Japanese Tea Ceremony Is Big Part Of Cahanoyu Gultural Heritage

By HIDEO KUSAMA (EDITOR'S NOTE: This is the first part of a three article series in which the author, an exchange student from Japan, will attempt to introduce some representative culture of Japan, and to make its ultimate character with an example which may help in the appreciation of colorful oriental cultures as well as to evaluate conditions of moral valuation authorized by the Japanese traditional cultures, comparing with those of western countries.)

CHA-NO-YU CULTURE Chanoyu is a remarkable manner f green tea and generally translated "tea ceremony," which is only lately type are numerous in Japan. begun to study by western scholars in the Muromachi era, the basic style that reaches a climan but door not be larged and also to typical sports such Jr.-Sr. Notice as the representative study of orien-

Council Searches For New Advisor

It appears that the Panhellenic Council is having its troubles too.

A recent controversy within the council concerning changes in a proposed constitution for the group has resulted in the resignation of its advisor and the elimination of the whole constitution.

The story goes (in an unofficial sort of way since reporters have been denied information concerning this on various occasions) that a constitution, written primarily by Dean White who was advisor to the group at that time, was submitted to the council for its revision or approval. At the meeting when the constitution was submitted no revisions were proposed.

However, sometime later a constitutional committee meeting was called and several changes were proposed for the constitution. The advisor was not notified of this meeting. and consequently was not present.

At the following meeting the revised constitution was presented and adopted.

The primary change which had caused the confusion was one which stipulated that the advisor to the council would not be a member of any one of the represented sororities. Dean White, the advisor at that time, is a member of Kappa Delta (which is one of the represented sororities).

At this time we understand Dean White asked the reason for the amendment and received in answer a charge that she, as a member of Kappa Delta, was in a position to show favoritism.

According to our reports however, the accusation was not backed up by any examples of past favoritism.

This series of events resulted in quite a bit of controversy and hard feelings among the sorority girls as well as Dean White.

Most of the Kappa Delta members as well as some members of other sororities felt that an injustice had been done . . . on the other hand the other faction of the group felt they were being thwarted in their efforts to provide a fair and unbiased constitution. Take this situation and add a few personal grudges, lots of misunderstanding, and a pinch of hardheadedness and you have the recipe for the Panhellenic's first major problem in their short history.

Once the problem was there everyone had suggestions for its solution . . . some good and some not so good. Many of the girls lost their temper and more than one shed tears over the matter.

Then at a meeting last week further developments arose. Dean White resigned as advisor to the group, the council voted to completely disregard the first constitution and a letter from President Jenkins was read to the group.

The letter, addressed to Dean White, read, ". . . your suggestion that the women elect a faculty member as their advisor is approved. As Dean of Women, you are responsible, of course, for the general supervision of all sororities. This includes the responsibility to the national offices of these groups in such things as rushing, pledging, bidding and the colonization.

"A copy of the minutes of each meeting should be sent to you so that you may be fully informed at all times regarding the activities . . .

"I know that you share my enthusiasm for sororities and feel as I do that they are a distinct asset to our campus life."

This week the girls are looking for a new advisor to replace Dean White, who has agreed to remain in office until a replacement can be found.

They have also started working on a new constitution. It appears they are trying to get their affairs in order as rapidly as possible.

We wish them luck and sincerely hope that this first crisis doesn't prove to be their downfall. Any group as young as this needs guidance to fill in for their lack of experi-

We challenge them to work . . . and work hard, to cooperate, and to keep in mind their objectives as they go about the tasks ahead ... to not mistake their means for their ends ... and to remember that every question has two sides.

And as a parting remark we remind them that the truth is never as bad as the imagination of an uninformed public.

Dr. Selzer has stated.

UPS-College life is not the worryfree, good time it is believed to be by most people, claims Dr. Melvin L. Selzer, University of Michigan psychiatrist.

In an article in the American Medical Association, Archives of Psychiatry, Dr. Selzer said that few people are aware of mentally disturbing problems from which many college students suffer. Responsible for the public's lack of knowledge on this subject is the myth that everyone in college is having a wonderful time and that campus life is a series of parties and games attended by a carefree and irresponsible student body, states Dr. Selzer.

He commented that because of this myth many of the students problems are attributed to "social," "academic" and "family" factors instead of to symptoms of emotional illness.

Holmes Issues Book On Language Arts

like we say MOO . . .

Dr. Keith D. Holmes of the education department has just issued a second publication in his "How To" series of works on the language arts.

"Teacher Edition: Student Guide to Language Skills" is a follow-up of Dr. Holmes' "Student Guide to Language Skills,' designed to aid students and now in use in 36 states in this coun-

try and in Cuba and Puerto Rico. Dr. Holmes is also author of "70 Steps to Vocabulary Power" and other works on education. He is now preparing for publication in late 1960 his Beginners Visual-Phonic Original Reading Program." Dr. Holmes' works are published by Education Service Publications of Greenville.

Dr. Holmes' recently published work combines material in his "Student Guide" with a wealth of practice exercises to facilitate the work of teachers and parents in efforts to aid students from the fourth grade through college level in improving their language skills.

Dr. Holmes has been a faculty member here since 1951. As director of the Reading Laboratory and Clinic, he has arranged a series of annual conferences on reading which each summer have had an attendence of several hundred teachers in this state.

He is a graduate of Oswego, N.Y., Teachers College, holds the master's degree from Columbia University and the Ph.D. from Cornell University.

Variety Marks New

Fashions For Ladies

editor if you don't like something-

well, most anything.

Don't forget to see the Miss Green-

skinny, chubby; blonde, brunette or redhead-the fashions this spring of 1960 include colors and styles which will interest every woman. The big word is VARIETY. Just like a beautiful spring bouquet are the clothes this year - a combination of many colors and many shapes.

When one looks at the colors anything goes; from the contrasting black and white to the new smoky tones such as "no color" green, better known as clay. The traditional pastels occupy a spot in the bouquet. Prints, as well as solid colors, hold a welcome place in the spring parade.

Turning to fabrics, one sees that the lightweight materials are finding their way into the women's world of spring. Silk and dacron are especially popular this year.

If one cannot find variety in color or fabrics, then she will surely find it in the styles. There are sheaths and full skirts with gathers or pleats; there are puffed sleeves and straight sleeves. The "tres jolie" jumper is back this year with - take your choice!-a full skirt or a fitted one.

Non-chemise fans will be glad to know that the waistline is back. It is definitely at its natural level again, belted or defined by a midriff styling. Wide, horizontal necklines are here again. There is also the wide collar. On special addition to the fashions is the short jacket over the dress.

If variety really is the spice of life, then every woman can add to the zest by dressing individually, and, at the same time she can be in

Anyone For Skiing?

By DERRY WALKER

After "On the Beach," and "Alas V lon," we wonder if there is any hope. No. ter how many improvements are made in machines, man remains the same. The basic human drives that we see around every day are the same elements contains in the big men who control our countries and our ballistic missiles. They are no differes from us; they can make mistakes too.

Another Azalea Festival, another dollar The tales told are wide and varied. One of & best I heard went like this: a gigantic baske. ball player from one of the big four enters the cottage on the beach, rented by an E fraternity. Having grown weary of free loaders and party-crashers, one belligerent brother had stationed himself at the doe and was giving the "bum's rush" to strang. ers. When the ballplayer walked through the door, he looked around the room and headed for a door that led to a room occupied by three or four sleeping girls who were guests of some of the brothers. "Wait a minute now," the self-appointed bouncer-brother said. "I'm going in there," the ballplayer in a pompous tone, and he identified himself The brother, not in the least impressed, softly growled, "Well you go bounce your basketbal some place else," He did.

The campus was peaceful desolation over the Festival week-end. The loudest noises were made by pieces of paper that tumbled along gently in the breeze. Dismayed marines unaware of the Wilmington event, thought they had landed on the wrong beachhead Greenville again realized that the College spends a lot of money.

It won't be long before the enthusiasts will be breaking out the boats and skis. The water is warming up and the land along the Pamlico is beginning to yawn and stretch its muscles in the warm sunlight. Heavy traffic will move from the highway to the

Board Hires \$9000 Man

Change People? Ha!

By ROY MARTIN

Monday morning following the Azalea Festival weekend was quite an amusing time around campus. A visitor that didn't know any better would swear with his first look that this was, primarily a zombie colony.

There were people walking gingerly everywhere you turned, trying not to make any noise with their feet. In other instances, there were a visible lot of bloodshot eyes and sunburned backs . . . another Azalea Festival had taken its toll.

With the Azalea Festival behind the campus populace, we all look forward now to the coming spring. (supposedly here).

The Japanese Cherry Trees beside Rawl building have already begun to bloom, also the newly-set-out array of flowers around the Wright Circle pond. Everywhere you turn there are convertibles with tops down cruising with people hanging out all over the

It is a wonder with all this rain that those people don't get wet.

We saw in the paper the other day where the Board of Conservation and Development had hired a man to serve as head man of North Carolina's industry hunting program.

It's nice to know that the program is in need of such an officer, and at a salary of \$9000 per year. Now all this hunter will have to do is ride around in the one of the six Dodge automobiles that the C & D bought at a cost of approximately \$2700 each and smile at industrialists, while the educational system grins and bears it.

Have you ever stopped to think what a world this would be if people tried to understand and put up with one another.

For example, there would be no threat of nuclear war from Russia and Red China. There would be no hard feelings held by any country for another and everything would go smooth as silk.

People are the primary source of unrest. They are ambitious, and don't care who they step on to get what they want. Would not it be great if those who are saying that they are persecuted would shut up and try to work out their problems sensibly to the best advantage of all concerned?

People don't seem to recognize the fact that everybody has a mind of their own, and are motivated by the thoughts completely different from the fellow next door.

There are many more examples that can be cited. To change these things for the better would be quite a trick, wouldn't it? You can dream though.

Bucs Battle Delaware Diamondmen Today

By LEONARD LAO

Coach Jim Mallory takes his Pirate baseball team into action this afternoon against Delaware University in another non-conference battle at College Stadium. The northerners are here for a doubleheader with EC.

The East Carolina baseballers are out to extend their winning record to three. At present the Bucs have a 3-1 won-lost slate, with their defeat coming at the hands of the Bulldogs of Yale University by a 12-6 score. The Pirates opened their season with a Another sophomore, Johnny Ellen, absorbed the loss to Yale.

knocked off Washington and Lee game going up until the sixth inning when the Generals' Park Gilof the infield, a pop-up to right fielder Jerry Carpenter.

But Crayton's pitching was not the only bright part of the game. The Pirates banged out eleven hits and pushed seven big runs across the plate while Crayton was dishing up goose eggs against the Generals. All Conference leftfielder, Gary Pierce continued swinging his big bat for the Pirates, gathering three hits in three official trips to the plate. Pierce blasted a towering two-run homer in the first stanza that brought the sparse crowd to its feet. All-Conference shortstop, Glenn Bass and centerfield Wally Cockrell banged out doubles for the Pirates.

PIRATE'S DEN

By LEONARD LAO

These who thought that small college athletics couldn't compete tournament, held March 29 in the with larger institutions should have quite a different view on the matter

When the N.A.I.A. All-Star team defeated Ohio State's N.C.A.A. Champions it was regarded as one of the major basketball upsets of the year. Actually, it wasn't as big an upset as everyone thinks.

If a faithful basketball fan was asked to name three 1959-60 teams ackhand drives, Kilpatrick came out which he though could compete in any tournament, the answer would probn top in scores of 21-6, 21-9, 21-8. ably run something like this: Cincinnati, West Virginia, and Ohio State. Upatrick had defeated Ted Lassiter Would teams such as Southwest Texas or Tennessee A. and I. be named? the semi-finals 21-11, 21-15, 21-10 NO. And why wouldn't they be named? "Because they are only small college teams," or 'They aren't even in the N.C.A.A., or "They couldn't Gilden used his spin defense and compete with the larger schools."

Well, not only did they compete with the boys from the larger chools, but they went on to defeat the team that was the number one representative of the bigger colleges by virtue of copping the N.C.A.A. crown. Even the professionals are aware of the fact that many of the nas he made his way to the semi- tion's top-notch ball players are on small college teams. It is not a rare finals, as he had stopped favored occasion when a small college player is high on their draft lists. Crayton Hurls One Hitter

Larry Crayton, better known as "Pumpsie" by his teammates, gained seeded Charles Holliday in the quarter his second win against no losses last Friday by shutting out Washington Eight points (8) for nals, 11-21, 21-17, 26-24. In this and Lee's Generals to the tune of 7-0. The visitors were able to get only natch Martin's left-handed forehand one hit off the stocky southpaw, a single in the sixth frame. It was in Under the direction of new coach, good year. We finished third in the drives finally broke up Holliday's that same inning that Crayton encountered his only serious trouble for the backhand and forehand attack and day. After Park Gilmore banged out the Generals only hit, an EC error and second basemen. Only one other golf team was scheduled to get its anyone." If the early victory over had taken the first game easily. Crayton settled to the task of cutting down the top of the Generals batting season under way on Tuesday when the Greenville team is any indication Gilden, whose best play before this order on a strikeout, a pop-up to second base, and another strikeout to rethey were to play host to defending of what the Pirates will look like this tournament had been to reach the tire the side. From there on in the fireballing Crayton was in complete season, then they certainly seem to quarter-finals of the Fall Quarter control of the weary Washington and Lee boys.

The Pirates slammed out eleven hits off losing pitcher Roy Car-Pirate football staff, made his first Along with Conley and Goodwin, from novice champion Nelson Tugwell penter. Leading the Bucs at the plate again was All-Conference leftfielder stab at coaching the spring sport a the only other squad member that is in the quarter-finals 21-10, 15-21, Gary Pierce. The burly outfielder had a perfect day with the bat, banging hearty success when his linkers de- returning is Mike Romanin, who saw 21-19.
