March-a-thon Exceeds Goal For 16th Year

By DANNY WILLIAMS

For the 16th consecutive year. the March-a-thon of the Air Force ROTC detachment at ECU has met its goal. The goal this year of \$2600 was surpassed by more than \$900, making the total collections in excess of \$3500.

The Drill Team began their march at 9:00 on the morning of Saturday, January 25, and continued until 4:30 that afternoon. This was record time for the March-athon, as it was almost 8:00 p.m. last year before the cadet's goal of \$2500 was reached. The Drill Team, as well as the Reserve Drill Team, performed throughout the Greenville-Farmville area, demonstrating to the generous residents that they cared and were "March-

ing so that others may Walk." The cadets and Angels, stationat the various collection stathroughout the area were busy stopping the passing motorists the pedestrians, asking for contributions to the March of imes. A running tally was kept of collection at the Wachovia Bank in downtown Greenville as were brought in from the colstations every few hours. financial center made the ong-awaited announcement just 10r to 4:30 p.m.

Dean of Women Ruth White announced that there were still many details to be worked out on the proposed all night hours for wo-

being a matter of school and not just a change of the matter will have to be iscussed first with Dean Robert t and President Leo Jenkins any final decisions are Dean White said.

Nothing Definite

They will have to decide if the umber of women students voting all night dorms warrants havthem. Also they will have to k out the expenses involved.

Dean White said a decision would be made before students up for dormitory rooms Spring ber. However she did not know the final decision would be

wished to support the nationally famous March-a-thon and help the crippled children.

As was evidenced by the amount of the collections, many people

UP January Meeting Discusses Procedure For Convention

By SANDY HOLLAND

The University Party held their January meeting last Wednesday the Library Auditorium. Len Mancini delivered the main topic of discussion which was the procedure for the upcoming UP Convention. The Convention is planned for February 18 in Wright Auditorium.

Three Wards

Mancini, chairman of the UP Convention, explained that the East Carolina students will be divided up into three wards headed by a ward chairman. The wards are as follows: the womens' dorms with 61 delegates, the men's dorms with 33 delegates, and the day students will be represented by 81 delegates.

Each ward is further divided into precincts to promote complete coverage throughout the campus. For example the day students ward will be divided into the following four precincts: Greenville students, commuting students, sororities, and fraternities.

There will be a total of 175 delegates at the Convention. Delegates of each precinct will sit together to facilitate voting.

Agenda

Mancini further outlined the Convention to party members. First on the agenda is the Invocation to be followed by the Key Note address to be delivered by Dr. Jenkins. Following this speech the Party platform will be read and voted on by the delegates.

Nominations

The meeting will climax with nominations for SGA officers. The order of nominations will be left up to the Chair. All nominations

will come from the floor. The UP is trying to make this convention the biggest and most

PARTY TIME-Members of the University Party met recently to discuss plans for the party convention. (Steve Neal-photographer) Dr. Jenkins will be keynote speaker.

The SGA Legislature

One body, the Legislature of the Student Government Association, does much of the administration of the funds of the East Carolina student body. The Speaker of that body, in an attempt to provide the student with a clearer conception of the workings of the Legislature, has addressed a letter to today's Forum.

The Speaker details some of the work done by the Legislature, explaining the various powers held by the organization. What he fails to include, however, is a study of the significance of that work to the individual student.

In an attempt to provide insight into the meaningful contribution made by that body, let us consider for a moment the situation that would exist if this university did not have such a legislature.

First of all, there would be no effective student democracy at East Carolina University. All student organizations would have to submit their constitutions for approval of administration officials. All entertainment, since the committee responsible for entertainment must obtain its finances from the Legislature, would be chosen by the fiat of the administration. All student funds, paid in the form of activity fees, would be allocated by the administration. All rules governing the students of this campus would be made by the administration and faculty, with no unified organization responsible for the formulation of changes in the student interest. All publications would be under direct control by the administration. All students representing East Carolina University at regional and national conferences and conventions would be selected by the administration.

The picture painted above would be bleak for most stu- proper to promote the general weldents. Though the administration would probably be very fare of the student body. liberal in its dealings with students in the above-mentioned areas, the absence of a student body such as the existing Legislature would deny them any unified advisory group. As a result, it would be very difficult for them to formulate student policy in keeping with the desires of the individual student. Because of this, the administration has realized the need for a strong, working student legislature, giving the existing body some of its strongest support.

A great many students, however, fail to match the support of the Legislature that is extended by the administration, not realizing the immense significance of the decisions of the body. Too few students take the time to understand the processes of student government. A shocking number are unable to even name their representative, much less to cite his stand on current issues.

Such a situation virtually ties the hands of even the most dedicated legislator. The individual legislator is expected to serve as a "watch-dog" for the students that compose his constituency, acting in their stead to protect and promote their interests.

What it boils down to, however, is a situation in which each legislator must act as he himself feels is best . . . not from choice, but because the very students he works so hard to represent fail to make their wishes known.

As a result, the position of legislator is presently a thankless task. Instead of a well-earned compliment for his efforts, the legislator is constantly faced with complaint after complaint.

The decision of the Legislature to place suggestion boxes in each dorm indicates the willingness of its members to serve as a spokesmen for the student body. It also, however, indicates something about the students these hardworking servants of the college community are serving. Somewhere there is a breakdown of communications between constitutent and legislator. The facts indicate that it is not the fault of the legislator.

Purpose of SGA

Editor's Note: The following article-in a special to the EAST CAROLINIAN—explains the purpose of the Student Legislature. The writer is the Speaker of the SGA Legislature.

By BILL RICHARDSON

It has been brought to our attention that many of you are unaware of the purpose and function of the SGA Legislature. In order to help you understand this, I will begin by quoting from the KEY: "The supreme legislative power in the student body shall be vested in the student legislature."

In short, our legislature is to ECU as Congress is to the United States. In fact, our Student Government is patterned after that of the United States.

The powers vested in the student legislature are as follows:

To appropriate funds for student publications, agencies of student government, extracurricular activities and payment of salaries.

-To approve or reject appointments made by the SGA President. -To impeach and remove from office any elected student official, when cause is warrented.

-To override a presidential vote by 2 3 majority.

-To approve laws regulating Student Government elections. -To elect members to the men's

and women's Honor Councils. -To make all laws necessary and

-To require reports from standing committees. (For example, the legislature has a Rules Committee which examines all rules governing the students. Their findings are then reported to the Legisla-

The Student Legislature also controls the budget of the EAST CAROLINIAN, and requires reports from all organizations receiving appropriations from the Legis-

In addition to the above duties, the Legislature influences the stu- It is easy to be wise after the dent body, campus organizations, and all activities that students at-

In order for the Legislature to be more effective, the Legislative Committee is placing boxes in each dormitory to be used for your complaints and suggestions for improvement.

We would like to see your ideas carried out through the Legislature and help us make ECU stronger, more unified campus.

The MRC

Dear Mr. C. M. Hadden:

I am writing in answer to your recent article in the EAST CARO-LINIAN concerning the Men's Residence Council.

The M.R.C. is a representative body and therefore must draw its strength from the men of the "Hill". In order to keep them informed, we publish a manual for freshman, a monthly newsletter, and emergency notices. In addi-

tion we also maintain office hours five hours a night, Monday through through Thursday.

If, in fact, a resident of the "Hill" does not know the functions of the M.R.C.—where does the fault rest? If, in fact, there exists a lack of spirit on the "Hill", why not strike for improvement at its source, not at the organization that has been fighting for that change year after vear? We can be no stronger, nor more active than the men we rep. resent

fact Mr. Hadden. May I ask where you were when we elected M.R.C. floor representatives from your dormitory? Your interest in the men's campus is to be commended but why hasn't it been directed into the proper channels It's easy to write a letter, but taking action on your convictions requires more than mere words. With this in mind, I invite you to attend the next meeting of the M.R.C. on January 29, 1969, at 7:00 p.m., in the basement of Aycock Hall, I feel certain the Council would ap. preciate first hand, any concrete suggestions you could make as to how we may improve our organization.

I will not comment any further on your article, except to quote from Kahlil Gibran, "in much of vour talking, thinking is half murdered."

> Sincerely, Stephen J. Hall. Acting President Men's Residence Council

Transit Car Proposal By Morris

By JIM GURLEY

Looking for a parking space? Why not park 10 blocks from campus and ride over to main campus on the rapid-transit train.

Bill Morris, a transportation consultant and graduate of East Carolina University, proposes that a carefully designed transportation system providing speed and high passenger-carrying capacity among areas of the campus could relieve most of ECU's traffic prob-

While attending ECU in 1963, Mr. Morris made a similar proposal but it died because of lack of funds needed for further study.

Now Mr. Morris would like to revive his proposal which calls for a light-volume rapid transit car. He sternly stresses that it is not a streetcar but resembles a cross between an outer space rocket and a 1910 streetcar.

Carries 160 Passengers

The transit car would operate at a cost of 32 cents per mile and carry 160 passengers, says Morris. While a bus operates at a cost of of 28 cents per mile with a passenger carrying capacity of only 80 persons.

Mr. Morris says he has throughanalyzed ECU's traffic problems. He says that a rapid transit car could move the greatest number of people from point "A" to point "B" at the lowest economic cost, and at the fastest possible and most reasonable speed.

The ECU campus grows larger and serves an increasing number of students every year. With this new growth, several problems have developed:

(1 greater distances among classrooms

(2 greater distances from residential to classroom areas

(3) resultant class scheduling

Mr. Morris says that a properly designed transportation system could greatly extend the present limitations of faculty, staff, and student parking. Parking areas could be provded at distant ends of the campus.

Mr. Morris adds that fast transportation would be provided from these areas direct to the classroom. Intra-campus transit would reduce the need for further campus asphalting and would relieve autocongested streets. Drivers and pedestrians would both benefit by relieved campus congestion and reduced chances of auto-pedestrian accidents.

Duke University, along with some other universities, already have transit systems, however these are not high capacity intra-campus systems. In several large cities

where several campuses of one for transit, Morris said: "(1) routuniversity complex are widely ings of buses are flexible, they can separated, buses (sometimes oper- be used on any street. (2) Most ated on contract with a private cities have only two rush hour percompany) serve among the cam- iods per day-during other hours puses.

ECU's transportation problem is more difficult than that of most schools of comparable student population. A close look at an ECU campus map and a study of present and future locations of residential, classrom and parking areas will evidence this, says Morris.

Enlarged Future Planning

A proper transportation system will however, ease and greatly enlarge future campus planning relative to building and parking areas.

Mr. Morris stresses that buses would not be the best solution to ECU's transportation need. The largest buses produced carry only movement of people," he said. 38-55 seated passengers and additional 20-30 people standing. People cannot embark and disembark quickly from the most modern bus because of limited door space and restricted interfor area and volume.

Asked why most cities use buses twenty-first century university.

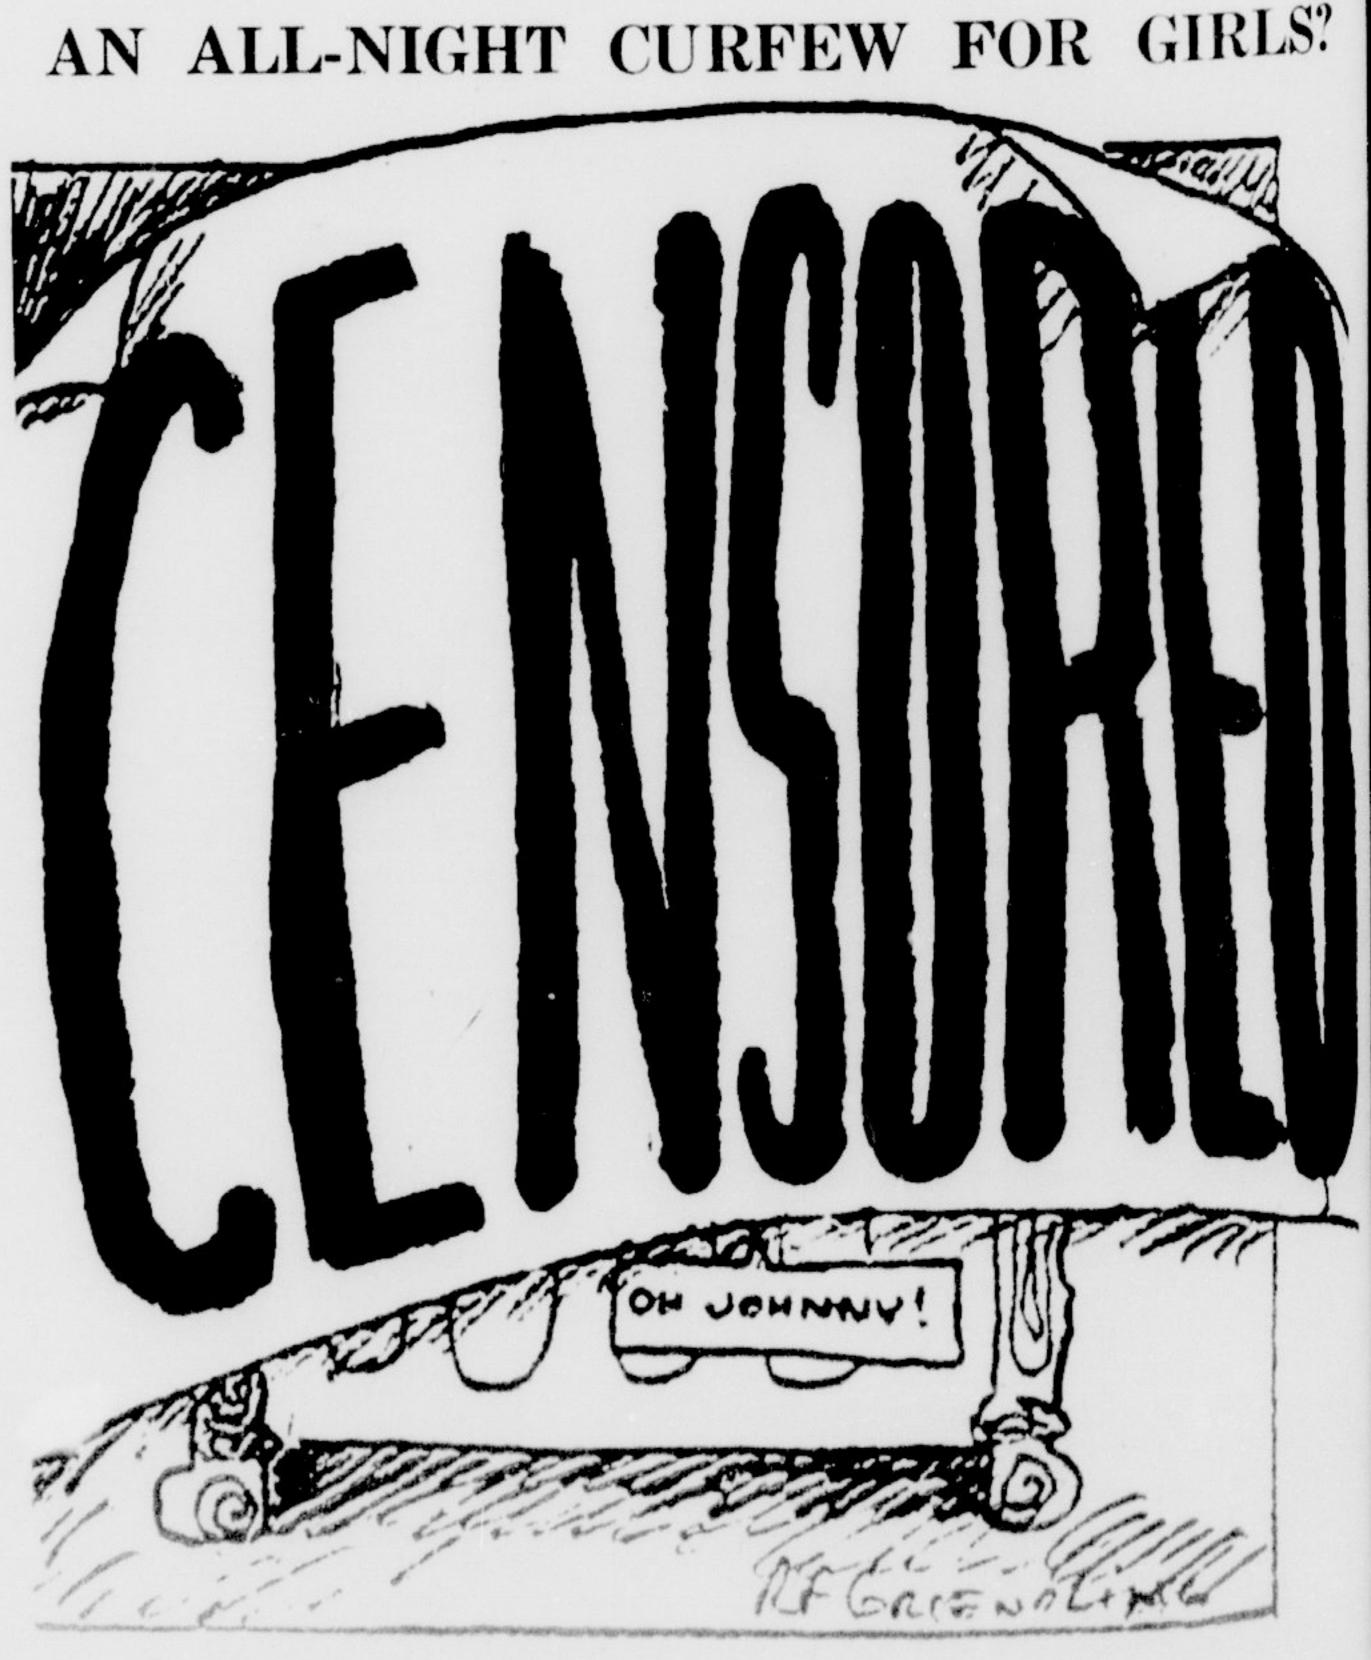

the buses run at a very small percentage of their passenger carrying capacity. (3) The operating costs per bus mile are relatively low.

Some other methods of moving people such as cable cars, moving sidewalks and bus trains are considered inadequate in speed or capacity to handle the movement of people at ECU, said Mr. Morris.

Mini-Train Network

He emphasizes that a mini-train network is not a far-out scheme. "Other colleges and universities throughout the country, which are facing expansion problems similar to ECU's, are considering an advanced system for short-haul

Mr. Morris thinks that the chances of getting this proposal reviewed by ECU officials are some what better than they were in 1963. Since then the school has grown tremendously and now ECU must adopt an image of an automated

Movie Highlighis Comedy And Suspense

AFROTC STAFF-Lt.-Col Douglas F. Carty, Chairman and Professor of

By ROY C. DICKS

the Department of Aerospace Studies.

The main bill of fare for the movie scene this week is comedy, with a sprinkling of suspense. There is also one hold-over and one deletion.

"Gone With The Wind" was held over for another week, thus the final showing will be tonight, the 28th. This holding over has caused the previously announced film, "The Fixer," to be deleted for the time being. In its place, however, is a film that most people will see no matter what is said: "Candy." What can be said is that while it is not uniformly acted or directed, it does contain enough interesting bits of acting and photography to make it worth seeing. The film uses only about half of the popular book from which it was taken, adding many new scenes and characters. The most interesting parts of the film are the character roles played by a host of su-

perstars: Marlon Brando, Richard Burton, James Coburn, Walter Mathau, and Ringo Starr. The film will play for two weeks at the Plaza Cinema.

7773

For those who haven't seen it yet, there are still two days left to see Steve McQuen in "Bullitt." Starting Thursday, the 30th, at the Pitt, will be Walt Disney's latest, "The Horse in the Grey-Flannel Suit." Dean Jones portrays an ad agency man who gets involves with the owner (Diane Baker) of the stable where his daughter takes riding lessons. He gets the idea of naming one of the horses after the pill he advertised and winning races with the horse, as an ad gimmick. Also on the same program is a half-hour animated short, "Winnie the Pooh and the Blustery Day."

Today is also the last day to see "Up The Down Staircase" at the State Theatre. Playing tomorrow and Thursday will be "Eye of the Devil." a comedy with David Niven. Playing Friday and Saturday will be a double feature of racing films: "The Wild Racers" and "Red Line 7000." Then, in keeping with another of the State's commendable policies, that of bringing back oldies-but-goodies, "Who's Afriid of Virginia Woolf" will run three days beginning Sunday, the 2nd.

Finally, don't forget the Campus Free Flick, which, because of Carousel Weekend. will play tomorrow night. Wednesday the 29th. The film will be "Funeral in Berlin," starring Michael Cain. In it he plays the Leigh Deighten spy hero again, as he did in "The Ipcress File." This exciting film of espionage and suspense will play at 7 and 9 o'clock in Wright.

The two-day symposium will have a registration fee of \$25. Any applications should be made to the Division of Continuing Education.

Entertainment For Carousel Weekend

By BEV JONES

Anthony and the Imperials, the "Going Out of My Head" and "I'm on the Outside Looking In" group, will appear in Minges Coliseum Friday at 8:15 p.m. along with the musical comedy team the Times Square Two to highlight the second evening of Carousel Weekend.

"Tears On My Pillow" marked success for Anthony and the Imperials in 1958, their first million-selling record. Since then, they have rushed to record heights and appeared on the night-club circuit throughout the country.

Dropped "Little" They dropped the adjective "Little" from their billing to project to all their new image of an adult cafe act and continued the pursuit of right material and staging for their nightclub, college, and one-nighter appearances.

Ballads, beat, rhythm, pop, fantastic dancing ability, and light humor comprise the act of Anthony and the Imperials, one of the few groups around today which grew out of the hot rock era of the late 1950's.

All Brooklyn, New York-born, the quartet of Anthony Gourdine, Ernest Wright, Clarence Collins and Samuel Strain has not always been together. Following their initial disc smashes they parted for two years. Anthony did a single recording and the others continued recording as the Imperials.

Regroup

Regrouping propelled them to cafe stardom and achieved for them the accolades of adult audiences as well as satisfied their

teenage fandom.

The group has made many outstanding television and club appearances including spots on the Ed Sullivan Show, Laugh In. the Tonight Show, Kraft Music Hall. and the Joey Bishop Show. Engagements at the Flamingo Hotel in Las Vegas, the Eden Roc in Miami Beach, and other clubs have kept Anthony and the Imperials busy lately. They have also been a smash at the major colleges and universities across the country.

Previous singles of Anthony and the Imperials include "Hurt so Bad," "Take Me Back," "I Miss You So," and others.

"Weird And Wacky"

The "weird, wacky, and crazy as the day is long" Times Square Two "totally cracked up the large audience on the University of California campus," according to the Berkley Daily Gazette.

The Times Square Two. who will appear with Anthony and the Imperials, have been described by critics as master lampoonists, a wonderful pair of extraordinary buffons, and natural comedians. hams of the first order.

Given A-Plus

Given an A-plus in genteel lunacy by "Variety," the New Yorker Magazine commented that The Time Square Two's "delivery is flawless their timing of fumbling sight gags is skillful, and so is their guitar playing."

Tickets for the Anthony and the Imperials and Times Square Two show are now on sale in the Central Ticket Office. There will be a \$1 service charge for students, faculty, and staff.

Chairs will be placed on the Coliseum Floor so there will be no need to bring blankets to sit on.

Annual Dining-In For Cadets January 29

By LARRY OAKLEY

Dining-In, an annual affair for cadets at ECU, will be held Jan. 29. The formal dinner is a "function of a military organization or unit," according to AFROTC of-

Major Clarence "Dutch" Kough Jr. will be the guest speaker. He was shot down in Viet Nam on his 100th combat mission and was decorated for heroism. Major The ECU debate team will leave on one team and Jim McCullough Kough is now stationed at mour Johnson Air Forces Base.

Ceremony And Tradition Dining-In will provide cadets with an opportunity to see how ceremony and tradition play a part in the life of an Air Force unit. Also, the ceremony will provide the cadets and staff members with a chance to meet socially at a formal military function. Achieve-

Greenville City ESEA Programs.

She received a B.A. degree in Chemistry from Randolph Macon Woman's College and graduated with an M.C. degree from the University of North Carolina's school of Medicine at Chapel Hill.

She is the wife of Dr. Alfred H. Yongue, a practicing psychiatrist in Greenville.

The conference is annually sponsored by a joint student-faculty committee.

Speak In Classes

During her visit on campus Dr. Yongue will speak in several sociology, phychology, physical education and health classes. She will be joined by another guest speaker in the field of family relations, Dr. Clark Vincent of Bowman Gray School of Medicine

"Sex Morality, and the Question of Abortion," and "Sex Education in the Elementary School," are among the topics on which Dr. Yongue will speak and lead discussions.

A large rally open to all students and the public, featuring Dr. Clark Vincent, will be held in Wright Auditorium at 7:30 p.m., February 4. At that time Dr. Vincent will speak on "Sexuality As A Quest for Identity."

Sign Post Election

An election will be held on February 4 to fill the office of Lt. Governor of Belk Hall.

Candidates are asked to submit their names to Kenneth Shaw, 111-D Belk, before 12 noon, January 30. All interested persons who have completed 48 quarter hours by the end of this quarter and live in Belk Hall are eligible to run. Also, in case you're wondering, a "C" average is not required for this position.

The election will be held in the lobby of Belk between 7 and 10 p.m., on February 4, and all interested persons are invited to vote.

Exhibit

The Union is now featuring a Photographic exhibit in the Gallery of the Union. The pictures are the works of the students in Dr. Frank Eller's Science Education 111 class. Students, faculty, staff and guests are invited to view the exhibit—which will be on display through January 31.

cup of coffee? Very simple. You take NoDoz all at

NoDoz when you can get caffeine in a

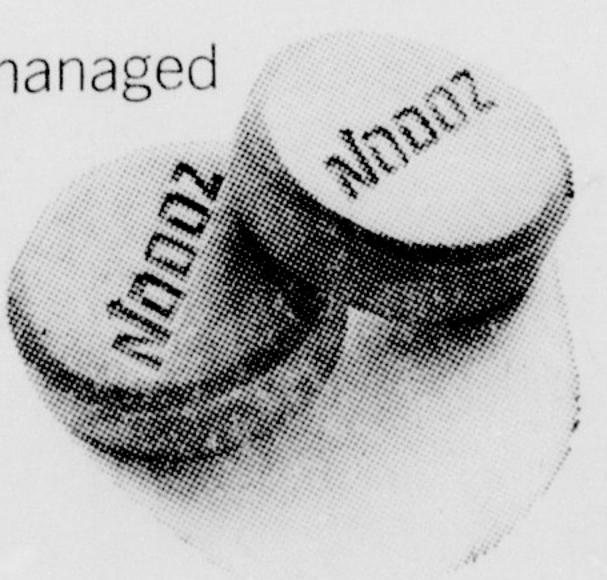

once instead of sipping coffee for 10 minutes. And if you take two NoDoz tablets, the recommended dosage, you get twice the caffeine in a cup of coffee.

Two tablets—isn't that likely to be habit forming? Definitely not. NoDoz is completely non-habit forming.

Which means it's safe to take whether you're cramming at night. Or about to walk into an 8 o'clock class. Or driving somewhere (even though you're rested) and the monotony of the road makes you drowsy.

One last thing you should know about NoDoz. It now comes in two forms. Those familiar white pills you take with water. And a chewable tablet called NoDoz Action Aids*. It tastes like a chocolate mint, but it does everything regular NoDoz does.

And if you've managed to stay awake this long, you know that's quite a lot.

Does it really work?

If you've ever resorted to NoDoz® at 4 a.m. the night before an exam, you've probably been disappointed.

NoDoz, after all, is no substitute for sleep. Neither is anything else we can think of.

What NoDoz is is a very strong stimulant. In fact, NoDoz has the strongest stimulant you can buy without a prescription.

Caffeine.

What's so strong about that?

If we may cite The Pharmacological Basis of Therapeutics: Caffeine is a powerful central nervous stimulant. Caffeine excites all portions of the central nervous system. Caffeine stimulates all portions of the cortex, but its main action is on the psychic and sensory functions. It produces a more rapid and clearer flow of thought and allays drowsiness and fatigue. After taking caffeine, one is capable of more sustained intellectual effort and a more perfect association of ideas. There is also a keener appreciation of sensory stimuli.

Very interesting. But why take

MAKING LIKE AN AIRPLANE-This diver shows some form as he goes into a dive looking like an airplane. The action came from the double dual swimming meet held this past weekend in which the Aqua-Bucs defeated both Bethany College and Monmouth College here in Greenville.

Aqua-Bucs Win Two

The Aqua-Bucs picked up two victories over the weekend in a double dual meet as they swam past tough Bethany College, 66-38, and then took Monmouth College by 67-46. The two wins gave the Buc Swimmers a 5-3 mark on the season and a winning streak of three meets in a row.

Against Bethany, which is ranked 3rd in the NAIA, the Bucs expected a tougher meet, but Coach Ray Scharf praised his swimmers for their outstanding efforts that resulted in the win.

Summary of the Bethany meet: 400 Medley Relay: ECU, (Downey, Allman, Hanes, and Orrell);

1,000 Freestyle: Gary Frederick, (EC); Tom Kruzel, (EC); and Diaz, (B). 11:00.95.
