## SPECIAL NOTICE TO STUDENTS

The catalogue of East Carolina Teachers College, issued in the spring of each year, is intended to give such a description of the work of the college and such a digest of its regulations as are needed by students. Although the courses announced and the regulations given are fairly continuous from year to year, neither of them is valid beyond the succeeding year, for before the end

of the succeeding year a new catalogue will have been issued, superseding all previous catalogues.

Ordinarily a student may expect to be allowed to secure a diploma or a degree in accordance with the requirements of the curriculum laid down in the catalogue in force when he first entered the College (see regulations) or in any subsequent catalogue published while he is a student; but the faculty reserves the right to make changes in curricula and in regulations at any time when in its judgment such changes are for the best interests of the students and of the College.

## GENERAL INFORMATION

---

East Carolina Teachers College was established by an Act of the General Assembly, ratified the 8th day of March, 1907, under the name East Carolina Teachers Training School. The charter is found in Consolidated Statutes, chapter 96, amended by Extra Session 1920, 1921, and 1925, and as amended, is as follows:

### A BILL TO BE ENTITLED AN ACT TO CHARTER THE EAST CAROLINA TEACHERS COLLEGE

*The General Assembly of North Carolina do enact:*

SECTION 5863. That the trustees of the East Carolina Teachers College, established by an act of the General Assembly of North Carolina of one thousand nine hundred and seven, and located at Greenville, North Carolina, shall be and are hereby constituted a body corporate by and under the name and style of "The Board of Trustees of the East Carolina Teachers College," and by that name may sue and be sued, make contracts, acquire real and personal property by gift, purchase or devise, and exercise such other rights and privileges as are incident to corporations of like character as are necessary for the proper administration of said college.

SEC. 5864. That the said college shall be maintained by the State for the purpose of giving young white men and women such education and training as shall fit and qualify them to teach in the public schools of North Carolina.

\*CHAPTER 320, SEC. 1. That the trustees . . . of East Carolina Teachers College . . . be and they are hereby authorized and directed to fix the tuition fees . . . in such amount or amounts as they may deem best, taking into consideration the nature of each department and the cost of equipment and maintaining the same: and are further instructed to charge and collect from each student, at the beginning of each semester, tuition fees and an amount sufficient to pay room rent, servants' hire and other expenses for the term . . . it being the purpose of this act that all students in State institutions of higher learning shall be required to pay tuition, and that free tuition be and the same is hereby abolished, except for such students as are physically disabled and who are so certified to by the Vocational Rehabilitation Division of the State Board of Vocational Education, who shall be entitled to free tuition. . . .

---

\* From Acts of 1933.

\*SEC. 1. That the board of trustees of East Carolina Teachers College shall consist of twelve members to be appointed by the Governor and confirmed by the Senate and the State Superintendent of Public Instruction as an ex officio chairman, making thirteen members of the board in all. Provided, that the twelve members appointed by the Governor and confirmed by the Senate each shall serve for a period of six years or until his successor has been appointed. Provided, further, that the first board under this act shall be appointed as follows: one member for two years, four for four years and four for six years. Provided, further, that the term of office shall begin July first of the calendar years ending in an odd number, i.e., July 1, 1929. Provided, further, that all of the members of the present board appointed prior to nineteen hundred and twenty-seven shall hold office to June thirtieth, nineteen hundred and twenty-nine.

\*\*SEC. 13. Each of the Directors, Trustees, managers or other persons whose appointments are herein provided for, shall hold office until his or her successor or successors have been appointed, and qualified according to law.

\*\*\*SEC. 2. That members of the board of trustees shall not be removed from office except upon complaint filed by the Chairman of the Board and the case heard before the Governor and the Council of State. Provided, that whenever a trustee shall fail to be present for one year at the regular meeting of the board, his place as trustee shall be deemed vacant and said vacancy shall be filled by the Governor subject to the approval of the Senate when it next convenes.

SEC. 5867. That the board of trustees shall have power to prescribe the course of study and shall lay special emphasis on those subjects taught in the public schools of the State and on the art and science of teaching.

SEC. 5868. The board of trustees shall make no rules that discriminate against one county in favor of another in the admission of pupils into said college.

SEC. 5869. That when, in the judgment of the board of trustees, the best interest of the college will be promoted thereby the board may decline to admit young men into the rooms of the dormitories.

SEC. 5870. That all rights and titles heretofore acquired in any way for the use and benefit of said college shall vest and remain in the said board of trustees as herein incorporated.

SEC. 5871. That the trustees shall report biennially to the Governor before the meeting of each General Assembly, the operation and condition of said college.

## LOCATION

The college is located in the City of Greenville, Pitt County, North Carolina. Greenville is at the junction of the Norfolk-Southern and the Weldon-Kinston Branch of the Atlantic Coast Line. It is on state highways 11, 43, and U. S. highway 264.

The plant of the College, at present, consists of a campus of approximately one hundred acres, on which there are twenty-two buildings appropriate to the work of the college.

It is 86 miles east of Raleigh, on the Tar River, and 65 miles, air line, from the Atlantic coast.

## HISTORY

The General Assembly passed an act authorizing the establishment of the College March 8, 1907.

Ground was broken for the first building July 2, 1908.

The first regular session opened October 5, 1909.

Only one-year and two-year curricula were offered.

The first summer school was held May 24 to July 30, 1910.

The first class was graduated from the two-year normal curriculum June 6, 1911.

The College was authorized to offer a four-year curriculum and to grant the Bachelor of Arts degree November 20, 1920.

The first degrees were conferred June 1922.

The College was authorized to grant the Master of Arts degree August 22, 1929.

The first Master of Arts degree was conferred in August, 1933.

The College was authorized to offer a curriculum leading to the Bachelor of Science degree May 29, 1941.

## AIM

As is seen in the act of the General Assembly, section 5864, the object of the State in establishing and maintaining the College is to give "to young white men and women such education and training as shall fit and qualify them to teach in the public schools of North Carolina."

The aim of the College is to teach its students not only subject-matter but also the processes by which the learning mind functions. Its purpose is to give the students:

1. Such knowledge of the studies taught in the public schools as a teacher must have in order to teach them properly.

2. A knowledge of other studies that are related to the branches taught in the public schools.

3. A knowledge of the mental and physical powers of the child and their methods of development.

4. A knowledge of the principles of education and methods of teaching.

5. The practical application of these principles in the actual work of the schoolroom by practice teaching.

6. A knowledge of the methods of organizing and managing schools.

7. A knowledge of the school law of the State.

In brief, this institution aims to prepare teachers, both theoretically and practically, for teaching in the public schools of North Carolina.

## DISCIPLINE

In conducting a college for young men and women who are about to assume the responsibilities of so serious and dignified a profession as teaching, there should be no occasion for arbitrary and iron-clad rules. Each student should attend promptly and faithfully to every duty and have due consideration and regard for the rights and privileges of others.

No rules are made by the College authorities except those necessary to govern routine work, but if the pupil is found to be falling behind in his studies, neglecting his duties or exerting an unwholesome influence, prompt steps are taken for his amendment. If a pupil does not show a disposition to conform to high standards of conduct he is not considered a good pro-

spective teacher; and if he is found unresponsive to instruction and counsel he is requested to withdraw from the College. The student is given the maximum of freedom commensurate with the orderly administration of such an educational institution as this. He is given every encouragement and ample opportunity to develop self-direction in modern coöperative society.

In the spirit of the institution is found the discipline of the College.

### STUDENT GOVERNMENT

To promote a sense of personal responsibility in the students of the College a Student Government Association has been inaugurated, subject to the approval of the president of the College and of an advisory board. This organization adopts such regulations as concern the entire student body. The association has so administered its duties as to merit the approval of both faculty and students.

### HEALTH

There is a central heating and lighting plant that provides steam heat and electric lights for all the buildings. A modern system of ventilation is installed. All those things necessary for sanitary conditions are of the best type procurable. The College gets its water from the city of Greenville. The city owns its waterworks and has the water examined frequently, thus insuring its purity. In short, the college life of each student is made as comfortable as can be, and every possible precaution for health is taken.

The health conditions in the College from the first, have been entirely satisfactory.

### MEDICAL ATTENTION

The college physician maintains an office in the infirmary. Regular clinics are held twice daily under the supervision of the physician and assistant physician, and medical services are available at all times on call by the infirmary supervisor. All students living in the dormitories and all day students who subscribe to the infirmary services by payment of the medical fee are admitted to the clinics and to the infirmary wards at the discre-

tion of the physicians. Two resident nurses are in charge of the infirmary. A well equipped building adequately meets the needs of student health.

Every student, following admission, is given a thorough physical examination. Satisfactory evidence of successful smallpox vaccination is required of all students. It is expected that in so far as is possible corrective measures will be taken for the defects found.

The infirmary supplies many common drugs without charge to the student and such services as the staff may render are without charge. Additional services (consultations, special nurses, operations, special drugs) recommended by the attending physician and approved by the student's parent or guardian must be paid for by the student.

### THE COUNCIL ON STUDENT ADJUSTMENT

The function of the Council on Student Adjustment is to confer with students who find it difficult to make the adjustments required in college life. Problems of all kinds are given consideration. All matters which are taken up in conferences with students are handled in a confidential and personal manner. Taking advantage of the assistance offered by the Council is not compulsory.

### STUDENTS OUTFIT

Each student is expected to bring for her own use the following articles: Two pairs of single sheets, one pair of blankets, two counterpanes, two pillow-cases, six towels, covers for dresser and table, a spoon, and a glass.

Only single beds are used.

Note: The college laundry stamps each student's wash with a personal mark for identification.

### BUILDINGS

ADMINISTRATION BUILDING. This building was constructed in 1929-30, and is given over entirely to administrative offices. It contains the offices of the President, the Treasurer, the Registrar, and of the Placement Bureau.

**EDUCATION BUILDING.** The building formerly occupied by the Science Department is now known as the Education Building and is occupied entirely by the Department of Education.

**AUSTIN BUILDING.** The Austin Building is the former Administration and Classroom building. It contains thirty classrooms, the stationery room, the book room, teachers' offices, music rooms, the office of the Alumni Association, and an auditorium where chapel exercises and other general assemblies of students are held.

**ROBERT H. WRIGHT BUILDING.** The Robert H. Wright Building was named in honor of the first president of the college, who held the office for twenty-five years, and sponsored its construction. It contains a main auditorium, music rooms, and rooms for the physical education department.

**CLASSROOM BUILDING.** The Classroom Building is one of the most beautiful buildings on the campus. It houses the departments of Commerce, Geography, Home Economics, Science and Industrial Arts. This building is entirely modern in its architecture, arrangement of rooms, offices and equipment.

**HOME MANAGEMENT HOUSE.** Prior to 1936 a portion of Jarvis Hall was used for practice purposes for the course in home management. In 1936, on the completion of the new infirmary, the building formerly occupied as an infirmary was converted into a home management house and has since been used for that purpose. It contains ten rooms which allows separate rooms for a group of seniors and an instructor, as well as ample space for entertaining. It also contains an apartment where a smaller group lives on a lower income level. The units of work on each level are run simultaneously.

**LABORATORY SCHOOL.** The College has a well equipped school building on the campus for practice teaching purposes in the elementary grades. This school has an enrollment of over 500. For practice teaching in high school subjects, the College has a coöperative arrangement with the Greenville High School. This school has an enrollment of about 736.

**THE LIBRARY.** The Library, located on Wright Circle, was erected in 1927. It is a fireproof building and is used entirely

for library purposes. The reading rooms will accommodate 200 readers and the stack room has capacity for 65,000 volumes. The book collection numbers more than 37,000 volumes at present and is being added to at the rate of around 3,500 a year. More than 200 magazines and newspapers are received. Instruction in the use of the Library is given all freshmen and the students are encouraged to take advantage of its facilities. Courses in Library Science are offered for teacher-librarians.

**DORMITORIES.** The college is equipped with dormitory space to accommodate 838 students in four dormitories for women students as follows:

Wilson Hall .....	190 students
Jarvis Hall .....	171 students
Fleming Hall .....	191 students
Cotton Hall .....	286 students

Each dormitory room is provided with two single iron beds with springs, mattress and pillows, two chairs, a table, a lavatory, a bureau, a wardrobe—all the necessary furniture for comfortable living.

**RAGSDALE HALL.** Ragsdale Hall is a dormitory full equipped for the accommodation of women members of the faculty and other women employees of the college. Its equipment is similar to that of the dormitories for students.

**MEN'S DORMITORY.** The first floor of Ragsdale Hall has been converted into a dormitory for men. Thirty-five men students can be accommodated in these comfortable and well lighted quarters.

**FACULTY RESIDENCES.** On the campus are four residences which are rented to members of the faculty.

**DINING HALL.** The dining hall is one of the most attractive buildings of the institution. The equipment in the kitchen is modern in every sense. For the preservation of meats, vegetables, and other foodstuffs, the College has a refrigerating plant of the best type. The dining hall is under the direction of a trained dietitian and each menu is made out with much care—the object being to provide for the student body the most wholesome food and to see that this food is prepared in the best way possible.

**COLLEGE POSTOFFICE.** The college postoffice is located in a wing of the dining hall. Students, faculty, and officers of the college may secure postoffice boxes for convenience in getting their mail. Regular mail deliveries from the downtown office are received at least twice a day and outgoing mail is taken up at the same time.

**THE LAUNDRY AND POWER PLANT.** The laundry and the power plant are under the same roof. The equipment here, as in the other buildings, is of the best possible type. The laundry has all the necessary equipment for efficient laundry work.

The power plant supplies sufficient power for heating and lighting the College and for refrigeration. There are two sets of units, so that if one is out of commission the other may be used, thus preventing inconvenience, as well as saving wear and tear on machinery.

## COLLEGE PUBLICATIONS

At least four regular bulletins are published by the college each year. The regular bulletins are the annual catalog, the summer school bulletin, and two others that deal with some phase of teacher training. Recent bulletins have dealt with The Campus Training School, A Handbook for Student Teachers, The Equipment of the Teacher, and Departmental Objectives.

## STUDENT PUBLICATIONS

The *Teco Echo*, the college paper, is published twice a month by the students. It carries the usual college and alumni news, and is designed to furnish an outlet to student expression on all matters pertaining to their educational development.

*The Tecoan* is the college annual. It is published by the students at the close of each regular school year.

*Pieces O'Eight*, a quarterly magazine, is devoted to fiction, humor, and general student activities.

## ORGANIZATIONS

It is the policy of the college to encourage campus organizations that have for their purpose the building of character, per-

sonality and scholarship. The following is a list of such organizations:

Association for Childhood education	International Relations Club
College Band	Ki Pi Club (Dramatics)
College Orchestra	Lanier Society
Commerce Club	Mathematics Club
Commerce Sorority	Poe Society
Debaters Club	Science Club
Emerson Society	The Alumni Daughters and Sons
English Club	Varsity Club
French Club (Phi Sigma)	Verse Speaking Choir
Glee Club	Women's Athletic Association
Home Economics Club	Young Men's Christian Association

Young Women's Christian Association

The Phi Sigma Chapter of the Sigma Pi Alpha

The Robert H. Wright Chapter of the Future Teachers of America

#### THE YOUNG MEN'S AND YOUNG WOMEN'S CHRISTIAN ASSOCIATIONS

The religious interests of the College are centered in the Young Men's and Young Women's Christian Associations. The Young Women's association was organized in 1909 and the Young Men's in 1939; since that time both of the organizations have done very effective work in promoting high ideals among the students. Regular devotional meetings are held to which all members of the student body and the members of the faculty are invited.

The organizations have their own building for religious and social activities; and they sponsor a reading room where students may come at their pleasure to read or study.

Each year these associations send delegates to the Southern Student Conference held at Blue Ridge, North Carolina, where methods for bettering the coming year's work are studied.

These associations render efficient aid in meeting new students and in the organization of the college at the opening of the fall quarter.

#### ALUMNI ASSOCIATION

On June 5, 1912, by the classes of 1911 and 1912, the Alumni Association of the College was organized, formulating as its

purposes—"to develop a spirit of coöperation among its members, to increase a spirit of loyalty to its Alma Mater and to promote the general welfare of the institution." A regular meeting of the Association is held on Alumni Day of each commencement.

Alumni headquarters—one large room on the main floor of the Austin Building partitioned to include an office, a filing room, and a reception room—was provided and furnished by the Administration in February 1940; and then also a general fulltime secretary for the Association was employed by the coöperation of the Association and the College.

Since its organization the Association has made several gifts to the College, among which are the memorials—the Kate R. Beckwith Gateway; the Austin Loan Fund; the Wilson Memorial; and a contribution to the Robert H. Wright Loan Fund. In June 1940, the Association for the first time presented a symbolic alumni award to a graduate in recognition of achievement. The first recipient was Miss Pattie Dowell, who was the first registrant and the first graduate of the College and who has achieved much in the field of teaching. By action of the executive board of the Association a symbolic award is to be presented annually.

## ATHLETICS

Physical education, recreation and athletic facilities are provided for both men and women students. The Student Athletic Association sponsors both intra-mural and inter-collegiate athletics. Inter-collegiate athletic contests in football, basketball, baseball, tennis and boxing are scheduled for the men students. While athletics for men are relatively new in the College the men's teams have made gratifying progress during the past few years. Field hockey, soccer, volleyball, basketball, softball and tennis clubs have been organized by the women students and contests are scheduled with outside institutions in many of these sports through play day programs.

To be eligible for participation in inter-collegiate athletics a student must meet the minimum residence requirement of the college in credit courses carried per quarter. Twelve quarter hours is the minimum requirement for the current year.

The intra-mural sports program is being enlarged in scope each year to make "Sports for All" a reality. The intra-mural program for men includes the following sports: touch football, basketball, volley ball, tennis, archery, badminton, horse-shoes, table tennis, softball and track and field athletics. The following activities are on the intra-mural sports calendar for woman: field hockey, soccer, hiking, tennis, archery, basketball, softball, track and field athletics, volley ball, badminton, table tennis, paddle tennis, shuffle-board, deck tennis and bicycling.

All students are encouraged to take part in a number of sports throughout the year. Regular participation not only develops those qualities which make for a healthy and well rounded life, but also aids the student in gaining playing and teaching skills in a wide variety of sports which is an invaluable asset to every teacher.

### STUDENT LOAN FUNDS

Since the founding of the College in 1909, graduating classes, alumni, organizations, and individual friends of the College have contributed toward loan funds for worthy students.

The first gift toward a loan fund was made by the class of 1911, the first class to be graduated from the College. For more than a decade, each succeeding class made a liberal contribution toward that fund which was called the "Students Loan Fund." The class of 1922 named their gift the "Wilson Loan Fund." The alumni established the "Beckwith Loan Fund" and the "Austin Loan Fund." The funds from the above sources now total \$4,514.07.

Other donors of loan funds together with present values of those loans are listed below:

A. B. Andrews Loan Fund.....	\$ 5,356.05
Beckwith Loan Fund.....	601.21
Kiwanis Loan Fund.....	163.56

THE ADDIE FULFORD RODMAN MEMORIAL LOAN FUND, donated by Colonel W. B. Rodman in memory of his wife, yields approximately \$400 per year. This fund is in the custody of the State Department of Public Instruction.

During the school year 1933-34 two new loan funds were started—one by the Pitt County Medical Society and the other by the Greenville Tobacco Market. These two funds continue to grow.

#### APPLICATIONS FOR LOANS

Applications will be considered by the Loan Fund Committee of the College when made by students on blanks furnished by the Treasurer. The funds are limited in amount and are loaned to students only for use in their junior and senior years and on the surety of two approved signatures. Application should be made at least two weeks before the beginning of the quarter for which the loan is desired.

No student may borrow more than the actual college expenses for any one quarter, and no student may borrow a total of more than \$250.00 during his college career.

Scholarship and student government records are considered in the awarding of loans.

#### SCHOLARSHIPS

THE ANDREWS SCHOLARSHIP. An endowed scholarship, valued at \$100.00 annually, and known as the Andrews Scholarship has been given by Mr. A. B. Andrews in memory of his wife, Helen Sharples Andrews.

U. D. C. SCHOLARSHIPS. (a) The Samuel S. Nash Scholarship, \$130.00 annually, is given by the Thirteenth District of the United Daughters of the Confederacy.

(b) The Gen. James Johnston Pettigrew Scholarship, \$130.00 annually, is given by the North Carolina Division of the United Daughters of the Confederacy.

A number of working scholarships are available for students doing graduate work.

Application for these should be made to the chairman of the committee on Graduate Instruction.

### GIFTS TO THE COLLEGE

The two literary societies and the various graduating classes have left a large number of donations to the College. Among these gifts are oil portraits of the four men most closely associated with the establishment of the College, money with which to buy plants and shrubbery for the campus, books for the library, funds for interior decoration, and curtains for the stage.

### PLACEMENT BUREAU

To the Placement Bureau of the College are referred all matters relating to the placement of its graduates. Any graduate of the College is eligible for free registration in the Bureau.

The services of the Placement Bureau are available at all times to school officials, whether they wish the College to make recommendations or seek a frank, confidential opinion regarding graduates who have applied to them for teaching positions. In responding to a call for a teacher, the Bureau endeavors to recommend those who are best equipped and adapted by training, experience, and personality for the position in question.

Since school employment officers often give preference in employment to candidates who have training and skill in extra-curricular activities, it is advisable for students to develop during their years in college one or more useful skills outside their regular class work. Skill in music, glee club, piano, orchestra, physical education, basketball, playground activities, dramatics, debating, newspaper work, etc., assist in securing a good teaching position and in rendering a desired service to employers. Students should develop skill in at least one extra-curricular activity that will be of service to them as teachers.

They should choose the activities in which they have some natural ability.

## HIGH SCHOOL TEACHERS CERTIFICATES

These certificates will be issued on the basis of transcripts of college records which show that a required amount of professional credit and specialized work on major subjects has been earned. Graduation from college is required.

Each applicant should meet the requirement in two or more teaching fields. Subjects for which certification is granted will appear on the certificate.

The professional requirements on all high school teachers' certificates shall be 18 semester hours (27 quarter hours) as follows:

1. Educational Psychology ..... 2 sem. hrs.

## CERTIFICATES FOR TEACHING IN THE ELEMENTARY SCHOOLS

Before any certificate will be issued for teaching in the elementary schools, the records from the institution in which the applicant received his training, must show that he has reached a satisfactory state of proficiency in spelling and penmanship. The certification will be made by the institution and will appear on the record.

Grammar and primary certificates, class A, require of candidates, who do not hold a lower grade certificate, graduation from a standard four-year college or the equivalent, embracing not less than 120 semester hours.

### Primary and Grammar Grade A Certificate

After September 1, 1941, the State Department of Certification will require of in-service teachers the satisfactory completion of the requirements for a degree from a standard college and the specific certificate requirements as qualifications for the primary and grammar class A certificate.

### Librarians

Whole-time librarians as of 1941 must hold a degree from a standard four-year college, have met professional requirements

not less than those for the Class A Teacher's Certificate and shall have earned at least twenty-four semester hours of credit in Library Science taken in an accredited library school. This work shall include administration, cataloging and classification, reference, children's and adolescent literature.

Teacher-librarians, that is, teachers who give a portion of their time to library work, shall have earned a degree in a standard four-year college, met professional requirements for the Class A Teacher's Certificate, and earned at least twelve semester hours in Library Science. This work shall include administration, reference, children's and adolescent literature.

### Health and Physical Education for Elementary and High School Teachers

## EXTENSION AND CORRESPONDENCE CREDIT

A student is not allowed, except by special permission from his adviser, and then only when he is carrying less than the maximum amount of work, either to begin or to continue correspondence or extension courses while taking work in residence at East Carolina Teachers College.

Moreover, a student enrolled for correspondence or extension work with another college must notify his adviser when he is taking such courses. Students are held individually responsible for any violation of this regulation.

Not more than fifteen per cent of the total hours required for the completion of any curriculum shall be earned through correspondence or extension study, or both.

<sup>1</sup> Required service courses, in health and physical education are not acceptable for credit towards certification in these fields.

<sup>2</sup> 6-8 semester hours of biological and physical sciences and 6-8 semester hours of social sciences recommended as prerequisites.

## FIELD COURSES

### Regulations Governing Field Courses

From time to time field courses may be offered by the college to students who desire to enroll for educational tours through certain sections of the United States. The field courses do not duplicate any other courses offered by the college, and credit for them will be counted only as free electives on the student's curriculum. Application for admission to an educational tour must be made to the Registrar of the College in the same manner as for admission to residence study.

1. Credit will be given according to the length of trip on any given course as follows:
  - a. A maximum of twelve quarter hours for a field course of 36 days with a minimum of two days on the campus before the course starts and five days on the campus at the close of the course.
  - b. A maximum of nine quarter hours credit will be given for a field course of 27 days with a minimum of two days on the campus before the course starts and three days on the campus at the end of the course.
  - c. A maximum of six quarter hours credit for a field course of 18 days with a minimum of two days on the campus before the course starts and three days on the campus at the close of the course.
  - d. A maximum of three quarter hours credit for a field course of 11 days with a minimum of one day on the campus before the course starts and two days on the campus at the close of the course.
2. Not more than twelve quarter hours credit toward the A.B. degree will be allowed any student for field courses.
3. All field courses for which credit is given shall be made by the college.
4. The usual college regulations shall apply to the time limit for completing the work and reporting grades to the Registrar at the close of the course.
5. Not more than thirty students per teacher shall be included in any field course.

6. The usual college regulations as to tests, readings, etc., shall apply to field courses.

## SUMMER QUARTER

It is the aim of the College to render every service it may to advance the best interests of public education in our State. Realizing that many teachers wish to study after their schools close, that they may better equip themselves for their profession; also realizing that all the schools of the counties do not close at the same time, the College, to meet these conditions, will admit students at the beginning of any regular quarter, and in addition to this it conducts a summer quarter.

The summer quarter is equivalent in all respects to any other quarter in the college year. Credits completed in the summer quarter count toward graduation.

If there is sufficient demand for any of the courses offered in this catalogue, the course is given. See summer school bulletin for information in detail.

## OBSERVATION AND PRACTICE TEACHING

The campus laboratory school in the elementary grades, the local city high school and several coöperating schools in Eastern North Carolina are utilized for supervised student teaching. Each student working toward the Bachelor of Arts degree shall do at least ninety clock-hours of supervised teaching which shall be preceded by such a period of observation in the training school as may be specified by his training supervisor. The practice teaching is accompanied by regular conference periods with the supervisor. To be eligible for admission to practice teaching a student shall have at least as many quality points as quarter hours of credit. The fee of \$10.00 for practice teaching is due the Treasurer of the college at the beginning of the quarter in which the practice teaching is done.

Application for the course in Observation and Practice Teaching must be made to the Registrar on a form provided, at least one month before the beginning of the quarter in which practice teaching is desired.

Since it may not be possible to admit all applicants to this

work during a given quarter, they will be accepted in the order of the date of application.

No student will be admitted to practice teaching until he has done two full quarters of work in this college.

Practice teaching is directed by a supervising teacher in charge of each room, by teachers of subject matter and methods courses in the College, and by the Director of Training Schools, who is in general charge of this phase of work.

The college reserves the right to assign students to do practice teaching in the campus training school, the local city schools, or in nearby public schools outside the city.

Students who do practice teaching in the grammar and primary grades shall carry both courses of practice teaching during the same quarter, except that they may carry one course during the summer term.

The supervising teachers meet the student teachers in regular conference periods, and the methods teachers have frequent conferences with them. Each student is placed in the work for which he is best fitted, then he is given careful instruction in handling children and in presenting subject matter to them. Before the close of the year each student is left in complete charge of his class for a limited time, so that he may try himself out under conditions approaching an independent teaching situation.

## FRESHMAN REGISTRATION

In order to facilitate the process of adjustment which the beginning student must pass through, the College has set up at the beginning of the fall quarter a "Freshman Registration" program for all students who are entering here for the first time. The events of this program include preregistration counseling, special lectures in student traditions and College regulations, tours of the College plant, social features in the student organizations of the College, making up the student's program of studies for the quarter, and the administration of certain tests by the Conference Committee. These tests are administered as a part of the first year student's registration at the beginning of the fall, winter, and spring quarters. This program begins with a meeting of the entire freshman class in Lecture Room A, new classroom building, at 9:00 a.m., on the first day of registration.

All students entering the College for the first time are required to be present at all appointments comprising the freshman registration program.

## ADMISSION

Application for admission to East Carolina Teachers College must be made on a form provided by the College. It must be approved by the Registrar before the student is permitted to enroll. The application for admission must be accompanied by the reservation fee of \$5.00. The reservation fee becomes a registration fee if the student presents himself at the College for registration, and it is not then refundable.

The dates for registration in the different quarters of the college year are given in the calendar which appears in each annual catalogue.

No student will be given, under any condition, a permit to register in any quarter later than two weeks after the regular date for his registration. Registration is not complete until all required registration forms have been filled out properly and filed with the Registrar. These forms must be returned to the Registrar within twenty-four hours after the student has received his permit to register. No registration forms will be accepted by the Registrar after one day has elapsed following the close of the registration period of two weeks.

Registration is not complete until all fees for the quarter have been paid or arrangements made with the Treasurer for paying them, and required forms on file in the Registrar's office.

Students who have not attended another college may be admitted to East Carolina Teachers College under any one of the following conditions:

1. The satisfactory completion of a four-year course in an approved secondary school, with sixteen units of credit.

2. The equivalent of such a course as shown by passing the College entrance examination.

3. Graduation from a four-year non-standard classified high school, and passing the State Senior High School examination (for admission to college), with sixteen units of credit.

4. Evidence of having satisfactorily completed a standard secondary course in an accredited private or denominational school.

To be admitted on a transcript from another college a student must have passed more than 50 per cent of the credit hours of work carried during the last session in such college, and his grade average must be better than ten points below "3" or "C."

Applicants for admission here for the first time are urged to have their credentials in the hands of the Registrar of the College several weeks prior to registration day. An official record of high school work must be presented as well as an official transcript of all college work done. Honorable dismissal from the last college attended is required. These credentials must be approved by the Registrar before the student is permitted to register and attend classes.

No student will be admitted until records proving his eligibility have been presented.

To be admitted to any curriculum a student must be sixteen years of age.

The major portion of the secondary school course accepted for admission should be definitely correlated with the curriculum to which the student is admitted.

A foreign language is not required for admission.

### PREScribed UNITS FOR ADMISSION

1. ENGLISH .....4 units  
     Grammar and composition—one or two units.  
     American literature—one unit.  
     English literature—one unit.
2. MATHEMATICS .....1½ units  
     Algebra—at least one unit.  
     One unit in arithmetic is recommended for those  
         majoring in elementary school teaching.  
     One unit in geometry is recommended for those  
         majoring in high school teaching.
3. SOCIAL SCIENCE .....2 units  
     American history—one unit.  
     Additional history, civics, or geography, one unit.
4. BIOLOGICAL AND PHYSICAL SCIENCE.....2 units  
     At least ½ unit in each of two fields selected  
         from biology, general science, chemistry, physics.
5. ELECTIVE .....6½ units

Not more than three vocational units (in all) will be accepted from home economics, manual training, agriculture, commercial subjects including short-hand, typewriting, bookkeeping, etc.

Mathematics majors must present 2 units of algebra and one unit of plane geometry.

Applicants not meeting these requirements, and graduates of non-standard high schools may be admitted by special examination. The examination is general and covers the usual secondary school material in English, mathematics, history, and science.

### CLASSIFICATION

Students working toward the completion of a definite curriculum in East Carolina Teachers College will be registered with a definite classification, as Freshman Primary, Senior Grammar Grade, etc. Those taking a full schedule of studies for purposes other than graduation in this college will be listed as "Unclassified." Students taking a limited schedule of study (not more than eight hours) will be classified as special students. Students having fewer than 43 quarter hours of credit are classified as Freshmen; those with 43 to 91 quarter hours are classified as Sophomores; those with 92 to 138 quarter hours are classified as Juniors; and those with 139 quarter hours or more are classified as Seniors.

### CREDIT

The College operates on the quarter plan. The fall, winter, spring, and summer quarters are each approximately twelve weeks in length. The College is in session six days a week. Most classes meet three days a week. A quarter hour of credit is earned by one recitation period a week for one quarter; three quarter hours of credit are earned in a class that meets three times a week for a quarter, etc.

Seniors electing courses numbered below 100 will be allowed no more than two-thirds of the credit such courses carry.

Credit will not be allowed on courses taken which substantially duplicate courses already completed.

### CLASS ABSENCE

Absences are counted from the first class meeting, hence late registration constitutes absence from class. The general regula-

tion is that a student may not receive credit for any course in which more than one-fourth of the class meetings are missed. Each absence from class shall be recorded as a double cut unless it is excused by the Registrar on application by the student showing that the absence was necessary and caused by an emergency such as personal illness, illness in the family, representing the college, or representing an organization of the College. When so excused only single absence will be charged. Absences are not excused at any time for any reason. Work missed must be made up to the satisfaction of the instructor.

### GRADES AND SCHOLARSHIP

Beginning with the fall quarter 1942 a quality-point system will be used to calculate all student scholarship standings. The grades 1, 2, 3, 4, 5, and c are used by this college; 1 is the highest grade given, 4 is the lowest passing grade, and 5 is a failing grade. A grade of c indicates a "condition" on the course because the student has not quite completed the quantitative requirements of the course.

In qualitative values the grade 1 will earn 3 quality points a quarter hour on the course; the grade 2 will earn two quality points a quarter hour; and the grade 3 will earn 1 quality point a quarter hour. No quality points will be given for a grade of 4, and one quality point will be deducted from the student's total for each grade of 5.

When a student fails to maintain the minimum quality of scholarship indicated below, he shall be ineligible to re-register in the college:

- At the end of the first year (3 quarters)—35 quarter hours of credit and 30 quality points,
- at the end of the second year (6 quarters)—85 quarter hours of credit and 85 quality points,
- at the end of the third year (9 quarters)—135 quarter hours of credit and 135 quality points.

After the sophomore year a student shall have at all times at least as many quality points as he has credit hours as one condition of re-enrollment in the college.

Exceptions to this regulation may be made only by the Committee on Classification and Credit on the written recommenda-

tion of the adviser of the student concerned and of the teachers under whom grades below average were made during his last quarter. If exception is made, the student may re-enroll only on probation and exception shall be made only once for the same student. The quality point-credit ratio of transfer students will be considered "1" or average for all credit hours accepted toward the completion of the student's curriculum.

The grade made on a course once passed in this college cannot be changed on the official record except to correct a manifest error, though a course may be repeated for a better knowledge of its content.

No credit will be given for courses that carry the lowest passing grade when submitted on transcript from another college.

## REGULATIONS CONCERNING STUDENTS' PROGRAM

All regular students are required to schedule at least 12 credit hours per quarter.

Courses may be dropped within the first four weeks of the quarter provided such changes are approved by the teacher whose courses are concerned, by the student's adviser, and by the registrar. If a course is pursued for four or more weeks after registration and then dropped, that course will be reported as failed and so counted in arranging the program of work for the next quarter.

The standard student load is sixteen hours per quarter. In order to facilitate making schedules, students may carry seventeen hours. Students who average two or better may carry eighteen hours the following quarter. Students who fail one or more courses, the credit value of which totals three quarter hours, or more, shall carry no more than thirteen quarter hours the following quarter, except that all regular students must schedule a minimum of twelve hours per quarter.

A student cannot enter courses later than the beginning of the third week of the quarter and get credit for such courses.

A student may drop courses from his program and take other courses instead, provided such changes are made before the beginning of the third week of the quarter and provided also that such changes are approved by the teachers whose courses are concerned, by the student's adviser, and by the Registrar. A charge

of twenty-five cents will be made for each subject added or dropped from a schedule at the student's option.

A student, other than a first quarter freshman, who fails to carry successfully at least nine quarter hours of work during any quarter shall not be readmitted to the college during the next succeeding quarter. This regulation is enforced strictly.

A special student, having a schedule of fewer than nine hours, must receive a passing mark on each subject scheduled in order to be eligible to readmission to the next succeeding quarter of the college.

## FEES AND EXPENSES

### DAY STUDENTS

The fee for day students, i.e., those not living in one of the college dormitories, is \$36.00 a quarter of twelve weeks.

### DORMITORY STUDENTS

The fee for dormitory students is \$98.50 a quarter. This fee covers tuition, instruction, board, room, laundry, rental of textbooks, admission to college entertainments, subscription to the college paper, and infirmary service for minor illness.

### RESERVATION FEE

A reservation fee of \$5.00 must accompany the application for admission from all students. The fee is credited to the student's account, provided he enrolls in the quarter for which reservation is made. If he wishes to withdraw his application and notifies the college in writing at least two weeks before the opening of the quarter, the fee will be returned, except that no refund of a fall quarter fee will be made if requested after September tenth.

### FEES PAYABLE EACH QUARTER BY ALL STUDENTS

	Board and Room	Registration Books, etc.	Tui- tion	Student Activity	Total
Dormitory Student .....	\$62.50	\$7.50	\$22.50	\$6.00	\$98.50
Day Student .....		\$7.50	\$22.50	\$6.00	\$36.00

All the fees above, except the student activity fee, must be paid to the Treasurer at the beginning of the quarter.

The student activity fee must be paid to the Treasurer of the Student Fund at the beginning of the quarter.

## OTHER FEES

Non-residents of N. C. (a quarter).....	\$25.00
Private music lessons (a quarter).....	7.00
Laboratory fees in certain subjects.....	2.00
Practice teaching .....	10.00
Diploma fee (with application for graduation).....	5.00
Late registration .....	1.00
Changes in schedule (a subject).....	.25
Transcript (after first).....	.50
"Auditor" in one or more courses.....	6.00
Infirmary fee*.....	1.00

Special students, i.e., day students who schedule not more than eight credit hours a quarter, will pay a fee of \$3.00 a credit hour scheduled.

These fees are subject to revision by the Board of Trustees of the college, and it reserves the right to revise them at any time it is found necessary or advisable to do so.

To be exempt from the out-of-state fee:

1. The parents or guardian of a student must be residents of the state at the time of his registration, or
2. The student must have established residence in the state at least six months before he entered the college.

A resident student is construed to be one who actually lives in the State and not one who has merely moved into the State for the purpose of securing an education from one of the State Institutions.

## WITHDRAWALS, REFUNDS, CREDITS

Students who, for any reason, withdraw from the college before the end of any quarter will have a proportionate part of the amount paid for board refunded. In addition, if a student withdraws before registration for the quarter is closed, one-half of the fees for room and tuition will also be refunded. Refund will be calculated from the date of official withdrawal from the College.

A student desiring to withdraw from college should do so with the consent of his parent or guardian and the approval of the Registrar. Students who withdraw unofficially are not eligible to re-enroll in the college.

---

\* Charged day students not living in own homes. Gives infirmary service.

**CREDIT.**—No degree, diploma, or certificate will be granted or a transcript of credits furnished a student until all financial obligations to the college, other than student loans, have been paid.

All previously incurred expenses and accounts at the college must be fully paid or secured before a student may re-enter at the beginning of any quarter.

## REQUIREMENTS FOR GRADUATION

Any student who receives a degree from East Carolina Teachers College must have done as much as one year (36 weeks) in residence study in this College. The three quarters need not be consecutive, but the last quarter of resident study previous to graduation must be done in this College.

Any student who receives a degree or diploma from the College must meet the requirements of the catalogue under which he enters or of some subsequent catalogue, provided that no student will be permitted to graduate under a catalogue issued more than seven years prior to the date of his graduation.

No person will be graduated from the College who has not fully met all the requirements laid down by the State Department of Certification for the teacher's certificate to which his curriculum specifically leads.

In order to graduate, a student shall have earned at least as many quality points as he has quarter hours of credit. Grades made on courses taken by correspondence, by extension, and in summer schools other than East Carolina Teachers College shall not be considered.

When a student changes from one curriculum to another he shall notify the Registrar in writing, stating the major he is dropping and the one he is taking up.

A student who changes from one curriculum to another will be required to complete fully all of the required core of the curriculum from which he is to be graduated.

Presence at graduating exercises is required, except when permission for graduation in absentia has been granted by the Registrar. A written request for such a permission must be made at least ten days before commencement.

Application for graduation must be made on a blank provided by the college not later than registration day of the last quarter the student is enrolled in the college. The diploma fee of \$5.00 must accompany the application.

Before a student is granted a diploma he is required to pass a test in spelling. Students majoring in primary and grammar grade work must also pass a proficiency test in handwriting. To pass the spelling requirement the student must make a score equal to or better than the eighth grade norm on each of two standard spelling tests. To pass the handwriting requirement the student must equal or better the quality score of seventy on the Ayer's handwriting scale. Passing scores in these tests constitute a prerequisite to practice teaching. These tests will be offered and students will be required to take them during the first year in residence. Names of those passing the tests will be reported to the Registrar's office on the form regularly used to report class grades.

Upper classmen whose written work is so poor as to lack clearness and accuracy may be reported by their teachers to the Committee on Standards in Written Composition and assigned to the English Department for remedial work until their advisers and the Committee are satisfied that they no longer need help.

### CURRICULA OFFERED

In order to carry out the aims of the College the following regular curricula of instruction have been arranged and are offered:

- (a) A Four-Year Curriculum leading to the A.B. Degree, for those who expect to become Primary Teachers.
- (b) A Four-Year Curriculum leading to the A.B. Degree, for those who expect to become Grammar Grade Teachers.
- (c) A Four-Year Curriculum leading to the A.B. Degree, for those who expect to become High School Teachers.
- (d) A Four-Year Curriculum leading to the B.S. Degree.
- (e) Graduate work leading to the M.A. Degree in the fields of School Administration and Elementary Education, and in the following high school subjects: English, History, Mathematics, Science, and Social Science.

## REQUIREMENTS FOR THE B.S. DEGREE

Candidates for the B.S. degree must meet the following requirements:

1. Satisfy all college regulations and requirements for graduation, except those pertaining to practice teaching and certification.

2. Complete the following courses within the freshman and sophomore years, unless major or minor requirements provide other subjects in these departments:

Economics 101; English 1, 2, 3, 110 and 111 or 112a and 112b; Geography 10; Government 1; History 10, 11, 12; Mathematics 154, 156; Physical Education, 6 hours; Psychology 103; Science, 9 hours sequence courses in Chemistry, Biology or Physics; Sociology 100.

Juniors cannot elect a course numbered below 100, and seniors cannot elect a course numbered below 200.

Each candidate must choose one department for a major and another department for a minor.

The number of credits in quarter hours for a major shall not be less than 42 nor more than 54. The credit hours required of each student, within the above limits, and the subjects to be taken by each student in the major department shall be determined solely by the director of that department.

The director of the major department is the student's adviser in all matters except those pertaining to requirements in the minor department.

The number of credits in quarter hours for a minor shall not be less than 30 nor more than 36. The credit hours required of each student, within the above limits, and the subjects to be taken by each student in the minor department shall be determined solely by the director of that department.

A student who completes three years work in any curriculum set up for the A.B. degree may secure the B.S. degree by meeting the following additional requirements:

A. For High School Majors:

1. Select one subject as a major and another as a minor.
2. Complete all courses for the major combination as set up for the A.B. degree, except practice teaching and, if the student desires to omit them, the remaining courses in Education.
3. Take any courses selected by his major adviser to substitute for practice teaching and any courses not taken in Education, provided that all courses taken to substitute for practice teaching and junior and senior courses in Education must be numbered 200 or above.

B. For Grammar and Primary Majors:

1. Complete all courses in the curriculum as set up for his major, except practice teaching.
2. Take any courses selected by his major adviser to substitute for practice teaching, provided that all courses used to substitute for practice teaching must be numbered 200 or above.

Note: The A.B. curriculum at East Carolina Teachers College carries the professional education courses that qualify the candidate for a state teachers certificate.

The B.S. Curriculum is a liberal arts curriculum and does not carry the education courses that qualify for a state teachers certificate.

Any student who completes the requirements for the A.B. degree and, in addition, completes the requirements under plan 1 for the B.S. degree may be granted both degrees, provided that no student may be granted two degrees at the same commencement or at the close of the same quarter.

## GRADUATE INSTRUCTION

1. Purpose. Graduate instruction is organized to provide for two classes of graduate students: first, those who wish to become candidates for the degree of Master of Arts, and second, those who wish to do work beyond the Bachelor's Degree without reference to a higher degree.

2. Administration. The administration and direction of graduate instruction is in charge of a Director of the Department of Graduate Instruction and a committee of five members of the faculty appointed by the President of the College.

3. Admission to Graduate Instruction. Application for admission to graduate instruction must be made to the Director of Graduate Instruction. Blanks for this purpose may be secured from his office.

To be admitted to graduate instruction, an applicant must hold a Bachelor's Degree from this College or from some other institution of equal rank or lack not more than six quarter hours of work to complete the resident requirements for the Bachelor's Degree, provided he is recommended for graduate standing by the Director of his Major Department. He must also have met the undergraduate requirements for his major and minor fields and made not less than an average grade of three in all his undergraduate work.

If the undergraduate work of an applicant does not show the completion of at least fifteen quarter hours in English, nine of which shall be Composition, and twenty-four quarter hours in a combination of Education and Psychology, such deficiencies shall be made up before the Master's Degree will be conferred.

Admission to graduate study is not equivalent to admission to candidacy for the degree of Master of Arts.

4. Transcripts. Graduates from other institutions must present an official transcript of all high school and college work com-

pleted. This transcript should be filed with the Registrar of the College before the first enrollment.

5. General Information. Each graduate student should choose a major field and consult the director of graduate study in that department with reference to the work to be done in that department.

Courses numbered 300 to 399 may be taken by graduate students if they are designated in the catalog as being open to graduate students.

Courses numbered 400 or above are open to graduate students only.

6. Marks. Credit is given for graduate instruction only for marks "1," "2," and "3."

7. Transfer of Credit. A limited amount of acceptable graduate credit earned in a fully accredited institution may be offered to apply on the Master of Arts degree. Such credit is allowed only on the recommendation of the department or departments concerned and the approval of the Graduate Committee.

## REQUIREMENTS FOR THE DEGREE OF MASTER OF ARTS

1. Residence. At least three full quarters must be spent in residence, provided that nine quarter hours shall count as the minimum of work for one quarter in residence.

2. Admission to Candidacy. Each student must make application to the Director of Graduate Instruction for admission to candidacy not later than the first week of the quarter or summer session at the close of which the degree is to be conferred.

3. Course Requirements. At least forty-five quarter hours of graduate work must be completed with no grade below a "3" and one-third of the grades above a "3." The work may be done under either of the following plans:

- a. Eighteen quarter hours in major field, nine quarter hours in Education or Psychology or in a combination of both, six quarter hours of seminar, twelve quarter hours electives, and a thesis. The electives shall be selected with the advice of the director of the major department.

- b. Twenty-four quarter hours in major field, nine quarter hours in Education or Psychology or in a combination of both, and twelve quarter hours electives to be chosen with the advice of the director of the major department.

Not more than fifteen quarter hours of work may be taken in any one quarter.

Not more than twelve quarter hours of work may be taken from courses numbering 300 to 399.

4. Thesis. If a thesis is written it must show the result of an investigation of some educational problem related to the major field. The subject of the thesis must be approved by the director of his major department and the Graduate Committee at least two quarters before the degree is conferred. The thesis must be approved by the director of the major department and by the Graduate Committee at least two weeks before the degree is conferred. One bound typewritten copy of the thesis must be filed with the librarian of the college and one copy must be filed with the director of the major department before the degree is conferred.

No credit will be given for the seminar until after the thesis has been accepted.

5. Teaching Ability. Each student must satisfy the Graduate Committee as to his ability to teach. This may be done in either of two ways: (a) successful teaching experience, or (b) successful student teaching.

## CIVIL AERONAUTICS

In coöperation with the Federal Government, East Carolina Teachers College offers work preliminary to admission to advanced flying schools. This work was begun in March 1941 and has been in continuous operation. A number of students who began their flying here are already with the government flying forces. The college offers several related courses to supplement the course in ground instruction and flying which are supervised by an instructor designated by the federal government. An

excellent flying field, hangar, and training planes are part of the equipment for this work.

200. Primary Ground Instruction.

This course is divided into three parts:

1. Navigation.
2. Meteorology.
3. Civil Air Regulations.

Each division requires 24 hours work; credit:

4 quarter hours.

Credited as free elective on any curriculum.

Two hours a week. Three quarters. Credit: six quarter hours. For graduate students only.

In this course each student, under the direction and guidance of his adviser, presents at least one problem or subject each quarter. These problems are to be discussed and each student is supposed to take the lead in the discussion of his problem. Problems are to be chosen from major fields. The study of the problem must show original research or original organization on the part of the student presenting it.

#### 405. Investigations in the Teaching of Reading.

Three hours a week. Credit: three quarter hours.

Open to graduate students only.

The course consists in making an analytical study of researches that have been reported on the various phases of the teaching of reading. The child's difficulties in becoming familiar with the reading processes, the teaching difficulties in the subject, remedial work designed for the child's benefit, and a critical evaluation of the research studies with special reference to the psychological principles involved and the educational implications to be derived are given serious consideration in this course.

#### 412. Improvement of Reading Instruction in the Primary Grades.

Three hours a week. Credit: three quarter hours.

This course is planned for teachers of experience. Individual teaching problems will be given consideration.

Topics: Factors conditioning children's success in reading; a study of the experiences of children which affect their reading interests; the utilization of these interests in the acquiring of desirable reading attitudes, habits, and skills; evaluation of methods of teaching reading, and materials characteristic of current practice. Demonstrations of the telebinocular and other mechanized reading aids are a part of this course.

There will be observations in the Training School.

#### 416. Problems of the Primary Teacher.

Three hours a week. Credit: three quarter hours.

This is a problem course. It is planned for experienced teachers who wish to work on some specific problem or problems in their respective fields. Each student will have the opportunity to make an intensive study of his problem in its relation to the school program. There will be regularly scheduled observations in the Training School provided for the members of the class.

#### 417. Study of Some of the Major Problems of the Grammar Grades.

The student will distribute the working time each week as follows: A minimum of two hours observation in the Training School, two hours library work, two hours group conference a week, and three hours a week in conference with the instructor. Credit: three quarter hours.

The class divides into working committees with a chairman and a secretary. Each committee schedules its own time and place for meetings. Each student selects some major problem or problems with which he wants to work. A list of these problems is given to the teacher for evaluation before the student begins work on them.

Reports are to be presented both orally to the whole group, and to the teacher in writing with complete records of individual and group activities attached. The chairman of each group keeps a check on attendance for individuals in his group.

Pre-observation conference with the critic teachers is necessary before observing in the room. The groups meet the critic teachers in conference following the observations.

#### 420. Visual Aids in Education.

Three hours a week. Credit: three quarter hours.

For teachers and administrators who wish to make use of objective teaching aids, including the school journey, slides, prints, and the motion picture. Available materials in these fields are surveyed and attention given to the problem of selection and integrated use in the school program.

## HOME ECONOMICS

MISS HOLTZCLAW, MRS. BLOXTON, MISS CHAPMAN, MISS LACY, MISS  
SELLMAN, MISS SIMMONS, AND MRS. WATTERS

The Home Economics Department is recognized by and receives assistance from the Federal Government as a center for the training of vocational teachers of Home Economics.

## CLOTHING AND TEXTILES

## 7. Problems of College Freshmen.

Fall quarter. Three hours a week.

Required of all candidates who major in home economics.

Open to all students.

This is a brief survey course the aim of which is to help freshmen adjust themselves to college life, and to see home economics in the broad aspect of personal living.

Topics discussed are: time management, personal financing, food selection and health habits, etiquette, personal improvement in grooming, dress selection, care of clothing and the college room as a part of the student's surroundings.

## 8. The Clothing Problem of the Individual.

One lecture period and four laboratory hours a week.

Credit: three quarter hours.

Required of all candidates who major in home economics.

A continuation of Home Economics 7 with emphasis upon textile study, the buying of fabrics from the consumer's standpoint, and the construction of clothing to meet individual needs.

Laboratory Fee, \$2.00.

## 117. The Family Clothing Problem.

One lecture period and four laboratory hours a week. Credit: three quarter hours.

Required of all candidates who major in home economics.

The wardrobe needs of the various members of the family are studied. Planning and constructing garments for members of a family group, and repairing, renovating, and caring for clothing in the home are considered.

Laboratory Fee, \$2.00.

## 215. Costume Design.

Three hours a week. Credit: three quarter hours.

Required of all candidates who major in home economics.

This course makes application of the principles of design to dress. A study of national and historic costumes forms the basis for designing modern garments.

## 227. Applied Costume Design.

One lecture period and four laboratory hours a week. Credit: three quarter hours.

Required of all candidates who major in home economics.  
With the foundation pattern as a basis the garments designed  
in Home Economics 215 are executed.  
Laboratory Fee, \$2.00.

## FOODS AND NUTRITION

### 2. Elementary Foods.

One lecture period and four laboratory hours a week. Credit:  
three quarter hours.

Required of all candidates who major in home economics.  
This course deals with the composition, selection, and prepara-  
tion of everyday foods. All preparation of food is done on a  
meal basis in unit kitchens. Students are given opportunity to  
use electricity, gas, and kerosene as fuels.  
Laboratory Fee, \$2.00.

### 110. Foods.

One lecture period and four laboratory hours a week. Credit:  
three quarter hours.

Required of all candidates who major in home economics.  
This course includes the selection of food as to quality, nutri-  
tive value, and cost; the preparation and serving of meals for  
different occasions.  
Laboratory Fee, \$2.00.

### 205. What Shall We Eat?

Three hours a week. Credit: three quarter hours.

Open to juniors and seniors who are not home economics stu-  
dents.

A non-technical course planned to assist students in selecting  
their own meals.

### 220. School Lunchroom Management.

Six laboratory hours a week. Credit: three quarter hours.

The aim of this course is to develop an appreciation for and  
knowledge of child feeding as it functions in the school cafe-  
teria, and to gain skill in the operation of a school cafeteria.  
Practical experience is gained through participation in the  
activities of the Training School Lunchroom.

### 224. Survey of Cookery.

Fall quarter. Six laboratory hours a week. Credit: three quar-  
ter hours.

Required of all candidates who major in home economics.  
This course consists of the preparation of various types of food,

the testing of standard recipes and their variations. A short unit of food preservation is also given in this course.  
Laboratory Fee, \$2.00.

225. Nutrition.

Winter quarter. Three hours a week. Credit: three quarter hours.

Required of all candidates who major in home economics.

The essentials of an adequate diet, the food needs for different ages and occupations, and the nutritive value of food materials.

325. Nutrition.

Three hours a week. Credit: three quarter hours.

Elective for home economics and science majors.

This course is a continuation of Home Economics 225.

The aim of this course is to acquaint students with the work that is now being done in the field of nutrition, and to make practical application of this information.

## THE HOME

100. Social Usage.

Two hours a week. Credit: two quarter hours.

This course deals with good usage in social affairs.

104. Home Nursing and Health of the Family.

Three hours a week. Credit: three quarter hours.

A study of the hygienic measures recommended for the home and community; simple methods for home care of the sick and the convalescent.

126. House Furnishing.

Three hours a week. Credit: three quarter hours.

Required of all candidates who major in home economics.

This course is planned to establish standards for the selection of furnishings according to artistic and scientific principles.

127. Housing.

Three hours a week. Credit: three quarter hours.

Required of all candidates who major in home economics.

The study of modern housing from the social, economic and artistic standpoints. Standards for housing and their relation to desirable home life are considered.

## 216. The Home Vegetable Garden.

One lecture and one laboratory period a week. Credit: two quarter hours.

Practical work in the home vegetable garden is given.

## 217. Landscaping the Home Grounds.

One lecture and one laboratory period a week. Credit: two quarter hours.

Practical work in landscaping is given.

## 218. The Home Flower Garden.

One lecture and two laboratory periods a week. Credit: two quarter hours.

Practical work in the home flower garden is given.

## 226. Consumer Education.

Three hours a week. Credit: three quarter hours.

Required of all candidates who major in home economics.

Purchasing problems arising in the home in the present economic structure are studied. Legislation in branding, labelling, standardization of merchandise, and simple household tests of commodities are considered.

## 230. Child Development.

Three hours a week. Credit: three quarter hours.

Required of all candidates who major in home economics.

This course considers the care of the mother before the birth of a child as well as the care of an infant during and after birth. A study is also made of the food, clothing, and nursery needs of the child. Good physical, mental, social, and emotional development as it is affected by home environment is considered. Observation is made of the development of children in the nursery school.

Prerequisite: Psychology 103 and Science 113.

## 231. Practicum in Child Development.

Six laboratory hours a week. Credit: three quarter hours.

Required of home economics majors.

Observation and participation in the nursery school with a study of methods used in training young children, teaching materials and practices used in the nursery school.

Prerequisite: Home Economics 230.

## 319. Home Management House.

Credit: three quarter hours.

Required of all candidates who major in home economics.

Unit I. A group of not more than six seniors live in a modern

house, under the supervision of an instructor, for a period of six weeks. This course aims to develop ideals and standards of good living.

Unit II. A group of three seniors live in an apartment, simply furnished, on a lower income level than Unit I.

Units I and II are housed in the same building and are run simultaneously. Opportunity is given for each student to have experiences in both units.

Prerequisites: Home Economics 224, 225 and 326.

### 326. Household Management.

Two lecture periods and two laboratory hours a week. Credit three quarter hours.

Required of all students who major in home economics.

This course is prerequisite to the Home Management House and is intended to supplement the work done there. Some provision is made for the care of the sick in the home. Such topics as budgeting of time and money, labor saving equipment, factors that constitute household managerial ability and how these are maintained under different social and economic situations are stressed.

Laboratory fee, \$2.00.

## HOME ECONOMICS EDUCATION

### 222. Leaders in the Field of Home Economics.

One hour a week. Credit: one quarter hour.

A study of the leaders and the developments in the Home Economics movement.

### 223. Methods of Teaching Home Economics.

Three hours a week. Credit: three quarter hours.

Required of all candidates who major in home economics.

An application of the fundamentals of education to home economics instruction. The selection of problems, their presentation, and the use of objective material is considered.

### 228. The Teaching of Foods in Secondary Schools.

Three hours a week. Credit: three quarter hours.

This course aims to give students simple and fundamental principles of cookery and nutrition that can be applied in the teaching of foods in High Schools throughout the state. Open to juniors and seniors.

## 232. a, b, c. Apprenticeship in Home Economics.

Credit: three quarter hours.

Open to home economics juniors and seniors.

## 323. Methods of Teaching Home Economics.

Three hours a week. Credit: three quarter hours.

This course parallels the practice teaching in home economics, and deals with special problems of the teachers while they carry on their work. It places emphasis upon the techniques of home visiting and upon the organization of the home project. Open to senior students only.

## 324. Observation and Practice in Teaching Home Economics.

Every quarter. Nine hours a week for twelve weeks. Credit: six quarter hours.

Required of all candidates who major in home economics.

Observation and participation in the vocational home economics program of the Greenville schools.

## 327. Home Management Supervision.

Three hours a week. Credit: three quarter hours.

A course designed for those who are interested in going into such types of home economics work as the Farm Security Administration and Home Demonstration work. Emphasis will be put upon the analysis of family needs and the working out of low budgets for the farm family. Field work will be done under the direction of those experienced in this type of home economics activity.

Prerequisite: Sociology 101.

## INDUSTRIAL ARTS

MR. MCHENRY

## 11. Elementary Mechanical Drawing.

Fall quarter. Three hours a week. Credit: three quarter hours. Open to students in any department.

The use and care of drawing instruments, perspective and isometric drawing, orthographic projections including sectioning and revolutions, lettering.

Laboratory fee, \$2.00.

## 12. Elementary Mechanical Drawing.

Winter quarter. Three hours a week. Credit: three quarter hours.

A continuation of 11.

Laboratory fee, \$2.00.

21. Bench Work.

Fall quarter. Three hours a week. Credit: three quarter hours.  
Open to students in any department.

A beginner's course in bench woodwork. Use and care of common woodworking tools, common woods, and common finishes.  
Laboratory fee, \$2.00.

22. General Woodworking.

Winter quarter. Three hours a week. Credit: three quarter hours.

An advanced course in general woodworking with emphasis on technique and technical application of principles presented in 21.

Laboratory fee, \$2.00.

111. Advanced Mechanical Drawing.

Winter quarter. Three hours a week. Credit: three quarter hours.

Intersections; stretchouts; cabinet drawing.

Prerequisite: Industrial Arts 12.

Laboratory fee, \$2.00.

112. Machine Drawing.

Spring quarter. Three hours a week. Credit: three quarter hours.

Machine parts including cams, gears, screws.

Prerequisite: Industrial Arts 111.

Laboratory fee, \$2.00.

122. Machine Woodwork and Cabinet Construction.

Spring quarter. Three hours a week. Credit: three quarter hours.

Advanced project construction and drill in tool processes. The use, care, adjustments, and operation of woodworking machines in cabinet construction.

Laboratory fee, \$2.00.

140. Industrial Arts Education.

Spring quarter. Three hours a week. Credit: three quarter hours.

The introduction to industrial arts education. Lectures, research, and visitations.

211. Architectural Drawing.

Spring quarter. Three hours a week. Credit: three quarter hours.

This course deals with the design and construction of small houses. The student will develop a complete set of plans, write specifications, and estimate the cost of a house. Visits will be made to houses under construction to study the design and building methods.

Prerequisite: Industrial Arts 112.

Laboratory fee, \$2.00.

### 231. General Shop.

Spring quarter. Three hours a week. Credit: three quarter hours.

This course is designed to stimulate correlation between shop activities and academic subjects. It plans to enlighten students who are preparing to teach academic subjects in methods of construction pertinent to their particular subject. Opportunity will be offered to work in wood, metal, concrete, leather, textiles, etc. Laboratory fee, \$2.00.

### 245. Industrial Arts for Elementary Teachers.

Offered every quarter. Three hours a week. Credit: three quarter hours.

This is a practical course in the use of tools and materials. Its purpose is the understanding of a valuable medium for the child's creative expression. All procedures are closely allied with the activities of the elementary school and are intended to develop a classroom method.

Laboratory fee, \$2.00.

### 255. Construction and Repair of Equipment and Supplies for Physical Education.

Fall quarter. Three hours a week. Credit: three quarter hours.

This course is planned to give the necessary training in planning, construction, and maintenance of physical education equipment and supplies, and of playground equipment.

Laboratory fee, \$2.00.

### 260. House Planning and Household Mechanics.

Winter quarter. Three hours a week. Credit: three quarter hours.

A technical course dealing with the problems involved in the design, construction, and repair of houses. Includes a study of common building materials, repair of equipment, heating and ventilation, plumbing, lighting, and household safety.

Laboratory fee, \$2.00.

**LIBRARY SCIENCE**

MR. SNIDER and MR. HARDAWAY

**210. School Libraries.**

Three hours a week. Credit: three quarter hours.

This is a survey course of the importance and function of the school library in modern education including the organization and administration of such libraries. It is intended for the administrator, teacher and teacher-librarian.

**211. School Libraries.**

One recitation and eight hours of library work a week. Credit: three quarter hours.

A continuation of Library Science 210.

Prerequisite: Library Science 210.

**212. Classification and Cataloging.**

Three hours a week. Credit: three quarter hours.

A study of classification and cataloging, ordering printed cards, assigning subject headings, making and arranging card catalog for a school library.

**214. Bibliography and Reference.**

Three hours a week. Credit: three quarter hours.

A study of national and trade bibliography, and the use of the more important reference tools in a school library.

**220. Book Selection.**

Three hours a week. Credit: three quarter hours.

A course in the selection and evaluation of books for the school library, use of the various aids, and the examination and reading of books for young people with especial emphasis on the requirements of the North Carolina course of study.

**222. Book Selection.**

Three hours a week. Credit: three quarter hours.

A continuation of Library Science 220.

Prerequisite: Library Science 220.

**MATHEMATICS**

MR. REBARKER, MISS GHAAHAM, MISS WILLIAMS, and MISS ENGLAND

**42. Arithmetic for Elementary Majors.**

Each quarter. Three hours a week. Credit: three quarter hours.

Required of primary and grammar-grade majors. The course

deals with the following topics: reading and writing of numbers, fundamental processes with integers and fractions, aliquot parts, bills and accounts, ratio and proportion, denominate numbers, formulas, graphs, drawing to scale, and problem solving.

### 57-58. Plane Trigonometry.

Fall and Winter quarters. Three hours a week. Credit: three quarter hours each.

Required of mathematics majors.

The course includes the derivation and use of formulas, solution of the right triangle with the natural and logarithmic functions, solution of oblique triangles, functions of any angle, functions of two or more angles, inverse functions, and practical applications.

### 59. Solid Geometry.

Spring quarter. Three hours a week. Credit: three quarter hours.

Required of mathematics majors.

The course is comprised of the fundamental theorems, mensuration of surfaces and solids, and original exercises.

### 60-110. College Algebra.

Spring and Fall quarters. Three hours a week. Credit: three quarter hours each.

Required of mathematics majors.

A rapid review of high school algebra is given; also a study of systems of quadratic equations, functions, graphs, complex numbers, progressions, permutations, and combinations, probability, theory of equations, binomial theorem, mathematical induction, and determinants.

### 121-122. Plane Analytic Geometry.

Winter and Spring quarters. Three hours a week. Credit: three quarter hours each.

Required of mathematics majors.

Prerequisite: Mathematics 57, 58, 59, 60, and 110.

A study of rectangular coördinates, loci, the straight line, the circle, polar coördinates, conic sections, transformation of coördinates, higher plane curves, and an introduction to co-ordinate geometry in space.

### 136. Arithmetic for Elementary Majors.

Each quarter. Three hours a week. Credit: three quarter hours.

Required of primary and grammar-grade majors.

Prerequisite: Mathematics 42.

The course is devoted to the study of percentage and its applications.

154. Arithmetic for High School Majors.

Each quarter. Three hours a week. Credit: three quarter hours.

Required of high school majors.

The course aims primarily to develop accuracy and facility in the integral and fractional processes, and the ability to apply these processes to percentage and its application, mensuration, denominate numbers, ratio and proportion, business forms, and problem solving.

156. General Mathematics.

Each quarter. Three hours a week. Credit: three quarter hours. Required of all students except mathematics and home economics majors.

Prerequisite: Mathematics 42 and 136, or 154.

The course is designed to give a general knowledge of some important phases of mathematics which are frequently used in social, industrial, business, and professional life. It includes a study of formulas, graphs, timerrates, mathematical forms and designs, intuitive development of common mathematics principles, common logarithms, slide rule, trigonometry of the right triangle, variation, and functions.

210. Teaching of Grammar-Grade Arithmetic.

Each quarter. Three hours a week. Credit: three quarter hours. Required of grammar-grade majors.

Prerequisite: Mathematics 42 and 136.

The course consists of a professional treatment of the subject matter of arithmetic for the grammar grades. Modern methods of teaching grammar-grade arithmetic are presented through a study of recent publications on the subject. The course also includes observations of the grammar grades in the laboratory school.

212. Teaching of Primary Arithmetic.

Each quarter. Three hours a week. Credit: three quarter hours. Required of primary majors.

Prerequisite: Mathematics 42 and 136.

It is the purpose of this course to present the most modern methods of teaching primary arithmetic. The course consists of a study of the latest publications and courses of study in

primary arithmetic, together with the findings of experimentation in the field of primary number work. The course also includes frequent observations in the laboratory school.

213, 214, 215. Differential and Integral Calculus.

Fall, Winter, and Spring quarters. Three hours a week.

Credit: three quarter hours each.

Required of mathematics majors.

Prerequisite: Mathematics 121 and 122.

The course is devoted to the following topics: functions, theory of limits, differentiation, differentials, application of derivatives and differentials, integration, and the application of integrals.

223. Teaching of Senior High School Mathematics.

Spring quarter. Three hours a week. Credit: three quarter hours.

Required of mathematics majors.

A study of the teaching objectives of senior high school mathematics, organization of content, general and specific teaching techniques, testing, and the observation of teaching.

232-233. College Geometry.

Fall and Winter quarters. Three hours a week. Credit: three quarter hours each.

Required of mathematics majors.

Prerequisite: Mathematics 121 and 122.

The course includes a study of geometric construction, similar and homothetic figures; properties of the triangle including the circum-circle, medians, bisectors, and altitudes; transversals, harmonic properties of circles, and inversion. Many miscellaneous theorems and exercises are presented for solution.

245. Teaching Apprenticeship.

Each quarter. Five hours a week. Credit: three quarter hours.

The purpose of the course is to familiarize the student with class routine, general and specific teaching techniques in secondary mathematics, and principles of teaching through directed observation, preparation of materials, and participation. A high school class in mathematics will serve as a laboratory for the course.

272. Field Work in Mathematics.

Spring quarter. Three hours a week. Credit: three quarter hours.

Prerequisite: Mathematics 57 and 58, or 156.

The purpose of the course is to teach the significance and the

use of the slide rule, plane table, level, sextant, and the transit through participation in activities involving the utilization of these instruments.

318. History of Elementary Mathematics.

Fall quarter. Three hours a week. Credit: three quarter hours.  
Required of mathematics majors.

Prerequisite: Mathematics 213, 214, and 215.

The course is designed to give a general view of the development of the elementary branches of mathematics: arithmetic, algebra, synthetic and analytic geometry, trigonometry, and calculus.

323. Teaching of Junior High School Mathematics.

Winter quarter. Three hours a week. Credit: three quarter hours.

Required of mathematics majors.

The teaching objectives of junior high school mathematics, organization of subject matter, analysis of textbooks and courses of study in junior high school mathematics, general and specific teaching techniques in junior high school mathematics, and the observation of teaching.

324. Observation and Practice Teaching.

One quarter. Nine hours a week. Credit: six quarter hours.  
Required of mathematics majors.

325. History of Arithmetic.

Each quarter. Three hours a week. Credit: three quarter hours.

Required of primary and grammar-grade majors.

Prerequisite: Mathematics 42 and 136, or 154.

A study of the history of the development of arithmetic as a science and as a school subject, with special emphasis on methods and devices through the application of which the science of numbers has reached its present stage of development.

400. Seminar.

Three quarters. Two hours a week. Credit: six quarter hours.  
Required of students writing theses in the field of the teaching of mathematics.

425-426. Theory of Equations.

Fall and Winter quarters. Three hours a week. Credit: three quarter hours each.

Prerequisite: Mathematics 213, 214, and 215.

A study of complex numbers, roots, geometric construction, cubic and quartic equations, graphs, isolation of real roots, solution of numerical equations, determinants, and symmetric functions.

432. Differential Equations.

Fall quarter. Three hours a week. Credit: three quarter hours.

Prerequisite: Mathematics 213, 214, and 215.

A study of ordinary differential equations of the first and second orders, and their application to elementary mechanics, with emphasis on geometric interpretation and application.

442. Advanced Calculus.

Spring quarter. Three hours a week. Credit: three quarter hours.

Prerequisite: Mathematics 213, 214, and 215.

A study of the definite integral as a sum and its applications, partial derivatives, development in series, and multiple integrals.

443. Solid Analytic Geometry.

Spring quarter. Three hours a week. Credit: three quarter hours.

Prerequisite: Mathematics 213, 214, and 215.

A study of coördinate geometry in space, the point, the line, the plane, surfaces of revolution, and quadratic surfaces.

455. Readings and Research in the Teaching of Arithmetic.

Fall quarter. Three hours a week. Credit: three quarter hours.

A study of the field of literature relating to the field of the teaching of arithmetic, with special emphasis on educational research in the teaching of arithmetic.

456. Readings and Research in the Teaching of Secondary Mathematics.

Winter Quarter. Three hours a week. Credit: three quarter hours.

A study of educational literature relating to the field of the teaching of secondary mathematics with special emphasis on research in this field.

462. Problems in Mathematics Education.

Winter Quarter. Three hours a week. Credit: three quarter hours.

A laboratory course designed for the study of problems in the field of mathematics education relative to specific schools or school systems in which the student is employed or otherwise vitally interested.

## MUSIC EDUCATION

MR. DITTMER, MISS GORRELL, MISS KUYKENDALL, MISS ELSOM,  
MR. ROSSELL and MR. GETCHELL

The purpose of the Department of Music Education is three-fold:

1. To meet the needs for competent Vocal and Instrumental Teachers of Music in the State of North Carolina and its surrounding territory. This need will be met by presenting, to students with a native musical talent, a complete and well rounded curriculum in Music Education.
2. To meet the music needs of students majoring in the fields of Elementary Education.
3. To meet the musical needs of all students who desire to broaden their cultural background through the arts.

### 10. Theory.

Every quarter. Three hours a week. Credit: three quarter hours.

Aim: To provide the student with a thorough understanding of music fundamentals.

Topics: Essentials of music notation; solfeggio; sight-singing and ear-training through the use of rote songs to be used in the public schools, simple dictation and harmonization.

Not open to music majors.

### 10 M. Theory.

Fall quarter. Three hours a week. Credit: three quarter hours.

A study of music notation, sight-singing and ear training.

Open to music majors only.

### 11. Theory.

Winter Quarter. Three hours a week. Credit: three quarter hours.

Prerequisite: Music 10 M.

### 13. Theory.

Spring quarter. Three hours a week. Credit: three quarter hours.

This course is a suggested elective for all Music Majors.

Prerequisites: Music 10 and 11.

## 106. Acquaintance with the Literature of Music.

Fall quarter. Two hours a week. Credit: two quarter hours. A survey of the musical literature from the various historical periods in music; a study of outstanding composers and examples of their compositions; development of vocal and instrumental forms; listening lesson through programs by radio, piano, phonograph and local concerts; creative music; original melodies and dances; song interpretation.

Open to music majors only.

## 107. History of Musical Development.

Winter quarter. Two hours a week. Credit: two quarter hours. A study of the characteristics of the various historical periods in music. Development of Song form; Sonata Symphony; chamber Music; Opera; Modern Music tendencies. Music in its relation to peoples of the earth. Folk Songs and Dances of the various countries with illustrations.

Prerequisite: Music 106.

Open to music majors only.

## 110. Harmony.

Fall quarter. Two hours a week. Credit: two quarter hours. Aim: To provide the music major with a thorough working knowledge of harmonic problems.

Topics: Study of scales, intervals, construction of triads in major and minor modes with inversions of the common chords and seventh chords—Two, three, and four part writing, modulation and simple analysis with keyboard practice.

Prerequisite: Music 11.

## 111. Harmony.

Winter quarter. Two hours a week. Credit: two quarter hours.

Prerequisite: Music 110.

## 112. Harmony.

Spring quarter. Two hours a week. Credit: two quarter hours.

Prerequisite: Music 111.

## 113. Orchestration and Composition.

Spring quarter. Two hours a week. Credit: two quarter hours. Arranging for orchestra, band, and small instrumental groups. Instrument ranges, tone qualities, and best usages in orchestration. Principles of composition for choral and instrumental groups.

## 115. Introduction to Musicology.

Winter Quarter. Three hours a week. Credit: three quarter hours.

Unit two: To meet the requirements of this unit the student must satisfactorily administer the Binet Intelligence Scale to at least ten children and make reports of these testings showing analyses, and interpretations of results.

Unit three: In this unit the student is given opportunity to administer, evaluate, and interpret the results of group intelligence tests.

Unit four: A study of the history of intelligence testing. Other units will be offered as demand arises. The satisfactory completion of any one unit will get one hour credit.

**340. Psychology of Adolescence.**

Three hours a week. Credit: three quarter hours.

Prerequisite: Psychology 103, or its equivalent.

This course is intended to make a study of pre-adolescence and adolescence. Behavioristic changes that are concomitant with the physiological changes of adolescence; their meaning and treatment in education training; social institutions designed to meet these changes, such as Boy Scouts and Campfire Girls, are some of the topics given consideration.

Open to seniors and graduate students only.

**350. Psychology of Reading in the Elementary School.**

Three hours a week. Credit: three quarter hours.

Prerequisite: Psychology 103, or its equivalent.

For Seniors working for primary or grammar-grade Class A certificate.

Aim: To give the student an opportunity to study the psychological principles underlying the teaching and learning of reading.

Topics: Bringing about a readiness to read; teaching and learning how to read; skills essential for reading to learn; schoolroom diagnosis of reading difficulties; and remedial work on all levels.

**401. Psychology of Childhood.**

Three hours a week. Credit: three quarter hours.

Prerequisite: Psychology 103 or its equivalent.

Aim: To treat such topics as the original nature of the child, individual differences, discipline, brightness, dullness, and mental, social, and educational adjustment of the child. A study of the investigations in this field will be conducted.

**410. Mental Tests and Measurements.**

Any quarter on demand. Three hours a week. Credit: three quarter hours.

Prerequisite: Psychology 103, or its equivalent.

Aim: To acquaint the student with mental tests and measurements.

Topics: Group and individual tests; the technique of giving and scoring; interpretation of results; uses in classifying and promoting children; study of intelligence and its measurements.

**411. Psychology of Learning.**

Three hours a week. Credit: three quarter hours.

Elective for Seniors.

Prerequisite: Psychology 103, or its equivalent.

Aim: To provide for the student a working knowledge of the laws of learning and habit formation.

Topics: Animal learning; human learning; habit formation; analysis of the laws of learning. Experimental work is continued throughout the course.

**421. Social Psychology.**

Three hours a week. Credit: three quarter hours.

Prerequisite: Six hours in Psychology, including 103.

In this course a study is made of the innate tendencies that are stimulated by other beings and their behavior. Also the organization of group attitudes, such as coöperation, opposition, etc., and group habits, customs, language, and imitation.

## NATURAL SCIENCE

### BIOLOGY

MR. SLAY, MR. BRANDT, MR. REYNOLDS, MR. DELOACH, MISS  
WILTON, and MISS HUMPHREYS

**23, 24, 25. Elements of Biology.**

Fall, winter, and spring quarters. Two lectures and two hours of laboratory work a week. Credit: three quarter hours each.

These are courses in practical biology intended to acquaint the student with the biological principles concerning man and his environment.

Laboratory fee, \$2.00 a quarter.

34, 35, 36. General Biology.

Fall, winter, and spring quarters. Two lectures and four hours of laboratory work a week. Credit: four quarter hours each. These are courses in general biology intended to give the student an understanding of the fundamental processes of life. They include a study of the problems of reproduction and heredity and a study of the biological relationships between plants and animals, including man.

Laboratory fee, \$2.00 a quarter.

106, 107. Human Anatomy and Physiology.

Winter and spring quarters. Three lectures per week. Credit: three quarter hours a quarter.

These courses consist of lectures and demonstrations by means of models and prepared dissections. The relation of structure to function in the human is stressed.

111. Zoology (Invertebrate).

Fall quarter. Two lectures and four hours of laboratory work a week. Credit: four quarter hours.

A survey of the invertebrates with a detailed study of representative forms.

Laboratory fee, \$2.00.

112. Zoology (Vertebrate).

Winter quarter. Two lectures and four hours of laboratory work a week. Credit: four quarter hours.

This course includes a study of the simpler chordate animals, a study of a representative series of vertebrate animals, and the detailed study of one mammal.

Laboratory fee, \$2.00.

113. Human Physiology.

Each quarter. Two lectures and four hours of laboratory work a week. Credit: four quarter hours.

This course consists of lectures and laboratory work dealing with the following systems of organs; skeletal, muscular, digestive, respiratory, circulatory, excretory, nervous, and reproductive.

Prerequisite: One year of science including biology and chemistry.

Laboratory fee, \$2.00.

## 206. Nature Study.

Fall and spring quarters. Four hours a week. Credit: three quarter hours.

A study is made of the common flowers, trees, insects, birds, and other animals.

Nature literature and field work supplement the lectures.

## 212, 213, 214. Botany.

Fall, winter, and spring quarters. Two lectures and four hours of laboratory work a week. Credit: four quarter hours each. Fundamental plant studies. Structure, growth, and physiology of seed plants, and morphology and development of the four major groups of the plant kingdom.

Laboratory fee, \$2.00 a quarter.

## 220. A.B.C. Biological Preparations.

Fall winter and spring quarters. Six hours a week. Credit: three quarter hours.

Elective.

This course is designed to give the students experience in the preparation of biological specimens, museum work, and visual aids.

Prerequisite: one year of college biology.

Laboratory fee, \$2.00.

## 240. Field Zoology.

Two lectures and four hours of laboratory work or field excursions a week. Credit: four quarter hours.

This course is planned to develop an intelligent field knowledge of eastern North Carolina animals in order that teachers may make better use of the environment in teaching. Excursions to typical habitats for the purpose of collecting and identifying animals and studying the ecological conditions under which they live.

Prerequisite: A year of Biology or equivalent.

## 305. Plant Ecology.

Spring quarter. Two lectures and four hours of laboratory work a week. Credit: four quarter hours.

Field study of local plant communities from the standpoint of environment and its controlling factors.

Prerequisites: Biology 34, 35, 36 and Botany 212, 213 or their equivalent.

Open to graduate students and seniors only.

Laboratory fee, \$2.00.

**310. Bacteriology.**

Each quarter. Two lectures and four hours of laboratory work a week. Credit: four quarter hours.

This course includes a study of yeast, mold, and bacteria with special emphasis on bacteria in their more intimate relations to man.

Prerequisites: 18 hours of science including biology and chemistry.

Laboratory fee, \$2.00.

**325. Animal Ecology.**

Two lectures and four hours of laboratory work a week. Credit: four quarter hours.

A study of the relationships of animals to each other, to plants and to physical factors in their environments.

Prerequisite: A year of biology.

Open to graduate students and seniors only.

Laboratory fee, \$2.00.

**330. Heredity.**

Spring quarter. Three hours of lecture a week and two hours of laboratory work per week optional. Credit: three or four quarter hours.

A study of the laws of heredity and their application in evolution and eugenics. The laboratory work includes experiments with the fruit fly, *Drosophila melanogaster*.

Prerequisites: Biology 34, 35, 36, or their equivalent or consent of instructor.

Open to graduate students and seniors only.

**335. Plant Identification.**

Spring quarter. Two lectures and four hours of laboratory work a week. Credit: four quarter hours.

Field observation, collection, identification and taxonomy of the higher groups of plants of Eastern North Carolina.

Prerequisite: A year of biology.

Laboratory fee, \$2.00.

**350. Histology.**

Fall quarter. Two lectures and four hours of laboratory work a week. Credit: four quarter hours.

Slides of plant and animal tissues are prepared. Students learn to identify plant and animal tissues from these slides. Students are given the opportunity to prepare a collection of slides for their own use.

Prerequisite: At least two years of college biology.

Open to graduate students and seniors only.

Laboratory fee, \$2.00.

#### 406. Embryology.

Winter quarter. Two lectures and four hours of laboratory work a week. Credit: four quarter hours.

The early development of the vertebrates is studied, including the formation of the systems of organs. The development of some one vertebrate is studied in the laboratory. Slides showing this development are prepared by the students.

Prerequisite: Two years of college biology.

Laboratory fee, \$2.00.

#### 408. Plant Anatomy and Morphology.

Winter quarter. Two lectures and four hours of laboratory work a week. Credit: four quarter hours.

A study of the origin and development of structures found in vascular plants. A study of both prepared slides and fresh materials which the student will prepare in the laboratory.

Prerequisites: Biology 34, 35, 36 and Botany 212, 213 or their equivalent.

Laboratory fee, \$2.00.

### CHEMISTRY

#### 40, 41, 42. General Chemistry.

Fall, winter, and spring quarters. Two lectures and two hours of laboratory work a week. Credit: three quarter hours each.

An introduction to the laws, facts and theories of general chemistry, with especial emphasis on practical applications.

Laboratory fee: \$2.00 and breakage.

#### 44, 45, 46. General Chemistry.

Fall, winter, and spring quarters. Two lectures and four hours of laboratory work a week. Credit: four quarter hours each. These courses are designed for students who wish to gain a broad knowledge of the more interesting phases of the subject. Recommended for students who plan to teach in secondary schools.

Laboratory fee, \$2.00 per quarter and breakage.

#### 120. Semi-Micro Qualitative Analysis.

One lecture and six hours of laboratory work a week. Credit: four quarter hours.

The analysis of simple ores, alloys, and industrial products.

Prerequisite: A year of general chemistry.

Laboratory fee, \$2.00 and breakage.

## 121. Gravimetric Analysis.

One lecture and six hours of laboratory work a week. Credit: four quarter hours.

Introduction to gravimetric methods of analysis, together with advanced work in stoichiometry.

Prerequisite: A year of general chemistry.

Laboratory fee, \$2.00 and breakage.

## 122. Volumetric Analysis.

One lecture and six hours of laboratory work a week. Credit: four quarter hours.

Presentation of volumetric methods of analysis, and the underlying theory.

Prerequisite: Chemistry 121 or its equivalent.

Laboratory fee, \$2.00 and breakage.

## 207, 208, 209. Organic Chemistry.

Fall, winter, and spring quarters. Two lectures and four hours of laboratory work a week. Credit: four quarter hours each. These courses include a study of the principal compounds of both the aliphatic and the aromatic series, emphasizing those compounds which relate to foods, fuels, and other household uses.

Laboratory fee, \$2.00 per quarter and breakage.

## 300, 301, 302. Physical Chemistry.

Fall, winter, and spring quarters. Three lectures a week. Credit: three quarter hours each.

Introduction to theoretical chemistry including the fundamental laws and concepts.

Prerequisite: A year of general chemistry.

## 309. Physiological Chemistry.

Winter quarter. Two lectures and four hours of laboratory work a week. Credit: four quarter hours.

Elective.

This course includes a study of the body processes of respiration, circulation, digestion, absorption, metabolism, excretion, and coördination. Designed especially for home economics students but open to all who have had the necessary prerequisites. Prerequisites: 18 hours of science including Chemistry and human physiology.

Laboratory fee, \$2.00 and breakage.

## 312. Food Chemistry.

Spring quarter. Two lectures and four hours of laboratory work a week. Credit: four quarter hours.

Elective.

Prerequisite: 24 hours of science including organic chemistry.

A course designed to accompany a more advanced study of foods. Food classification, analysis, detection of adulterants, and tests for the detection of specific foods.

Open to graduate students and seniors only.

Laboratory fee, \$2.00 and breakage.

## PHYSICS

## 115, 116, 117. Household Physics.

Fall, winter, and spring quarters. Two lectures and two hours of laboratory work a week. Credit: three quarter hours each. A study of laboratory projects in physics with special application to household uses, emphasis being placed on the study of heating systems, electrical appliances in the home, water supply, illumination, heat conduction, etc.

Laboratory fee, \$2.00 per quarter.

## 180. Physics—Sound.

Fall quarter. Three hours a week. Credit: three quarter hours. An elementary course in physics for music students. This course deals with the scientific principles of musical sounds, acoustics, and the mathematical basis of scale formation. Open to music majors only.

Laboratory fee, \$2.00 per quarter.

## 215, 216, 217. General Physics.

Fall, winter, and spring quarters. Two lectures and four hours of laboratory work a week. Credit: four quarter hours each. Courses of lectures, recitations, and individual laboratory work covering the divisions of mechanics, heat, light, sound, magnetism, and electricity. The purpose of the courses is to acquaint the student with physical terms and quantities and an appreciation of the laws that underlie physical science.

Laboratory fee, \$2.00 per quarter.

## PHYSICAL SCIENCE

## 171, 172, 173. General Science.

Fall, winter, and spring quarters. Three hours a week. Credit: three quarter hours each.

A survey course in general science designed to meet the needs (1) of those students who desire a fundamental knowledge of scientific principles, and (2) for those students planning to teach general science in high school.

Open to all students.

200. Mineralogy.

Each quarter. Three hours a week. Credit: three quarter hours. This course includes a study of the more common minerals. Emphasis is placed on the commercial use of minerals in everyday life.

Open to students of sophomore or junior standing.

316. Descriptive Astronomy.

Fall quarter. Three hours a week. Credit: three quarter hours. This course includes a descriptive study of the heavenly bodies and their relation to man and his daily activities.

This course is open to all students of junior standing.

318. Elements of Photography.

Three hours a week. Credit: three quarter hours.

A thoroughly scientific course designed to meet the desires of those students who wish a comprehensive knowledge of the scientific background and the fundamental techniques of photography which they will be able to put to practical use.

Laboratory fee, \$2.00.

### SCIENCE EDUCATION

223a. Materials and Methods in Senior High School Science.

Three hours a week. Credit: three quarter hours.

This course includes lectures, demonstrations, and class discussions on the materials and methods used in the teaching of science in the senior high school.

223b. Materials and Methods in Junior High School Science.

Three hours a week. Credit: three quarter hours.

This course includes lectures, demonstrations, and class discussions on the materials and methods used in the teaching of science in the junior high school.

223c. Materials and Methods in Elementary Science.

Winter quarter. Three hours a week. Credit: three quarter hours.

This course consists of lectures, demonstration, and class discussions on the materials and methods used in the teaching of elementary science.

322 a.b.c. Apprenticeship Science.

Fall, winter, and spring quarters. Credit: three quarter hours.  
Open to science majors of junior or senior standing.

324. Observation and Supervised Teaching.

One quarter. Nine hours a week. Credit: six quarter hours.

400. a.b.c. Seminar in Science Education.

Two hours a week. Three quarters. Credit: six quarter hours.  
(See Education 400 a.b.c.)

410. Contemporary Science.

Fall, winter or spring quarter. Three hours a week. Credit: three quarter hours.

Lectures, readings, reports, and discussions concerning the development of scientific thought with emphasis on recent advances.

Prerequisite: Two years of college science.

420. Investigations in Elementary Science.

Three hours a week. Credit: three quarter hours.

A course designed to offer opportunities for special investigations in the field of elementary science.

430. The Teaching of General Science in Secondary Schools.

Fall quarter. Three hours a week. Credit: three quarter hours.

This course deals with content, methods, laboratory work, equipment, textbooks, tests, and reference readings of the introductory course in high school science. Attention will be given to the special studies made in the field of general science.

440. Teaching of the Biological Sciences in Secondary Schools.

Fall quarter. Three hours a week. Credit: three quarter hours.

This course deals with the content, methods, laboratory work, equipment, textbooks, tests, and reference readings of the high school course in biology. Attention is given to the special studies made in the field of the high school biological studies.

455. Experimental Evaluations in Science Education.

Three hours a week. Credit: three quarter hours.

This course deals with the evaluation of science texts and reference material; classroom and laboratory equipment; and the coördination of the various sciences.

## 465. Current Problems in Science Education.

Three hours a week. Credit: three quarter hours.

This course deals with the current investigations in science education; critical evaluations of techniques, materials, results, and conclusions.

## 475. Historical Development of School Science.

Three hours a week. Credit: three quarter hours.

This course traces the development of the study of science from its early stages to the present time. Special emphasis is placed upon the development of the present-day secondary school sciences.

## 480. Advanced Problems in the Physical Sciences.

Three hours a week. Credit: three quarter hours.

This course deals with the fusion of chemistry and physics as experienced in natural settings. Many demonstrations are included.

## 485. The Lives and Works of Great Men of Science.

Three hours a week. Credit: three quarter hours.

This course deals with the development of science as portrayed by the contributions of noted scientists. The private lives and environments of these individuals will be stressed.

## SOCIAL SCIENCE

MR. WRIGHT, MR. FLANAGAN, and MR. TOLL

It is the purpose of the department of Social Science to acquaint the student with patterns of behavior that man has followed and is now following as a member of society and also the behavior patterns of the group. This Department includes Government, Economics, and Sociology.

## 10. Personality and Social Adjustment.

Three hours a week. Credit: three quarter hours.

A study of character traits and the formation of personality.  
Open to Freshmen and Sophomores.

## 100. Introduction to Sociology.

Three hours a week. Credit: three quarter hours.

This course is designed to introduce the student to the general field of society and its problems.  
For Freshmen and Sophomores.

**101. Rural Sociology.**

Three hours a week. Credit: three quarter hours.

A continuation of Sociology 100. This course deals essentially with rural social problems, such as farm tenancy, rural health, the rural church, the rural family, rural welfare work and the general structure of rural population.

For Freshmen and Sophomores.

**102. Urban Sociology.**

Three hours a week. Credit: three quarter hours.

A continuation of Sociology 100 and 101, dealing essentially with the social structure and the problems of the city.

For Freshmen and Sophomores.

**202. Principles of Sociology.**

Three hours a week. Credit: three quarter hours.

This course deals with the origin of man and development of culture, with emphasis upon the physiographic, biological, psychological, and cultural factors in social life.

Prerequisite: Junior standing.

**203. Principles of Sociology.**

Three hours a week. Credit: three quarter hours.

The course is a continuation of Sociology 202. Stress is laid on the origin and development of some of the major social institutions.

Prerequisite; Junior standing.

**204. Principles of Sociology.**

Three hours a week. Credit: three quarter hours.

This course is a continuation of Sociology 203 and deals essentially with the evolution of culture.

Prerequisite: Junior standing.

**205. The Family.**

Three hours a week. Credit: three quarter hours.

A study of the forms and functions of the family, with an attempt to analyze the present-day problems of the family.

Prerequisite: Junior standing.

Open to graduate students.

**208. Educational Sociology.**

Three hours a week. Credit: three quarter hours.

A study of the school as a social institution, and the sociological background of curricula and methods.

Prerequisite: Junior standing.

## 210. The Administration of Public Welfare.

Three hours a week. Credit: three quarter hours.

A historical study of the administration of public welfare and recent legislation covering social security.

Prerequisite: Sophomore standing.

## 211. Community Resources, Agencies, and Organizations.

Three hours a week. Credit: three quarter hours.

A community survey, analyzing its resources and the functions performed by its agencies and organizations.

Required of all Home Economics majors, and open only to them.

Prerequisite: Sophomore standing.

## 220. Elementary Social Science.

Three hours a week. Credit: three quarter hours.

A content course in social science for grammar-grade teachers. Selected materials from the field of social science that are suitable for children in the grades.

Prerequisite: Junior standing.

## 240. Teaching Apprenticeship in Social Science.

Five hours a week. Credit: three quarter hours.

The purpose of the course is to familiarize the student with class routine, teaching techniques and classroom management. The work may be done in either sociology, economics or government.

## 250. A Field Trip in Sociology.

Credit: three quarter hours.

This course covers a trip to New York City by way of the Shenandoah Valley, and returning by way of Baltimore, Annapolis, and Washington, D. C. This is offered in connection with Government 250.

Open to Sophomores, Juniors, and Seniors.

## 251. A Field Trip in Sociology.

Credit: three quarter hours.

This trip goes to Florida and Cuba by way of the West coast, the Everglades, and Miami. The East coast is followed on the return, stopping at Palm Beach, Jacksonville, Savannah, Ga., and Charleston, S. C.

Open to Sophomores, Juniors, and Seniors.

253. A Field Course in Sociology.

Credit: three quarter hours.

This course covers a tour to New York City and the Bermuda Islands.

Open to Sophomores, Juniors, and Seniors.

254. A Field Course in Sociology.

Credit: three quarter hours.

This course covers a tour of the western states to California.

Open to Sophomores, Juniors, and Seniors.

304. Marriage.

Three hours a week. Credit: three quarter hours.

A study of the fundamental relationships involved in the institution of marriage, essential attitudes and knowledge for marital adjustment and success.

Prerequisite: Junior standing.

Three hours a week. Credit: three quarter hours.

An inquiry into the principles and merits of the different forms of government.

Prerequisite: Sophomore standing.

**223. The Teaching of Social Science in the High School.**

Three hours a week. Credit: three quarter hours.

This course covers subject matter in Social Science for the High School and the technique of presentation. Designed especially for Social Science majors.

See Education 223 s.s.

**250. A Field Trip in Government.**

Credit: three quarter hours.

This course consists of a trip to New York City by way of the Shenandoah Valley and returns by way of Baltimore, Annapolis, and Washington, D. C. This is offered in connection with Sociology 250. Open to Sophomores, Juniors, and Seniors.

**302. North Carolina State, County, and Municipal Government.**

Three hours a week. Credit: three quarter hours.

An intensive study of the State government of North Carolina, including its subdivisions.

Prerequisite: Government 1.

**324. Practice Teaching in Social Science.**

One quarter. Nine hours a week. Credit: six quarter hours.

Required of all Social Science majors.

## 401. International Relations.

Three hours a week. Credit: three quarter hours.

A study of international organization and relationships.

Prerequisite: Graduate standing.

## 402. The Growth of Constitutional Government.

Three hours a week. Credit: three quarter hours.

A study of the history and growth of constitutional development with emphasis upon the sources of the American Constitution.

Prerequisite: Graduate standing.
