# Board discusses Herald

By KAREN WENDT News Editor

At the regular Media Board meeting held Wednesday, The Ebony Herald was again the major topic of discussion.

Members of the board questioned the feasibility of reinstating a new editor for the paper and whether the paper was necessary.

According to Rudolph Alexander, associate dean of student life, "Unless there is negative action taken, there is still an Ebony Herald."

After a large amoung of discussion on the matter, action was postponed pending the results of an advertisement which will be placed in The East "minority publication."

The possibility of changing The Ebony Herald into more of a magazine type format came up at the meeting, and it is possible that the board will decide to reinstate the publication with such a style.

The repeating of news had been a topic of discussion at a subcommittee meeting held the day before, but no decisions were made at the meeting.

Some other business of the meeting concerned reports presented by Marc Barnes, editor of The East Carolinian, and Pete Podeszwa, head of the Photo Lab. The problems of the two organizations have been solved to a large extent, according to the reports. It is expected to take a while longer to work out all of the difficulty in

the two organizations, but progress is being made. Salaries for East Carolinian employees has been a topic at previous meetings, and at this meeting, the advertising staff had been requested to come and

present their point of view on the matter. Though the advertising staff was present, it was decided by the board to do a long term study on the past and current salary policies and then possibly propose changes in the structure.

In the meantime, the budgets for each of the media have been approved, with the exception of The Buccaneer.

Buccaneer Associate Editor Barrie Byland presented to the board a list of the bids received by The Buccaneer staff from different printing companies and their choice of printers. It was necessary for the board to approve their choice before they could sign the final contract.

The board decided to ask The Buccaneer to present a more detailed list of the bids which would explain more fully why the staff has chosen the company in question to do the printing.

Alexander commented, "We have a moral obligation

The proposal was tabled until the next meeting, to be held Tuesday at 3 p.m.

## Charges possible

By ARAH VENABLE Staff Writer

An ECU student found with drugs in Slay dorm on Oct. 18 may face charges, according to Captain Wiggins, police investigator. A plant suspected of being marijuana and 93 tablets of what appears to be LSD were found by police. No charges will be made until lab analysis reports are concluded.

Wiggins added that charges have not yet been filed on the drug incident in Umstead dorm. The lab analysis is expected at any

A male student was assaulted by two other males on Monday around 1:25 a.m. Campus Police Chief Frances Eddings said the assault took place in the vicinity of 506 E. 9th St. near the dirt parking lots. The two men attempted to rob the student but did not

On Wednesday, three male students were apprehended for breaking windows out of the stairwell on the second floor of Graham building. Eddings said they were throwing something through the windows. The students have not been charged but

In another instance of vandalization, the pipe on the fourth floor water fountain in Scott dorm was broken off by three male students. Dean Mallory will also handle this incident.

have been referred to

Dean Mallory.

Around 8:45 a.m. Monday, a student reported that someone had cut the top off his convertible during the night. The car was parked on the south side of Jones dorm, and a radio and speakers valued at \$305 were stolen.

Another car was broken into on Sunday, and a student reported that her pocketbook was taken. The window of the car was broken, and the purse containing \$25 and a couple of rings was stolen. The car was parked at the northwest corner of Min-

It is also not known who broke into an Umstead room Saturday. Police said that money and jewelry worth approximately \$68 were taken in the robbery which occured around 11:00 p.m.

At 1:00 Tuesday morning, Eddings said police received a report that the gallery at Jones Cafeteria had been burglarized.

Among the food stolen was 13 qts. of orange juice, one half gallon milk, 3 pounds sausage, 2 pounds of bacon and one dozen eggs. Police have not yet determined how entry was gained.

A fight started in Jones dorm on Monday when one student supposedly cut up the pillow cases and napsack of another. Charges will be made through the men's residence council.

Another argument resulted in an alleged assault this weekend. Police got a report from a female stating that she and her boyfriend had an argument which ended with him assaulting her. No charges have been made, but the male student has been referred to Dean Mallory.

## Subcommittee discusses publications problem

By KAREN WENDT News Editor

The reinstatement of The Ebony Herald was the subject of a special Media Board subcommittee meeting held on Tuesday.

several black leaders to attend the meeting to discuss whether there was a desire for The Herald, or whether it was necessary to reinstate the paper.

The Ebony Herald has not been printed since October, 1978 due to management and other problems.

Ricky Lowe, treasurer of the SGA, Jerry Simmons, former Herald editor and Shelton Barnes, president of SOULS, were asked to the meeting to discuss whether or not they felt that The Herald was wanted or needed on campus.

All felt strongly that The Herald was needed on campus and that it should

begin publication as soon as possible. However, only one

person has applied for the position of editor, and most members have heard little interest expressed.

When board members The board had asked questioned the need for an Ebony Herald, Adderton stated, "The interest

> Problems with past Herald staffs have caused board members to be wary of attempts to renew the

> In the past two years, only two issues of The Herald have appeared, the last issue being in October of last year. Salaries were paid to staff members until February 1979.

Lowe repeatedly stated that he felt the people he had talked to expected to see The Ebony Herald during this fall semester.

At the hearing held in February, then Editor Jerry Simmons said that

the inability to gain access to The Fountainhead (name of the campus paper at that time) layout room made it impossible for the Herald staff to put together the paper.

When asked why he had been paying salaries to Herald employees, Simmons replied, "because they have been doing the

policy was then adopted by the board to use a "wait and see" attitude concerning The Herald. They decided that no paychecks would be issued unless a paper was

Fountainhead Editor Doug White said he had heard nothing from the of the Herald concerning use of the layout room.

No paper has appeared since that time and no editor has been named.

Tricia Morris, Chairperson of the Media Board, was a member of the subcommittee that is looking into the Ebony Herald problems. (Photo by John Grogan)

## CT&T strike may end

Members of the striking Communications Workers of America voted yesterday and will vote today to decide the fate of a proposed two-year contract with Carolina

Telephone and Telegraph Co. The results of the balloting will not be released until late Thursday night, after all votes are tallied at the Ramada Inn in Greenville, according to union negotiator

Delbert Gordon. The telephone company workers have been on strike since Oct. I when contract negotiations between labor and manage-

ment broke down over an automatic cost-of-living adjustment demanded by the

Approximately 3,100 of CT&T's 5,100 workers are represented by the union. About 250 union members are with the Norfolk-Carolina Telephone Co., which serves all or part of six northeastern North Carolina counties and which is in the process of being merged with CT&T.

The two groups are voting on basically the same proposed contract.

## School recieves grant pay parking fees

School of Medicine will soon be involved in a unique project to develop a new drug, according to Pharmacology Professor Dr. John P. DaVanzo.

The USV Pharmaceutical Corporation has recently granted the ECU medical school \$57,000 to develop a drug that has been effective in lowering

East Carolina high blood pressure in

According to DaVanzo, the grant represents the first time that a private corporation has engaged an academic institution in the direct development of a commercial product.

"It's a new concept in academia, and it shows the trust and confidence ed. the company has in East

## Computing majors recieve third place

A team of ECU Computer Science majors won third place in a regional programming contest held in Raleigh Saturday.

Fifteen colleges and universities from North Carolina and neighboring states competed in the contest, which was sponsored by the Association of Compuing Machinery.

Each team was given four problems to program into a computer, using a language known as FORTRAN-4. Winners were judged according to the ease and speed with which solutions to the problems were then acquired through the computer.

Computer science majors david Sowell, Gary the entrants.

Boswook, Tim Finnell and Kevin Flannery were the

ECU team members.

According to Dr. Milam Johnson, a Mathematics professor who accompanied the team, succussful computer programming requires skill in analysing problems as well as accuracy in anticipating how long their solutions must be handled by the computer.

Johnson also noted that the ECU chapter of the Association for Computing Machinery will meet Tuesday Nov. 6 at 4 p.m. to discuss the ECU team's methods and results in the

contest. N.C. State University, which hosted the competition, placed first among

Carolina University," said DaVanzo.

High blood pressure, hypertension, is a serious condition affecting millions of Americans. Medications for its treatment are available on the market, noted DaVanzo, but newer and more effective drugs are need-

"We hope ECU can play a major role in filling this need," he said.

DaVanzo will head a team of four investigators who will conduct extensive studies on the new drug. Although the drug lowers blood pressure in animals, how it works and the mechanisms involved remain unclear.

"The team will actually be developing the whole drug, not just a portion of it," DaVanzo said.

The physiology and pharmacology departments of the medical school will cooperate in the study. Other members of the research team are Drs. Samuel Iams, Alphonse Ingenito and John Yeager.

The grant will cover research costs for one year and is renewable.

# Carter; Jordon to

By FRANK CORMIER Associated Press Writer

WASHINGTON - In another month, Hamilton Jordan and other top aides to President Carter will begin paying \$32.50 a month for the privilege of parking inside the White House fence.

Carter's principal assistants hold assigned parking slots right beside the White House West Wing. For many years, these slots have been provided free of charge as a fringe benefit to presidential aides.

Last April 1, Carter announced that regular fees would be charged for these and thousands of other parking spaces allotted to federal workers in the Washington area.

If parking costs money, Carter reasoned, bureaucrats might be motivated

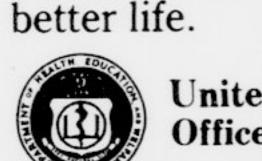

to take public transit or join car pools. The objective, of course, is to save energy.

Carter said the fees would be imposed Oct. 1 but, perhaps predictable, the red tape involved has delayed implementation of the fee system until Dec.

At \$32.50 a month, staff chief Jordan's parking tab will be a bargin. Commercial rates near the White House run to \$5 a day or more in many

The imposition of parking charges represents such a jolt to the personal budgets of may federal employees, however, that a decision has been made to have a one year, halfprice transition period. After 12 months, the fee for parking inside the White House compound will jump to \$65 a month.

# The East Carolinian Citorials Ed pinions

Thursday, November 1, 1979 Page 4

Greenville, N. C.

# Change the Herald

The Ebony Herald has been revived, at least in the minds of the Media Board, who were recently called on to decide the fate of the minority newspaper.

We cannot agree with bringing back the Herald in the form that existed last year. Our feelings are based on a variety of reasons. For example:

•We cannot see a need for it. Minorities on this campus should realize that The East Carolinian serves ALL the students on this campus. To this end, we have appointed a minority affairs reporter, whose sole job will be to report on news of interest to minorities.

•To say that The Ebony Herald of last year was of poor quality is an understatement. On page one, The Herald featured two press releases and a report on the activities of S.O.U.L.S. Inside, there was coverage of black fraternities and sororities, as well as a crossword puzzle and news of a new Latin course being offered. A good story on Sickle Cell anemia did appear on the back page.

 The Ebony Herald appeared only once last year. Former editor Jerry Simmons cited problems in production with The Fountainhead (the former campus newspaper) as a reason for this. However when an effort was begun to straighten out the problems, no one on the staff of The Herald contacted former Fountainhead editor Doug White.

•In past issues of The Ebony Herald, stories have been printed in both the minority newspaper and in the student newspaper as well. We cannot see spending large amounts of money to print matching stories in two different newspapers.

We have no criticism of a minority forum on this campus; rather, we have sharp criticism of what the last Ebony Herald had become. We do offer some suggestions as to what we feel The Ebony Herald should be like.

-First, The Ebony Herald should change its name and turn into an entirely different entity. All layout and design of the past Ebony Heralds should be scrapped, and new design should be its primary concern.

-Any new editors chosen for The Herald should make quality their first priority. They should have logged time in professional newspapers or magazines, or they should have taken the advanced Journalism courses offered by the English Department.

-A new operations manual, like that required of all other media, should specify who does what in this new minority publication.

—This new publication should cover all minority students, rather than the black student population only.

-This new enterprise should have a magazine type format, and it should appear twice a semester, rather than one proposal we heard of having it appear twice a month. A new staff will have enough problems in getting together enough material in the beginning for a twice a semester newspaper.

Finally, before anything else is done, an effort should be made to find out what needs the minority populations of East Carolina have, and then determine what a minority publication could do to meet those particular needs.

If no needs are found, or if student apathy results in no applications for editor, the entire project should be scrapped.

#### American Journal

## Nukes breed overseas

By DAVID ARMSTRONG

As several hundred thousand gallons of radioactive water continue to confound technicians at the damaged Three Mile Island nuclear power plant, the American nuclear industry is stepping up efforts to export dangerous atomic technology abroad. This move is a direct result of the increasingly unfavorable climate for nukes here that has cut orders for new domestic reactors to nearly zero.

The campaign to export technology abroad." American nuclear tech-October when the State Department approved the export of a key component for a controversial nuclear power plant in the Philippines. The go-ahead must still be approved by the Nuclear Regulatory Commission, but President Carter can override the NRC and permit the shipment anyway. Last year, Carter okayed the export of seven tons of policy of limiting U.S. sales of nuclear know-how.

near the village of Morong on the island of Luzon, has drawn the fire of antinuclear activists for several reasons. Morong is only 45 miles from the populous capital city of

of the partially-completed earthquake faults.

Controversy has dogged the Morong plant from the first. Construction costs have shot up to \$1.1 billion for only one of the two reactors - over four times the original optimistic estimate. Local fishermen, who account

itself has estimated that plant, as are several major the country's present electrical needs could be met by hydroelectric power. Geothermal power is also undergoing rapid development in the Philippines.

According to nuclear critics and researchers, Morong is a key test of strength for the ailing nuclear industry in the U.S. - one that the

## JACK ANDERSON-JOE SPEAR

#### Carter's High-Interest Policy May Wreak Ruin on the Economy

By JACK ANDERSON and JOE SPEAR

WASHINGTON -- Jimmy Carter kept his family peanut business afloat with free-and-easy bank loans from his Georgia buddy Bert Lance. He profited from low interest rates and extended credit.

Now, as president of the United States, Carter has bestowed his blessing on a tight-money, high-interest banking policy that may well drive farmers, peanut or otherwise, into bankruptcy. His appointee as head of the Federal Reserve, Paul Volcker, has ordained higher bank interest rates that could also cost hundreds of thousands of American workmen their jobs, prove ruinous to small businessmen and squeeze the budget of every housewife in the country.

Playing politics with our pocketbooks, Carter is trying to play catch-up with inflation by going along with the Volcker Plan that hikes the prime interest rate to dry up the money supply for such vital sectors of the economy as home building, plant expansion and longrange investments.

Unfortunately, the Georgian and his advisers have been guessing wrong on the American economy at every turn and the nation is headed into a deep recession. Secret Cabinet minutes furnished us from last February show the president's chief economic adviser, Charles Schultze, predicting "the economy should begin to slow down" and later optimistically discerning "some signs of a desired non-recessionary slowdown."

As Carter's efforts to curb es. the engulfing wave of inflation proved as futile as King nomic tunnel is, the Ameri-Canute's order that the tide can consumer. stop coming in, some of the president's men suggested price and wage controls and tial race was starting too

## Symphony will perform

By BILL JONES Features Editor

The ECU School of Music will present three days of musical entertainment this weekend.

This Friday and Saturday at 8:00 p.m. the ECU Opera Theater will stage Scenes From Opera, their annual Fall Scenes Program.

This year's Scenes will be the third act of Engelbert Humperdinck's Hansel and Gretel, Act 2 of Giacomo Puccini's Tosca and scenes 1 and 2 from Carl Orff's Der Mond.

Hansel and Gretel will feature a Children's Chorus including 8 fourth

direct all scenes and acts. Charles Moore, an ECU School of Music faculty member, will narrate the scenes from Der Mond.

#### Symphony

This is the 197th anniversary of Beethoven's Eroica symphony, which was completed in August, 1804. Eroica, the Symphony No. 3 in E-flat Major and Ginastera's Concerto for Harp and Orchestra will be performed this Sunday afternoon by the ECU Symphony Orchestra. Robert

Hause will conduct.

graders from the Green- and Orchestra will feature ville City Schools. Dr. harpist Marian Harding. Clyde Hiss, who has Harding is the harp directed the ECU Opera instructor for ECU and Old Theater since 1965, will Domonion University in Norfolk, Va.

> Harding lives in Williamsburg, Va., where she is harp soloist at the Regency Dining Room of the Williamsburg Inn. She also offers private instruction in her studio.

Born in Philadelphia, Harding has played with the Richmond Symphony and the Norfolk Symphony. She is currently harpist with the Virginia Classical Symphony.

The ECU Orchestra program will be held in Wright Auditorium this The Concerto for Harp Sunday at 3:15 p.m.

## "For Colored Girls... is provoking, personal, spiced with dance

By ALISON BARTEL Staff Writer

The sparse and simple scenery accompanied by charoscuro lighting sets the stage for the production "For Colored Girls Who Have Considered Suicide changes. Choreopoet When the Rainbow is Enuf." As the house lights go down, the lonely, isolated atmosphere is abruptly broken by sounds resembling native chants of Pamela Henry, Vernon Jones, Melinda Richardson and Earlie M. Washing-

This introduction is the prelude to a thought provoking and personal theme produced by a cast of seven women: Charla L. Davis, Penelope Alford, Debra Zumbach, Renee DuLaney, Gloria Brewington and Crystal Barnes. Each actress represents the attitude of a girl attempting suicide in an American city. The performance of Cloria Brewington, "The Lady in Blue," was outstanding with her pleading voice accompanied by her flamboyant elocution and contorted facial expressions. This performance is only one of the highlights of the show. Another is the beautiful dancing of the entire cast that interprets the theme of the show extensively.

BLACK ARTS

The ECU Black Arts Festival will begin November 1 and continue through November 9. An art exhibition which kicks off the Festival will be on display in the MSC Gallery throughout the duration.

GOSPEL CONCERT

There will be a Gospel concert on Sunday, November 4, which will feature the New Birth Chorale Ensemble, the Fountain of Life Choir, and the ECU Gospel Ensemble.

JUBILEE!

The Theater Arts Committee presents Jubilee!, a celebration in song with tunes from Porgy and Bess, Showboat, The Wiz and more. Jubilee! will be held in Hendrix Auditorium at 8:00 p.m.

## Artist equates art with communication

By ALISON BARTEL Features Writer

"We limit ourselves by trying to create. Art is a way of communicating, saying 'I'm happy,' or 'I'm sad,' or 'the world is or 'the world is good," says Bobby Simmons, a graduate of ECU School of Art and a teacher at Sampson Technical Institute.

Simmons, for whom a reception will be given by the Student Union Art Exhibition Committee this Sunday, feels that being an artist offers many things beyond just the act of creation.

"Art is also a way of municate all these things (the feelings mentioned above) just by a stroke of

a pen or pencil. Then, afterwards, I can still be the same person," Simmons added.

Simmons did not take art lessons until he was in his senior year of high school. He then entered ECU and graduated in 1978. His favorite medium is oil, but that doesn't prevent him from experimenting with other types of media. His style is a combination of collage and Picasso's later style of painting. Realism appeals to him, too, when he is able to add a touch of abstract.

EAST CAROLINA UNIVERSITY

In 1960, the rural crime rate was 423 incidents per 100,000 population. In 1977, the latest year for which tigures are available, the rate stood nearly five times higher at 2,012 per 100,000 population. During the same period, crime in metropolitan areas rose about four

times higher. Put another way, in 1960 the odds of someone in a rural area being a crime victim were about one in 236. By 1977, the odds were one in 49.

Professor Howard Phillips of Ohio State University says the FBI figures show that rural crime is now roughly equal to urban rates reached in 1967.

'The question I have," says Phillips, "is do you have to catch up to the problems of urban centers before Washington and others will pay attention?"

Information on the nature and extent of the problem is sketchy, but researchers generally agree rural crime has certain characteristics: Property crime is the leading problem, especially vandalism and theft. Phillips estimates that in rural Ohio, vandalism accounts for as much as 50 percent of crime. Purdue University studies of two Indiana counties found vandalism accounted for 23 percent of crime.

In Hampshire County, W. Va., farm equipment theft if the most prevalent crime, according to researchers Thomas Bean and Layle Lawrence, and a local hunter there was recently caught shooting up a farmer's house.

This summer, someone took a four-wheel drive vehicle and ripped through cornfields on the outskirts of Toleda, Ohio.

Around the country, tractors, combines and other expensive farm machines are easy prey for thieves, because many rural Americans can't get used to the idea of locking things and removing keys.

-Rural crime is generally not as violent as urban crime, but the murder rate in rural areas is only slightly less than in cities.

-Rural criminals are almost always young males. They usually commit their crimes in their home county, although not in the same town.

"One thing's for sure. It's not people from metropolitan areas running out and victimizing rural areas," says Purdue researcher Joseph Donnermeyer.

Several reasons are offered for the rise in rural crime. A leading cause cited is the lack of law enforcement personnel in rural areas.

A second factor is the wealth in many county towns: there's plenty worth stealing and not much protecting it. Rural America is much more affluent these days.

In Montmorenci, Ind., Thunderbirds are parked in front of \$100,000 homes. As often as not, the keys are left in the cars, and the front doors of the houses are unlocked.

Inside are stereos, color TVs and microwave ovens. New highways and new industry have helped open the way for crime in rural America. Strange cars cruise

## they appear suspicious. Wave Forms on display

ECU NEWS BUREAU

GREENVILLE -'Wave forms' and other kinetic sculptures by Bif Bream of Chapel Hill, senior student in the East Carolina University School of Art, are on display this week at the Baptist Student Center gallery at 511 East Te nth St. here.

Bream noted that his moving sculptures, made from wood and dacron, are designed to enable the viewer to "participate physically as well as emotionally and intellectually."

"This sculpture is analagous to light and sound waves that are the basis of human perception," he said.

Bream, a member of ECU's Visual Arts Forum, is a candidate for the Bachelor of Fine Arts degree in design with a minor concentration in sculpture.

#### ARTIST

continued from page 5

About being a black artist, Simmons said, "I'm a black artist because I'm black ... I'm black in nature also, but other than that, I consider myself an artist seeking the truth."

Simmons believes that producing art is a talent from God. He is concerned that too many people allow their talents to be wasted. As an artist, Simmons

finds his work a liberating force for the mind, but as a private person, he acknowledges another, more powerful force.

''I'm a born-again Christian. The most important motivating factor in my life is Christ," Simmons said.

A reception sponsored by the Student Union Art Exhibition Committee will be given in Simmon's honor. It will be held in the upper gallery of Mendenhall Student Center November 4th at 7:00 p.m. Everyone is cordially invited to attend. Refreshments will be served.

During his senior studies at ECU, he has taught introductory courses in drawing and art history at Wayne Community College in Golds-

boro and has worked in his own Greenville Studio.

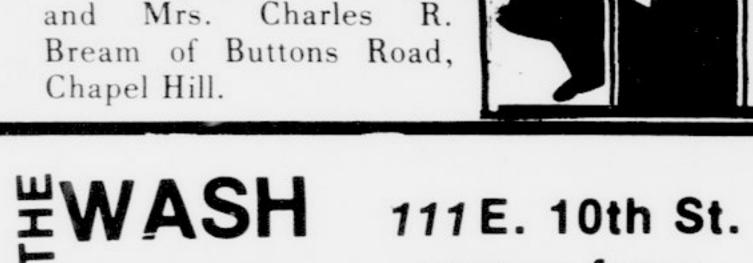

His parents are Dr. and Mrs. Charles R. Chapel Hill.

#### Tyson, ECU finished

The soap opera has ended.

East Carolina basketball center Al Tyson has put an end to it. After a controversial one-year stint with the Pirates, the sophomore from Winterville has officially withdrawn from school and will look for another campus to call his own.

From the very beginning of his career at ECU, Tyson was an enigma. His recruitment by the Pirate staff, headed by ex-coach Larry Gillman, was protested by the Mississippi State staff, who claimed that Gillman and Co. had gone about getting Big Al in the wrong way.

The complaint brought on an NCAA investigation. The investigation was a long, drawn out one that ended this past summer. The result — ECU's basketball program was put on one-year probation. This meant that the team could not appear on television or compete in a post-season tournament.

Even before the probation Tyson was a big question mark. He quit the team at the end of last season and did not make the trip to Notre Dame with the Pirates. His reason was that he had had it with East Carolina, and especially Gillman.

#### True, Tyson must surely have felt as though he had a monkey on his back.

Tyson had good reason to be fed up with his coach at that time also. The 6-11 center had not honestly been given a fair chance by the controversial Gillman. A perfect example was the aftermath of his sparkling 20-plus point performance last year at N.C. State. The game immediately after that Tyson saw very little action. It seemed as though he were being benched for a bad performance, rather than being rewarded for a good

Perhaps disgust with situations like that one were the reasons for Tyson's occasional lackadaisical effort on the court. At times there seemed to be something dwelling heavily on his mind.

The resignation of Gillman and the hiring of ex-Wake Forest aide Dave Odom seemed to breathe new life into Tyson, Odom convinced the big man to give it another try with the Pirates. Tyson even went as far as to attend summer school so that he might be able to play basketball.

Then came the next roadblock. Even though he met university and NCAA requirements concerning academic eligibility. Tyson was suspended from the team at the start of pre-season practice by Odom. The new coach claimed that Tyson did not meet his requirements academically.

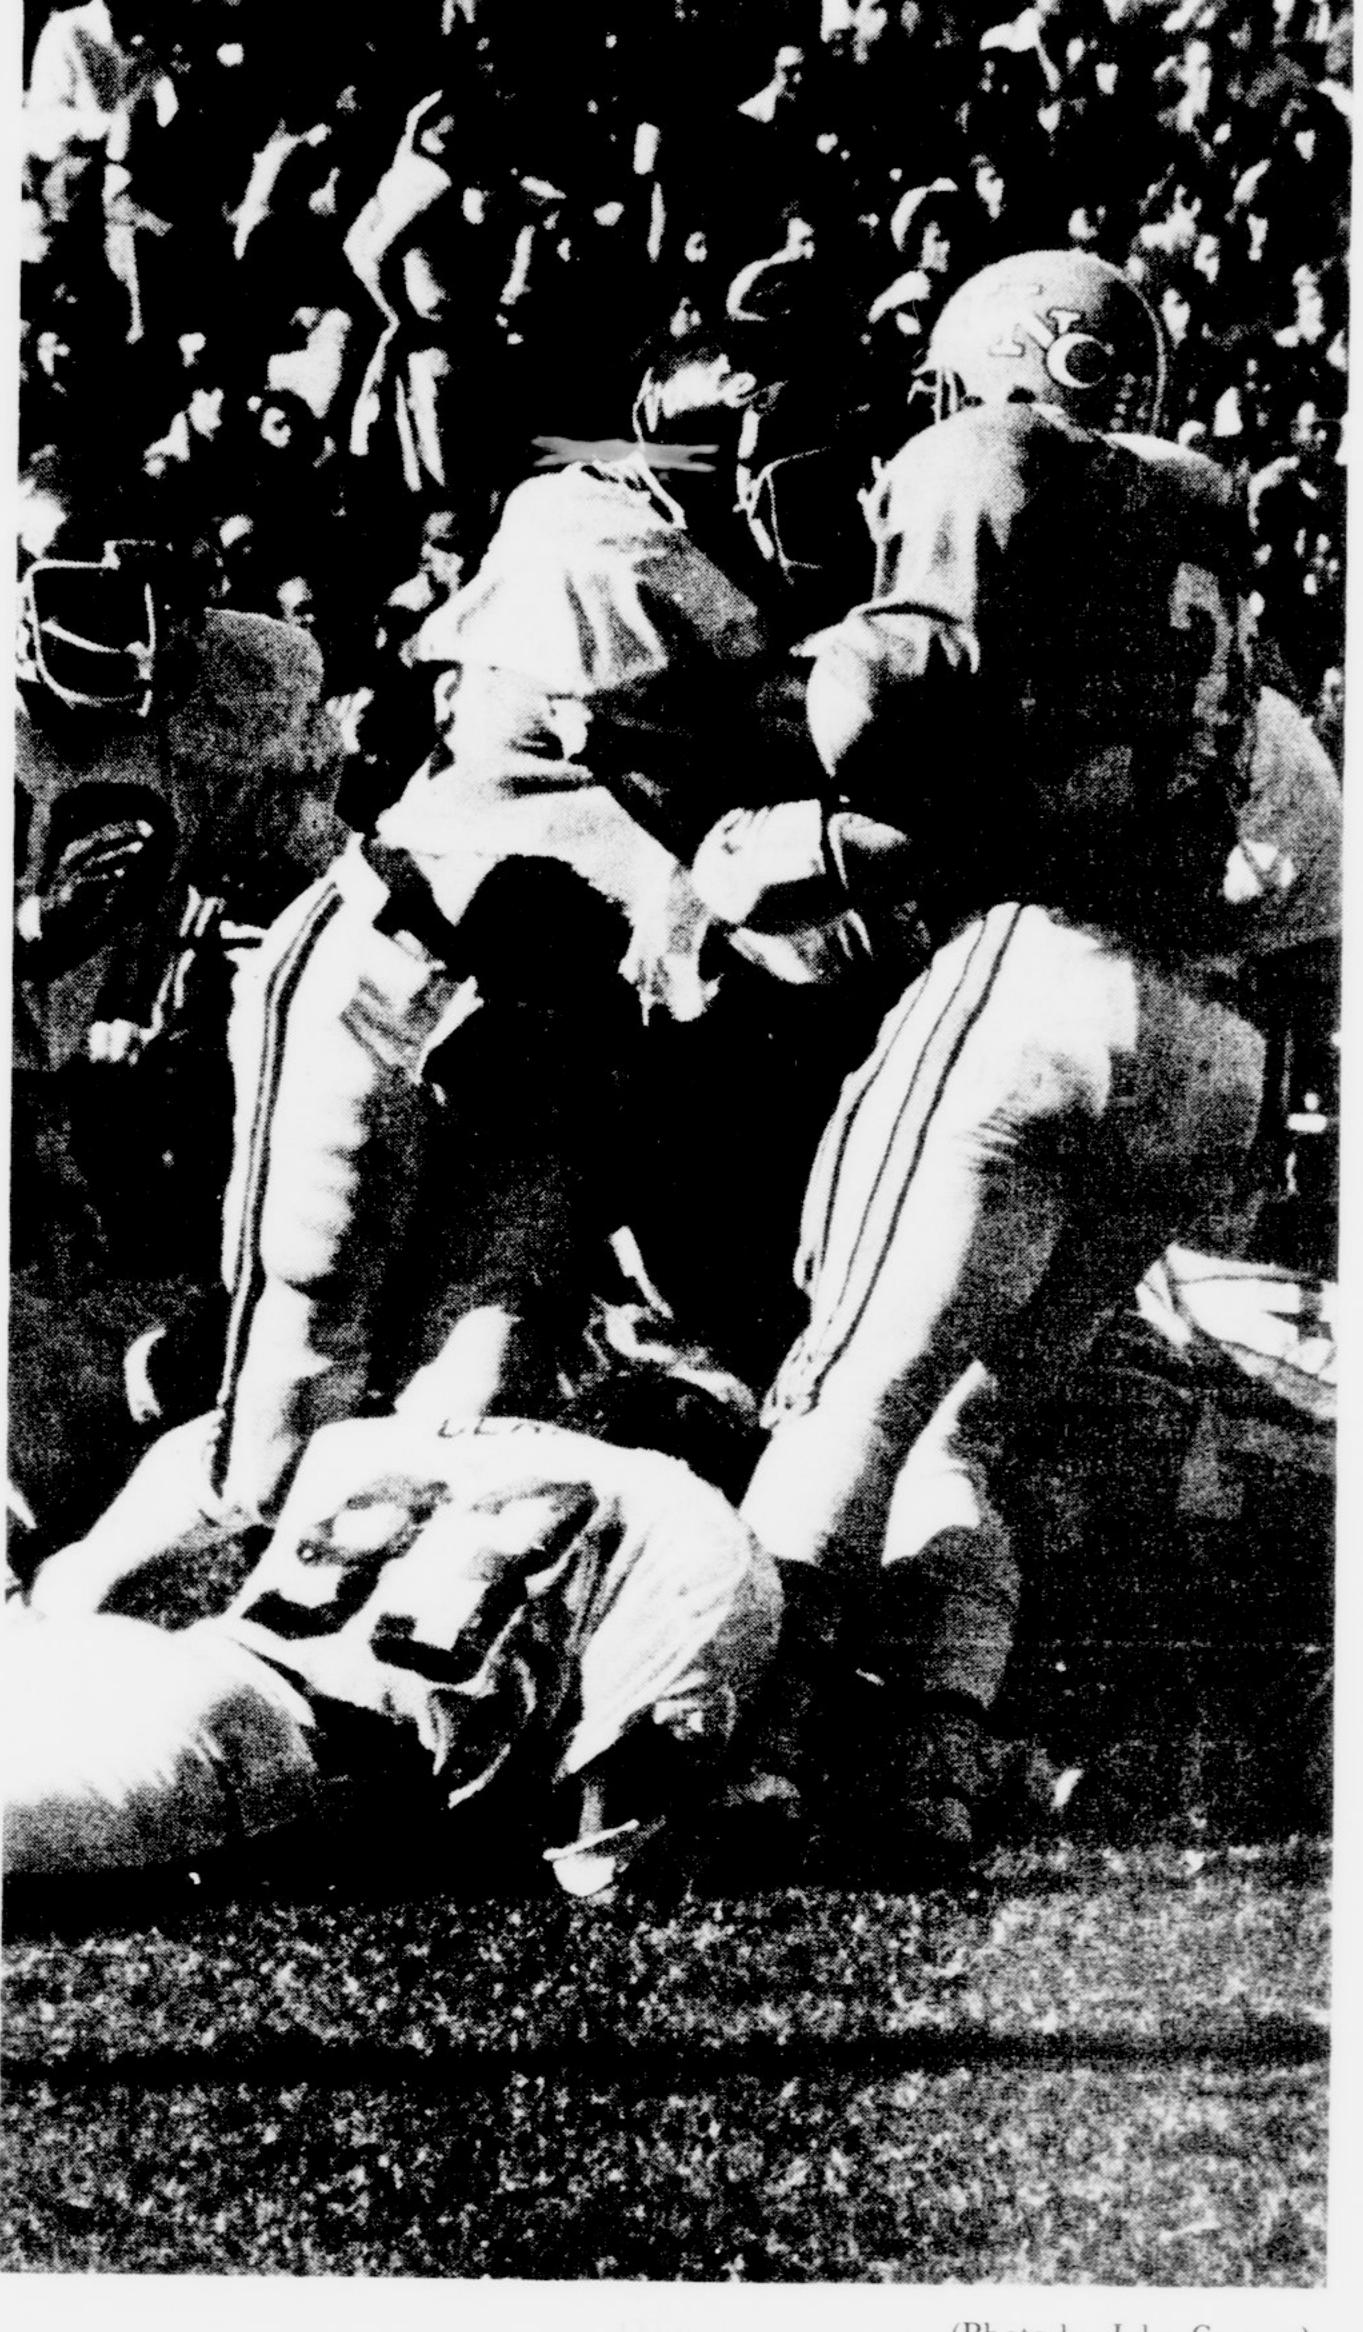

Odom promised, though, that Tyson could return as soon as he reached the point where he met the requirements. Odom said that he felt Tyson would be better spending his time working on his studies, rather than practicing until he reached that point. Al agreed. Tyson went so far as to say that he would be out of action for only one or two weeks.

Then came the grand finale. Tyson withdrew from school last Tuesday. Odom was out of town at the time, so he could not be reached. The coach later made it clear that Tyson did make an effort to contact him in advance of the taken actions.

Odom spoke with Tyson last week concerning his actions. "He related to me that he felt it would be better for him if he left Greenville and East Carolina," Odom said. "He had so much pressure on him here. He was a local boy and there was a great deal expected of him. He felt it would be better if he could go somewhere where he would be somewhat of a stranger."

True, Tyson must surely have felt as though he had a monkey on his back. Everywhere he went he was easily recognized, if nothing else for his 6-11 frame. It seemed as though almost everyone he saw would ask him the same questions, all about basketball.

combination for them. There's no doubt Saturday's game. 'This is a very, very important football game for East So Dye knows that the Pirates must Carolina," Dye said. "I just hope our fans move the football well in order to win and players realize that."

## Brown leads passing attack

Down goes Billy Johnson

## ASU depends on offense

By JIMMY DuPREE Assistant Sports Editor

Saturday's contest between the Pirates of East Carolina and the Mountaineers of Appalachian State could prove to be more of a contest than many speculators give credit if the Apps can untrack their potent passing attack.

But qualify that with a big IF. Appalachian quarterback Steve Brown enters the contest with an impressive 332.5 yards total offense per game, fourth best in the NCAA.

Junior split end Rick Beasley (6-1, 180) should present a familiar problem for the Pirate secondary; an expert receiver teamed with a quality passer. The primary weakness of the Mountaineers offensive

attack will be their inexperienced front line. To beat a defense with the power and ability to blitz which ECU has, a team has to be strong in the trenches. Tight end Stan Cunningham (6-2, 229) and guard

David Turner (6-3, 228) return as ASU's only seniors on the line. Sophomore tackle John Sellers is the most massive of the linemen at 6-2, 250.

"Their offense is similar to ours," said ECU assistant Wayne Hall. "They run the wishbone, but they switch off and run the I-formation as well."

Hall feels that the Pirates will have to be wary of the run and not expect ASU to unload passes on every play. 'People tend to over-compensate for the run when they are playing a wishbone team and that's how they've been able to roll up so much passing yardage.

"If you can throw out of the wishbone, then chances are you're going to have a lot of success. Over the past few years, the wishbone teams have begun to improve their passing games to balance their attack."

Defensively, ends Craig Bonner (6-1, 190) and Sami Killman (6-4, 225) provide leadership and strength to battle the East Carolina speedsters.

One fact reassuring after the 24-24 tie with UNC last weekend is the fact that Appalachian State has a track record of losing close games through their 2-6 effort thus far. Four of their losses have been by less than a touchdown, and another by a TD and a field goal.

"They've been in close games all year long," said Hall. "The last couple of times we played them they had a quarterback hurt. The last time we played them with a healthy quarterback, they beat us.

"I don't think we're the big point of their season, but a win would help them a lot."

ASU coach Jim Brakefield

Noah Clark

## Clark's return strengthens defense

By JIMMY DuPREE Assistant Sports Editor

It seems like a long time ago that the Pirates of East Carolina rolled into Raleigh and faced the Wolfpack of N.C. State, but no player counted the days until ECU faced North Carolina last Saturday with more

anticipation than senior defensive tackle Noah Clark. 'I was finally ready to play," said Clark, who suffered a knee injury in practice the week after the 34-20 loss to State.

"I didn't favor the knee any. I've tried to keep my mind off that (injury)."

"We're glad to have Noah back on defense," said assistant coach Wayne Hall of the 6-1, 229 native of Robersonville. "He makes a lot of big plays.

"At defensive tackle, when Noah's there, we have a lot of depth along with Tim Swords, Vance Tingler and Nate Wigfall. He's a super athlete."

Clark made his presence known to the Tar Heel running backs early in the contest, making two no gain tackles in the first two UNC possessions. "We were down after the first half," he said. "We

knew the offense was moving the ball, but we had hold Carolina." Clark had confidence that the Pirates could beat the 15th ranked Tar Heels, though they had had limited

success this season with other Atlantic Coast Conference

"There was no doubt in my mind that we could win the game," Clark stated. "We had to approach it as if it were the last game of the season.

'Take nothing away from Carolina; they're a great football team offensively and defensively. They deserve to be ranked."

The Pirates final opportunity for victory fell short as exhausted place kicker/split end Vern Davenport's 57 yard field goal attempt fell just a few yards short of

'I was just hoping," said Clark. "I knew he was very tired after running pass patterns all day, though." The physical pain of his injury was minor compared to the mental anguish of having to sit helplessly on the sidelines as East Carolina lost to Duke and Wake Forest

before whipping VMI and The Citadel in homecoming. 'It was tough on me mentally," he said. "The Sports Medicine department kept me in shape and I ran for two weeks before I could work out with the team. 'They stayed on me about rehabilitating my knee. I

was back faster than I thought I would be." Clark expressed disappointment in the Buc's 3-3-1 record and the 24-24 tie with UNC.

started as good as we should have this season. It was especially hard after the defense was ranked second nationally last year." The defense administered battle scars to several Tar

Heel backs, most noticably Amos Lawrence and Doug Paschal.

"I noticed Paschal had his leg bandaged before the game," said Clark, "but I think we might have hurt it a little more."

Lawrence, who suffered from a groin pull prior to the contest, left the game in the third quarter with another

"It (groin pull) was bothering me real bad in the first half," said Lawrence. "I just hid it so I could stay in the

"When I left the game, my entire left arm and shoulder were numb." Clark has his own version of how the injury occured.

"The defense had been hitting him hard all day," he said. "They put the clamps on him and he was out the rest of the game. He was spinning and got hit as he turned to face the line."

The Pirates must now focus on the Mountaineers of Appalachian State, a wishbone team with an impressive passing attack.

"As a team we have to put it behind us and shoot to "We just have to control the ball and look for the win the rest of our games," he said. "We didn't get run as well as the pass."

## UNCC booters defeat injury plagued ECU Pirates, 4-0

By DAVE SEVERIN Staff Writer

Sosa scored his 25th and 26th goal of the season to lead the UNC-Charlotte 46ers over an injuryriddled East Carolina soccer team 4-0 Monday afternoon at the Minges soccer field.

"We did not play well at all," cited Coach Brad Smith. "We were worn out from the Carolina game Saturday. We had no movement whatsoever to the ball and we showed a great lack of team play. It just wasn't our day."

The lack of play certainly showed in the first half of play as the 49ers took control of the game early and scored all four of the goals within a span of 18 minutes. But a lot of the lack of play was due to the loss of Chip Baker and Phil Martin.

"Chip hurt his foot and bad the next game we there's a possibility it is play. A good example is broken. Phil has a severe our coming off a close Sophomore Fernando sprained ankle and will be game against Carolina in out a couple of weeks. The rest of the team is either aching with bruises or ailing with colds and viruses."

> But out of this big black cloud of dilemmas, Coach Smith still found a trace of silver lining.

"We got to play some of our younger players and found we have a little depth," he said. "I was especially pleased with Howard Beimus. He came off the bench and played an exceptional game." Coach Smith also point-

ed out Mike Hitchcock and Brad Winchell as playing well against UNCC.

booters need is a little consistency. "Our guys will play

Associated

By JIMMY DuPREE Assistant Sports Editor

"We have a lot to do in the next twelve days," said Lady Pirate basketball coach Cathy Andruzzi following a Tuesday scrimmage with Louisburg College.

Andruzzi stated that the team did an excellent job of night." working the ball around to the open player for a shot, but added that they "need to concentrate on teamwork. 'I mean they need to learn to help each other on

defense; to help cover," she explained. "The offense was working very well."

The team opens regular season play in Minges Coliseum November 27 against William and Mary, and Andruzzi feels the scrimmage benefitted her squad as well as Louisburg.

"Louisburg was a very good team to scrimmage against," said Andruzzi. "Our big team was not quick enough for their fast team, and when we put in our fast team we gave up a lot of height."

Andruzzi stated that defense was her main concern after viewing the scrimmage.

"We didn't take them out of their offense like I thought we should have," she said.

"We're very aggressive when we play against each other every day in practice, but they got out on the court, they calmed right down.

"We played with a lot of intensity at times," she said, "but it has to be maintained throughout the

The competition was the first for the eight new members of the Lady Pirate program, and Andruzzi stated that she was pleased with their overall performance.

atColumbia, Mo.

Darrel Dickey, Kansas

The second year head coach from Staten Island, N.Y. expressed concern over ECU's failure to dominate the boards as they should have.

"We were pushed under the boards," she said. "Louisburg was a much more physical team than we were last night (Tuesday). We were boxed out all

Sophomore guard Lillion Barnes saw no failure of the team to work the ball on offense.

"We did very well on offense," Barnes said. "Even with all the new players we haven't had any trouble adjusting to one another.

"We've still got a lot of work ahead of us before we'll be ready."

Depth will be a new dimension to the Lady Pirate scheme in the 1979-80 season, with several players six feet tall or over and better ball handlers.

"Everybody should get a chance to play," said junior center Marcia Girven. "We had ups and downs against Louisburg, but overall we're a much better team than

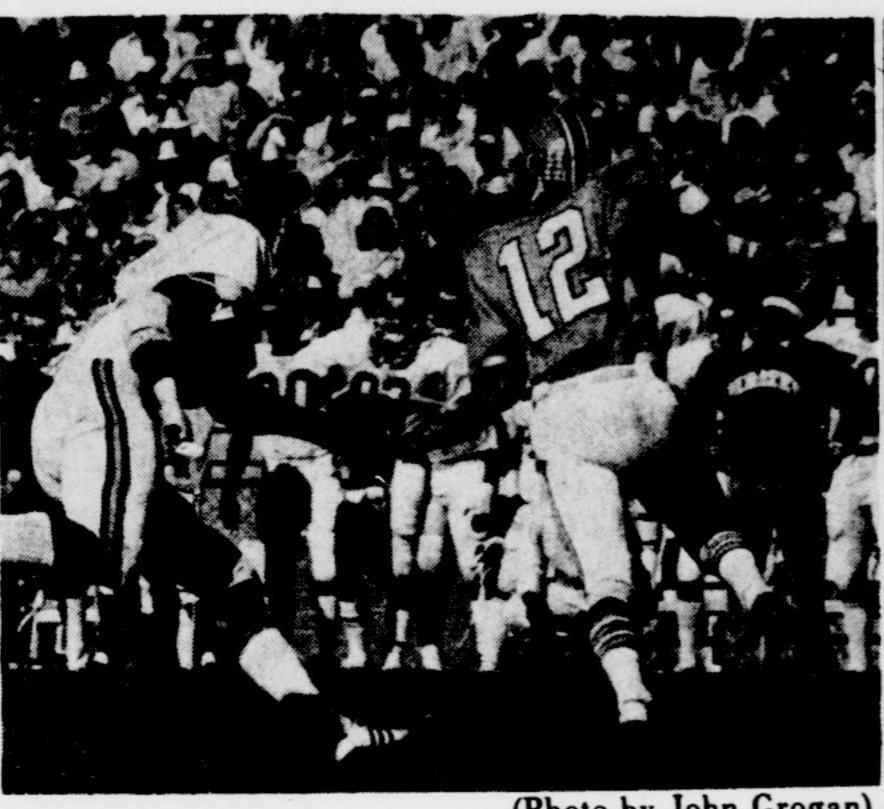

last year. We'll all be able to rest more during games. "We need to work on defense and denying the ball. We let them move it too easily."

The 6-0 Girven played against N.C. State's 6-2 Genia Beasley and 6-5 June Doby, as well as Old Dominion 6-5 all-American Inge Nissen, but admits that smaller centers such as High Point's Ethel White gave her more

"The shorter centers usually are faster and have better moves than the 6-5 girls," she explained.

The Lady Pirates will face Peace College Monday in Minges Coliseum at 5:30 p.m. and Louisburg November 12 at 5 p.m.

"The team would like to see the students come to watch the scrimmages and show support," said Andruzzi. "I think student support is essential to the program growing as we want it to grow."
