Mr. Kenneth Vernon Price  
2769 Lyndhurst Avenue  
Winston-Salem, North Carolina

Dear Mr. Price:

I appreciated your nice letter regarding the weekend of the solar eclipse along with the pictures. We were indeed happy to see so many people take advantage of our facilities and share in such a spectacular event.

We shall look forward to having you visit the campus again in the not-too-distant future.

Best wishes,

Sincerely,

Leo W. Jenkins

Mr. Leo Jenkins  
President, East Carolina University  
Greenville, North Carolina

Dear Mr. Jenkins,

Enclosed in this letter are four photographs taken during the March 7 eclipse of the sun. I am sending them to you as a token of my appreciation for the facilities which you provided for us amateur astronomers. Being able to set up on the athletic field gave us an opportunity to view the sun with a minimum of atmospheric turbulence distortion.

These pictures are prints which have been made from slides. Because of this, much of detail and rose color of the solar prominences does not show up. They were taken through my six inch reflecting telescope. The providing of electric power enabled me to use my tracking system, thus allowing for more and sharper pictures.

Thank you once again for helping make March 7 a day to remember.

Sincerely,

*Kenneth Vernon Price*
