By-pass test system to be evaluated

By SHERRY BUCHANAN

Staff Writer

By-Pass tests are creating problems for the University Credits Committee. Some of these tests, administered to all incoming freshmen at ECU, enable students to pass a specific course and receive grades, hours, and quality points

without actually even attending the 3 month

However, the problem has arisen that some of these tests if passed, do not give students university credit, or credit hours that could be included in the 190 required hours for graduation.

DIFFERENT SITUATIONS

"There are four different situations in which a student can receive credit or take these type of tests," said Dr. John H. Horne, Dean of Admissions. "Various reasons cause us not to be able to give students credit for certain tests."

he continued, "but an examination of such given while the student is still in high school. reasons is now before the Faculty Senate."

The four different ways Horne mentioned that a student might try to receive credit

include the math by-pass exam, the Advanced Placement Examination, the Credit by Examination, and the Exemption play in the English Department.

"The math by-pass examination is given to all incoming freshmen," said Horne, "and it is equivalent to a final exam in a specific math course, say the Math 65 course." Horne explained that if a student passes this

exam, or for instance, makes a A, he is given full credit or 20 quality points, if they pay a fee of \$2 per quarter hour. "We have to charge this fee," said Horne, "but if a student is not satisfied with his grade on the by-pass test, he simply doesn't have to

pay the fee, doesn't receive the credit and can simply enroll in the class." The Advanced Placement test is an exam

The test covers a course that has been taught in the high school, but has been outlined by the College Entrance Examination Board. In the summer, students take this A.P. test and receive a score from 1 (low) to 5 (high).

According to the specific requirements of individual colleges and universities, students are given credit for these scores. ECU requires a score of 3 or better for college credit to be

"Although college credit is given under the Advanced Placement test," said Horne, "no quality points are received. This test is primarily for the high school graduate, who has already had an equivalent course in high school, not to have to repeat a similiar course. He is however, given the hour credit towards graduation.

STUDENT EXAMPLE

Horne used the example that if a student

canceled.

completely."

received a 5 on the A.P. test, he would receive 5 hours credit from ECU and thus be required to complete only 185 hours for graduation from this school.

The third type of credit is obtained through Credit by Examination.

"This type of credit is for people who has somehow gained knowledge," said Horne, "but we have no academic way of rewarding it. Say for instance a boy is in Germany in the service for two years, and has consequently learned and mastered the German language. When he comes to school here he is given the opportunity to take certain level tests to try and by-pass German I and II, for instance. But he can only do this, if after conference with the department head, it is decided that he is capable of by-passing the course."

If he passes the tests again the student would pay \$2 per quarter hour credit for his grade Horne said.

The last form of by-pass tests are found in the English Department. No credit however, is

Playhouse stops productions

given a student because these tests fall under the category of exemptions.

These exemptions are made according to the student's grade on the verbal section of his SAT score. If a student scores 600 or more on the verbal section, he is allowed to by-pass or be exempted from English one (I), and so on with exemptions aligned with increased scores.

MATH EXEMPTION

Horne explained that this type of exemption was not used in connection with the math section of the SAT because that was an aptitude measurement of logical thinking and not a specific proficiency test.

The problem has arisen because of these and other differences in receiving university hour

Dr. Joe Davis, chairman of the University Credits Committee, said he had received a letter questioning this area and that the committee would meet sometime next week to look into

Changes discussed

By HORACE WHITFIELD

Staff Writer "I'm not saying anything that hasn't been said before," stated Dr. Jenkins concerning the restructuring of higher education.

But the issues on which Jenkins is taking a stand may prove to be an advantage in the future of ECU.

In an interview this week, Jenkins stressed recommendations made by the Council of Presidents and emphasized several points from a speech whihe he was to make to the Young Democrats 'Cluc in Chapel Hill.

" The main issue is money," Jenkins said. "Like education should get like money. An algebra course here should get the same support

taught, and what they are taught, would provide an equal opportunity for quality education.

Jenkins also feels that the formation of a new central body would provide other advantages for East Carolina.

"I think we would get more out of it," he said. "When the issue of a nursing school came up here, the State Board of Higher Education voted it down without a study or looking at figures of any kind.'

He added that more research through

hearings and consultations should be made under a new central body.

"I think we would see more competition between the Universities," he continued. "We

need more of this." Would the Board of Trustees retain its power under a new central body? A majority of the Council of Presidents felt that all power not vested by law in the central body should remain with the institutional boards, according to Jenkins.

"I hope it will be functional." Jenkins stated. "There's a need for as much local autonomy as possible."

Would a new system of higher education lessen the Trustees' and Jenkins voice as

central body such as the one governing the Consolidated University would channel all action into an Executive Committee.

Such organization would lessen the broad

An appeal was immediately made at a specially called session of last year's SGA Plans for production of all plays scheduled legislature. At that meeting the "emergency

measure" of \$1500 was granted. "That amount will go to pay a couple of printing bills and to pay for postage for mailing annual budget for the Playhouse, Michael notices of the season cancelation," Hardy said.

The SGA legislature will hold its first meeting Oct. 14 and Hardy said he would ask them to appropriate enough money for some

kind of season. Five plays had been scheduled for the 1971-72 season: "Fiddler on the Roof", "A Long and Happy Life" by Reynolds Price, Shakespeare's "Much to do About Nothing".

"The Hostage" and one other that had not been

decided on. The most that can possibly be done now, if

money is appropriated, is four. The money from the SGA pays no one's salary with the exception of a guest artist once and a while. It is all spent on royalties, material for costumes, scenery and lighting, properties for the production and printing and publicity. The work is all done by students and sometimes faculty without compensation beyond their

regular salaries. When asked if there was any chance if the Playhouse could become self-supporting, similar to the ECU Summer Theater, Hardy said it was unlikely. "Most college theaters which are self supporting must do all popular plays in order to attract an audience large enough. We prefer to do a variety of things during our season, some of which may not be considered 'popular'."

The lack of money will effect students majoring in drama more than the rest of the students. Normally drama majors gain their stage experience in the annual productions. "This year they will be left with doing small classroom productions and workshops," Hardy

"It has always been grudgingly admitted that the caliber of productions here at ECU is better than at other larger schools in the South. This year of all years we have one of the most talented freshman classes and they have come here because our department has built a name for itself," he said

According to Hardy, the Playhouse never receives subsidies from the administration. The administration pays the faculties' salaries and pays for the usual administrative expenses the same as every other department receives. nothing extra.

Hardy pointed out that supporters of the Playhouse have been passing out circulars telling of the situation and requesting students to tell the legislators how they feel. "If the students want a theater they should have one,"

he said. "We do have a natural concern about ourselves within the department. We also are concerned about the university in general. Without activities for cultural enrichment along with academic expansion this can become a super cow college, because there will be nothing to recommend it to serious students." he said.

"I don't think that is what our people want."

Government Association to the Playhouse as an from the state as any other school." spokesmen for East Carolina? "It's our duty to emergency measure. This is intended to replace He feeis that formula budgeting which sell what we're doing here," he said, "and I the requested budget of \$16,000. includes such factors as the number of persons think we'll continue to get a fair shake." According to Hardy \$1500 would not be to be taught, the level on which they are "There's not much hope for Sanford's plan," enough to pay the royalites on "Fiddler on the Roof" which would have been the fall

he continued. He pointed out that a large

representation which the central body should have. "A new central body should have more blacks and represent all of the people of North Carolina," he stated.

"The two main points I'm concerned with are formula budgeting and equal representation on the central body," Jenkins concluded.

REAL community image suffers

Free dope? Abortions given in the back room? Names turned over to parents and officials?

There are only three of the public's misconceptions that create an image problem for REAL, Greenville's Crisis Intervention Center.

"Our greatest problem is really with the community," stated REAL co-chairman Holly Brenner.

"When we were first getting started and needed financial help a local civic organization was talking with us to decide whether to donate money to REAL. One of our workers jokingly mentioned that we dispensed free dope and gave abortions in our back room. Well as absurd as the statement was, the civic club believed it and we didn't get the money," said Brenner.

The idea that REAL is a center for dope dealings and illegal goings-on is a common belief held by many of the local townspeople.

Miss Brenner referred to another recent situation during a narcotics bust when the agent's van came to the REAL house looking for people and information. "Needless to say

they didn't get any help," added the co-chairman.

REAL has taken several steps to improve the community's attitude toward the organization. Strict rules are placed on workers, a good attitude is kept and open houses are held for the public to find out more about the organization.

"Last spring we held an open house and invited 200 important local people to visit us," stated Miss Brenner. "Fifty people attended and only two of those had received invitations. The rest of the 200 didn't come."

sent out to 200 area people seeking their views on REAL. Only ten of the forms were returned.

"So many people in the community don't have faith in us. They won't help us because

is confidential." Miss Brenner stated. "No sure REAL works."

REAL trustworthy?"

names are taken, no calls are discussed and only REAL members can read the telephone log book. We never turn a person or their name over to the authorities." "Last year during the boycott when some of

the students were suspended REAL found homes in the community where they could stay. The administration at school called us and asked for a list of student's names and where they were staying but we wouldn't give it to them," she added.

When asked to comment about the fact that people feel that REAL is operated by a bunch A similar incident involved questionaires of "do-gooders" Miss Brenner quickly answered, "We're not a bunch of do-gooders by · any means. We have problems like everyone else but we still try to help others."

Closing, the co-chairman spoke of the they think we're going to fail," explained Miss determination within the organization to make REAL a success. "We're harder on ourselves REAL's main problem with its image on than anyone else is. There are special rules that campus stems from the student's question, "Is we have to follow. All of us have worked a long time with REAL and we don't want to see it "All of the information coming into REAL fold. We're doing everything we can to make

Sex conferences to be held

By PATTI PAUL Staff Writer

Accept it or not, we are living in an age accompanied by the "new morality". Many American colleges, in an attempt to educate students in this area, have established clinics to help young people come to an understanding of human sexual behavior. ECU is currently in the process of taking a stand along with major colleges and universities throughout the country.

Whether the purpose of such clinics be to inform, instruct, delegate responsibility, or immobilize the spread of venereal disease; the need has become evident and the call must be answered. Sexuality conferences on human behavior

are being held on the first and third Tuesdays of each month at 7:00 p.m. in various places announced on the Infirmary bulletin board. The purpose of these clinics is three-fold. Studetns are trained in the advantages and jeopardies of all types of contraceptives; they are afforded a chance to discuss moral and psychological implications of birth control, and can learn of sexual behavioral patterns. The clinic is staffed with Infirmary doctors and nurses, campus chaplins, and guidance counselors.

Dr. Dan Jordan, Assistant Director of the Infirmary, feels the conferences are an opportunity for "young people to attend an

informal question-answer rap session." Others have different views. To prepare a student for the sexual revolution, he must be capable of reaching a private decision based on the facts. Dean of Women, Caroline Fulghum, reviews the conferences as important implements, "whereby the individual involved examines his personal moral beliefs. The questions of birth control and sexual behavior are answerable only by the individual.

Dr. Harriet Wooten, Infirmary gynecologist, feels the need to emphasise medical aspects of birth control at the conferences. With venereal disease rising at an alarming rate, Dr. Wooten believes that medical repercussions of birth control pills are being neglected. As she states, "birth control pills do not prevent venereal disease."

from the "Raleigh News and Observer," that 891 cases of venereal disease were reported to date this year compared with 873 in all of 1970. The medical implications of contraceptive devices are included in discussion topics at the clinic.

It was estimated in an October fourth article

Campus ministers are the most willing to help with ensuing sexual problems brought up in conference. Responsibility and values are important components of the clinic. Reverends

James Boswell and Daniel Ernhardt are eager to

see a re-evaluation of priorities in the conferences.

Essential information pertaining to contraceptive methods should be readily available to all who desire it. "After all," remarks Reverend Ernhardt, 'information doesn't cause babies."

Involvement in the conferences requires one, as Reverend Boswell so aptly states, "to know where his head is and take a responsibile human attitude toward sex."

On March 2, 1971, the General Assembly of North Carolina ratified an act allowing minors 18 years of age to give consent for medical treatment of venereal disease. This law, in conjunction with the dissolution of university rules requiring parental guidance in use of birth control pills, is an advance for advocates of the sexual revolution. The Infirmary staff, guidance counselors, and chaplins are here to help the students of ECU.

Dr. Takey Crist, Assistant Professor in the

Department of Obstetrics and Gynecology at the University of North Carolina, Chapel Hill, has stressed the need for sexual information. Recalling a bill-board he once passed, Crist remembered its message: "Self- confidence is a virtue that should never lead to a single life. It should be wedded to tireless energy in helping others."

David Edwards, SGA vice-president, announced his resignation from office Monday at a noon news conference.

Edwards stated that the resignation was prompted by financial and academic problems. The resignation became effective Tuesday at

The following is the statement issued by Edwards at the news conference. To the Students:

I must regrettably submit my resignation as Vice-President of the Student Government Association. I have not made this decision rashly. After much thought and anguish, I have found that I am unable to handle all the problems which I now face. My pride and my patience are gone.

SHORT VENTURE

In my relatively short venture into Student Government politics. I have found hassles from all fronts. As a legislator and as Vice-President, I have always tried to protect the students' interests. While this has gotten me much student support, it has not been appreciated by the Administration.

For those students who have never spoken out against policies of the Administration, the degree of hassle and attempted intimidation that I have received may seem unbelievable. However, I can assure you that many of your Student Government leaders have had similar experiences. The trials of Bob Thonen, Ken Finch, and Rob Luisana are examples of this repression. My own situation borders on the melodramatic.

During the visitation drive last spring, I was called to the Registrar's Office. There I was informed that my permanent records were lost. I was told that since they didn't have my records, as far as the administration was concerned. I was not and had never been, a student at EZU. One of those at this meeting was the Assistant Dean of Admissions whom I had been a hall proctor under when he was resident advisor of Scott Dorm. Fortunately my records were found with those of a 'special group" of students.

At about this same time, I was told by the Dean of Admissions that he had made a mistake. I had graduated winter quarter and came back spring quarter to work on a second degree. However, I was told that because aiready had an A.B. degree, I could not work on a second one. Rather, I had to work for a B.S. Thus, mid-way through the quarter, I

Recently, several things have happened to my major. Somehow I managed to overcome force my resignation and my withdrawal from the red tape and a strep throat which I had at school. Since I am not getting enough money from my parents, I have had to struggle to stay in school. I was forced to borrow money from friends to pay my tuition for Fall quarter. In I thought my problems were over, but I July, I began looking for a job. To increase my couldn't have been more mistaken. After I chances, I had my hair cut twice. Since then, a made a visitation speech on the Mall, C.C. lot of students have been hostile toward me for Rowe informed me in his usual tactful way that it. I was told that many studetns had voted for I was fired as a hall proctor. Perhaps this was as, me because of my hair and that now they felt I much because of some things I has said about was "copping-out." Isn't it pathetic that

Then came the final blow. I received a letter This summer, when freshman orientation from the Dean of Admissions stating that I was also explained that Dean Mallory had lost was like a graduate student. Dr. Horne said it

was because I did not have a "c" average. This was based on spring quarter when I failed 3 out of the 13 hours I was taking. However, these courses did not count toward my second degree. In those courses, which I began in summer school, I have a "c" average. And my average in the four years I have been here is above a "c" average. Dr. Horne said that even if I made two "a's" and a "c" in the three courses I am taking this quarter, I would be kicked out school. This would make me the first undergraduate to my knowledge to flunk out of school with a high "c" average.

Thus I cannot cope with these hassles with the added burdens of my financial problems. have no choice but to leave school and look for a job, full-time. I regret having to make this decision, but I can see no alternative.

Before I leave, I would like to warn you p.m. in Rawl 130. students of some things that may happen. First, there are students in leadership capacities who will attempt to use the students for their own personal gain. These people are nothing but patsies for the Administration.

Second, the Administration is constantly trying to intimidate and repress student leaders who work for the students. Without your support, of these leaders, the Administrations will succeed, and EZU will become once again ECTC.

I do believe that the students have a voice. However, it will be heard only if it is used long "Fountainhead" and "Open Mike" are two "Fountainhead" and "Open Mike" are two excellent ways for students to be heard. Further, if the S.G.A. can get out of the entertainment business and into representing the students, then perhaps the students will have a voice in it.

300N FORGOTTEN

I will soon be gone and forgotten. I hope that what I have tried to accomplish will not be forgotten so easily. There are many able student leaders to carry on the fight. Glenn Croshaw, Rick Atkinson, Rob Luisana, Tommy Clay and Mark Wilson are just a few of the people who care enough to try to help the students. To them go my best wishes and, I hope, your support. I have tried to do the best I can. If I have disappointed you, I hope you will forgive me. I wish you, the students, the best of luck in claiming your rightful places at East Carolina. It is up to you.

Court action could resume, however, when new rules are distributed and become effective in about six weeks.

New fields ease job problem

ECU education majors are not as badly affected by the national teacher surplus as they may expect.

Dr. Douglas Jones, Dean of the ECU School of Education, is not as pessimistic about the oversupply of teachers in America as many other educators seem to be.

The National Education Association (NEA) predicts that the teacher surplus will double by the mid 1970s unless new jobs are created. "The situation is completely unlike anything we have faced since the Great Depression of the 1930s", says the NEA Research Department "Not only beginning teachers but persons with above average experience and qualifications are unable even to find vacancies for which to

Jones contends that a new classification of teachers in new fields, such as safety and occupational education, is in fact creating more opportunities.

NEW AREAS

"There are many areas where people car find fine teaching situations. To upgrade the economic status of Eastern North Carolina, we must upgrade the number of salable skills," says Jones. This is where occupational education opportunities are important to North Carolina.

Among other steps to combat the problem of teacher surplus, the field of safety education has brought the attention of North Carolina educators. This field includes driver education, drug education, and environmental education.

according to Jones.

There are also opportunities in administration and supervision in public and private schools. Superintendents in Eastern North Carolina haven't found an oversupply in teachers," says Jones. In the future, it will take many teachers to fill the vacancies left by teachers with sub-standard certificates.

Jones says another greatly influencing factor will be the new state guidelines which are planned by the State Department of Education. Teacher evaluation will be made periodically during the first years of teaching, based on competence and performance. Also included in state guidelines will be a program of more personalized and individualized teaching, rather than the traditional hour-lecture program.

At the present time, North Carolina has "approved a program of teacher education," Jones says. "The new concepts of competency-based and performances-based programs will be built upon an approved program in which North Carolina has been a leader at the national level."

Jones, a native of Eastern North Carolina himself, proudly states that the enrollment in the ECU education department has been increasing, particularly in elementary and special education.

NUMBER ONE

"ECU is the number one producer of teachers in quantity in the state and in the South. We are in the top ten in the nation"

says Jones. According to the January, 1971 issue of "Educational Forum," the most difficulty in securing teaching positions exists in elementary foreign language, physical education, home economics, business education, social sciences and music.

political situation of the people. Photo by Ross Mann.

The greatest teaching demands are in the fields of trade, industrial arts, distributive education, mathematics, science, elementary and special education.

ALTERNATIVE

As an alternative to a teaching career, people with education degrees have found employment in public relations, business, and insurance companies. Some businesses will train a person with a B.S. degree for a particular job, according to Jones.

He would still encourage anyone who wants to teach to pursue the field. "Some principals and superintendents in public school systems have higher salaries than some college teachers," he says.

"Teaching is one of the most rewarding privileges in life, other than parenthood. believe this very strongly. With enthusiasm and desire, a well-qualified teacher has unlimited opportunities," Jones stated.

Jones concluded by saying, "We have been very successful with placement of our graduates."

Print showing

Pentagon. They will be drafted Library science adds media specialist program

A cooperative program involving ten local administrative units and the Department of Library Science at East Carolina University is being planned by representatives from each unit working with Emily S. Boyce of the Library Science Department. The program for training college graduates as media specialists is funded under the Education Professions Development Act under a contractual agreement with the Division of Educational Media and the Division of Staff Development, North Carolina State Department of Public Instruction.

A maximum of ten applicants will be selected for participation in the program. The program will provide intensive full-time training on the University campus from November 29-May 28, and continuing in-service education

during the 1972-73 school year while trainees are employed as school media specialists.

Tuition and registration fees will be paid by the project. Each trainee will receive a stipend of \$35.00 per week for 24 weeks.

To be eligible for participation in the program applicants: Must hold a bachelor's degree from an

accredited college or university.

Must meet standards for admission to graduate study, including a) satisfactory academic record b) acceptable score(s) on qualifying test(s): Miller Analogies Test: Graduate Record Examination, and/or National

Teacher Examination. Must be available for full-time study at East Carolina University for the period of November 29, 1971 - May 28, 1972.

Must be available for employment as a school media specialist in a public or private school for the 1972-73 school year.

Must not have been employed as teachers, school librarians or media specialists, or as school aides for at least one semester preceding the training program.

Must not have been employed as substitute teachers over 50 per cent of the school year immediately preceding the training program.

"Most definitely the majority of students haring the scheduling troubles are the transfer students, and these are the ones who come up with the 5 and 6 hour schedules" says Baker.

effect scheduling"

problems.

The key to the whole registration and scheduling system seems to be what Baker terms the pre-registration analysis. This is an analysis done on the figures received from each pre-registration period.

i nursuay, October 7, 1971, Fountainhead, Page 3

By RALPH EPPS

Staff Writer

"Fall quarter has proved to give us the most

Baker lists such things as transfer studetns,

'rouble here," states Worth Baker, University

Registrar, "During the fall there are some

factors that aren't present in the other terms to

incoming freshmen and changes over the

summer as the main factors. He also makes

some distinctions as to those having the most

"From this analysis, we can predict with

of scheduling problems 99% accuracy what the needs will be for the coming quarter" he says.

Registrar explains causes

The results of this analysis are reviewed by the Registrar, the Provost, and all the individual departments, so that any further needs can be considered and possibly added. Then, the actual class set-up for the coming quarter is made out, based on the final projections of the analysis. Class cards are made out, and the computer also cites a bigger one. goes to work matching schedules and cards.

"Graduating seniors get the top priority; then comes University sponsored schedules with certain hour restrictions (such things as athletics). After these, schedules are made out as near to what is requested as is possible" states Baker.

analysis, it is easy to see why they would experience trouble.

because they transfer from so many different types of learning institutions" says Baker.

Summer school also lends to fall quarter scheduling difficulties. Many students pre-register for a course in the spring that they plan to take in the fall. Then they attend summer school and take the course. In the fall this course will still appear on their schedule, adding one more to the drop-add line.

Baker agrees that this is a problem, but he

"The biggest cause of 'veteran' ECU students' problems seems to stem from their not listing alternates during pre-registration. In this case, the computer has nothing to choose from if a course closes out" states Baker.

Baker encourages students to list alternates and times when they pre-register next week. He As transfer students are not included in the also invites students to his office who have scheduling problems.

"Anyone with these problems, or really with "Their course needs are so un-predictable, any problem will be welcome in our offices, as we are really an information bureau" he concludes.

Gardner-Webb College gives honorary degree

BOILING SPRINGS, (AP)-Universities usually save their honorary doctoral degrees for statesmen, but last Tuesday a North Carolina college bestowed the honor on singer Johnny Cash in recognition of his love for America's downtrodden.

Cash received the honorary degree at Gardner-Webb College, a Baptist affiliated school with 1,500 students.

He has never negotiated an international peace settlement, but, said Gardner-Webb trustees chairman Lloyd C. Bost, the balladeer helped a stranded family obtain a tire.

Bost reminded the college crowd that Cash "is the man who donated \$10,000 for a kidney machine so a humble black man might live."

TREATED KIDS

The country-and-western singer treated 150 poor youngsters to Memorial Day at the circus and has remembered the lonely aged with flowers and gifts.

Bost said the degree also was conferred "on behalf of the humble and the poor, who are the victims of drugs and alcohol, and thousands. locked behind prison walls.

Cash looked strangely out of place dressed in an academic cap and flowing gown. But he was the same Johnny Cash as he looked out at the hundreds of students and college officials who often remain isolated from the day-to-day grief of America's lower class.

PRISON REFORM

He said no prison reform legislation or program is "worth two cents unless you care." And there were no 10-dollar words when he reminded the audience that rehabilitation of prisoners is often said to have failed when, in truth, it has never been correctly applied. Cash sat silently by as Bost heaped praise on

The Housekeepers in Garrett dorm have won the first Housekeeping Award of the Month ever presented at ECU.

The award, a floating trophy, was presented by Dr. Jenkins at a housekeeping staff meeting at Garrett Tuesday afternoon. The trophy will stay in Garrett until next month when it will be awarded again to the best kept women's dorm. Each month the winners will have their picture taken with the trophy. This picture will be displayed in the dorm. A print of the picture will be given to each of the women on the winning staff.

The award was instigated by the Business Office according to Julian Vainwright, assisted

business manager. He expressed hope that the award will give the housekeeper's esprit de corps. "It is also hoped that this award will give

the girls some incentive to help keep the dorms looking nice," Vainwright remarked. The judging of the dorms is done by people

on the housekeeping staff twice a month. The dorms are judged on the cleanliness and

orderliness of the outside entrances, trash areas, halls, stairwells, lobbies, canteens, restrooms, showers, maid's closets and social rooms. Each area is rated on a scale from 1 to 10. The dorm with the highest number of points wins.

Announcing The Birth of a New Publication-**Environmental Quality Magazine**

One of the most talked about new magazines in America today!

WITH YOUR HELP IT WILL BE DEAD IN TEN YEARS

You won't find many magazines looking ahead to their last issue. But then you won't find many magazines like Environmental Quality. Our success will depend on how much we're not needed; the less needed to be done about pollution, the less you'll need us. The problems of our environment are such that if we don't do something about them today, we won't be around to talk about them tomorrow.

What are we doing about it? We're offering solutions where others have offered talk. Solutions are presented by men who care enough to do something. Men like Sen. Edmund Muskie, Paul Ehrlich, Ralph Nader, Henry Gibson, Jacques Cousteau, Cleveland Amory, Sen. Gaylord Nelson, and others.

Environmental Quality is the only lifestyle environmental publication geared especially for you. We tell you where to write, where to go, what to do. Now is the time to save our environment. Send for your free sample copy now!

Edward's resignation raises questions

vice-president David Edwards leaves a to submit to the hierarchy. question mark to the tale of pressure from the administrative hierarchy.

Is is possible on the supposedly democratic campus for a student leader to be so suppressed that he is forced to leave school?

Edwards worked for the students who elected him. At times he went against the almighty suggestions of the hierarchy. For this, he received almost open threats to leave school. These academic threats had no basis according to the overall scholastic requirements for staying in school. Edwards could not financially

The resignation of SGA afford to fight this pressure. He had

How many more of our student leaders have been forced to submit to the whims and pressures of the system in order to stay in good standing with those who can make or break a future career?

How much longer can students sit back and let their campus leaders suffer for voicing the opinions of the majority?

Perhaps with the resignation of Edwards, students will become more aware of the power of the hierarchy and take a more active stand behind their leaders.

by Rick Mitz

SGA finds way to suppress students

has succeeded in slipping by its two-thirds of the student body constituents another point of turning out to vote for anything, procedure.

This time it's managed to change the amendment procedures (Article XI) until it's now virtually impossible for students other than the legislators to propose any amendments to the present Constitution.

Rather than the old form of 10% of student body signatures, the new Constitution requires petitions to be presented to the president of the SGA containing the signatures of 25% of the student body.

Moreover, the student body proposed amendments must receive a favorable two-thirds vote of the entire enrollment.

Realizing the apathy on ECU

Once again ECU's beloved SGA campus, it is hard to conceive getting much less to vote in complete

> Perhaps last year's legislature was a little more optimistic about campus involvement. Or, perhaps they wanted to give more power to their own of the college student of 50 years ago when select body.

True, the students elect their representatives, but why don't these representatives have to receive such overwhelming support in their elections if they are going to represent the majority of the students.

Perhaps it's because it's impossible to get so many students to turn out for the elections, much less to get them all to back this elite group with a favorable two-thirds vote.

"College students are a good-natured, hard-working fun-loving bunch of kids. Oh, sure partaking in various school-spirited scream at football games and stuff themselves into phone booths. But, for the most part college students are good-natured, hard-working and fun-loving."

That may have been an accurate description things were The Cat's Meow rather than Right On, but the new image of the university student has him doing somewhat different things than in the days of the Varsity Drag. Today the student does other "crazy" things. He swallows hallucinogenic drugs rather than goldfish, wears hippie clothes, screams at demonstrations, and stuffs himself into an occasional university administrator's office.

Today's American college students are in dire need of a good public relations firm.

It's in the eyes of those allegedly Concerned Citizens that the student image is a tainted one, mutilated by magazine covers screaming out about the Student Revolution (exploiting covers that often are more revolting than the Revolts themselves) and even more distorted by one-sided television coverage that shows the student revolution, but never the evolution.

The medium is the mess. Newspapers, radio and, especially, television have given the people of America an even more distorted picture of

what the Typical Today Student is like. The emerging stereotype is the

they do some crazy things like swallow activities-bombings, seizures, strikes, pillage, goldfish, wear those shaggy raccoon coats, and a little arson on the side. In his spare time, he downs dope, sleeps promiscuously in coed dorms, dresses outlandishly and that's that. The media displays (and displays and

raggedy-coifed revoluntionary-radical, endless

displays and instant replays) only his demonstration behavior, which might very well be out of context. He might be a medical student with honor grades who loves his mother, dates a Sensible girl, attends church, has a good part-time job, loves apple pie, and in all other ways fulfills the All-American dreams. But the 6 o'clock news never show that part of

People are frightened by the student movement -- scared and acrimonious. The values they've held sacred, the goals they've strived toward suddenly are being threatened by their own children. The result is panic. In a nation-wide poll taken last spring, the campus unrest problem ranked number one -- even over war, ecology, racial strife, poverty and crime.

Spring is the season in which they take place. Spring -- when every young student's fancy turns to revolution, when a fresh breath means a mouthfule of mace, and spring fever means the hot anger of the U.S. populace sitting by their TVs counting the RPMs.

And they aren't exactly sitting there watching nothing. Last year, 1,785 demonstrations took place on college campuses including 313 building seizures and sit-ins, 281 anti-ROTC demonstrations, 246 arsons, and 7,200 student arrests, resulting in more than \$9.5 million in damage.

Television brought all the damage, fire, seizures, sit-ins right into our living rooms, in living red, white, black and blue color. The Student Radical could have been the title of a highly successful, action-packed, situation TV show aired in lieu of the news every evening.

The new student portrait is detrimental to

the student himself - making all students appear alike, depersonalizing them, castrating individuality and sprouting new prejudices in a world already too full of biases. Yet the new student image can not be as bad as college trustees and university regents might fear.

A sit-in might be a radical way of expressing an idea, but it certainly is more socially provocative and meaningfully profound than swallowing a goldfish. Discontented students sit in and take over because they are concerned with values that affect the total society, not just themselves.

It's the cause which is so important. But television shows only the superficial outcome of the student fight for that cause -- the rioting. the sea of straggly students, the hurled rocks, the four letter words. The bloody, fighting, hell-raising revolutionary student image could be, if not changed, at least altered, if the media could make the public aware of the issues behind the fight. Struggles for ecology, and end to racism, equal rights, community control and the finish of an unjust war are not difficult issues for the public to relate to. However, they get lost in the color and dramatics of the televised college demonstrations, which always come out looking like a television Fellini orgy rather than a concerned and optimistic fight for a better American future.

College students wouldn't really need a PR outfit to help change their image if people could grasp the importance of the cause behind

The Middle American couple sitting in front of their new color TV no longer can afford to angrily turn off the 6 o'clock news of student protest and switch the channels to a war movie or an Old John Wayne film.

The channels that must be switched are the channels of communication, and what could emerge would not be a new student image at all, bu a new national image based upon a new understanding.

Parking discrimination demands evaluation

problems on ECU campus it seems places to park in, and even those are petty to mention something as trite not very close to campus? as parking privileges.

The doctor's bag

By ARNOLD WERNER, M.D. Copywright 1970 College Press Service

QUESTION: What is a safe time period to keep condoms after purchase, but before using? Do they deteriorate or become less effective with

ANSWER: Since 1930 most condoms have been manufactured from latex rubber which is known for its durability and long "shelf life." Sold in hermetically sealed packets, condoms should be good for about 5 years if upopened and kept away from heat. Even heat does not seem to impair them too much as countless condoms have survived long waiting periods in automobile glove boxes and men's wallets. Experimentation is being carried out with a new plastic condom which is supposedly very nexpensive, very effective and can be stored

forever, although the value of the last quality seems hard to understand. Completely unrelated to your question is the fact that condoms are sold in various colors in foreign countries, red being one of the more popular

A superb recent book is "The Textbook of Contraceptive Practice" by John Peel and Malcolm Potts published by Cambridge University Press available in paperback for \$2.95. I cannot recommend it too highly.

QUESTION: My fiance and I pet very heavily but we have agreed not to have actual intercourse. Is it dangerous for either of us to continually carry through almost to orgasm and break off? What if orgasin is reached?

ANSWER: There is no danger in what you are doing, but unless I misunderstood your letter. the frustration you and your fiance are experiencing comes through clearly. Petting to climax is a safe and helpful form of sexual expression for people who feel comfortable with it. The couple who has agreed not to have intercourse but who feel comfortable with heavy petting can find that petting to orgasm provides sexual gratification without the risk of pregnancy. Many people find that the intensity of feeling in petting to climax can equal and even exceed that of intercourse.

One word of warning: Semen deposited in close approximation to the vaginal opening occasionally results in pregnancy (the "pregnant virgin" phenomenon).

The Forum

Cut revived

To Fountainhead

The fine arts on campus are in trouble. The reason is simple. A seven-member board decided this summer that economy was needed in SGA pending, and that the Art, Drama, and Music Department really don't need as much money as they had been getting. As a result the fine arts departments are now running on hope and meager funds scaped up from other sources.

What does this mean to you, the student? It is true that these three departments represent only a little over 10% of the student enrollment (about 1100) students, but this 10% provides service for the other 90% through art shows, dramatic productions, concerts, and recitals. The lack of funds seriously cripples these services. The Drama Department is not able to produce "Fidder on the Roof," nor its remaining line-up of top name plays. Instead, the Playhouse plans a season of low-royalty. low-budget productions. The Art Department is unable to sponsor shows away from campus, which would aid the prestige of ECU. Music groups will not be able to plan tours which also gain respect for ECU (such as the planned trip to Tallahasee by the Chamber Singers for the American Choral Directors Convention). This is just a brief summary of the problems presented

by the SGA cutback In short, three departments which have gained respect for ECU throughout the nation, and which serve as the only center of cultural activity in Eastern North Carolina, are sinking rapidly because seven students decided that they didn't really need the money.

What can you do to help? You can show up Monday, October 11, at 5:00 p.m. in the Legislature Room, third floor of the Union Annex. Your presence at the Legislature

Meeting will demonstrate your support of the fine arts on campus. At that time it is hoped that several budget proposals will be presented which will give sufficient funds to operate these departments.

Please, if you care about the fine arts at ECU, come to the Legislature meeting Monday at 5:00. You won't be alone.

Alan C. Jones

Bonn campus opens academic year...

By FRANK TURSI

Staff Reporter After almost three years of planning and despite monetary and other problems, ECU's overseas compus has opened for its first academic year.

The campus is located in Mehlem, a southern suburb of Bonn, Germany. It is housed in Haus Steineck, a three story mansion overlooking the Rhine River.

ECU's European Study Center has come about largely through the devoted work and effort of Dr. Hans H. Indorf, Coordinator of the Office of International Studies and Resident Director of the ECU Study Center. Dr. Indorf is now in Germany helping to get things under way.

The opening of the Bonn Study Center puts ECU in the elite 10 per cent of American universities which have overseas campuses or other programs of international education.

Haus Steineck is an excellent educational and living environment. It has more than

adequate classroom, library and sleeping facilities. It is also excellently located. It is

within walking distance of the American Embassy and it is just a ten minute train ride from Bonn.

Robert Franke, a graduate student who is filling in for Dr. Indorf while he is in Germany, said, "This year the program is offering a variety of courses in seven disciplines: political science, art, business and economics, geography, history, music and philosophy.

The Center did meet with some problems. The most serious of which was the loss of their text books. "All our books were destroyed in a fire," said Franke, "we stored them in a German warehouse over the summer, and it burned along with 119 of our texts."

The books, on loan from Joyner Library, were eventually replaced. "We sent 100 lbs. of paperbacks to Germany," explained Franke, "Books were provided by professors from their personal libraries."

Despite the problems, classes began September 28. Commencement will be May 19. The academic year is divided into three even quarters which will roughly follow the Greenville campus's calender.

There are days provided within the year for field trips. Trips are planned for Paris, London, Brussels and Vienna. Christmas holidays will be spent in Berlin.

Thirty-eight students are presently enrolled in the program. Twenty-eight of these students are from ECU while 10 are from five other universities in North Carolina.

Two professors from ECU have joined Indorf and the students. Dr. Ralph Birchard of the Geography Department and Dr. Loren K. Champion of the History Department will be in Germany for the fall quarter.

Each student participant must enroll for a

minimum of 15 quarter hours per term. Classes are given consecutively in 2 or 3 hours sessions. Courses are graded according to the Greenville campus's standards.

"Since there must be a specific purpose to overseas studies, each student is encouraged to fulfill the course requirements for a minor in European Studies," said Franke. This can be accomplished by satisfactorily completing any combination of courses offered at the Center for a minimum of 36 hours.

This year the cost for nine months abroad was \$2755, but the cost will be higher next year. Franke explained, "The rise in student tution plus inflation and the instability of international finance have had their effect on the program."

"This year the program was able to absorb

the additional costs, but next year it won't be able to," said Franke. Next year it will cost \$2600 plus normal tution fees payed by an ECU day student. For a North Carolina resident this would amount to about \$3000; while the cost for an out-of-state resident would be about

Franke pointed out though, "This still isn't a bad price for 9 months abroad."

The program is open to any student who has completed at least one year in any accrdited college or university. No restrictions are placed on attended major

Applicants are expected to have a basic knowledge of a European language.

Applications for the 1972-73 school year are now being accepted. For additional information contact Mr. Robert Franke, Office of international Studies.

If you are tired of Greenville and its routine living, Bonn may be the place for you.

SINGER ALEX TAYLOR, backed up by the Coliseum. Tickets are now on sale at the rock band Friends and Neighbors, will open the Central Ticket Office for \$2. Friday night concerts at 8 o'clock in Minges

Alex Taylor, Nitty Gritty Band bring musical mixture tomorrow

By KAREN BLANSFIELD

Features Editor

Alex Taylor with Friends and Neighbors and The Nitty Gritty Dirt Band will kick off this year's popular entertainment on Friday, Oct. 8 in Minges Coliseum at 8 p.m.

Dubbed "the unlikliest Taylor of them all." Alex has made a reputation of his own, following after his younger brother James and his sister Kate.

Though a composer. Taylor does not play an instrument and, strangely, does not like to sing his own compositions as he feels his songs reveal too much of himself.

Friends and Neighbors, a rock and roll band. back up Taylor in all of his singing engagements.

A group of hilanously eccentric and highly gifted musicians comprise The Nitty Gritty Dirt Band, which plays a repertoire of songs ranging from traditional to jug-band to contemporary

The Dirt Band, consisting of five members, was formed in 1966, although there have been some changes in members and occasional changes in musical direction.

WASHBOARD VIRTUOSO

John McEuen mainly plays banjo with the Dirt Band, although his musical ability includes fiddle, accordian and acoustic guitar playing as well. Since playing music is his favorite hobby, he frequently jams with such people as Flatt and Scruggs, Poco and Bill Monroe.

Jeff Hanna, a native of Detroit, Mich., began

his musical career playing guitar in 1962 when his family moved to California. In 1966, he joined the Dirt Band playing the washboard, at which he is now considered a virtuoso. In addition, he takes turns on guitar and drums. His musical influences are mostly traditional, as well as the sort of music done by The Band and Buffalo Springfield members. During one hiatus from the Dirt Band, Hanna played in Linda Ronstadt's back-up group and he considers her "one fine singuh."

Les Thompson, the musician who wears the genuine Mounty uniform, plays guitar, bass and mandolin with the Dirt Band, and also provides many of the vocals. He said that he would someday like to live in Canada and be a rancher, since he lived there and in Alaska as a child, and "was brought up to appreciate what was put on the earth to enjoy."

When not performing, he likes to work on his mini-cooper, travels frequently to Riverside, Cal., and occasionally makes leather clothes for close friends. And, if given the opportunity, he is willing to do small parts in good movies.

GATHERING FIF EV OOD Jimmie Fadden began his musical career at the age of 16, playing the autoharp his mother had given him. At 17 he took up the harmonica, and at 18 he joined the Dirt Band, leaving school to work. But he considers the band an education in music, for it is from his experience with them that he has added jug. washtub bass, tuba and trombone to his repertoire. He feels that his five years playing harp have helped to show the potential of an

inexpensive instrument, although he admits to spending more money on them than anything else. His interest in traditional blues has led him to play with some of the great old bluesmen, including Sonny Terry and Mance Lipscomb. His offstage hobby is building model airplanes.

Jim Ibbotson is as musically versatile as the other band members, playing drums, bass, guitar, accordian and piano. Before joining the Dirt Band, he had experience with other groups such as the Arista-Tones, the Warf Rats, the Evergreen Blues Shoes and the Hagers, In between all that music, he attended DePauw University in Indiana and received a degree in

He now lives in California with his coon-hound. Ernie, and claims his hobbies are "gathering firewood and falling in love," and his ambition as "economic advisor or a post-revolutionary president."

Besides doing everything that every group does-making records, touring, appearing on television-the Dirt Band has also appeared in two films. The first was a forgettable item called "For Singles Only," in which they played a band (type-casting), and the second was "Paint Your Wagon," in which they were visible for only a few minutes.

The Nitty Gritty Dirt Band has the kind of music and humor which appeals to a wide range of people, from folk and bluegrass fans to rock audiences. When asked about their goals in music, the members said all they really want is just to play good music for people who like to be entertained.

Criticism raised about athletics

By DON TRAUSNECK

Much criticism has been raised on campus recently about our athletic program - particularly the football team - being a big "money-grabbing loser."

Sports Editor

True, even with the big win over The Citadel Saturday night, ECU's records on the gridiron the past few years have not been was on target the first two too impressive. But to look at the validity of the statement, one games as the Pirate club split. must put the proper facts into perspective.

How many college football teams have gone through three consecutive years with three different head coaches?

Not very many, of course, but that has been the case at ECU. The first stepped down to devote his full time to the pressing duties of athletic director. The second walked out on us to return to his Alma

The Pirate's Cove

Now the third. Sonny Randle, is trying to "return the winning tradition to ECU."

It takes time to establish a winner. Notre Dame went through this stage in the fifties and Carolina did in the sixties. Both teams are very successful

TRAUSNECK on the gridiron today. Just because Randle's first team played four games before tasting victory, it does not mean that we should sell him out as a

On the contrary, this is when we should put everything behind him and give him our full support. Only then will these losing days

But time is just one of the factors against Randle and future griditon success. The biggest obstacle is money. The main criticism regarding the athletic program is that too much money is being poured into the football program.

Actually, a recent study by the NCAA involving its member institutions shows that ECU's athletic budget is about average less than some of the larger schools and more than the small colleges which place less emphasis on intercollegiate competition. This study should indicate that the charge of the athletic department getting "too much" of the school's money is entirely unfounded.

MONEY POCKETED FOR ATHLETICS

Complaints have also arisen that some of the money taken from the library and drama department's budgets, and from other areas, has been pocketed by the athletic department for use in its

This is untrue as not one cent from these budget cutbacks has host Apps Saturday gone to athletics. In fact, the department has to struggle on its own to gather

funds. Nearly all the money used for athletics comes from athletic gete receipts and contributions to the Pirates Club. The football and basketball teams, having the biggest draw,

considering the available funds. However, there is still need for more money. To compete successfully and to finally field that long-awaited winner, ECU must spend a fair share on recruiting budgets and full grants.

have supported all the other sports and have done a fairly good job

Randle recently pointed out that some of his players are still on partial grants. If we are to get the athlete that will lead us to athletic glory, we need to offer him something that is better than Carolina, Duke or State can offer.

And where will the money for this come from? That is really a difficult question to answer and if we could, perhaps we'd be 3-1 at this point instead of 1-3.

While schools like State and Duke have among their alumni lawyers and doctors, ECU was once a teacher's college and teachers just do not make enough money to contribute and support our programs.

ANOTHER CAUSE OF CRITICISM

Therefore, it has to come from somewhere else. True, some is taken from the activity fees a student pays when he registers. And performance," said Carson. this is another cause of much criticism.

Should the students have to pay ahead of time for games they challenge of a tough course might not attend anyway? When answering this, one must realize while Tech ran a good that students are not charged admission to any of our varsity competitive meet."

events at home. In the long run, even the student who does not attend all the Saturday, William and Mary

events should come out even. But where does this leave the football team, in the midst of all arch-rivals, 25-30. the controversy, still struggling to come out on top while our For the Pirates. Ed Hereford athletic budget does not match those of the top teams of even our was the top finisher as he

own level? Perhaps the only way to get this needed money is to draw meet. Ed Rigsby finished 15th bigger crowds. And to do this a team must schedule the name while the other performers schools such as Carolina, State, Duke, Toledo and West Virginia. were further off the pace. You may ask, why play these teams on their field where they

can pocket the gate receipts? The truth of the matter is, when a team schedules an opponent performance by all of our boys on the other team's turf, they sign a contract whihe guarantees a except Ed Rigsby," Carson

certain amount of the receipts to the visitor. We could make more money playing Carolina at Chapel Hill and Gerald Klas got out of the han we can in Greenville, mainly because more people would sick bed just before the meet want to see the game than Ficklen Stadium could accomodate.

EVENTUALLY PLAYED HERE

Eventually the game will be played in Greenville and by that there for awhile." time, perhaps, our stadium will be big enough to accomodate With Smith, ECU's number

everyone that wants to come. Plans are definitely being made for the enlargement of Ficklen Pirates will be hard-pressed if Stadium, not into a bowl but rather a horseshoe-shaped stadium, they hope to have a good But Clarence Stasavich, director of athletics, recently said that we competitive year. will not build anything until we see a need for it.

Are we placing too much emphasis on athletics? Is varsity football really a necessity at ECU? There are those who would support both sides of these questions and it is primarily up to a individual preference. At ECU, we do need such programs.

A good football team - and ECU does have a good football team - should be the rallying unit for the student body and a source of pride for the alumini.

Sure our successful other sports and our football club are sources of pride. But records do not always show how much hard work and time our varsity performers have put into representing us - mostly at the sacrifice of their own leisure. In time, this sacrifice will pay off - in won-lost records, in gate

receipts, and in the pride of the alumni who backed the team in the dark days, only to feel the more glory when those days finally One more problem must be settled before the criticism is

answered—that of giving the students their say in how our athletic budget is used. Our solution is that two or more students be added to the 18-member Faculty Athletic Committee. Then that organ will

truly be a cross-section of the University community.
