Not only is Merry not a part of our vocabulary, but there is a sort of fullness about just "Christmas" if we recognize what it means.

Our friends tell us to find true meanings of Christmas or gifts or anything, but telling is no good. Only showing means anything and the realization when it comes will be our own and not what someone said we should feel.

This year we want to wish you CHRISTMAS the way Frank Irving Fletcher did years ago in an ad for Oppenheim, Collins and Co. We think Fletcher found the true meaning of CHRISTMAS . . . perhaps you will feel as we do:

The Value of a Smile at Christmas

It costs nothing, but creates much.

It enriches those who receive, without impoverishing those who give

It happens in a flash and the memory of it sometimes lasts forever.

None are so rich they can get along without it, and none so poor but are richer for its benefit.

It is rest to the weary, daylight to the discouraged, sunshine to the sad, and Nature's best antidote for trouble.

Yet it cannot be bought, begged, borrowed, or stolen, for it is something that is no earthly good to anybody till it is given away.

And if in the last-minute rush of Christmas buying some of our sales people should be too tired to give you a smile,

may we ask you to leave one of yours?

For nobody needs a smile so much as those who have none left to give!

Bullock Defends Reputations; Deal Confirms Original Reprimand

Cheerleader Stand

Dear Editor:

Your article concerning the reprimand of the cheerleaders by the Student Government Association in your December 12, 1966, issue does not do justice to the entire "cheerleaders were criticized for a lack of cooperation, a failure to perform duties, and drinking at athletic events."

The constitution of the East Carapproved by the SGA, states that the duties of the cheerleaders are Carolina College."

This year's cheerleaders had pep rallies. Note - A pep rally was planned for the Homecoming game, but the "MEN" on the Hill deemed it necessary to burn it down beforehand. The cheerleaders also sponsored poster campaigns and tried to get publicity in the East Carolinian, but in the latter, they did not receive ideal cooperation. In trying to get musical accompaniment for the pep rallies, the cheerleaders were told by the individual that that they were required to seek out in the music department that he would ask around and see if anyone wanted to play. Thus, no pep band showed up for the pep rallies.

The cheerleaders showed up and cheered at every home game and at several away games. They gave up their "homing" weekends to back up the football team. They also practiced and-or had a spirit committee meeting at least once a week to prepare for the games. However, the cheerleaders do not receive credit (school) for any of these activities.

As far as the statement about a lack of cooperation is concerned, the majority of the cheerleaders cooperated with all concerned. The whole squad should not be blamed ranks. for a lack of cooperation in a few individuals. Besides, the squad has

had three advisors since they were chosen in the spring. They keep quitting and it is not the fault of the cheerleaders.

"Drinking at athletic events" is a very serious offense. Many of the students at ECC get away with this, but the cheerleaders get blamed for it when they have not partici- have weekly practices, at which cheering squad. It stated that the pated in such activity. I am not saying that none of the cheerleaders have drunk at the games, but then again, I am asserting that the majority have not done so.

Therefore, I wish to make it olina cheerleaders, which was once clear to the student body that the cheerleaders are working and trying to do their job. We are sup-"to instill school spirit" and "to posed to lead the student body in represent the student body of East school spirit, not create it singlehanded. We ask for YOUR support.

SGA Stand

Dear Editor,

This letter is designed to express only my personal views concerning the recent investigation of the Cheerleaders.

The headlines of the East Carolinian read, "Cheerleaders Reprimanded." This was a correct term in that the cheerleaders have neglected their duties in some instances, have been drinking at an athletic contest, and are not fulfilling their job as it should be. What other word would be better than "reprimand?"

This entire study came about upon a recommendation from the President's cabinet and the past advisors. Who better should ask for an inquiry?

I think it is time for certain cheerleaders to realize that they can no longer blame all their failures on school spirit and the S.G.-A. It is time that they face up to the facts that it is the cheerleaders themselves that need to see what is wrong within their own

After going through this first part of the year I can see that the

varsity cheerleaders should take some pointers from the freshmen cheerleaders (Personally I thought it was suposed to be the other way around!) The freshmen have it a great deal harder in cheering to much smaller crowds, but still they time they set up a very workable organization.

Had it not been for some of the members of this squad and the several dedicated varsity cheerleaders, much of the signs, posters, etc. would not have been done.

I would suggest to Miss Bullock, who seems to be a self-appointed spokesman, that she should change her field from "public relations." She has seemed to cause more disturbance within the ranks and on the total scene than is necessary. Perhaps the charges that have been made against the cheerleaders are being blown out of shape by the cheerleaders themselves.

Let me say in closing that we still have a big basketball season ahead of us. The cheerleaders should start working now to insure that this will be the best season ever, especially for the cheerleaders. Further, that the cheerleaders reevaluate themselves and see if some of the major problems cannot be corrected within their organization. It is my feeling that if the squad does this we will see much improvement. The question may come to mind,

Who and what does he (Bill Deal) know about it?" First, I have been a judge for two years for the cheerleaders, and I know what is expected of them. Second, I have worked with them, seen them on the job and at practice, and know their behavior here. Lastly, I am a student who wants us to have the best of everything at E.C.C. and I believe that if the students, administration, and cheerleaders work toward this goal it can be accomplished.

> Sincerely yours, Bill Deal

Dr. Evans, under sponsorship of the Mathematical Association of America and the National Science Foundation, lectured at 4 p.m. in Room 132 of New Austin Building and at 7:30 p.m. in Old Austin Auditorium.

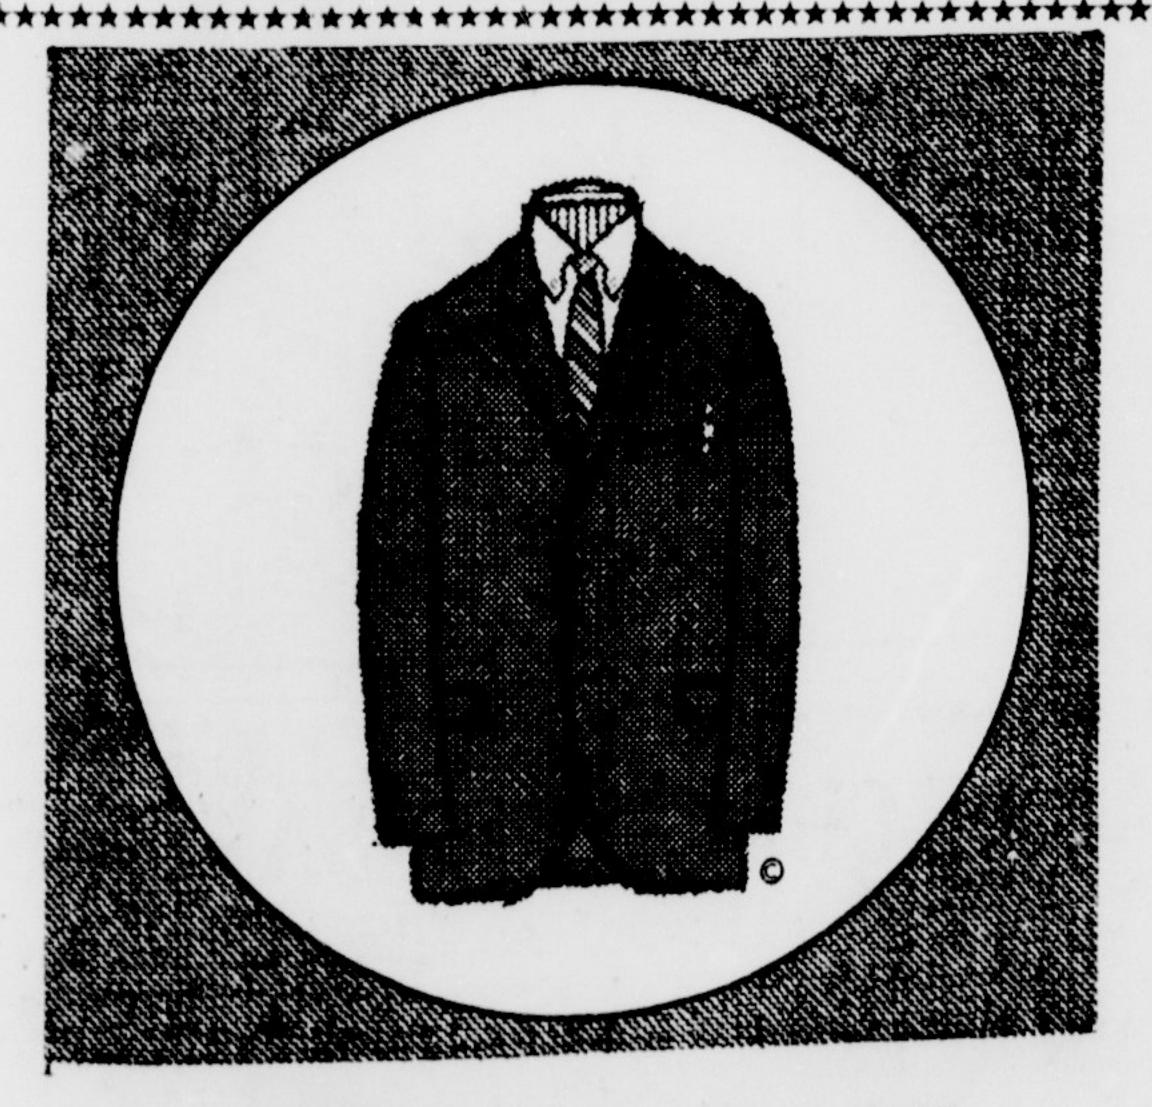

Both lectures were free and open to all interested persons, according to ECC math chairman Dr. Tullio J. Pignani.

Dr. Pignani said the Evans lectures were scheduled here as part of a national program which aims to serve a three-fold purpose:

To strengthen and stimulate college math programs, to give math students and teachers an opportunity for personal contact with productive and creative mathematicians and to help motivate able college students to consider math careers.

Dr. Evans, an Uxiura graduate, has been on the Emory faculty since 1951. He has also taught at the universities of Chicago, Nebraska and Wisconsin and at Manchester University. He has a DSc degree from Oxford.

After his lectures he was honored at an open house for invited guests at the home of Dr. and Mrs.
