Stuart:

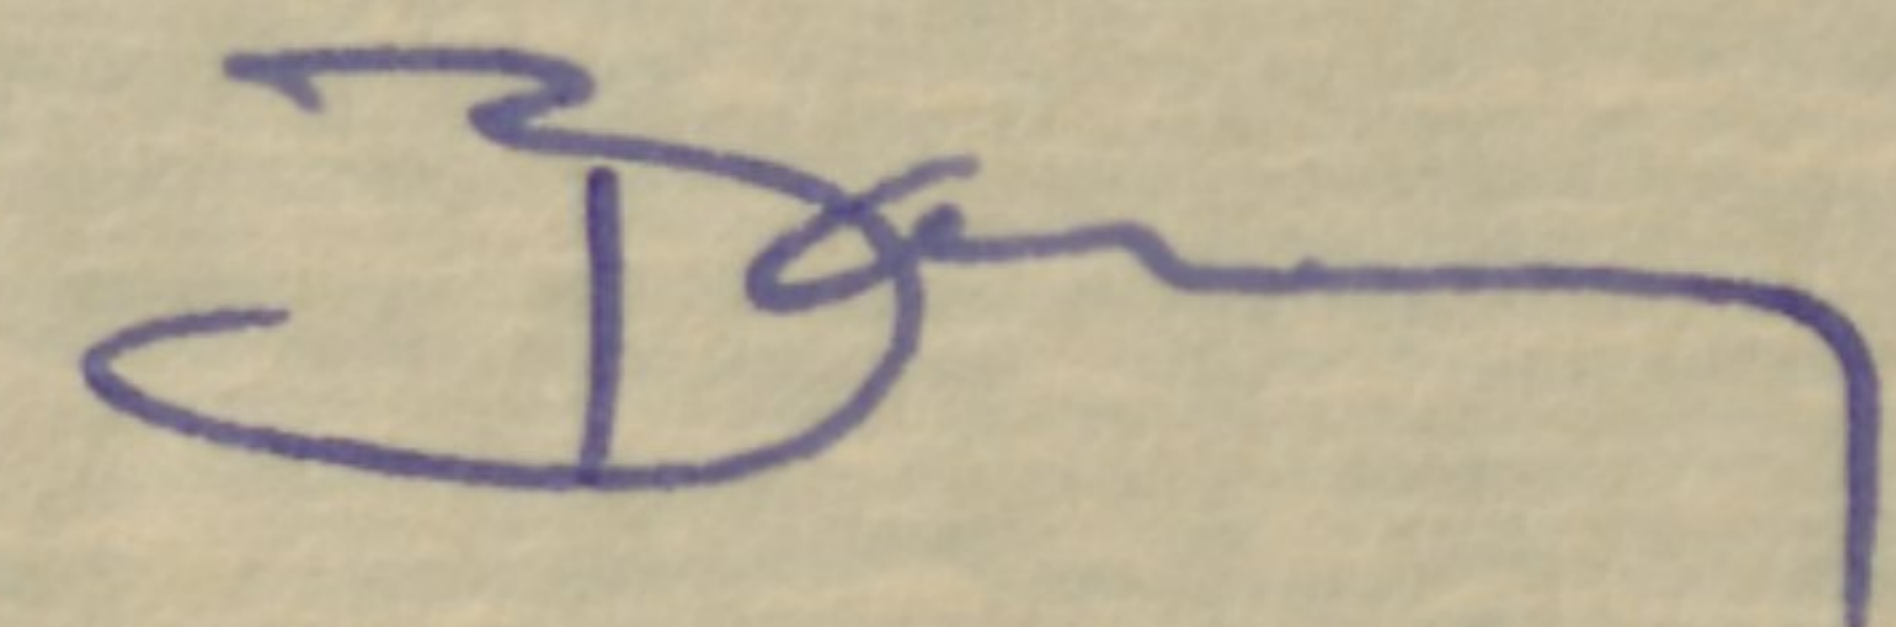

Well, Power and Light got a swell review in the Jackson paper, so you can send the yachts and the girls over, or just bring them with you when you get over this way.

ETV people coming up do a shoot on my life story. You want me to mention what Eudora does to me when she's not being good, or not? I can't decide whether the truth hurts too bad or not.

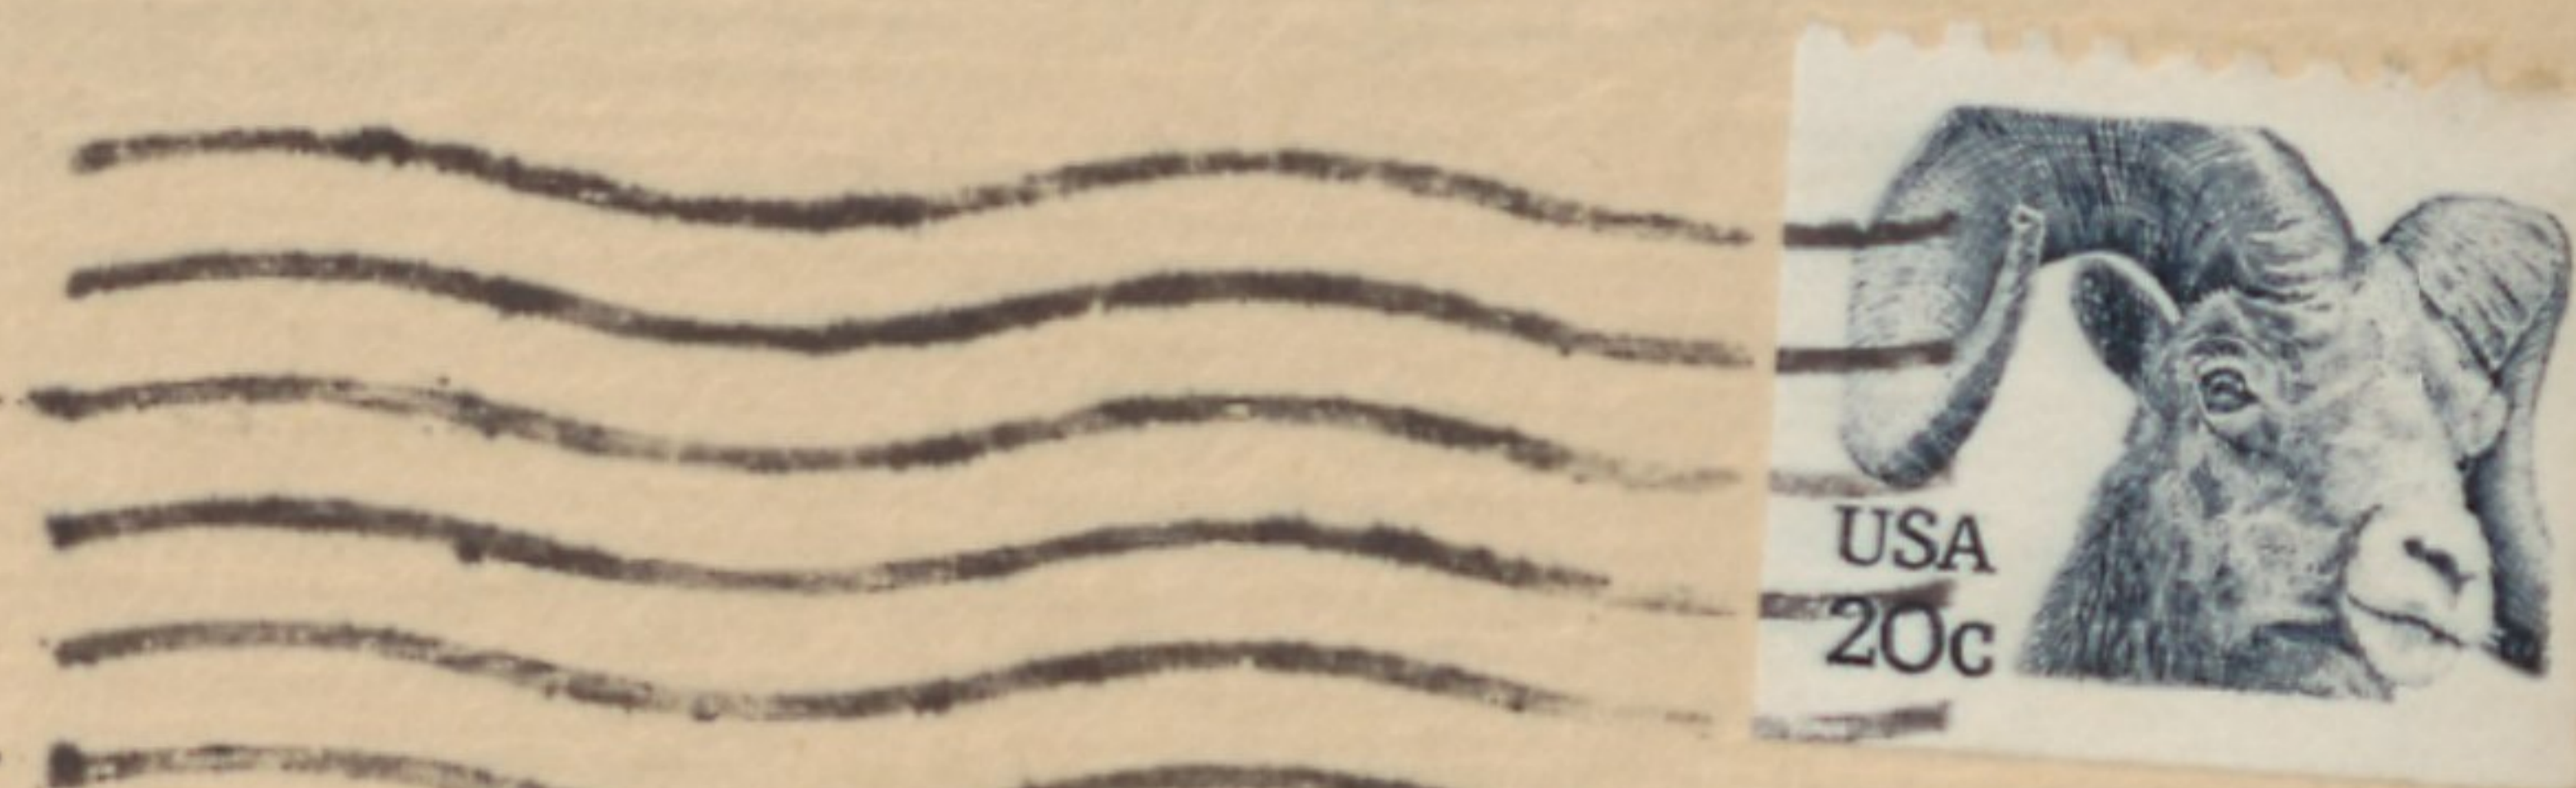

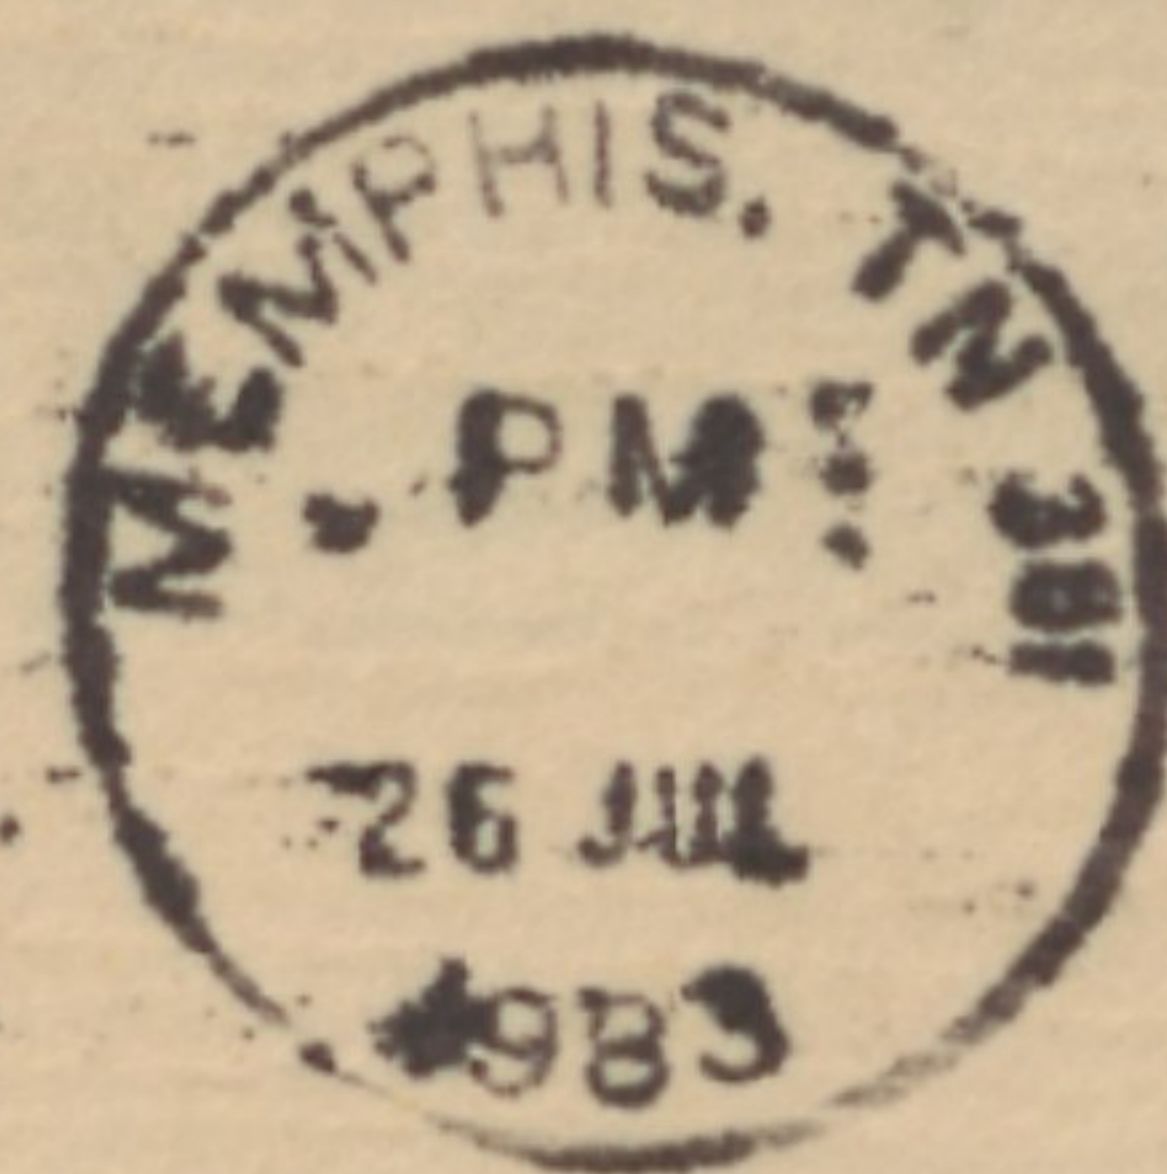

Doing fine here in the heat blast, except my Harley's down and the going on this Playboy story on bikers has been awful slow. Did the legwork, but have to notch the right lies together now. I'm collecting guns in case of Nat Turner again.

What are you doing for the Cause?

You Bud,
