University Visit

President John D. Messick of East Carolina college has returned to the campus here after spending several days in Florida at Miami university, where he participated in an evaluation of the school by the American Education. He is a member of the association of Colleges for Teacher Accreditation committee of the national organization.

Other members of the AACTE com-

mittee working with Dr. Messick in Florida were President A. B. Norton of Alabama State Teachers college and Dr. M. W. Moorer of the Florida State Department of Education. The evaluation of the university, an institution with approximately 7,000 students, a large faculty and an expanding physical plant, involved observation in classes of the School of Education and interviews with students, teachers and admin-

Football, basketball and baseball games play a large part in the life of a college. No person should ever leave school without observing all the sports activities that are offered.

Our college entertainment program brings a selection of professional artists who are among the best in their respective fields. We have opera stars, magicians, dancers, piano players and other talented personalities who appear here each year.

Human nature is so set up whereby none of us enjoy all the things that happen. Some of us like our ball games, while others had rather stay in the dorm and read. There are those of us who do not care for certain types of entertainment, but our personalities are not supposed to be such that we like everything all the time.

In like manner there are those of us who may not like to hear sermons, although we feel quite sure that there are none of us who do not need to hear them. Every person in this nation following poem: has a right to his own personal beliefs, and no The codfish lays a million eggs, one has any right to deny him of them.

In comparison then, the coming week will give us an opportunity to partake in our inherent freedom of religion and also present us with the chance to further broaden our education in the study of worship. Several speakers of varied opinions will be here and their talks will be of personal value to each student. A chance for the study of the greatest of all subjects, our religion, will be presented to us during Religious Emphasis week. Let's use it well!

You Can Believe That!

"You can believe that!"

"That's right, it's in the book." Ever since you were old enough to talk, you had a coined phrase to deny a lie. When you were in the first grade, you probably said to your teacher after stinging her by mistake with a spitball: "Cross my heart and hope to live to Doom's
