ATTENTION ALL FRESHMEN

All freshmen must complete the freshman testing program. This includes freshmen who started to school in the summer as well as those who started in the fall. If you did not take these tests during the Pre-College Counseling Sessions in the summer, please report to Flanagan 206 on Saturday, October 22, at 8:30 am. A \$5.00 fee must be paid at the time of testing.

NOTICE

There will be a meeting of the Student Party tonight at 7:00 p.m. in Rawl, Room 130. All students are invited to attend.

New York Brass Quintet performs Wednesday night in Wright Auditorium.

Dr. Richard E. Maxson gives insight to China's threat to the Himalayas.

Change Is Good . . .

Change is good for us if we go with the optimistic attitude that when a change occurs there is also a new chance for improvement and a challenge for making the future facbrighter than the past

As our Student Government Legislature has changed and is now filled with many new legislators, it will be the responsibility of the student body to accept and support this change. After all, the new legislature is representative of all the students who voted in fall elections.

Often we put into office people we like and naturally those whom we believe will serve our interests best. However we tend to forget that the legislators we elect cannot serve student interests unless we make an individual effort to keep our representatives informed as to what we expect of them. We cannot lose sight of the fact that no government is a success without the interest of those it serves. The past was good but we must keep in mind that along with the improvements made in the past can come even greater opportunities in the future.

Last year's Student Legislature proved to be a very capable one acquiring new responsibilities with its evident ability for seeing student needs (such as faculty evaluation and women's hours) and doing something to improve those needs. We can easily put aside any apprehensions that this year's legislature might not be as strong as last year's. It has an example to follow and therefore should be even more active than any student legislature in the past.

Already from the results of the new legislature's first meeting there is reason for believing that our student representatives are well aware that the legislature is set up for the purpose of serving the student body.

It would be easy for any governing body representative of two political parties to be so prejudiced as to see only what they could do for their party rather than what they could do for the students who elected them. However, this does not appear to be the trend as indicated in last week's meeting.

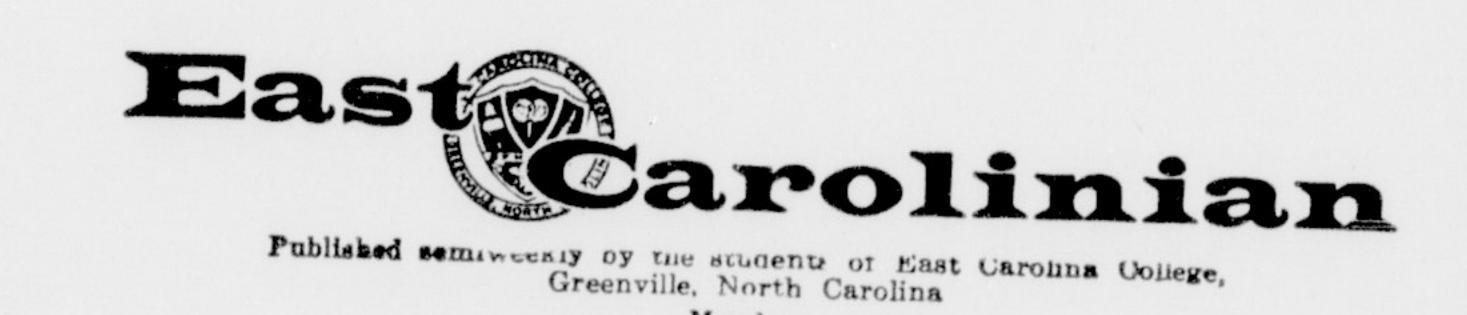

Steve Burns, newly elected Speaker of the Legislature and an SP man, is already disqualifying any chance for the legislature to turn into a one party political race. Burn's first appointment went to a very capable UP man and former Speaker of the Legislature, Bill Deal. It would have been easy for him to appoint an SP man to serve as parliamentarian, but he chose to select a person that he knew was well qualified and interested rather than the SP or UP legislator.

By his recent decisions, Burns is indicating that his interests are for the good of the student body and not his party. He is demonstrating quite clearly that he has every potential for being an excellent speaker by indicating through committee appointments that he has the interest of the student body in correct prospective. It looks as though we can count on Burns to bring to the floor of the legislature the same quality of leadership his predecessor did.

Another optimistic point to consider in the way this year's legislature is shaping up is the fact that there is far less opportunity for legislator apathy. With the Student Party and the University Party being very much in evidence, there is reason to believe that both parties will keep the other in cheek. With party competition involved in legislative ambition to make this a year in which the students reap the benefits of the legislature's hard work, there is no reason why this year should not go down in history as EC's top SGA year.

With the maturity and stability that our new legislature is showing in its first week of action, we can assume that the legislature is working to provide students with the kind of legislature that will be representative of their needs.

The legislature seems to have made its first move toward a year of progress. Why don't we lend a hand by sending our suggestions and problems to the Student Government Association. There is reason to believe that the legislature will welcome problems and do something with our suggestions.

Guest Editorial

Quality Versus Quantity

By Jerry Howell

Editor's Note: The following article is undoubtedly one of the best letters that we have received. Due to the directness and clarity of this letter, we submit it as a guest editorial. One of the letters in this issue exemplifies Mr. Howell's point.

in its disregard for property, an act made a fully committed bid for unifor the safety of numerous persons us to be nine thousand strong in present in the building, an act of order to put forward our request a general sense it was a further or would be perhaps be eight thoustatement of the fact that in the sand stronger or even seven thousdrive for quantitative growth East and stronger than eight? Is nine Carolina has opened its enrollment thousand our ace or our Achilles to, along with the great majority of heel both from the standpoint of deserving students, an unfortunate practical politics and, of much greatnumber of Philistines and mental er final import, academic standard? do-nothings. Their presence is felt in the burning of a collage, the smashing of sculpture, the defacement of library books, the progressive destruction of the daddy-given car heard through the night on Fourteenth Street, but most unhappily and with greatest damage to the academic community, in the kind of malaise that spreads so con- its halls a sufficiently large number tagiously across a classroom when of students to create a sufficiently these persons are arbitrarily thrown large demand for knowledge to

together in numbers by IBM. They are real and they are here. Their presence is not a question nor is their lack of desirability, but their presence and their undesirability raise a very real question for the immediate: Are they necessary as The recent burning of two works enrollment padding for a school that in the faculty exhibit in Rawl was, has with considerable justification of stupidity and, in its disregard versity status? Is it necessary for

The question follows, is a university or a prospective university necessarily so large in number of students or necessarily large in intellectual talent and standard, or both? Certainly there is little doubt that a university, especially a state-supported university with no sign ficant private endowment, must hold within

maintain the favorable attention of the state political machinery and the state taxpayer, and to perpetuate the program of learning and investigation in diverse fields which is the university. But given this sufficient number, enter intellectual standards and the fact that the contributions and the demands of the strong student are heard most clearly and with greatest effect when they are neither diluted nor outright negated by the obnoxious cacophony of the campus Philistine nor by that yawning apathy common to persons who, by virtue of a more docile nature, do not qualify as Philistine but neither qualify as student. Again, then, is our large enrollment and its continuing rapid growth still working for us in our endeavors to bring to East Carolina both the title of and the reality of university, or do we now stand on the brink of allowing ourselves to be pushed into the realm of Topsy by our reluctance to severely curb numerical growth or even cut enrollment through rapid elevation of academic standards and entrance requirements?

Must we live with the Philistine and the apathetic? I think not.

Letters The Editor

MRC And SGA

Dear Editor:

In lieu of the murmuring in the ranks of the students on the "Hill" about their leadership's policies in relation to the S.G.A. which in their opinion does not represent a true cross section of the overall student opinion "up here" I have been provoked to write the following discus-

In reference to Bill Moore's speech to the M.R.C. on September 21, 1966, which was published in the September 29, 1966 issue of the EAST CAROLINIAN, let me make a few clarifications. First of all, the Student Government Association's budget has to be approved by the Student Legislature every year and this body is composed of elected representatives of the student body, including eight representatives from College Hill Drive and if this budget was not proper it would certainly be voted down by the Student Legislature. Secondly, all additional appropriations or changes in salaries must be subjected to the same legislative review, and if these were improper they would be voted down or cut down til they were satisfactory. And let me remind Mr. Moore that the S.G.A. salaries represent 1.2 per cent of the total S.G.A. budget in comparison with the original proposal of 25 per cent of the M. R. C.'s budget for salaries. Bill Moore's continued, bellicose attacks on the S.G.A. show the low level of his mentality and indicates the bitterness towards S.G.A. which he has built up since last year. His policy of refusing to co-operate in any way, even to the extent of refusing a liason between the M.R.C. and S.G.A., indicates his obstinate attitude. It would seem that Mr. Moore should now stop pointing his finger and preaching his blasphemy about S.G.A.'s supposedly inherent iniquities and wrongdoings. To put it quite succinctly, Moore's continuing with his policy of harrassment is not doing S.G.A. or the M.R.C. any good.

'~ long as he pursues policies of subtle defiance of intelligent administration suggestions he will continue to cultivate a bad name for the new M.R.C. Moore's continued fastidious assertions are only impressing an undistinguished minority as the "Hill" and the intelligent but propagandized majority "up here" is beginning to see through Moore's muddled and entirely unfounded barrages on the Student Government. Continuous attacks on the Student Government without any indication of possible co-operation with said organization is an obvious indication of neglence on the part of Moore's representing the "Hill" students interests in the legislature and exposes an irresponsible executive.

dissent but Moore's opposition, in

and politics. It s my suggestion that Moore as an elected representative of Belk Dorm representativeelect I should say since he hasn't bothered to drop by the Legislature meeting to be installed) and the leader of the students on the "Hill" should refer to Article I, section 4 line F of the S.G.A. Constitution, found on page 73 of the 1966-1967 Key and then reconsider his part as a co-ordinator of policy both in the M.R.C. and the Student Legislature. And maybe, Mr. Moore, with Article I, section 4, line F in mind and considering that the Student Legislature has almost completed its interregnum and might decide to do something about the nuisance that keeps kicking them in the shins, may think about a change in attitude and subsequently a change in policy.

Sincerely,

Bill Diuguid

In Defense Of Moore

Dead Editor:

The trend in the East Carolinian of '69. these days seems to be one of criticism. However, one person seems to be the chief repicient of the majority of this criticism, MRC President, Bill Moore. I read the letter you printed composed by Mr. Beaver in your Oct. 4th issue and it is to him that I now address my let-"Hill" and I might add, a well satisfied one!

I don't know where you were last last year when the MRC sent 20 men to the Tangerine Bowl, all expenses paid, or where you were when the MRC had The Embers, The Sultans, The Majors, and The Toys for their dances. Perhaps you went "home"!! Also, Mr. Beaver, did you happen to catch the MRC Track Meet, UMOC Contest, Am & Fm music in Jones cafeteria and the MRC Intramurals to mention a few benefits of which I am flamiliar. Perhaps you can only criticize! Obviously you have also had no use for other MRC benefits such as the MRC Emergency Loan Fund (some of us need and appreciate it).

Consider also, Mr. Beaver, the MRC publication and Activity card given you when school started. Did you bother to notice who edited the publication? You should! Do you even carry your MRC Activity Card? You also evidently don't like the MRC giving an athlete of the week trophy, or the Norman Swindell Memorial Room, or more and better telephones on the halls, or the 20 free tickets to the Ben Hogan, Sam Snead golf match. And the chartered buses to football games, wrong too I guess?

Beaver, you mention a smear campaign conducted by Moore. As I have no objection to reasonable recall it was tre other way around. By the way, you get a few smears my opinion, originates from per- in yourself by referring to Moore sonal bitterness over personalities as an egotist, Spanish overlord, and

belittling his work on the police force. Here is a fact that I know to be true. Last week a man (or two men) of Belk Hall were at the fair and lost over \$100.00 in a gambling game. Someone came back to the dorm and informed Bill Moore about this incident and he left the dormitory went to the fair and managed to get Sheriff Tyson of Pitt County to force the owner of the game to give the boys their money back, also, the game was closed.

Moore has faults I am sure, but he does try to help the men up here and bring about improvements. What do you do Mr. Beaver except gripe? Have you ever run for an MRC office, did you support the MRC Homecoming Queen candidate? No, Mr. Beaver you only gripe and complain!

You we don't need in the Class

Sincerely,

William Lee Rhodes Jr. Class of '69.

Birth Film!

Dear Editor:

"Am I my brother's keeper?" was the question asked to God by Cane (sic). I write this letter to try to ask you that question today.

Should we sit and watch a movie which might be abusing an individual's freedom, just because some doctors sweet talked a person into exploiting her life. I am writing about a very talked about film where a live birth is shown. The mother is not at any time concealed. Milton in his famous writing (sic) wrote that the people should not have any censors, but would he allow for (sic) men who are supposed to be compassionate toward those in need, to use their bodies for the love of science. At the expense (sic) of their dignity. (sic)

So I submit this challenge to you. Will we because we are learned use other people and exploit them; or will we try to be compassionate? With the world growing as cold and impersonal as it is we must learn to love people and try very hard to see the fine line of science and just plain taking away his God given freedom of living a personal and prvate life. "Are you your brothers (sic) keeper?"

Sincerely,

Sandra Hegy

ONCE MORE UNTO THE BREACH

Way back in 1953 I started writing this column about campus life. Today, a full 13 years later, I am still writing this column, for my interest in undergraduates is as keen and lively as ever. This is called "arrested development."

But where else can a writer find a subject as fascinating as the American campus? Where else are minds so nettled, bodies so roiled, psyches so unglued?

Right now, for example, though the new school year has just begun, you've already encountered the following disasters:

1. You hate your teachers.

2. You hate your courses.

3. You hate your room-mates. 4. You have no time to study.

5. You have no place to study.

Friends, let us, without despair, examine your problems

one by one.

1. You hate your teachers. For shame, friends! Try looking at things their way. Take your English teacher, for instance. Here's a man who is one of the world's authorities on Robert Browning, yet he wears \$30 tweeds and a pre-war necktie while his brother Sam, a high school dropout, earns 70 thou a year in aluminum siding. Is it so hard to understand why he writes "F" on top of your themes and "Eeeyich!" in the margin? Instead of hating him, should you not admire his dedication to scholarship, his disdain for the blandishments of commerce? Of course you should. You may flunk, but Pippa passes.

2. You hate your courses. You say, for example, that you don't see the use of studying Macbeth when you are majoring in veterinary medicine. You're wrong, friends. Believe me, some day when you are running a busy kennel, you'll be mighty glad you learned "Out, damned Spot!"

3. You hate your room-mates. This is, unquestionably, a big problem-in fact, the second biggest problem on American campuses. (The first biggest, of course, is on which side of your mortar board do you dangle the tassel at Commencement?) But there is an answer to the roommate problem: keep changing room-mates. The optimum interval, I have found, is every four hours.

4. You have no time to study. Friends, I'm glad to report there is a simple way to find extra time in your busy schedule. All you have to do is buy some Personna Super Stainless Steel Blades. Then you won't be wasting precious hours hacking away with inferior blades, mangling your face again and again in a tedious, feckless effort to winnow your whiskers. Personna shaves you quickly and slickly, easily and breezily, hacklessly, scrapelessly, tuglessly, nicklessly, scratchlessly, matchlessly. Furthermore, Personna Blades last and last. Moreover, they are available both in double-edge and Injector style. And, as if this weren't enough, Personna is now offering you a chance to grab a fistful of \$100 bills. The Personna Super Stainless Steel Sweepstakes is off and running! You can win \$10,000 and even more. Get over to your Personna dealer for details and an entry blank. Don't just stand there!

5. You have no place to study. This is a thorny one, I'll admit, what with the library so jammed and the dorms so noisy. But with a little ingenuity, you can still find a quiet, deserted spot-like the ticket office of the lacrosse team. Or a testimonial dinner for the dean. Or the nearest re-

cruiting station.

You see, friends? When you've got a problem, don't lie down and quit. Attack! Remember: America did not become the world's greatest producer of milk solids and sorghum by running away from a fight!

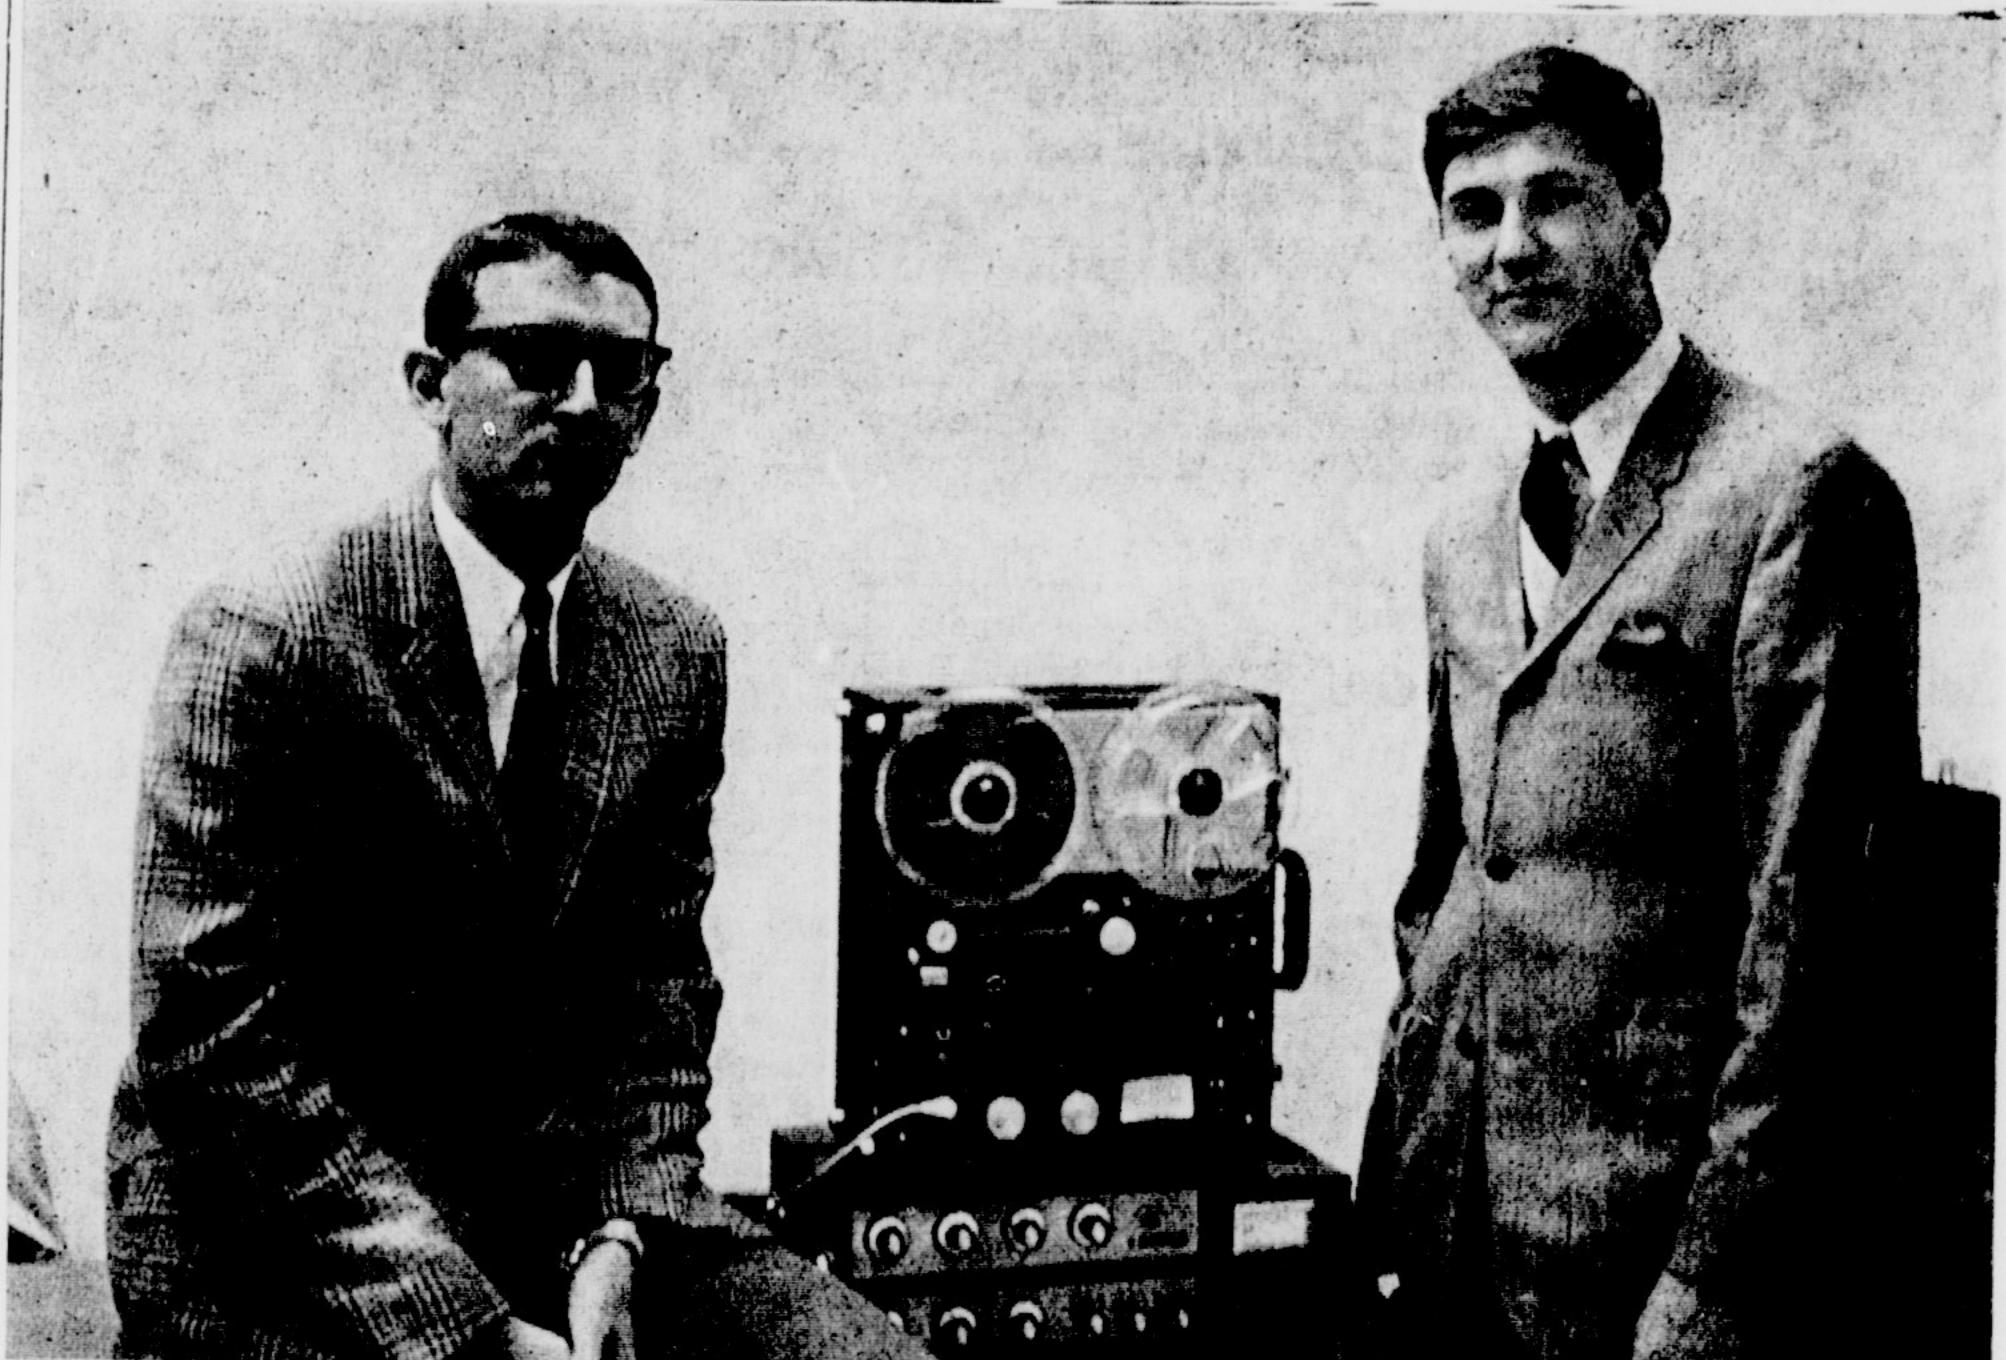

© 1966, Max Shulman

The makers of Personna Super Stainless Steel Blades (double-edge or Injector style) and Burma-Shave (regutar or menthol) are pleased (or apprehensive) to bring you another year of Max Shulman's uninhibited, uncensored column.

Clem's Clipboard GW Defense Stifles Pirates By Clem Williams

East Carolina's fighting Pirates, first year of eligibility. were halted by a mighty George Washington University defensive line. The Pirate backs had a great deal of difficulty, but did penetrate into George Washington territory three times.

Coach Stas was right when he said their record doesn't show what kind of team they have. The Colonials (6'3", 220 lbs.), Norman Neverson were bidding for a shutout victory over the Pirates but that was spoiled by a pass from tailback Dennis Young to end Jimmy Atkins. The pass covered sixty-one yards in the final minutes of the fourth quarter.

Title Chances

The loss to the Colonials will not necessarily knock the Pirates out of contention for the Southern Confer- the East Carolina 36 yard line. ence title. The Pirates will be giving it everything they have after this loss. It would really be quite! an honor to capture the title in our
