ECU Professors Discuss Election Results

By JENNIFER JENDRASIAK

News Editor

As is the norm, Election Day caused many changes throughout the nation. In North Carolina, a Republican governor was elected to a position that has been a Democratic stronghold, while one of the most expensive Senate races in history came to an end. ECU faculty members had varying reactions concerning the winners and the ramifications of their victories.

Most faculty members contacted agreed President Ronald Reagan's reelection was no surprise and is indicative of the conservative attitude of many voters. "The majority of the electorate feels Reagan accomplished important things during his first term and should be given a chance to build on them," said Maurice Simon, chairman of the Department of Political Science.

"It was not a question of whether Reagan would win, but by how much," said Angelo Volpe, vice chancellor for academic affairs. Volpe said Reagan's reelection is "a sign of the direction that the general population wants to see the government taking."

Volpe also said he is hoping that, as some people have suggested, Reagan will court the "vote of history" during his second term and "push to get the federal deficit down and look for improvement in the foreign affairs climate."

On the state level, the outcome of the long, highly-publicized Senate race between Sen. Jesse Helms, R-N.C., and Gov. James Hunt was less predictable.

Simon attributed Helms' win in part to Reagan's victory in North Carolina. ECU Chancellor John Howell concurred, saying, "The size of Reagan's support was the margin of victory for Helms. If Reagan's margin in the state had been 51 percent to 49 percent for Walter Mondale, Hunt probably would have won."

Howell said he didn't think the victories of Helms or Republican James Martin, who defeated Democrat Rufus Edmisten in the N.C. gubernatorial race, were unexpected. "A lot of people in North Carolina, when they realized Reagan's support was beginning to grow as the election grew near, began to realize Helms and Martin would probably win," he said.

Simon said he would predict a "moderate growth" in Republicanism in North Carolina following Martin's victory, but the extent of the growth "depends on what happens with the economy."

The fact that Martin is a former college professor was stressed by Volpe when discussing the effects of the election outcome on higher educa-

"The success of education doesn't depend that much on who is governor," Howell said. He added that Martin's power would be enhanced if he were working with a Republican, rather than a Democratic, state General Assembly. "I don't think there will be a great deal of difference as far as education is concerned," Howell said.

The N.C. governor has the power to select four members of the ECU Board of Trustees. The Board of Governors for the University of North Carolina system is selected by the state legislature, however.

"The university has always worked well with all the governors, and I'm sure we will continue to do this," said William Laupus, dean of the ECU School of Medicine.

Vice Chancellor for Student Life Elmer Meyer said it will be "interesting to watch the next two or three years to see what happens to higher education." Meyer added that there is enough of a "check-and-balance" system to ensure that educational funding will not suffer greatly.

This year's races, especially the Hunt-Helms race, showed the effect of money on the election process, Simon said. "Those races which were close show the power of money in American politics," he said. "It seems disconcerting that you can buy a two or three percent margin if you have enough money and are nasty enough."

Laupus said the Hunt-Helms race was a "bitter" and unpleasant campaign which most of us tired of. It makes you wonder what all the campaigning amounted to." Laupus pointed out that the final results "were just about the same as the polls taken in August" despite "the length and the intensity of the campaign."

Concerning the possibility of Helms assuming the position of chairman of the Senate Foreign Relations Committee, an event made more likely by the defeat of its current chairman Sen. Charles Percy, R-Ill., Simon said there is a "fifty-fifty chance of this happening."

Helms has "national aspirations" and is "interested in foreign policy," Simon said. He added that, if Helms were to assume the position, there would be more "difficulty in forging bipartisan foreign policy. It would also be harder for Reagan to move towards the center."

Howell said he is unsure of what will happen but said "any chair of the Foreign Relations Committee can have considerable influence because he's in a position to block the president on a lot of things."

"Overall, it was a convincing victory nationwide and in the state for Republicans," Simon

The Student Residence Association passed an amendment Monday afternoon prohibiting any campus organizations from soliciting door to

"The old rule," said SRA "allowed door to door campaignuniversity would be obligated to table," Gembicki said. let them do it."

associate dean for residence life, said N.C. State University recently had the same problem of door to door soliciting in the residence halls. "A campus organization that was not associated with the student government or residence council wanted to solicit religious messages. They were not allowed to do this, so the organization took the issue to court and the

prohibit anyone visiting residence halls without being associated with the university. The amended rule, which was passed by a majority vote, will be in addition to the current one.

Students will still get their share of campaigning and other solicitation, only now it will be in president Debbie Gembicki, the lobby of dorms, Gembicki said. "When a campus organizaing from the Student Govern-tion gets permission to solicit at their own rooms." In most ment and SRA candidates. the dorms, there will be an residence halls, furniture is per-However, other organizations assigned area in the lobby for manently affixed to the walls and may contest that rule, and the them to set up a display or floor.

The SRA will also submit a to see the current rules updated Carolyn Fulghum, director and proposal to Dr. Elmer Meyer, vice chancellor for student life, putting the quiet dorm proposal on hold for one year. According far we could let them do their to last year's proposal, two floors would be set aside in Slay dorm

for exclusive quiet hours. Pam Bunch, vice-president of Slav said the idea of "warning" incoming freshmen of the proposal would be a good idea. "It wouldn't be right for them to UNC General Admistration at- choose to live in Slay and not torney decided that if one group know it might be a quiet dorm," was allowed to solicit door to she said. "I've talked to several door, everyone else could, too." of this year's freshmen in Slay Current residence hall rules and all of them are very happy furniture.

with the set quiet hours now. "The main reason the SRA decided to propose waiting a year before making a decision," Gembicki said, "was so we would have enough time to see the effects of new apartment com-

built in Greenville." Another proposal by the SRA would let students "personalize

plexes and condominiums being

Gembicki said she would like and let the residents "create their own room. Of course," she said, "there would be a limit as to how own decorating. I think it would help in keeping the students in the residence halls. But right now, we're just tossing ideas around.

An informal survey was done by Marcie Green of Belk dorm. "Eighty percent of the residents wanted to fix their own rooms by moving beds and desks," she said. Another resident who lives in Aycock dorm said everyone on his floor would like to move the

Alumni Drive Exceeds Goal

By ELAINE PERRY

The ECU Alumni National Telefund raised \$82,398 this semester, surpassing its goal of \$80,000. This year's total surpassed the amount raised in 1983

Kittrell, alumni field director. "This was the best telefund we've ever had," Kittrell said. "I was impressed with the callers they had professionalism, enthusiasm and comradeship."

Volunteer callers began contac-

ting alumni every evening at 7 in order to raise the funds. Money from the telefund is used to help better ECU in many ways.

The week of Oct. 22-24 was designated all-star week. Callers who had raised the most money in previous weeks were invited for a grand prize which included dinner at the house of ECU Chancellor John Howell and tickets located in the chancellor's box at Saturday's football game. This year's winner was Elizabeth Frazzele from Jones dorm.

Specific items provided through the money raised are merit scholarships and research assistance for ECU faculty.

The number of new donors this year totaled 568, an increase of 235 from 1983. Kittrell attributed the increase to the "caliber of the by \$18,000, according to Cindy back for a final contest, calling callers. They urged people who had never given to give and increased interest in ECU

"The student leaders projected the feeling that East Carolina is important and the money was important for the growth of ECU," she said.

The Usuals Fri., Nov. 9, The Usuals will play in Multi purpose room from 8:30-10:30pm. Free piz za compliments of Pizza Transit Authority. Sponsored by the Student Union Coffeehouse

ECU Acquatics Center

On Tuesday evening, Nov. 13, 1984 at 7:30pm. ECU Acquatics and the Rum Runner Ocean Atlantic Dive Club will sponsor a dry suit demonstration at the Minges Coliseum Aquatic Center diving Pool. The demonstra tion will be presented by Mr. Larry Richard son of the Off Shore diving Equipment Com-

Dry suits are not only utilized by divers for cold water diving, but can also be utilized by police, fire and rescue units as well as by sailors, boaters, fisherman or anyone who works in, on or near the water The Off-Shore Nautilus dry suit is an ultralight dry suit and weighs only 34 lbs. Not only does it keep you dry and warm, but is very tough to rip and is abrasion resistant. In this type of enviornment, it is important that you be comfortable with the ability to move without restriction. This can be accomplished with the Off-Shore dry suit as it is very flexible and does not restrict movement. It takes less than one minute to put on

There is no admission charge for this demonstration. If you have a need for or are interested in this type of protective equipment, you are invited to attend this demonstration.

Psi Chi There will be a meeting for all Psi Chi members on Thurs. Nov. 8, at 5:00pm. Meet in the library on 2nd floor Speight. All members urged to attend.

Conservation Film

Campus Forum Plank Cartoon Blasphemous

I, along with several of my friends, feel that what was printed under the title of "Walkin' the Plank" in the Tuesday edition of The East Carolinian was outright blasphemy!

This comic strip depicts Jesus as a silly, pointless imbecile (with a poor sense of humor), and even goes as far as having him use profanity ("helluva," i.e. "hell of a", uses the word "hell" as a vain expression and fits most people's definition of profanity). You have made the greatest and one of the most important men in the history of the world look like a moron in your eight-frame strip, offending several people in the process. Christ is not some myth or literary figure, but the Son of God, who died for the sins of the world.

Doonesbury

Not that Christ is above going into Krispy Kreme or talking with a guy like Nick (but I think he is above that old joke) — or even a bit of humor. In fact, Christ was often known for his sharp wit in dealing with the Pharisees, but in an honest matter, not with cheap one-liners like those used in your strip. I also think Christ was (is) above going to a party celebrating Halloween, a holiday created by a pagan religion.

I do not know if Alan Guy shares my beliefs in Christianity, but regardless, I think he should show respect for my beliefs and the beliefs of Christians everywhere.

RAISE TAXES UNTHINKABLE

Congress Screws Around

Friday, Oct. 5, 1984, was awash in big names. Ted Kennedy traded compliments with Strom Thurmond. Barry Goldwater argued with Jennings Randolph. Howard Baker chatted strategy with Bob Dole.

Then, at about 5 p.m. in the back of the chamber, Daniel Patrick Moynihan undergraduates. As his glasses migrated

"What has happened to Congress?" he asked. "Why can it not do its work?" It was an all-too-pertinent query, capping as it did an incredibly embarrassing week for the nation's lawmakers. Congress had originally planned to adjourn by Thursday, Oct. 4, to give its members a month to campaign for re-election.

ing support in both Houses got lost in the shuffle because there wasn't enough time. Ditto the genocide treaty and an environmental cleanup bill. Even so, Congress failed to adjourn on time because it had failed to fulfill its most basic responsibility - approving a

Moynihan's question was difficult to answer. No one controls the sprawling legislative process, yet everyone assesses blame. President Reagan, explaining his decision to shut down the federal bureaucracy without a budget, said, "You can lay this right on the majority party of the House of Representatives."

- the Democratic House had, in fact, approved a temporary funding extension, and the Republican Senate had not. House Majority Leader Jim Wright stormed to the press gallery to issue a

"It's inaccurate; it's untrue, and he repeatedly does this," Wright said. "He lives in a fantasy world, as if he states it and then it's so... I'm sick and tired of my colleagues being whipping boys for

Dan Burton rose t claim the Congressional golf trophy h had won from Illinois Democrat Mart Russo. And as the budget conferees hag gled into the night, the House debated a resolution from Bill Goodling of Pennsylvania to make William Penn a U.S.

> After a moving tribute to the founder of his home state, Goodling yielded to questions from the floor. In a sadly unintentional parody of Congress's lack of fiscal discipline throughout the week Romano L. Mazzoli of Kentucky rose to ask if any costs would be incurred through benefits to Penn's descendants or other provisions. He was assured there would be none, and the motion passed unanimously. The government remained shut, and

Congress kept talking. But William As Reagan prepared to shut down the Penn is, at last, an American. (Jacob Schlesinger is a reporter for

The New Republic.) (c), 1984, United Features Syndicate, Inc.

Things I Thought Of...

By GREG RIDEOUT

You know it's been a helluva long time since the last time I brought you zany zingers and ludicrous laughs. I believe the election supplied those in my absence. But now that it's over and the people have made their mistakes, once again the time has come for "Things I Thought Of ... "

Why does the toilet paper dispenser in a public restroom not roll? Do they expect you to get up and sort of glide against it? I guess it's so you won't use so many sheets at once, but if you're like the rest of us, you unravel the darn thing, do your business and never go back to that darn stall again.

A poem (to the tune of Red Ridinghood or some such stuff): Over the river and through the woods to Jesse's house we go, but if vou're black you better stay back or you'll be shining shoes. And if you're pregnant or gay, Jesse regulates your day. But if you've got toxic waste, don't make haste, he'll see you anytime.

I know where socks go when they escape the washer or dryer. (You know what I mean, where the two have a domestic quarrel and one leaves the other to go it alone in the big, bad boot world.) Well, argyles go to Minnesota, but all others, including smelly sweatsocks, go to Arnie's Meatpackers on the corner of 57th and Broadway in lower Manhattan. There, they're sorted, shreded and made into McDonalds' uniforms.

I saw a dinasaur on the third floor of Brewster the other day. I think he was looking for his advisor, something about having trouble with a stats class. Oh

Rumor: Ronald Reagan had to be awakened Wednesday morning and told he had won the election. He immediately said he had not been sleeping with Nancy so he couldn't possibly have an election. Then, without even pausing, he dozed back off.

News Flash: Walter Mondale arrived in New York City Thursday morning after being blown off the map by Ronald Reagan on Tuesday. The former vice president was rushed quickly to Mercy Hospital in Queens where he underwent emergency surgery to remove a dullness growth at the base of his brain.

A toy-making facility in Upper Volta has been raided by the CIA and more than 3,500 cabbage patch whores have been confiscated. The dolls were reportedly being shipped to cities in the United States, where they were auctioned off in red-light districts.

Did you notice that most gay whales who spout Christian beliefs voted for Jesse Helms, hoping to get nuked after WWIII starts because the Senate Foreign Relations Committee decided Idi Amin is a cool dude. Really. Look at the exit polls.

Jim Hunt may have lost, but not a hair was out of place. A credit to his long-time friend and hairdresser, Marky. He looked marvelous, but I didn't quite understand why he came out against busing now. Was that why he had the windshield wiper?

Now that it's finally cold, maybe we don't have to look at those darn boxer shorts sticking out of frat boys' shorts. The only thing more disgusting is the guy in front of me in Econ who smells like warm fish.

Who decided where the letters should go on a typewriter. I'm tired of the way they are, so... fjkwoi skkds jfueie iiwsaqm irmqww. And remember, vote.

Fatal Injuries At Universiti

Hazing Becon

(USPS) - These are good times for college fraternities. After two decades of decline, membership in fraternities has gone way up. But as more and more students have joined, the hazing of new pledges has become a serious problem.

Hazing may seem like harmless fun, but it can often cause physical harm, mental distress, discomfort and embarassment And it can sometimes lead to

Common causes of hazing deaths include alcohol poisoning. heart attack, suffocation and drowning. New state laws prohibit hazing, but dangerous initiation rites are still widespread. tion, Stevens

"In the next few years, you're going to see a larger number of deaths from hazing," Jack Levin, sociology professor at Nacheastern University, said.

Eileen Stevens is fighting to keep this prediction from coming true. After her son Chuck died in a hazing incident five years ago, she founded the Committee to Halt Useless College Killings, called CHUCK in memory of her son and others who met senseless deaths in fraternity initiations.

Stevens' son died pledging the Klan Alpine fraternity at Alfred University. During February in upstate New York, he was locked in a car trunk and told he could not come out until he had consumed huge amounts of whiskey, wine and beer. He died several hours later of acute alcohol poisoning and exposure to freezing temperatures.

Stevens was upset when the university informed her that her son had died from an "overdose make the c of alcohol at a party," but she There are vo was outraged when she oaths of silen discovered the truth about the to change. hazing incident. Later Stevens learned "the college did not even can do to pr discipline" the fraternity educate each members involved. She has campaigned against hazing ever since. When Stevens first started her organization, only five states cidents, becau outlawed hazing. Today, eigh-

NAACP Active In Area Voting By HAROLD JOYNER
Assistant News Editor

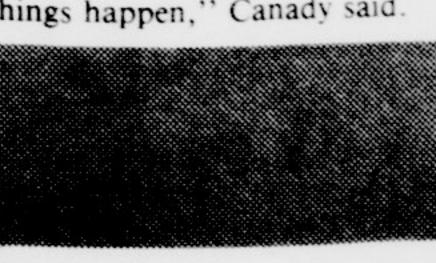

The ECU Chapter of the National Association for the Advancement of Colored People is continuing to reach goals set earlier this year, according to Jeffrey Canady, publicity chairman for the ECU NAACP chapter.

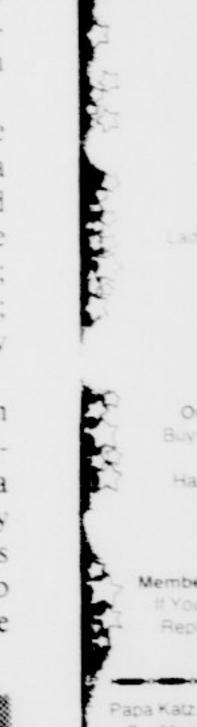

"One our main goals is to secure a free ballot for every qualified American citizen,' Canady said. "We were able to apply that goal in yesterday's election. The ECU chapter worked with voter registration and absentee ballots and I really do think it affected the large turnout of Pitt County voters." Canady also noted several ECU NAACP members helped at the polling precincts. "We had several members hand out candidate information leaflets, gave voters rides to the polls, called registered voters to remind them of the election and offered assistance to voters who could not read their ballot."

Other plans for the NAACP include celebrating Martin Luther King Jr., Day in January and acknowledging Black History Month in February. "We hope to get the ECU chapter more involved with local and national affairs," he said. "We also want to keep the students informed of what's going on nationally."

The current officers of the ECU NAACP include Wilma Case, president; Herward Manley, vice president; Connie Shelton, assistant secretary; Monteith Womble, treasurer; and Jeffrey Canady, publicity chairman.

"The ECU chapter has been here since 1981. We are continuing to make progress and this is a great chance for minority students to voice their opinions through the NAACP. We want to get everyone involved and make things happen," Canady said.

Fatal Injuries At Universities

Hazing Becomes Problem

(USPS) - These are good times for college fraternities. After two decades of decline, membership in fraternities has gone way up. But as more and more students have joined, the hazing of new pledges has become a serious problem.

Hazing may seem like harmless fun, but it can often cause physical harm, mental distress, discomfort and embarassment And it can sometimes lead to death.

Common causes of hazing deaths include alcohol poisoning, heart attack, suffocation and drowning. New state laws prohibit hazing, but dangerous initiation rites are still widespread.

going to see a larger number of deaths from hazing," Jack Levin, sociology professor at Northeastern University, said.

Eileen Stevens is fighting to keep this prediction from coming true. After her son Chuck died in a hazing incident five years ago, she founded the Committee to Halt Useless College Killings, called CHUCK in memory of her son and others who met senseless deaths in fraternity initiations.

Stevens' son died pledging the Klan Alpine fraternity at Alfred University. During February in upstate New York, he was locked in a car trunk and told he could not come out until he had consumed huge amounts of whiskey, wine and beer. He died several hours later of acute alcohol poisoning and exposure to freezing temperatures.

university informed her that her son had died from an "overdose of alcohol at a party," but she was outraged when she oaths of silence. That's what has discovered the truth about the to change. hazing incident. Later Stevens learned "the college did not even can do to prevent hazing is to discipline" the fraternity educate each other and bring members involved. She has cam-

paigned against hazing ever since. Stevens said. "They need to have When Stevens first started her the courage to report such inorganization, only five states cidents, because...too often, hazoutlawed hazing. Today, eigh- ing incidents are found out after

teen states have laws banning hazing, and bills are pending in eight other states. Through her testimony at legislative hearings and her anti-hazing lobbying efforts, Stevens "has been involved, either directly or indirectly," in having laws passed in 13 states.

"These laws strengthen the hands of college administrators," Stevens said. "Before, hazing was treated with probation or a slap on the wrist. Time and time again, the colleges tried to keep incidents quiet. There were very few repercussions. Now hazing will involve severe criminal penalties, as it should."

Since founding her organization, Stevens has lectured to "In the next few years, you're students on over 240 college campuses. Stevens stresses her message is not anti-fraternity, but anti-hazing.

"The fraternities have embraced my work," Stevens said. "It's very gratifying to me that fraternities have recognized that hazing is a problem.

"There's a great deal of change going on, and a lot of positive action on the part of students and the National Interfraternity Conference," Stevens said.

The N.I.C., which represents 5,000 fraternity chapters on 650 campuses, has opposed hazing since the organization was founded in 1909. Although Stevens' goal is to

have anti-hazing laws on the books in all 50 states, she says the laws will not succeed in ending hazing without student support.

I'm not going to change Stevens was upset when the anything, neither are the laws," Stevens said. "The kids have to make the change themselves. There are vows of secrecy and

"The greatest thing students such incidents out in the open,"

the fact, and that's sad." Since 1978, 29 students have died in hazing incidents. Experts expect hazing to increase because of the 67 percent increase in fraternity membership on American campuses since 1971.

On August 30, 1984, hazing claimed its latest victim. Texas A&M sophomore Bruce Dean Goodrich, 20, died of heat stroke after three upperclassmen roused him from his bed at 2:30 a.m., forced him to run around campus, and finally do 87 sit-ups and push-ups. Goodrich collapsed shortly after and later died. The upperclassmen were members of A&M's Corps of Cadets and Goodrich, a Webster, New York, transfer student, was a cadet recruit. The "motivational exercises" Goodrich endured are outlawed by the university.

The three cadets, as well as their unit commander, were indicted on misdemeanor charges of criminally negligent homicide and hazing. They were released on a personal recognizance bond in early October. Two weeks ago, the three cadets were suspended.

NAACP Active In Area Voting By HAROLD JOYNER Assistant News Editor

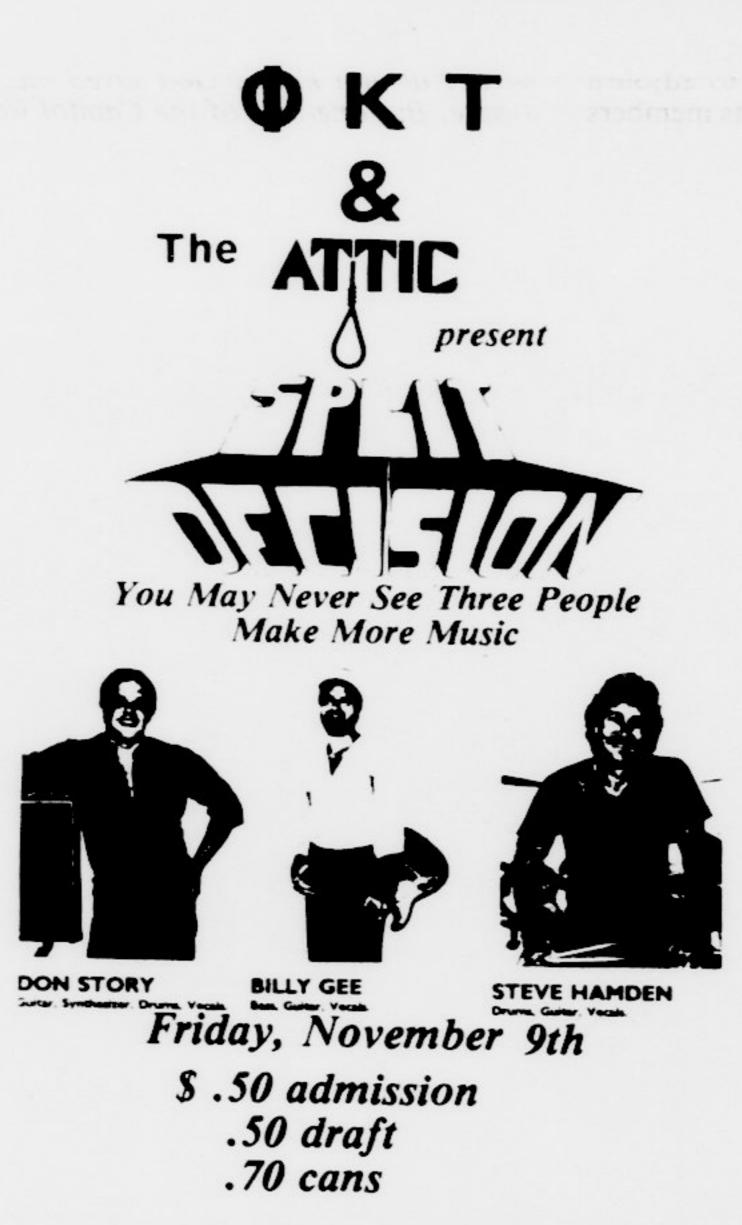

The ECU Chapter of the National Association for the Advancement of Colored People is continuing to reach goals set earlier this year, according to Jeffrey Canady, publicity chairman

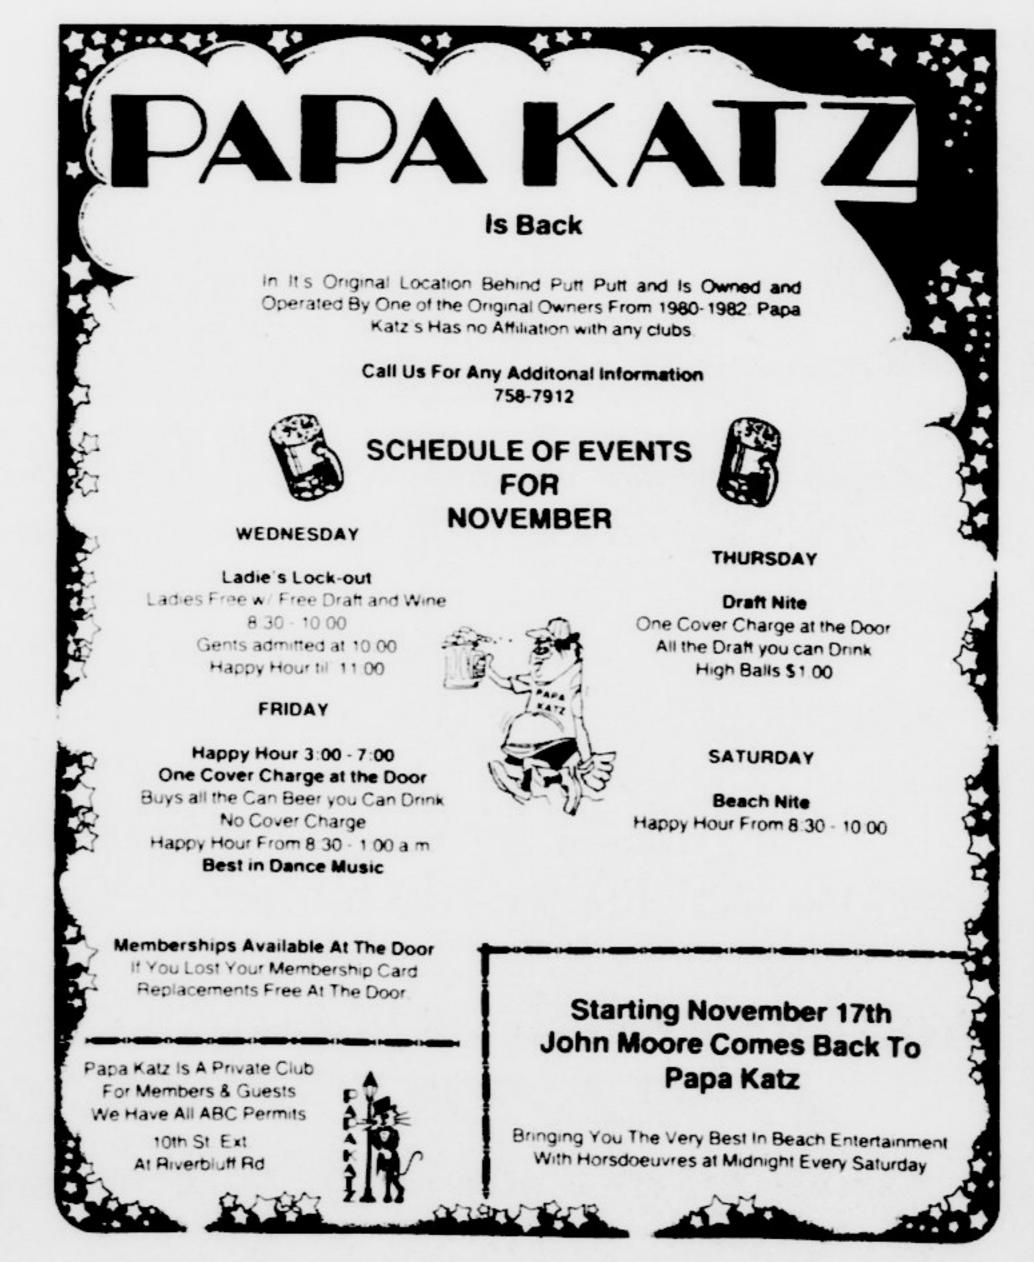

for the ECU NAACP chapter. "One our main goals is to secure a free ballot for every qualified American citizen," Canady said. "We were able to apply that goal in yesterday's election. The ECU chapter worked with voter registration and absentee ballots and I really do think it affected the large turnout of Pitt County voters." Canady also noted several ECU NAACP members helped at the polling precincts. "We had several members hand out candidate information leaflets, gave voters rides to the polls, called registered voters to remind them of the election and offered assistance to voters who could

not read their ballot." Other plans for the NAACP include celebrating Martin Luther King Jr., Day in January and acknowledging Black History Month in February. "We hope to get the ECU chapter more involved with local and national affairs," he said. "We also want to keep the students informed of what's going on nationally."

The current officers of the ECU NAACP include Wilma Case, president; Herward Manley, vice president; Connie Shelton, assistant secretary; Monteith Womble, treasurer; and Jeffrey Canady, publicity

chairman. "The ECU chapter has been here since 1981. We are continuing to make progress and this is a great chance for minority students to voice their opinions through the NAACP. We want to get everyone involved and make things happen," Canady said.

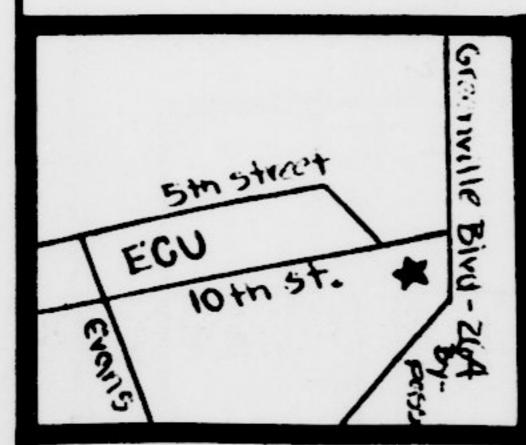

The most exclusive address in Greenville. Completely furnished and accessorized with the finest interior appointments and exceptional amenities for the serious student.

It's a very special condominium community. Private, convenient, and available now for rent or purchase.

- Rent: \$150.00 per month per student (75¢more per day than the dorm)
- Purchase: Under \$60,000 about ½ the price per square foot than the other student condominiums.

Fall, Summer Graduation Planned For December

By ERNEST ROBERTS

The ECU Program Committee recently announced plans for a program and reception for 1984 summer and fall graduates.

The program is scheduled for 10 a.m. Saturday, Dec. 1, at Hendrix Theatre in Mendenhall Student Center. A reception is planned in Mendenhall lounge following the program.

"This program is not a commencement," said Melinda Davis, senior class president "And this program won't take is a compromise for a formal December commencement."

According to Davis, the program is for the graduates and their friends and family. This program is funded through graduation fees.

The idea came from UNC-CH, which has had successful programs for about three years, according to Davis. The idea of a program at ECU was introduced by Lisa Roberts, last year's senior class president. The coordinator for the program is C.C. Rowe, who is also coordinator of Handicapped Student Services. These the place of a commencement. It people have played an important fall graduates.

part in initiating a program at ECU, Davis said.

The program will be different from a formal commencement. There will be no caps and gowns and no formal school or department seating. "This program is designed to be more personal than regular commencement," Davis said. "I think it's a good idea for summer and fall graduates."

Davis also commented that invitations should be mailed by the end of the week to summer and

market there, but there wasn't enough capital."

When Warner Communications purchased Atari, Cohen said, "a big company with lots of money and no ideas bought a little company with lots of ideas and no money."

The Warner people who took over management of Atari "were selling something they essentially knew nothing about," Cohen said. When the computer games sold like hotcakes, "they thought it was because they were smart, kind of welcome and the ticker government and the people still and they started to bring in more people of their type."

The influx of corporate salesmen made life uncomfortable for the original engineers. "Guys who were undisciplined didn't like punching a time clock," Cohen said. "Atari started losing its creative people."

The exodus began with Bushnell, who walked off with \$15 million from the \$28 milion sale to Warner.

Vet Turns Comedian

A Different Way To Get Laughs

(UPI) - God knows there was nothing funny about Vietnam. Maybe that's why only one standup comedian has emerged from a war that toppled American presidents and turned the country

Style

upside down. Both World Wars and even Korea produced their share of with jokes about misadventures in the service.

But they were "popular" wars in that most Americans supported the country's involvement. There was little humor involving Vietnam at home, but the GIs, sailors, Marines and airmen who fought in Southeast Asia lived with their own black humor.

The sole stand-up comedian to surface in the wake of Vietnam is Blake Clark, a broad-shouldered southerner who looks a little like Robin Williams but whose humor has more bite.

Like most Vietnam vets, Blake has a chip on his shoulder. Understandably.

A lieutenant and platoon leader in the 5th Infantry Division — nicknamed The Devils in Baggy Pants — Blake is a tough, hard man whose sense of humor has a keen edge.

He gets laughs with the bitterfunny observations that strike home with everyone, especially Nam vets themselves.

Blake often starts his monologue with a shocker: "Boy I was really looking forward to a hero's welcome when I came home from Vietnam after all those months in combat.

veterans of other wars. Even the Iranian hostages got a ticker tape parade and an invitation to the White House. But with us Nam vets it was different. People spit on us when we came back. I'll never forget my own experience when I got off the plane at the Atlanta airport. This guy came funnymen who made their starts up to me and said, 'You're a warmonger and a murderer.' So I killed him."

After that opener there is a stunned beat of silence before the audience roars with laughter. The joke is outrageous, cynical and funny. It also makes a point.

"I'm finding audiences are responding well because I'm not bitter," Blake said. "I smile a lot while I'm telling Nam jokes. I've been on the Johnny Carson show four times and I get good reactions. What some people don't know is that some of my jokes are things that really happened."

Blake will join Bob Hope, Charlton Heston, Ed McMahon, George Peppard and Robert Stack Nov. 12 at the Vietnam Veterans Salute to the USO at Los Angeles' Century Plaza Hotel. The banquet for 600, at \$250 a plate, will benefit the Vietnam Veterans Leadership Pro-

"That program is important to me because it helps so many Nam vets who are still trying to get back into the American

mainstream," said Blake. "A lot of the veterans still have problems because of the stigma attached to that war and the men who fought it. There's still remembered stories about the discrimination against them. The giant chocolate chip cookie."" tape parades they gave the have a guilt complex about

"People don't feel right that we went over there and the way we were treated when we got back. Hell, we don't want to be thanked. We just don't want to be blamed."

To lighten the load, to bring a little more understanding between the vets and body politic, Blake bases about a third of his act on the war and its aftermath.

"One of my stories involves bayonet practice at Fort Dix before my outfit went to Nam," Blake said, grinning. "The drill instructor had a routine. He'd yell, 'What are the only two kinda people on a battlefield?' And he had to yell back, 'The quick and the dead?' One day he yelled that question at me and I hollered back, 'The minorities and the poor!' When he quit laughing he ordered me to do push-ups for the rest of the day."

"There was a lot of gallows humor in Nam. We had to laugh. It's the only thing that kept us sane sometimes. People were misled about us in pictures like Apocalypse Now, showing all the troops stoned out of their gourds all the time. It just wasn't the

"But I do remember one dark night in the jungle when I got a call from an observation post. A voice on the other end of the line said, 'Hey, lieutenant, we got some movement in the bushes! I asked, 'What does it look like?' And the voice came back, 'A

"That's how it was sometimes

"When they had sold off all the products developed by the original people, they had no great products to introduce because all the great people had left," Cohen said. The new games ordered up by the new management, like "E.T." and "Raiders of the Lost Ark," were inspired marketing decisions, but turned out to be no fun to play.

Atari shipped \$98 milion worth cartridges the week before Thanksgiving in 1982. A week and a half later, it shipped none. Cancellations replaced orders and Warner closed its 1983 second quarter losing \$283.4

Atari recently was purchased by Jack Tramiel, a hard-driving entrepreneur who founded Com-

modore, Atari's chief rival, but resigned from the company in a dispute last January.

"If Tramiel brings it back up so it's a great company once again, and they go up against

Commodore, it would be a great reason to write another book about it," Cohen said.

Catch The Holiday Spirit

By TINA MAROSCHAK

Holidays seem to bring out the best in people, especially around Christmas. From caroling to visiting nursing homes, the spirit of giving and sharing always seems to be at its best. And for about 13 years groups of very special volunteers have brought joy and meaning to the lives of millions of people confined to hospitals, homes and other institutions. Who are these people? Volunteers for the Holiday Pro-

In 1971 eight San Francisco residents started the Holiday Project by delivering gifts on Christmas Day to people in hospitals. Just two years later the program expanded to 400 volunteers. Now the Holiday Project has thousands of volunteers who visit millions of people throughout the United States and Canada each Christmas and Chanukah. What is the Holiday Project really about? "People being with peo-

Greenville residents and ECU students now have the opportunity to be a part of this worthwhile organization. Headed by Dee Tropeano, the Greenville Holiday Project is in desperate need of volunteers and money. According to Fundraising Chairperson Jenny Eckert, there are currently only about 20 volunteers, most of

who are ECU students.

Eckert said that the group plans on visiting three facilities on Dec. 6 — Earth (a home for emotionally disturbed children), ECVC (East Carolina Vocational Center) and the Alcohol Rehabilitation Center. "We need volunteers and donations of any kind," Eckert said. She explained that the group raises money and sends it to National Headquarters in Washington, D.C. From there, National Headquarters sends back unwrapped presents and wrapping paper. This year the Holiday Project plans to visit around 150 people in Greenville. Volunteers are needed to raise money, coordinate entertainment

Ferguson To Jazz Up ECU

The ECU Special Concerts Committee will present "An Evening with Maynard Ferguson" Wednesday, Nov. 14 at 8 p.m. in Wright Auditorium. Maynard Ferguson is the one musician in the jazz world who can truly be labeled "a legend in his own time." He has been referred to as provocative, ingenious, sophisticated, powerful and colossal.

Ferguson formed his first band in 1957. Known as the Birdland Dream Band, this group went on to win numerous Downbeat and Playboy jazz polls. The list of names who came through Ferguson's band reads like a who's who of jazz greats — Don Ellis, Slide Hampton, Bob James, Clark Terry and Willie Maiden, just to name a few.

In 1967 Ferguson dissolved his band and moved to England where he embarked on a new phase of his career. His M.F. Horn album received critical acclaim not only from jazz buffs but also from music fans. With the release of the theme from Rocky, Ferguson made the jazzpop crossover. This resulted in his first gold album and the tune received a Grammy nomination for the "Best Pop Instrumental" award.

Constant touring of U.S. colleges and concert halls and several overseas tours confirm the popularity of Ferguson. This, coupled with the fact that he has sold more albums than any other bandleader since the 1940s. makes him a "must see attrac-

Tickets for the concert are on sale at the Central Ticket Office, Mendenhall Student Center. They are \$1.50 for ECU students, \$3 for ECU faculty and staff, and \$5 for the public. All tickets at the door will be \$5. Tickets may be purchased Monday through Friday from 11 a.m. to 6 p.m. For additional information call 757-6611, ext. 266.

Maynard Ferguson will entertain ECU on Wednesday, Nov. 14 at 8 p.m. in Wright Auditorium.

Darrell Speed has started the last seven games at quarterback for the ECU football team, but in the Pirates' season finale against Southern Miss, he'll be replaced by redshirt freshman Ron Jones. Heath Third All-Time Scorer

By SCOTT COOPER

Despite a rough and tumble performance last year, junior placekicker Jeff Heath is shining for the Pirates in '84.

"Jeff's having a great year," special teams coach John Patterson said. "He's done a great job coming off such an adverse year (last year) — it was simply a sophomore jinx'."

The Virginia Beach native has made 11 of 14 field goal attempts and is a perfect 20-20 in extra point attempts. Heath has scored 53 total points this year, putting him in third place among ECU's all-time scoring leaders. He needs just 22 points to move into second place, while 40 points would make him tops in the Pirate history book.

freshman season for ECU. He set a school record for most field goals (16) in a single season. He broke the school's record for the ongest field goal (58 yards), which is also the longest field goal by a North Carolina player. His 16 field goals in 23 attempts gave him a 69.6 percent accuracy rate. Also, he was perfect in extra points (27-27).

set a school record with four field goals, while setting an NCAA record for average distance of the four kicks (49.5). Heath was the history. "It was really fun to play

history of ECU, and his exploits earned him second team all-south independent honors in 1982.

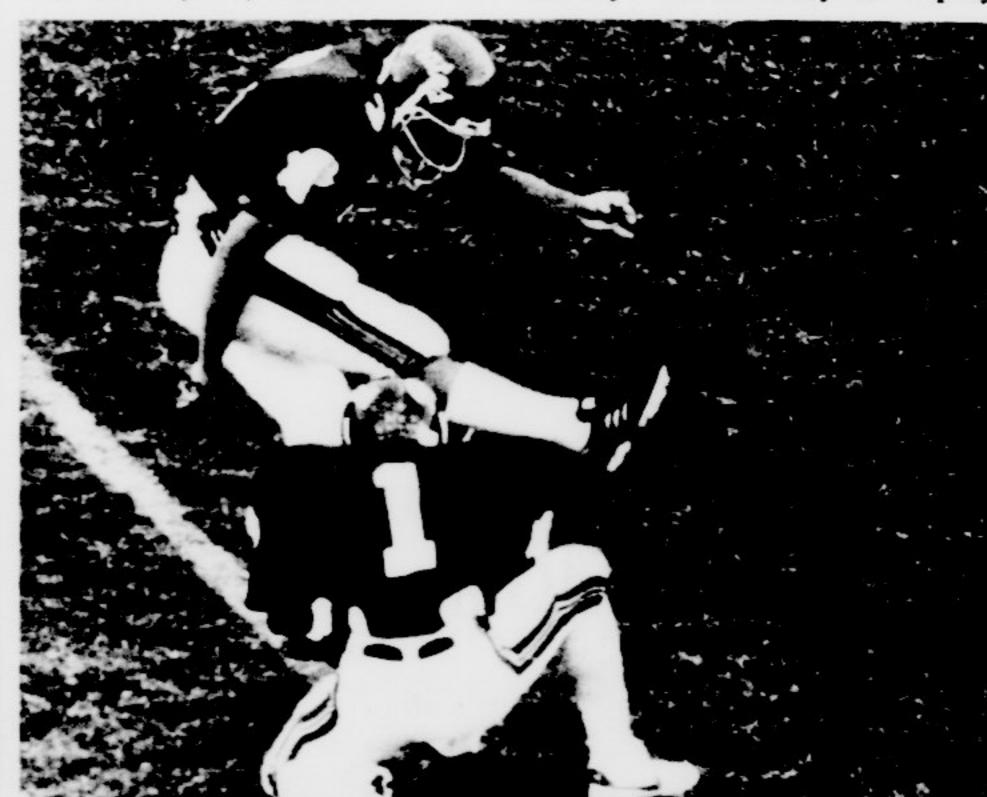

Heath himself can't truly explain his outstanding freshman year. "I didn't really think that much about it," he said. "I just

Although leading the Pirates in scoring with 55 points in 1983, Heath didn't enjoy the success he had in his freshman year. He missed three extra point attempts and only connected on nine of his 21 field goal tries. "I didn't really work as hard as I should have," Heath said. "I felt really bad for the team."

in his '84 campaign, so he did a lot of conditioning and lost 25 pounds to ready himself. "It's a Heath had an outstanding real key to his success," Coach Patterson remarked. "He

helped his kicking game considerably. He also worked on his mechanical skills as well. "We went back to the basic fundamentals," Coach Patterson said. "We practiced on drill steps and getting the ball up."

Though last year's perfor-Against Texas-Arlington, he mance was mediocre, Heath earned ECAC South first team honors and was a member of the greatest team in Pirate football

deserves a great deal of credit."

Heath's conditioning has

tionally ranked)," Heath com-

This year the Pirates are struggling with a 2-8 record and Heath says it gets tough for players to keep their motivation going during such a season. "It's frustrating for us when our work just dosen't pay off. I really feel bad for the coaches, but we've got one more game, and hopeful-

Although Heath has enjoyed considerable success while at ECU, he was also a star in high school. He lettered in soccer and football all three years at First Colonial High School, while be-Tidewater and all-eastern regional. In his senior year, he was all-state and all-south

honorable mention. Heath is an all-around athlete according to Coach Patterson. He's very coordinated and runs the forty in 4.65 seconds. "Jeff's a good athlete and a free spirited young man," Patterson stated. "He's a very intense competitor who's always ready to play."

Jeff was not very highly recruited out of high school. However, he did receive letters from Richmond, UNC, N.C. State, Duke and Appalachain State. He said he chose ECU because of the enjoyable atmosphere. Also, "the coaching staff was sincere and seemed to

care about the players." "I think the world of Coach Emory. Also, the players were great people and were easy to get along with."

Although this season still has one game remaining, Heath is looking forward to next year with great optimism. "I'm aware of the all-time scoring record, but I plan to go out and do my best," Heath said. "We've seen the losing end of college football, but we're not losers here — we're go-

ing to go out and do our best." "Jeff's a winner and he'll do whatever's necessary to help the team," Patterson exclaimed. "He's done everything we've asked and more (Heath also makes tackles on kick off returns)." ECU fans can look for Jeff

Heath in Pirate record books, because barring an injury, he'll become ECU's all-time leading scorer.

ECU Awaits Southern Miss

By BOB GENNERELLI
ECU Sports Information Director

ECU Head Coach Ed Emory stressed the importance of this week's 11th and final game of the 1984 season with the Golden Eagles of Southern Mississippi at his weekly press luncheon.

"It is very important that we close this season on a positive note," said Emory, whose team enters Saturday's 1:30 p.m. kickoff in ECU's Ficklen Stadium at 2-8. "It is important for the 1985 season.

"But that doesn't mean I am giving up on the older players," evident when you're 2-8." Emory said. "They will all get the chance to go out one last time and make ECU a winner. The seniors have given a lot to this program, and I'm going to give

them their chance to go out win-

Southern Miss enters the game at 2-7 and has suffered a year very similar to ECU's. The Golden Eagles, always a power among Southern Independents, are experiencing their first losing season since 1976. The Pirates will be on the short side of the record for the first time since

"Southern Miss can play — we know they can play, and we will to the kids that we have be ready," Emory said. "We've Pope (tight end) have been something positive to build on got problems, but hopefully we'll suspended for disciplinary end this season 3-8. We had problems last season when we were 8-3, but the problems seem more

> Emory did say he would start freshman Ron Jones at quarterback instead of Darrell Speed, who has started the last seven

games. Emory said the decision was based on Jones' play in last week's 42-24 loss to Southwestern Louisiana, but also said that Speed would play a great deal. Both have alternated at quarterback the last four

Emory also said sophomore defensive end Randy Watts was suspended for this week's game for missing a Tuesday morning meeting, while seniors Stefon Adams (free safety) and Damon reasons.

Emory also said senior flanker/kick returner Henry Williams would miss his last collegiate game Saturday because of a separated shoulder and broken collarbone he suffered in last week's loss to Southwestern Lou-

Inconsistency Plagues Eagles

HATTIESBURG, Miss. (UPI) — Southern Mississippi Coach Jim Carmody says the Golden Eagles have a lot in common with this

week's opponent, East Carolina. "They are a team much like us," Carmody told reporters at his weekly news conference. "They've gone from an 8-3 record and a top 20 ranking a year ago, to 2-8 this year.

"But also like us, they lost a lot of seniors off that team last year," he added. "They've had some injury problems, but this also is their final game of the year, and we know they'll be ready to play."

in Greenville, N.C., marks the said last road game of 1984 for the said injuries to key players con-

tinue to affect his team heading into Saturday's game.

USM starting quarterback Robert Ducksworth has missed the last two games with a deep thigh bruise, and he is listed as questionable for this week. Backup quarterback Timmy Byrd is out for the season after undergoing knee surgery last week, and starting defensive tackle Richard Byrd, nursing a knee injury suffered last week in practice, is listed as doubtful for

The injuries, combined with offensive inconsistency plaguing the Eagles much of the season, The contest against the Pirates also figured last week, Carmody

Saturday.

In their 22-0 homecoming loss Golden Eagles, 2-7. Carmody to Northwestern Louisiana, USM special teams as players of the mounted only 128 yards in total

offense. "I thought the offensive situation would improve after a week's work with quarterbacks Tommy Compton and Andrew Anderson," Carmody said. "But, we again didn't get the job done, and it's very disappointing

Carmody also was disappointed in USM's defensive showing last week.

"I thought we played a strong first quarter," he said, "but after they scored that first touchdown, our efforts seemed to drop off for the remainder of the game."

Carmody said he and his staff selected tight end Robert Ray Stallings on offense; linebacker Greg Haeusler on defense; and noseguard Steve Hendricks on week for Southern Mississippi.

Manwaring A Proven Winner

By RICK McCORMAC

Emily Manwaring, new Lady Pirate basketball coach, is a proven winner in many sports at many levels of competition.

Manwaring has coached teams in volleyball and softball as well as basketball, and led teams into national tournament competition, while coaching eleven All-Americans.

She started her coaching career at Portland High in Michagan, where she was 45-7 with three league championships and a state semi-finalist team.

After three seasons at Portland High, Manwaring took control of the Jackson Community College basketball team and led them to a 55-9 record over three seasons for a .859 winning percentage.

Manwaring's JCC teams won three conference titles and finished second in the nation one of those years. She also coached the volleyball

team to a 58-12 overall record, to build a Division I schedule. and led them to two sixth place finishes in the NJCAA tourna-

After coaching at JCC, Manwaring went to San Francisco State, a Division II school.

In six years of coaching the Gators basketball team, she won four consecutive coach-of-theyear awards in the Northern California Athletic Conference, while receiving five consecutive post-season berths and three consecutive conference titles.

Manwaring, who has a B.S. degree in physical education and a Master's in sports education from Michagan State, has coached basketball for twelve years, winning ten conference championships.

During that span, Manwaring has a 197-72 record. Her record just in the collegiate ranks is a sparkling 152-65, with six conference championships and six nationally ranked teams in only eight years.

Manwaring, who was successful at the Division II level, is not worried about making the move up to the Division I level. "Basketball is basketball at any level. The biggest difference is the ability of the players," Manwaring said. "My style and philosophy will remain the same."

Manwaring, who has had coaching success in many sports, also enjoys participating in them. "I've always liked all sports bowling, golf, field hockey,

lacrosse and billiards." "I've always played sports just

as something to do. Once I was a lifeguard and didn't even know how to swim, so I know I can handle anything." Manwaring moved all the way

across the country to take the ECU coaching position. "There is no comparison geographically between Greenville and San Francisco, but that doesn't mean I don't like it here," Manwaring "I'm in a great situation here,

and it was a great opportunity for me to move up the coaching ladder," Manwaring said. "The thing that really makes the program here is the fan support."

Manwaring brought assistant coach Joanne Bly with her from San Francisco State, while retaining Laurie Sikes as one of Cathy Andruzzi's assistants.

Bly, in addition to on the floor coaching, also handles the scheduling of opponents, trying She played Division I basketball at Ohio State and Long Beach State. When Bly was at OSU, the Buckeyeres were two-time Big Ten champions and ranked 15th in the nation.

While at Long Beach State, Bly played with Olympians Cindy Nobles and Latanya Pollard in route to a Western Collegiate championship and a fifth place national finish.

Bly, who is 25 years old, and a native of Wooster, Ohio, who owns a B.S. degree in Physical Education and a Masters in Sports Psychology from the University of California, Berkley.

Laurie Sikes, Manwaring's other assistant, played basketball at ECU for two years, transferring to ECU from Peace College. Sikes, 25, spent a year on

Cathy Andruzzi's staff after graduating from ECU. Sikes will serve as an on-the-floor coach, while also coordinating team travel "She has really been a big

help," Manwaring said of Sikes. "She was here before and really knows a Division I system in terms of organization. "Not only does my staff have a

thorough knowledge of the game of basketball," Manwaring continued, "they also have the experience of playing at the Divi-

"My playing experience in three different collegiate sports, and the fact that I had a military style coach at Ohio State for two years, helps me understand what the players were going through when we got here," Bly said.

"I love the support we have been getting from the athletic ad-

See MANWARING, Page 10

Christopher Newport Dumps Booters, 3-2

By SCOTT POWERS

The ECU soccer team played their fourth match in three days yesterday and fell to Christopher Newport in overtime by the score of 3-2 in the final game of the 1984 season.

The match was also the third overtime match of the four, and the fatigue began to show about midway through the second half as Christpher Newport, outmanned and outplayed throughout most of the day, began to find cracks in the ECU defense.

It was another very physical match for the booters, and as the game went on, the wear and tear began to show as the team was not able to mount many strong offensives.

The match was tied 1-1 at the half, with ECU controlling the tempo of the game throughout the period.

ECU broke out on top about midway through the second half when Brian Colgan, taking a pass from Mark Hardy, scored for the Pirates, making the score 2-1.

It looked as if the game would end that way until Christopher Newport was awarded a penalty try with less than a minute left and converted after Pirate goalie Jesse Daugherty had made and excellent save but lost control for an easy CN tap-in.

The teams played to a standoff in the first overtime period as neither team could capitalize on

the opportunities that arose. It looked as if the game would end up in a tie until with just under five minutes left in the second overtime a Christopher Newport score gave them a 3-2 lead. CN then held off a late

ECU charge to seal the victory. The loss dropped the Pirates to 3-16-2 as they end their season.

Pirates Impressive At Home

The Long And Winding Road: With last week's 42-24 loss to Southwestern Louisiana in Lafayette, La., the East Carolina football team finished the 1984 season with an 0-7 record on the road, the first time the Pirates have been winless on the road since the 1948 season (when ECU posted an overall record of 0-9).

This season was the third that head coach Ed Emory had to play seven games away from Greenville, N.C., and this ranks as his worst effort on the road as a head coach in five seasons. Emory's four previous road records were 2-4, 2-4, 3-4 and 4-3, with the 1983 season seeing the Pirates beating Missouri, Southern Miss and North Carolina State on the road. The losses came against Florida State (47-46), Florida (24-17) and 1983 national champion Miami-Florida (12-7).

ECU's worst road mark in recent years before this season was the 2-5 record the Pirates posted in 1970 under Mike McGee (ECU finished that season with an overall mark of 3-8).

Home Sweet Home: East Carolina will be trying for its fourth straight winning season in Ficklen Stadium Saturday when the Pirates host the Golden Eagles of Southern Mississippi.

ECU is an impressive 10-1 over the last three seasons in the friendly confines of Ficklen Stadium, including back-to-back 4-0 campaigns under Emory in 1982 and 1983. This season the Pirates are 2-1, losing to Temple 17-0 on Sept. 1, beating Georgia Southern 34-27 on Sept. 22 and East Tennessee State 24-6 on Oct. 20. In fact, the loss to Temple snapped an eight-game home winning streak for the Pirates that dated back to the 1982 season.

The Pirates are an impressive 15-6 (.714) in Ficklen Stadium since 1980, Emory's first season as head coach. The Pirates have ing list. not suffered through a losing season in Ficklen since 1980 (2-3), with that season being their only losing one at home in 14 years. Before 1980 you have to go back

Continued From Page 9

ministration and community," Bly added. "I appreciate the team's hard-working

more than she did playing, and that it was time for a coaching change. "Change is good for anybody," Sikes said. "At first the players had a hard time adjusting to Coach Manwaring since her coaching philosophy is so much different than that of Andruzzi's, but now they've adjusted."

If Coach Manwaring's past record is any indication, the Lady Pirates are going to win many games in the future, and thanks to her coaching philosophy, they should be a team to watch during the upcoming season.

to 1970, under Mike McGee, to find the Pirates' last losing season in Ficklen (1-3).

Nichols Hot: Senior flanker Ricky Nichols has found himself a popular target for quarterbacks the last three weeks.

The 5-10, 170-pound Chesapeake, VA, native has now caught 24 passes for 464 yards and four touchdowns in 1984, his best season by far as a Pirate. Prior to 1984, Nichols' most productive year was as a sophomore when he grabbed 13 passes for

265 yards and two touchdowns. Nichols' 464 yards puts him in the No. 9 spot on ECU's season reception vardage list while his three catches for 69 yards against Southwestern Louisiana last week moved him into the No. 3 spot on the school's all-time yardage list. He now has 1,157 career yards, leaving him just 36 yards shy of the No. 2 spot (Tim Dameron, 1,193 yards) with one game to play.

Nichols also hooked up with quarterback Ron Jones for a 53-yard pass play at USL, marking the third time this season Nichols has been involved with a pass play of 50 yards or more. Prior to USL, his two other grabs of 50 or more went for touchdowns (64 against South Carolina and 59 against Georgia Southern).

Nichols also has 61 career receptions, putting him fourth on that all-time list. Nichols trails Dick Corrada (79), Dave Bumgarner (74) and Terry Gallaher (72) with one game to play. Nichols also needs just five catches for the best season by an ECU receiver since 1982.

Heath And The Record Book: Jeff Heath's six points in last week's game with Southwestern Louisiana pushed the junior from Virginia Beach, VA, closer to the No. 2 spot on ECU's career scor-

Heath, with 53 points this season, has 183 points for his three-year career with the Pirates. He needs only 22 points to pass Dave Alexander (204 points) for the No. 2 spot and 40 points to become the school's all-time scoring leader. Heath should easily surpass ECU's all-time leading scorer, Carlester Crumpler (222 points) before finishing his eligibility following the 1985

Heath also owns the school's career field goal mark as he now has 36 in his three seasons.

Baker Cracks Top 10: Junior tailback Tony Baker, with 452 yards rushing this season, has broken into ECU's career top 10

The High Point, NC, native now has 1,812 yards in three years with the Pirates, putting him in the No. 9 spot behind 1983 graduate Earnest Byner (2,049

Common Opponents: The Pirates and Golden Eagles of Southern Mississippi (2-7) share only one common opponent during the 1984 season. Both have played the Ragin' Cajuns of Southwestern Louisiana with the same result — a loss. ECU dropped a 42-24 decision to USL last week in Lafayette, LA, while Southern Miss was on the short side of a 13-7 score two weeks ago (Oct. 27), also in Lafayette,

Eagles Limping: Both ECU and Southern Miss are experiencing the same problems in 1984 as both are in the midst of disappointing seasons.

The Golden Eagles, always a power among Southern Independents, are suffering through their first losing season mark. That season saw the 8.

Golden Eagles 1-8 after nine games before winning their last

Never in the school's history has USM won only two games in a season. Since 1937 the Golden Eagles' worst record would be that 3-8 campaign of 1976. In fact, the Eagles have experienced only five losing seasons in 47 years of football, counting the 1984 season.

Since that 3-8 season of 1976, Southern Miss is an impressive

Speed Moving Up: Since getting his first start back on Sept. 22, sophomore quarterback Darrell Speed has steadily moved up the statistical ladder.

Speed, who has passed for 782 yards this season, needs just 210 yards against Southern Miss this week to move into 10th place on ECU's career yardage list. He needs only 24 yards passing to move into 10th place on ECU's season passing list, 67 to move into No. 9, 160 to move into No. 8, 163 to move into No. 7 and 223 to move into No. 6.

On the completion lists, Speed is already No. 10 on the season list and needs just three to move into No. 9, four to move into No. 8, six to move into No. 7, 12 to move into No. 6 and 13 to move into No. 5. He is No. 9 on the career completion list with his 60 since 1976 when they posted a 3-8 and needs just 16 to become No.

By JEANETTE ROTH

Amidst the scores and highlights of intramural activities, one facet of the program, and the individuals involved, often get lost in the shuffle.

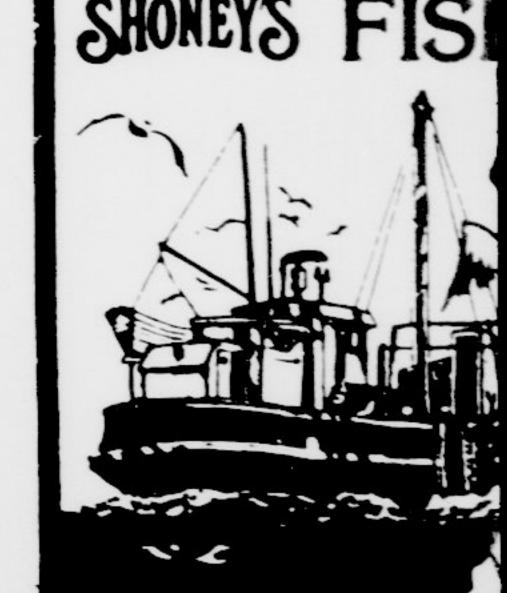

That program includes the many sports clubs at ECU, and although a separate member of the intramural department, these clubs continue to wage successful campaigns.

Many students who participate in sports clubs are never recognized for their outstanding achievements. This season, three members of the ECU Rugby Club were chosen to participate on the 1984-85 North Carolina (under age 23) select side team. Alan Blankenship, Ralph Campano and Bill Zimmerman will play on the team comprised of the best players within the North Carolina Rugby Football Union. These men, along with students from nine universities, will travel to several matches along the east coast. Congratulations to these three sport club participants for bringing recognition to both ECU and the IRS.

The ECU Women's Team Handball club travels to Fort Meade, Md., Nov. 17-18. Teams attending the tournament include West Point, the Greater Washington Handball Club, Ohio State, Garden City and the
