

THOMAS P. DE GRAFFENRIED  
COUNSELLOR AT LAW  
42 BROADWAY  
NEW YORK

Jan 6th, 1924

Major Victor deGraffenried ---2

Please take the balance of the money and turn it over to somebody to reimburse them for getting photographic copies of portraits, places, etc., small pamphlets on whatever you could find of interest concerning our family, and also for having copies made of private documents and records in possession of the family, if you think that they would be of special interest to me. Of course, I know that I am imposing upon your good nature, as I am always asking you to do something for me. I realize that you have many burdens of your own to bear, and are quite busy with your work, so won't you please turn this matter over to some one else who has more time, and if the money remaining is not sufficient, I will gladly and cheerfully send another check for whatever may be required.

In the article on the family which we heretofore sent you and which no doubt has reached you by this time, we left out a <sup>large</sup> number of the members of our family who have not sent me in sufficient information to trace their genealogy back to the Landgrave. I may be able to send you this later, but I am not at all sure so do not wait for it. I am very anxious to receive a copy of what you are preparing, concerning our family, for the new publication, and I will certainly appreciate the opportunity to read it.

I am sending you, herewith, enclosed a copy of an old letter written by Gerard deGraffenried in 1865. Do you know who he was and to what branch he belonged and from whom he was descended? We are not able to locate him at all.

Again thanking you for your kind assistance, and with love to all, I am

Yours most affectionately,

*Thomas P. deGraffenried*

P.S. I have a number of pictures of Worb, which are quite satisfactory and which you were so kind to send to me.
