

Monday 8/3/18

Dearest:-

I wonder what my darling is doing. Do hope she is enjoying her self & not worrying about me. I'm feeling fine and getting along. I. Plenty to eat and get plenty of sleep for there is not a day passed so far that I haven't taken a nap.

Daddy has been very stormy but have got use to that we have rain so often. Yesterday I went out and ambulance as I told you was my ambulance.

Enjoyed the trip very
much. The drives are
beautiful. Saw some of
the effect of the war. In
instance a large R.R.
bridge which was destroyed
in ^{beginning} of the war - The roads
are shaded with trees and
made of stone & believe me
driving I drive the old
Ambulance at a break
neck speed. Made me
have sick. Because I could
not help from thinking
of the time I were to drive
my own car.

This morning I lectured
for two hours to the men
since he some orator
when I return. One think
it is helping me - Teaching
me how to think on my
feet. This pm Capt & I
wanted to go - but our
beauty struck, but the
Bos - would not let
us go - so I have passed
the after noon in
cussing letters. That
is some ph.

Why I wish I could
tell you all that I saw

yesterday while on the
Ambulance - because I
did see some interesting
things, but something that
would cause you to
worry, and I'm keeping
all the exciting stories
behind will tell you
every thing when I
get back.

I told you dear in letter
yesterday that the German
were retreating. They are
still on the go and I
do hope the Allies will

not stop until they have
wiped them entirely off
the earth. The allies have
regained all the ground
that they lost - capture from
May 27 - which means they
have straightened the line.

and captured some important
points.

I have been writing you
every day - wonder how
you will receive my letters
no doubt you will get
quite a number of them
at the same time - as
yet we haven't got any

mail from the States
that was written for
me left. Maybe in a
few days it will begin
counting. I will be
so glad to hear from
Darling, the one I love more
than any one on earth.

Capt Johnson & myself
lay awake last night &
talk about our courtship
day for nearly 3 hr. - One
man that has had the
same experience as myself.
And now in all my life

#

Now I see two men here
so near the same opinion
and along the same line
For instance he objects to
his wife dancing. Can
you not picture my self -
And dear his reasons are

The same as mine that
is only one thing - when
as an every day affair
our opinions were
the same -

Time for supper. Darling will
say God by - much love &
many kisses from one
who loves you with his whole
heart. You see what
