

UNIVERSITY OF NORTH CAROLINA
DEPARTMENT OF MATHEMATICS

CHAPEL HILL, N. C.

Sept. 22, 1930

My dear Kinsman: - I am delighted to know that you find "Contemporary Immortals" readable. - I do wonder that you "miss" Einstein: he is quite a nut to crack, even for the experts. - I shall never cease regretting that I did not make the opportunity to know you

Uncle. He was, I know, a wonderful
man; & he & I, no doubt,
would have proved congenial.

I am glad to inform you
that I secured the picture
of Main St., Edenton, through
Mrs. Cobb of Goldsboro. Also,
Mr. Richard Brownrigg is
having that seal made for
me; I am happy to learn.

With every good wish to
you & your beautiful wife, &
with the hope that you will
visit us soon -

Cordially,
Richard Anderson
