

Dec. 1, 2001

Season's Greetings

Dear Friends,

Haven't heard from you in a while. I hope all is well with you both. Looking forward to your Xmas card when you will bring us up to date.

Can't remember when I talked to you last but I know it was after I fell off the ladder. No pain in my neck finally end of Sept. Had 4 whole days — then Joe fell & he leaned on me & we both went down. This was at Pennys. Took him home — Dr. said ice & Tylenol for both of us. His hip hurt him for 6 weeks. My tail bone hurt for 2 weeks — but my neck still hurts. Just like before in May. I haven't signed any papers yet. Feel when I'm better I will. Golly to go to Dr. in Dec. & I'll talk it over with him.

Had the toilet fixed — \$110.00 My blower died replaced it \$33.00 & the VCR died after 12 years so it was \$20.00 for a new one. Paid \$299 for the first one. I'm having a hard time learning how to use it. Need my son to help me.

Thanksgiving was nice having family all together — but it's so much work for me I decided not to do it next year. No turkey. Would rather have a pork roast. Better to still all go out to eat.

Veterans day Joe & I went out to dinner at a Golden Corral Restaurant who gave free meals to all veterans. It was crowded — very nice of them to honor so many.

Just got off the phone & made plans on going to Charleston for 3 days. Have to sit in on a promotion for 90 min. My cost \$60.00. Just far enough to make the drive easy. Be good for us to get away & I always liked Charleston except the humidity. So January is great.

Joe is doing well. Walks everyday. Could walk twice but I can't get him to do it. I see I feel better maybe I can join him. Blood sugar is great the Dr. said last time. Wish he'd help me a little more around the house. He forgets little things so I end up saying nothing & doing it my self.

Cookie time is here & I will have to watch him on that. I enjoy making all kinds & giving them away.

Leaves are almost all down now. Seems they come down all at once. Streets have lots of piles all over town. It rained at last got 1" & more is due this weekend. Been 28 days or so without rain. Its been so mild in the 70's & today 80°. One day winter will show up. Then Joe turns into a BEAR.

Time to fix him lunch. I had to spend the rite at my daughters & take care of our grandson while she was out of town on business. I had a great time. Joe had to take care of himself. I think he missed me.

Hope its a great holiday for you two & a great 2002. God Bless!

Jenny & Joe
