Gentlemen:

Storage - Swedish Tobacco Company

The Swedish Tobacco Company advise us that their shipments for export of old crop tobaccos, primarily 1964 crop, will be considerably less this fall than has been the case in the past. This affects you in that this storage space will not be made available for 1965 crop to the extent it has in the past.

Perhaps this information has already been passed on to you, but we thought it best to write you so there would be no question about it.

Yours very truly,

R. W. Tuggle
Asst. Vice-President
