G I Insurance

World War II veterans who wish to reinstate lapsed GI insurance have only until December 31, 1947, in most cases, to do so vithout a physical examination, James D. Walters of the Greenville VA office has pointed out.

Until that date, he explained, most ex-servicemen and women may reinstate National Service Life Insurance by paying two monthly premiums and signing a statement that their health is as good as when their insurance lapsed. After that date, he said, physical examination wil be

required in most cases. He advised veterans wishing to reinstate their GI insurance to get in touch with a VA office or a Veterans Service Officer. In Greenville full information and assistance are available at the Veterans Administration oflocated in the National Guard Armory.

informing, well-written, and thoroughly and feel rather badly about it, I respectfully entertaining. In most respects it compares favorably with the papers published by other colleges of similar size. But in your issue of Friday, November 21, I think you reached the ultimate in poor taste and utter dis-The column "Scumming" was a black regard for the feelings and privacy of it that way. others. I refer to your feature, "Scum-

Not only did the article in question offend some of the students mentioned; but it pried into personal matters that could not concievably be anyone's business except the parties in question, and in several cases subjected them to the ridicule of their fellow students. In my opinion that is inconceivably poor journalism.

I do not know how you collect your material for this column, but if it is the work of any one student or group of students, I feel that they have clearly demonstrated that they are not capable of publishing a paper that reflects the opinions and desires of the student body. It may be that the majority of the student body wants and rather inclined to form a higher estimate of the average mentality of the group.

Your paper has a splendid record of achievmnt behind it, and has placed among the first in several of the Press Associations to which it belongs, and nothing would please me better than to see it maintain this fine record; but it has been my experience in working with school papers that competent judges invariably count off for the type of thing mentioned above. If you expect to failed. maintain your high standing, you might do well to alter your editorial policy in regard to the printing of gossip.

Some of the material included in the last column could have come only from a person of warped, vicious mind and with a rather dubious intellect. It was in extremely poor taste and rather childish in its blind attack on others. The mentality and sanity of the person responsible might well be open to question, for certainly the mentality and sanity of any person who, without provocation or justification, deliberately injures the feelings and invades the privacy of his fellows, are questionable. I refuse to believe that the majority of the student body is low, base, and vulgar enough to want or appreciate that type thing; and I see no possible use in your catering to a small minority. November 21 was a complete surprise. We If you must print gossip, let's raise the level until it can be a source of amusement, attempted to hurt anyone. and not a weapon employed by the feebleminded to display their poor taste and down right indecency.

Perhaps I've only shot off my big mouth and made a jackass of myself again, for there was no mention of me in the article (thank God!) and it may be that the whole matter is none of my business; but inasmuch as several of my friends were mentioned

legislature and was recently voted the most athletic senior. He told his wife, however, that he was selected as the class flirt. Those bruises that he wore weren't all from football skirmishes.

We asked Lee what Amos liked most to eat; her answer to this was, "Anything;

Respectfully yours, Jimmy Gray

The Editors Reply

As Mr. Taylor and Mr. Gray have stated in no uncertain terms, a number of students were disturbed by what was said or intimated about them in "Scumming" in the issue of the TECO ECHO printed on November 21. Although we, the editors, did not ourselves pen any of the items in question, we are ultimately responsible for whatever is printed in any part of this paper and therefore wish to apologize to the per- you. Those cavemen antics appeal to 'em. sons who, according to what we have heard, were offended-Patricia Wilson, Paul Up- have you seen Beaufort Williams' third church, Florence Borerckel, Jim Taylor, finger, left hand? Congratulations, Beauappreciates that type of article, but I am Maude Noe, Margaret Honeycutt, Myra fort! Best, Jimmy Fryar, Fred Saleeby and particularly Nell Marie Webster and Martha Pickett, whose "cuts" were the unkindest . . of all." If your feelings were hurt, we are sincerely sorry.

Certain stinging items which appeared in the column last summer caused us to resolve to make "Scumming" the clean, harmless gossip column it had been in times past. Apparently, however we have inadvertantly

Our staff is small and largely inexperienced and a large part of the work of getting out this paper as well as all the respensibility necessarily falls on us, the editors. The pressure is always "on." That in part is why our initial perusal of "Scumming" as it was turned in to us four weeks ago was rather perfunctory.

The column was until the last issue the least of our worries, and since it had previously been written by the same people with satisfactory results, we did not give it the careful examination we are now giving it. To some these statements may seem an

admission of incomptency and inefficiency. Take them for what you will. Take our word for it also that the overwhelming criticism that swept over us after

resent any accusation that we intentionally We also resent the attacks which per-

sons have made upon the intellect and integrity of our staff members. Of the 1400 bright? students in this college only about a dozen have elected to help us "get out" a newspaper which according to our masthead is published by the "students of East Carolina Teachers College."

As journalists we should be and are

acutely aware of the conditions that exist in this college and have long realized that, in a manner of speaking, there are few "motormen" and "conductors" around; too many of us are just here for the ride. That is why we are deeply appreciative of the services of our staff members and that is why we shall stoutly defend them against deprecation. We do not and have not believed that any student or students have used the column "Scumming" this year as a medium of satisfying petty grudges and jealousies. We would not knowingly tolerate any such thing.

Unfortunately it is apparently an inborn characteristic of human beings to "tear down" rather than "build up." The compliments that come our way are rare indeed; but let us by chance make a mistake and the "walls of Jehrico come tumbling down." Complacently taking for granted all that is good and worthwhile, many of the students in this college stand by like so many vultures, waiting to pounce upon the poor mortals who slip up somewhere along the way.

Do not misunderstand us. We want your criticism—so long as it is constructive and within the realms of reason and fairness. Tell us what you think; or write us a letter, as Mr. Gray and Mr. Taylor have done. It doesn't do any good to bark at the moon.

This is YOUR newspaper. It is our desire to print what you want printed; at the least, it is our desire that you like what we print.

To some people th idea of a gossip column in a college newspaper undoubtedly sems incongruous. However, we believe that the overwhelming majority of the students in the college wish to have "Scumming" continued—continued, that is, as the good clean, harmless gossip column which it has been in the past—and can be again.

We shall continue "Scumming" and shall endeavor to match the precedent that has been set in recent years. We have endeavored to match that precedent in this
