplished in the academic field, and it is always reassuring to know of such posts filled by men of your calibre.

Quite naturally it will be a busy first few years for you but I sincerely hope rewarding ones.

Best regards,

(Mrs.) Margaret D. Zimmerman
