SGA Legislature must cut proposed budgets

By STEVE WILSON
Staff Writer
and KIM DEVINS
Senior Editor

The SGA Legislature must make drastic cuts in its expenditures if it is going to stay within the sharp limitations of the SGA budget for this year, Neil Sessoms, SGA president, announced in the Monday legislative meeting.

The SGA will have only an approximate \$256,000 to work with this year, according to Sessoms, although \$320,000 was expected.

SGA Treasurer Craig Hales reported that the legislature is already faced with budget re-

quests totalling over \$330,000.

Sessoms said the SGA had "over-extended itself" in the past and must pay for it this year by making drastic deletions in areas usually funded by the SGA.

After conferring with Treasurer Hales, Vice-president Reed Warren, Timmy Joe Payne, Speaker of the Legislature, and several legislators, Sessoms suggested the following cuts in SGA appropriations.

First, Sessoms suggested the legislature cut all appropriations to organizations associated with the Athletic Dept., including the cheerleaders, the ECU "Marching Pirates" and the summer baseball program.

"All we would be asking them

to do is take the responsibilities which are traditionally within their sphere," he said.

Secondly, Sessoms asked that all requests for funds for retreats, conventions and any other trips be denied.

According to Treasurer Hales, approximately \$10,000 was spent on retreats and such last year.

Sessoms also suggested salaries for SGA bus drivers be cut from the present \$3.00 to \$2.50 per hour.

Gene Summerlin, SGA transit manager, supported Sessoms' suggestion concerning this, but said he did not know how the drivers feel about it yet.

Sessoms stressed that all [See LEGISLATURE p. 7]

Students get schedules when pay spring fees

By KEN TYNDALL
Assistant News Editor

Students will be able to pick up their class schedules when they pay their spring semester fees, according to Julian Vainright, Business Manager.

Students will know their classes and also get two extra days vacation if they pay their fees early and pre-register, said Vainright.

The business office has been trying to come up with a plan to eliminate some of the trouble and standing in lines for the students.

A student or his parents can mail his fees to the Cashier's Office from Nov. 21 to Dec. 8. The designated portion of his statement will be mailed to his home address prior to Nov. 21.

The student may then pick up his class schedule and receipt in the Cashier's Office from Dec. 8 through Jan. 6, according to Vainright.

If the student does not pay by mail, he can pay his fees in person at the Cashier's Office and at the same time receive his class schedule from Dec. 8 through Jan. 6.

It is unnecessary for a student to return to campus until the first day of class, unless he must go through drop-add, according to Vainright.

The permit to pay fees has also been eliminated, according to Registrar Gil Moore. The students will be given an instruction sheet when they preregister instead.

There will be no "Locator

Card" this semester either, said Moore. Instead, the students will have a portion to fill out on the statement for paying fees.

"Hopefully, the students will be able to pay in person," said Moore.

Although it is not mandatory for students to preregister, they will have a bonus of the extra two day vacation, providing they do not need to go through drop-add, according to Moore.

Students who must go through drop-add still get one extra day vacation, according to Moore.

"Also, if the students will preregister," said Moore, "They will have a much better chance of getting into a course than they will going through drop-add and trying to get it or waiting until

Buffett concert \$1,500 success

By DOUG WHITE
Assistant News Editor

The Jimmy Buffett concert held Wed., Oct. 5 was the first concert to break even since the James Taylor concert in 1975, according to Dennis Ramsey, Student Union President.

"We made a profit of approximately \$1,500 on the concert," said Ramsey. "Buffett and Jesse Winchester cost \$14,000 plus an additional \$3,000 for technicians, publicity, and hospitality, for a total expenditure of \$18,640. Four thousand people attended the concert, said Ramsey.

Ramsey said the Major Attractions budget is now \$26,500, up from the original figure of \$25,000.

"We expect to do just as well,

if not better with the Firefall concert Nov. 6. That concert will cost about \$12,000," said Ramsey.

The Major Attractions committee is also considering the possibility of having a third concert during Fall Semester, according to Ramsey.

"We will not, however, have a concert just to have one, which I think was the problem with last year's committee. We're only going to book acts that we are reasonably sure will be successful," said Ramsey.

In the past, it was the Major Attractions committee that saved the Student Union. Last year, when the committee lost \$63,000, it was the first year it had ever lost money, according to Ramsey.

"There is really no limit to the

concerts we could have on this campus. As long as we break even and have the same amount of money or more after every concert, we could have a concert every week. It all depends on how well the students support us," said Ramsey.

Ramsey said that in the future, the Major Attractions committee will increase its out-of-town advertising.

"If the student body won't support the acts we bring on campus, we will have to depend on the public," said Ramsey.

Ramsey said he thanked the Art Department for their voluntary promotion of the concert.

"We really appreciate all they did. I think it helped stir up student interest and helped our ticket sales."

DENNIS RAMSEY, Student Union president.

Judicial handbook informs students of regulations

By ROBERT M. SWAIM
Advertising Manager

James Mallory, ECU Dean of men, said last week that a new judicial handbook has been printed and is now being distributed to

students.

"Students can get copies in 210 Whichard," said Mallory. "We hope to set up tables in the Student Supply Store and Mendenhall so day students can pick up copies."

The new handbook contains regulations regarding alcoholic beverages, judicial hearing procedures, dorm life and student government.

"Any behavior on or off campus that violates the honor code or the code of conduct is subject to appropriate disciplinary action," said Mallory.

Mallory said the determining factors in whether disciplinary action is taken are the seriousness and the nature of the violation.

Either the Dean of Men or the SGA attorney general may begin proceedings against a student if neither has knowledge that a student has committed an offense.

"A complaint can be made by a student, campus police officer, professor, or a member of the administration," said Mallory.

If a student is charged with a disciplinary offense, he or she will be brought before the Honor Council for a hearing to determine what action, if any will be taken in the case, according to Mallory.

Mallory said that a student facing disciplinary charges is represented by a public defender

and is prosecuted by the student attorney general.

If the student is dissatisfied with the honor council decision, he or she may appeal it to the

review board, according to Mallory.

Mallory said that the final appeal is to the chancellor of the university.

registration day."

According to Moore, the departments are provided with an analysis after preregistration. Then the departments can work around this analysis in order to provide enough classes for the students.

Moore said students should list alternates, and not just different sections.

"After the computer actually schedules them (the students), we go through by hand and fix every conflict or closed course where it's humanly possible," said Moore.

"We automatically look for different times. We give them first priority on the section that they wish."

According to Moore, 47 per cent of the students who preregistered for fall semester got identically what they signed up for, course by course, section by section.

"Hopefully, it is going to increase this time, because the departments will be more familiar with how many students need their courses," said Moore.

"The students will be more familiar with the semester system and how to work out their schedules," said Moore. "It should be a lot more successful."

Moore said the key to the whole operation is the students' paying their fees before they go home for Christmas.

"This whole thing is very important. It's for the students, not us," said Vainright.

Freshmen survive required English grammar exam

By R. B. TURLEY
Staff Writer

After five weeks of intensive instruction in English grammar, East Carolina's 2,500 freshmen can now relax.

Most of them have passed a required grammar proficiency exam begun this year by the English Department and given two nights in late September.

The official percentage of students who failed the exam is not yet available.

Dr. James Kirkland, director of freshmen composition, estimated Thursday that only "10 to 15 per cent" of the freshmen failed.

Failing students had the option of dropping English 1100—the beginning composition course—or taking a retest scheduled in late November.

An English Department policy adopted last spring makes credit for English 1100 dependent on the passing of the grammar exam.

Freshmen get two chances to pass the exam; if they fail both, they get an F in the course, regardless of their performance in the writing part of the course.

The largest freshmen class in University history is the first tested under the policy, and many of its members were critical of the exam, the course and the English Department policy.

FOUNTAINHEAD asked 44 freshmen for their opinions of the exam. A majority of the sample found some fault with the exam.

Other freshmen thought the exam a good idea. A small number said knowledge of grammar might improve their writing.

Criticism of the exam ranged from "It took away all my TV and social time" to "it was a total waste of time."

Generally, however, criticism fell into three areas:

—The English Department

should not make passing the exam a requirement for passing the course. "Putting us in a do-or-die situation puts too much pressure on us," one freshman said.

—Students need more time to prepare for the exam. "How the English Department expects us to learn in five weeks what public schools didn't teach us in 12 years is beyond me," another said.

—The exam is not a test of practical grammatical ability. "A lot of the rules are arbitrary," a freshman said. "Most of the stuff I learned I'll never have to bother with again."

Dr. Kirkland, composition director, defended the exam and English Department policy.

The English Department, he said, had adopted the exam as a means of improving students' writing skills.

"Obviously, national statistics and declining SAT scores show that freshmen have weak backgrounds in the fundamentals of the English language," he said.

"It is a nationwide problem. And a nationwide controversy what to do about it."

Kirkland emphasized that the exam was not an end in itself.

"The English Department believes that there is a correlation between a student's knowledge of grammar and his ability to write effectively," he said.

Responding to the criticism that the exam counted too much, Kirkland said, "We had to stress the exam to motivate the students. If we hadn't counted it at all, how many do you think would have shown up?"

Kirkland was reluctant to blame student deficiencies in language skills on the public schools.

"How can you?" he asked. "An English teacher in the public

schools has five classes of at least 30 students. If the teacher assigned only one theme a week, he would be buried under notebook paper.

"But it is a problem. And something has to be done about it."

SGA financing: desperate situation

The ECU SGA is in a financial bind this year. With inflation crowding campus organizations, somewhat less revenue from activity fees and added expenses due to new programs initiated last year, the SGA may not even have enough money to cover necessary expenses.

The situation is critical. Consequently, appropriations will be tight this year. Campus organizations must accept this and forget about asking for money for new projects, including fundings for retreats, conventions and other minor affairs. It simply will not be available.

The SGA now has \$131,000 which includes its savings account money. From Fall Semester activity fees, the SGA received only \$124,000. SGA Treasurer Craig Hales predicts the same amount from Spring Semester fees. With everything included, this gives the SGA a mere \$256,000 to work with through May 1978.

This is approximately the same as last year. However, new projects were started—such as extra buses in the Transit System—costs for maintaining old programs have risen and the 1976-77 yearbook, the BUCCANEER, was not funded. Without the BUC, the SGA had an extra \$50-60,000 to use for funding departmental retreats, conventions, the cheerleaders and new enterprises last year. But the BUC will be funded this year. So that \$50-60,000 is consumed.

Since the situation is desperate, all major recipients of SGA funding have cut their requests to the absolute minimum. Nevertheless, Hales estimates at least \$290,000 will be needed for the major receivers alone. These major receivers include the five communications on campus, (WECU, the EBONY HERALD, the REBEL, the BUC, FOUNTAINHEAD, the Photo Lab), the Transit System, the ECU Playhouse, the Music Dept., the SGA executives and as of now, the School of Art. (The School of Art has not been funded before, but since it does represent 10 per cent of the student body, it will receive funds this year.) This leaves approximately \$19,000 still needed for *these* accounts! If the legislature cuts some of the other major expenses as planned, such as the Marching Pirates, this problem may be alleviated somewhat.

But the simple fact is that the SGA does not and will not have the money for special requests from special interest groups. In order to avoid harsh feelings, campus groups—whether the cheerleaders, academic departments or honors fraternities—should look elsewhere for funding. For once ECU must learn that SGA money does not grow on Mendenhall's plastic palm trees.

Treasurer Hales recently said he would like nothing more than to be able to fund all campus groups, but this year it will simply be impossible. He added that any group, including the major recipients, should feel lucky for any funding they receive, and special interest groups *must* look to other sources for funding before coming to the SGA.

As it stands, requests to the SGA for special funding will receive an almost guaranteed no. The SGA is not trying to be mean or tyrannical about this, but if the money isn't there, it isn't there. And if campus groups persist in asking for it and are repeatedly turned down, ill-feelings will arise and cause unnecessary harm.

All campus organizations must accept the situation as it is and work *with* the SGA on this for this school year. Plans for retreats, new projects, etc. might as well as discontinued now. Perhaps the future will be brighter.

Student outraged at ticket hassles

To FOUNTAINHEAD:

In one of your recent editorials, students were "warned" about the dangers to Big Name Entertainment on ECU campus if

Alumni money for...whatever

To FOUNTAINHEAD:

I find it incredible that Kim Devins could find so much objectionable in the idea of people giving money to the Athletic Department. If people who graduated from this school want to pledge their fortunes to the Clarence Stasavich Memorial McDonald's, I feel that it should be accepted as the end product of a system of values we all support with our tuition tithes.

When alumni *donate* money to ECU after experiencing four years of rising tuition and declining prospects, why not give them the privilege of seeing their money placed in whatever area they choose? After watching air conditioners sprout from the windows of Ragsdale while students melted, it isn't hard to sympathize with people who care where their money goes. Personally, I would applaud an alumni fund set up to maintain soft toilet paper throughout the restrooms of ECU. Certainly such a program would directly benefit the entire student body more than the scouring clean of the Drama

the upcoming concerts were not a financial success. So warned, I set out to buy tickets to the Jimmy Buffett/Jesse Winchester Show.

First let me say that I was miffed at having to pay \$4 to buy a ticket after having already paid an exorbitant student activity fee. Next I was perturbed at having to get a ticket in advance, even though there is no sellout probable. Last I was outraged to find out that I could not buy a ticket at all unless I paid the public rate, because, although I had a student activity card, ample other I.D., and a student identification card, I was lacking a validation and therefore had to

wait till Thursday (the day after the concert) to get a new I.D. made.

Let me take this opportunity to say that I will never register as a full-time student at ECU again, and I couldn't care less if this school ever has another student activity. I, for one, refuse to pay fees for activities that aren't available to me.

Grad student advocates open letter concerning overpass

To FOUNTAINHEAD:

I read where someone in the University administration agreed that there's a problem with

pedestrians crossing the Tenth Street intersection. He questioned if students would use an overhead walkway. What I would like to know is whether this is the official opinion of ECU, or only

the unresearched bias of a single person in authority. I question if this person bothered to walk down that intersection and ask a group of pedestrians, or a person confined to a wheelchair or a blind student who must run across the street as the justifiability of an overpass. It seems to me that the problem was acknowledged and ignored, or in bureaucra-

tise, put to further study.

I have discovered that the main streets running through the city are maintained by the state. If the students of ECU feel there's a justifiable need for a safer way across Tenth Street, then I would suggest the drafting of an open letter from the student body to the two involved agencies in Raleigh, the Board of Education

and the Division of Highways. I believe that the matter should come to the attention of the people who are the actual level of responsibility. Then the problem can be properly ignored.

So it goes

Candidates supported

To FOUNTAINHEAD:

We are writing in support of Eugene D. (Rocky) Fallon, candidate for one of the six seats on the City Council. A former ECU student who has lived and worked in Greenville for 10 years, Rocky would give the Council the benefit of a fresh perspective representative of his age group (25-35, of which there are a large number living in Greenville).

ECU is an integral part of the Greenville community, and Rocky would like the opportunity to work with the Council and our SGA to further cooperation between the city and the university for the benefit of both.

Some of the candidate's major

concerns: orderly city planning including a complete bicycle path system, protection of our natural environment as Greenville continues to grow, and increased citizen involvement in all phases of government; for instance, ECU students for whom Greenville is permanent residence have the right to vote and should be encouraged to do so.

We ask your support for this candidate on Oct. 11th-today. (The polls are open until 7:30 p.m.) Vote Rocky Fallon for City Council-a vote for a new viewpoint.

Sincerely,
Debby Boswell

MONEY

[Continued from p. 4]

Department's "old, rusty cafeteria ovens," or whatever other pet projects, we may have.

And let's be honest with ourselves, it's not just the alumni of old East Carolina who are mesmerized with the sports program. Last spring when Mr. Cain spoke so movingly to our SGA about playing Duke this fall in football (In response to questions raised by legislators), our elected student leaders cheered and came across with even more money than that the cheerleaders originally asked to be allocated.

And if these campus pillars are really having such problem finding \$5,000 in their projected budget of \$320,000 so WECU can apply for an FM license, I suggest that they delete their traditional, opulent spring banquet from whatever list of functions to be funded with student fees they are working with.

Sincerely,
David W. Trevino

Rock climbers keep in shape on ECU trees

By GEORGE A. THREEWITTS
ECU NEWS BUREAU

A pair of ECU rock climbers are finding high adventure in the tall oaks, sycamores and pines that grow on the campus at ECU and even on some buildings and a barbecue pit.

On weekends, usually Sundays, Bob Castle, an ECU Parks and Recreation major from Swam Quarter and Doug Queen of Fayetteville, a Geology student, strap on climbing harnesses and with coils of rope draped over their shoulders, they

ascend their way into the tree tops high above the campus mall.

With ropes looped over high branches and threaded through steel carabiners on their belts, they skillfully rappel their way to the earth's surface again. Sometimes it's a vertical slide of 60 feet and more.

"We got interested in tree climbing last spring," Queen said. "The nearest rocks are five hours away...and climbing trees helps us stay fit and psychologically accustomed to the height."

They agree that there is a

similar amount of difficulty in climbing trees and rocks. A tree, they say, is easier because of the branches, but the hard part is that the branches of most of the oaks on campus are about as high as a three story building. They have to climb straight up to get to them.

A huge oak that towers above most of the other trees has become a favorite for the climbers. They have named it El Capitan after a granite monolith in California's Yosemite Park.

The first branch of the oak is about 25 to 30 feet up.

It's really hard to get a rope up there," Queen said. "We had to devise all sorts of different techniques."

"We've climbed the tree up there," Queen said. "We had to devise all sorts of different techniques."

"We've climbed the tree about five or six times already," he said. "Each time it gets a little easier but still it's really difficult."

Queen said they have also climbed some sycamores and that they have been wanting to climb a certain pine on the wooded campus but so far they haven't been able to get a rope up it.

As for the hazards of climbing, the two believe that as long as climbers use good equipment and practice the proper techniques, it is relatively safe. They do caution that television shows might portray climbing as an easy sport. It's not.

While Queen says he would like to climb an 8,000 meter peak such as Nangatarbat in Nepal,

Castle would be more content to scale some of the major rocks in the United States.

Med school receives grant

By JOYCE EVANS
Staff Writer

Dr. Sam Pennington of the ECU School of Medicine recently received a \$15,000 grant from the N.C. Alcoholism Research Authority to study the effects of alcohol on metabolism.

The research is being conducted at ECU and this particular phase is beginning this month, according to Dr. Pennington.

Pennington said the money will be used to pay a research technician.

Carlton Smith, research technician in biochemistry, and a new technician will assist Pennington.

The major goal of any

alcoholic research is to find out how ethylene (alcohol) carries out its effects, according to Pennington.

Alcohol is fat soluble and water soluble and it circulates all through the body, said Pennington.

The harmful effects of alcohol are numerous and cause damage to practically every part of the body, he said.

"We know a lot about alcohol damages, but we don't know the mechanism of how it works," said Pennington.

"If you could treat the cause instead of the effect, it would be highly beneficial.

last year's legislature had when the yearbook, the BUCCANEER, was not funded.

This year, the BUC will be funded, Hales said.

In other business, the new SGA cabinet members were introduced and each spoke of the progress each has made in his/her particular area.

Ron Lewis, manager of refrigerator rentals, reported his program to be in the best condition it has been in in the last four or five years.

Lewis explained the increase in refrigerator rental fees this year, saying that it was necessary for the continuation of the program.

Several new bills concerning appropriations for the major campus organizations were introduced. Speaker Payne turned them over to the Appropriations Committee.

"We're looking for a mechanism to explain why alcohol causes these harmful effects to the body," he said.

To conduct this research, Pennington said they will use lab animals.

One group will be fed alcohol for two months. Another group will consume the same number of calories but in food instead of alcohol. This process is called isocaloric control.

Then the animals will be destroyed and the tissues from both groups will be compared for their ability to produce prostaglandin.

Prostaglandins are a group of extremely potent hormone-like substances which occur in minute amounts in virtually all body tissues, said Pennington.

The focus of this research is to find out if alcohol alters the mechanism of prostaglandins. And if it does, the study will seek to learn why and how it does effect them, said Pennington.

To rate the difference between the metabolism of a normal consumer and the excessive drinker is another point of focus.

"It's a complicated process because alcohol has so many effects on the body," said Pennington.

It's going to take a lot of time and a lot of money to work out all the data, according to Pennington.

One of the problems the biochemist has faced when conducting research is that changing different control factors will cause different results in a given experiment, according to Pennington.

organizations will have to streamline their budget requests this year. He reported that all campus media have done this through several Communications Board meetings in the past two weeks.

Concerning campus media, Sessoms also proposed allowing FOUNTAINHEAD to receive its advertising revenue directly this year and in so doing, an estimated \$30,000 could be cut from FOUNTAINHEAD's proposed budget.

Sessoms, Hales and Vice-President Warren emphasized the desperate and critical situation SGA funds are in this year and asked the legislators to offer any suggestions they may have towards helping this problem.

According to Hales, this situation has grown out of rising costs in all areas funded by the SGA, and because the 1977-78 legislature will not have the \$50-60,000

The Spy Who Loved Me'

The title song is a big hit--and so, not surprisingly, is the tenth James Bond film *The Spy Who Loved Me*. Fantasy was big at the box office this past summer, so the more outlandish vehicles like this one and "Star Wars" surpassed movies similar to "Sorcerer," a 21-million dollar film that is now a tax write-off, and "Exorcist 2: The Heretic."

"The Spy Who Loved Me" is pretty extravagant fare anyway. Its well spent 13-million dollar budget affords some of the most unbelievable gadgets, scenery, and stunts ever in a Bond movie.

Surely one of the most talked about stunts is performed even before the title is flashed. Being chased on skis, our hero evades some Russian spies by jumping off a mountain. In mid-flight he kicks away the burden of the skis and soon reveals a parachute which sports England's Union Jack colors.

If that isn't enough, there is exotic location footage of Egypt; camp plot, dealing with the theft of both American and Russian submarines by master-villain Stromberg (Curt Jurgens), and the usual harem of beautiful Bond women. Among them, Barbara Bach, the agent who swears to kill Mr. Bond after their mission together is over, is the sexiest.

BOTTLED BOND

Served up in the most pretentious of the series are fragments from almost all of the earlier films. Sure, each installment builds on the previous one. But there are more than a couple of ideas that have been obviously borrowed from earlier episodes. Those skiing sequences are right out of "On Her Majesty's Secret Service." The interplay between an American agent and a Russian spy is dealt with in "From Russia with Love." And the huge ocean tanker that engulfs our submarines is a variation on the space ship that does the same sort of thing in "You Only Live Twice."

Roger Moore seems more comfortable in his role as agent 007 here than in his two previous trials, but he is no better than a stand-in for the old master, Sean Connery. Still, he delivers the script's many double entendres with a dignified abandon.

Thanks to another excellent production; the usual lively soundtrack score, composed by Marvin Hamlisch; a huge budget, and dogmatic direction by Lewis Gilbert, the most arrogant of the Bond succession is also the most fun.

'The Last Remake of Beau Geste'

How long will it be before Madeline Kahn tries her hand at directing? Another of the Mel Brooks gang, Gene Wilder ("Sherlock Holmes' Smarter Brother") is working on a parody of old Valentino films. Meanwhile, British master of the ludicrous, Marty Feldman is riding the tide of his latest--a poke at "Beau Geste" and its remakes--which he wrote, directed, and starred in.

For Feldman's THE LAST REMAKE OF BEAU GESTE the tide only goes out. A good cast--Trevor Howard, Ann Margret, Peter Ustinov, and Michael York among them--is wasted in what comes off as a string of clumsily rendered slapstick bits.

BRILLE NUDE

The movie is chiefly made-up of sight gags. A few of them, in the first half hour of "Geste," are riotously funny. In the Hollywood tradition of years past, the pages fly off a calendar until they nearly bury Spike Milligan. A newspaper spins its important headline in your direction but never stops long enough for it to be read. And in one scene, a blind legionnaire bids his goodnight to a nude poster of a woman--done in Braille.

Unfortunately, Feldman runs out of good gags about a third of the way through the movie and the comedy is reduced to a gambol in the desert. The routines are forced, overdone, silly, and, in many instances, in poor taste. The camera zooms in for a close-up of Henry Gibson's bare bottom and then pans to a portrait of Napoleon, whose misplaced hand has found its way into his pants. Good lines, like the one spouted by Trevor Howard as he contemplates candidates for the Geste name in an orphanage ("He looks Jewish! I want a hero, not a dentist."), are almost forgotten by the film's end.

The inexperienced Feldman has nobody to blame but himself for this disjointed folly. He not only directs and stars but also co-authors both story and screenplay.

The only thing Marty is really guilty of is trying too hard.

Scholars seminar scheduled

By RENEE DIXON
Staff Writer

A symposium will be held Wednesday and Thursday, Oct. 12 and 13 to discuss the interaction between the Greenville police and the ECU community.

This event is sponsored by the East Carolina League of University Scholars and the ECU Student Government Association. The symposium will be held in Mendenhall Student Center, room 244. All ECU students, faculty, and staff are encouraged to attend.

Wednesday morning's sessions will begin at 10 a.m. with a lecture by Dr. David B. Stevens, ECU Attorney, on "The Legal Aspects of Campus Security." At 11 a.m. the participants will discuss the purpose and goals of the symposium.

After a lunch break, at 1 p.m. Mr. Hugh Benson, Juvenile Officer for the City of Greenville, will address the group concerning his responsibilities as a city police officer. At 2 o'clock Joseph H.

Calder, Director of Security and Traffic, ECU, will entertain questions concerning the campus parking situation and other pertinent topics. Refreshments will be served following this presentation.

The second day of the symposium will begin at 10 a.m. with a lecture entitled, "The Police Response to Student Gatherings Off Campus," by James M. Campbell, Assistant Professor of Social Work and Correctional Services at ECU. Campbell will discuss the basic problems surrounding the situation and make recommendations for alleviating the problems. A movie, "Every Hour, Every Day," concerning community relations will be shown at 11 a.m.

After a lunch break, the

symposium will reassemble for a final session at 1 p.m. Herman G. Moeller, Professor of Social Work and Correctional Services at ECU will consider "Basic Issues in Police and Community Relations" from a national viewpoint by presenting alternatives that other cities have chosen to improve interaction.

The purpose of the symposium is "to discuss basic problems for the police in community relations and to promote a better understanding and communication between the ECU community, Campus Police, and the Greenville City Police."

ECU students and staff members now have an opportunity to voice opinions and suggestions concerning police interaction on campus.

Coffeehouse offers alternative

By LYNN HUGHES
Staff Writer

Thursday night, October 6, Coffeehouse featured Mike McDonald, an ECU student from Virginia whose mellow music has given him the opportunity to perform at Mendenhall several times.

A vocalist and guitarist, McDonald specializes in "folk-

pop" music, and performed several numbers by Cat Stevens, Arlo Guthrie, and Neil Young. But his admitted favorites, James Taylor and Jim Croce, were by far the best of whose numbers he performed. He also performed George Benson's hit "This Masquerade" with a great deal of vocal expression, thereby proving himself to be very enthusiastic about his music and showing a lot

of promise.

Auditions are made each semester before the Coffeehouse Committee, who select local talents, students and community persons to perform. The committee also invites talented performers to make appointments for auditions during the year.

According to Ken Hammond, advisor to the committee, a new means of auditioning is an open-mike system, whereby students can just come in and play.

Coffeehouse is regularly scheduled for Thurs. and Fri. nights at 9 p.m. and accommodates approximately 75 persons. With its nightclub tables and low lights, it provides a relaxing atmosphere and offers refreshments for only a 50 cent admission fee.

Everyone is encouraged to attend these shows offered downstairs at Mendenhall Student Center for a night of inexpensive pleasure.

Fraternity promotes music

By RENEE DIXON
Staff Writer

Phi Mu Alpha is the "professional fraternity for men in music" at East Carolina University.

The fraternity is open to any male student on campus who has a sincere interest in music. As a national and local musical organization, their purpose is "to encourage and actively promote the highest standards of creativity, performance, education, and research in music in America."

This men's music fraternity was founded as a national organization on Oct. 6, 1898, at the New

England Conservatory in Boston, Massachusetts. The East Carolina Chapter, Zeta Psi Chapter, was founded on Feb. 19, 1955. Two charter members of the Zeta Psi Chapter, Dr. George Knight and Ralph Shumaker are now members of the ECU School of Music faculty.

Phi Mu Alpha Brotherhood Week at ECU is Oct. 9-16. Various activities have been planned in honor of this celebration.

Monday, Oct. 10, a trombone quartet will play in the A.J. Fletcher music lobby at 12 p.m. Wednesday, Oct. 12, the Zeta Psi Chapter will sing on the music lobby steps at 12 p.m. Thursday, Oct. 13 at 4 p.m. Phi Mu Alpha is sponsoring a pie throwing contest at consenting faculty members as a money raising project.

Friday, Oct. 14, the fraternity is having a social for prospective members at 8 p.m. More information concerning this social will be posted in the music building.

A scholarship is offered by Phi Mu Alpha to an incoming freshman music major based on a performance audition. This

scholarship was established in honor of Charles K. Lovelace, a charter member of the Zeta Psi Chapter who was killed in military action.

In order to fund the Lovelace scholarship Phi Mu Alpha sponsors several money raising activities. These activities include the faculty pie throw, and the annual night of Phi Mu Alpha "Music Madness" later in the year. "Music Madness" is an evening of music at one of the downtown clubs employing local talent from the jazz, rock, soul, and bluegrass genres.

The fraternity also donates its time and services to a few of the events sponsored by the ECU School of Music. Phi Mu Alpha members aid in the supervision of freshmen auditions for the School of Music each year. Last year the fraternity brothers also helped with All-State Band auditions.

The ECU Chapter of Phi Mu Alpha is active within the national organization. Last fall Zeta Psi hosted the Workshop for their province (which includes the majority of the North Carolina chapters.)

Defense keys Homecoming win

By SAM ROGERS
Staff Writer

Pat Dye and the rest of the East Carolina Pirates probably came up with the finest tribute Dr. Leo Jenkins could have wished for Saturday afternoon.

Before a record Ficklen Stadium crowd of 25,851, the Pirates totally demolished Southern Illinois, 33-0.

Although it probably won't go down in ECU history as one of the most exciting homecoming games played in Ficklen, it was a victory, one which will always provide our retiring chancellor with memories for many years to come.

Safety Gerald Hall along with the entire Pirate defense provided most of the heroics against the Salukis. Hall, a native of Edenton, N.C., returned four punts for 102 yards and set up two ECU scores with his returns.

And for the first time this season, the Pirate defense came up with a shutout. Harold Randolph and the rest of the defensive unit only allowed the Salukis into East Carolina territory three times all afternoon and limited SIU to 124 yards on the ground and 130 in the air.

"I was real proud of our defense," head coach Pat Dye said after the game. "We probably were not as sharp defensively as in previous games, but we got the big play when we had to have it."

After the Pirate offense had problems moving the ball in the first quarter, Hall brought the entire stadium to its feet when he took a line drive punt and raced 51 yards down the right side line all the way to the SIU 27.

Southern Illinois punter David Mick finally managed to knock Hall out of bounds or he would have gone all the way.

Two plays later, quarterback Leander Green went around the right side for 25 yards and a touchdown, which put the Pirates on the scoreboard with just 1:39 in the first quarter. Junior Creech added the conversion to give ECU a 7-0 lead.

Green and Southerland engineered a drive late in the second quarter, moving 80 yards in 14 plays. The big play in the drive came on a fake punt when Steve Hale took the snap and raced 25 yards for the first down at the Southern Illinois 23.

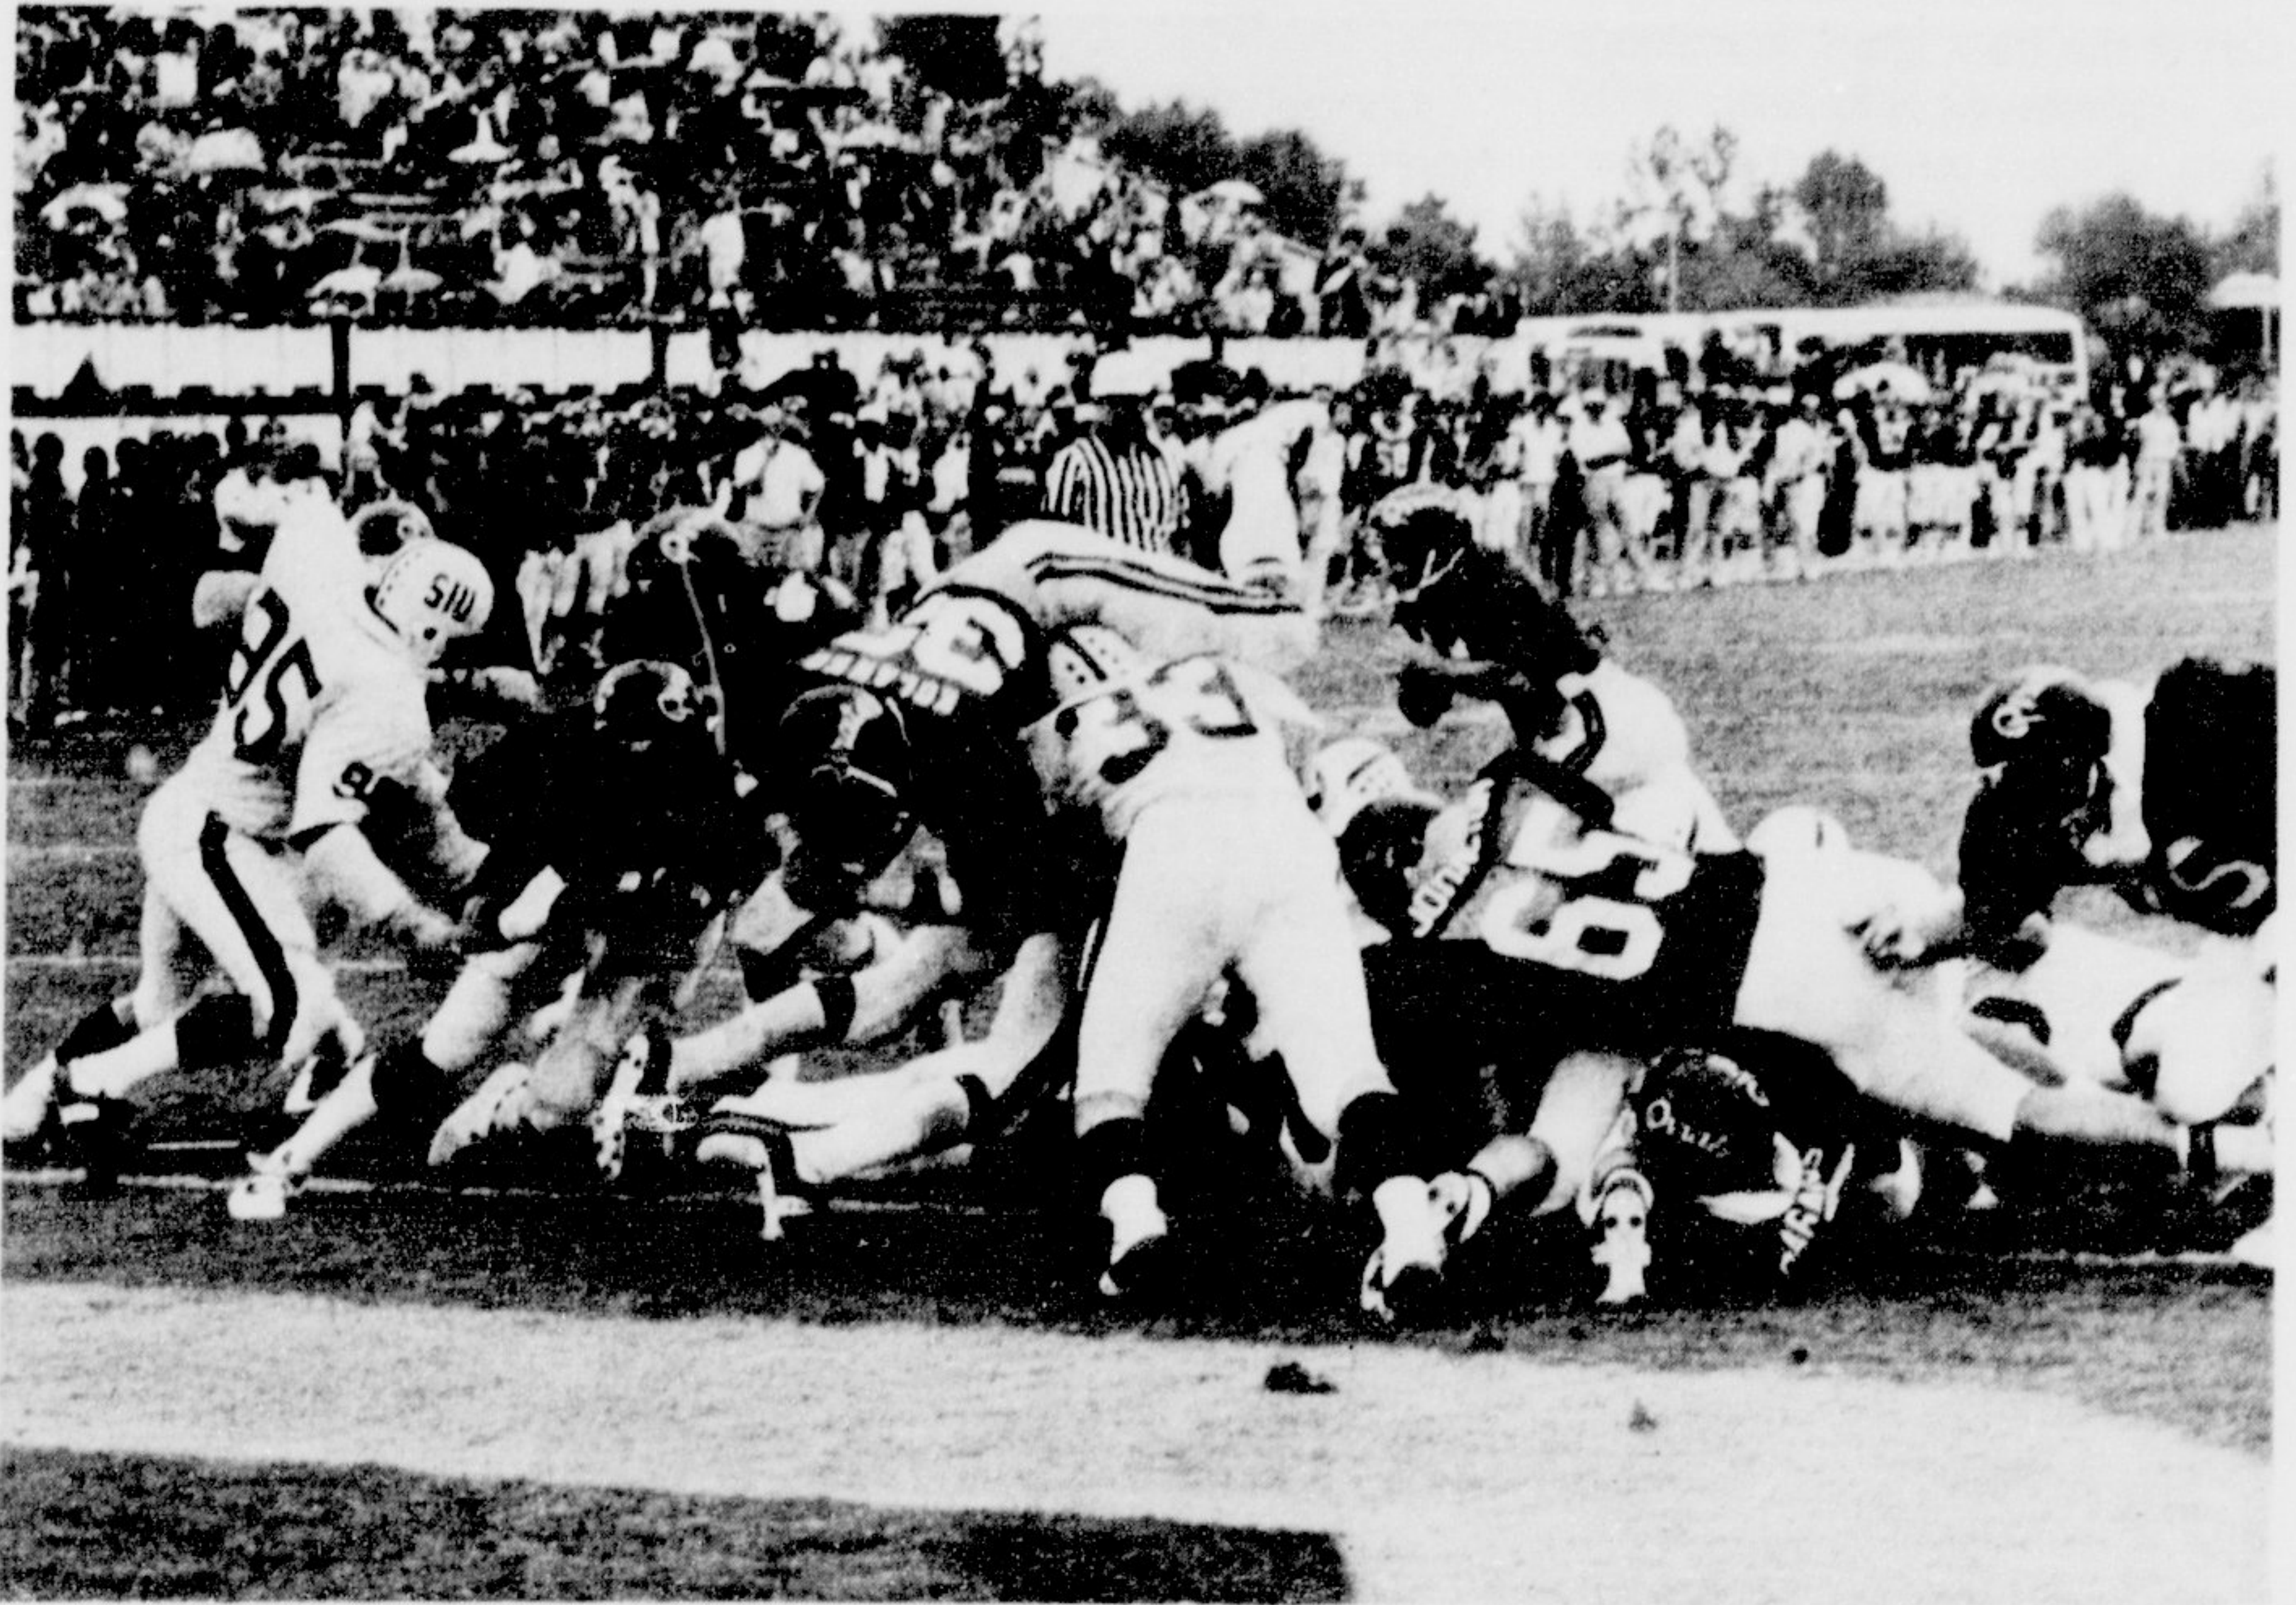

Vince Kolanko scored five plays later on a nine yard run which put the Pirates out front 13-0 at the end of the first half. Junior Creech missed his first extra point of the season.

Once again, in the third quarter, Hall took another punt and went down the right side again for 42 yards to the Saluki 12. Mick once again made the tackle or Hall would have scored.

Halfback Willie Hawkins scored two plays later going four yards over the middle for the third ECU touchdown. The run for the conversion failed, which left the score 19-0 with 10:08 left in the third period.

"The wall set up real fast today and their punter was kicking nothing but line drives," said Hall. "The key to a big return is to get upstream before their lineman can get downfield. It also depends on how fast we can set up our blocking, which was super today."

Pat Dye was also pleased with

ECU's VINCE KOLANKO (#32) dive faked up the middle as quarterback Jimmy Southerland handed off to Anthony Collins for the Pirates final

touchdown. Kolanko gained a total of 51 yards in 11 carries during ECU's shutout over Southern Illinois.

the kicking game but had legitimate gripes about the Pirates rushing game, which had problems all afternoon.

"I was real proud of our kicking game," said Dye. "We put pressure on their kicking, got good returns and kicked well ourselves. I still feel we have not solved our offensive problems. We may have solved some, in that perhaps some of our young players are playing better than our older players. I think it's a matter of we're not really coming off the football very well. I just think we're more capable offensively."

The Pirates punched across two more touchdowns in the fourth quarter. Jimmy Souther-

land cumulated an 11-play, 70 yard drive early in the final period, going in for the score himself from five yards out. Creech's conversion put the Pirates ahead 26-0 with eleven minutes still remaining.

Thomas McLaurin set up the final score with a 20 yard pass interception. Anthony Collins scored on a one yard carry which made the final score 33-0.

"I don't think we had a

letdown after South Carolina," observed Dye. "We were not fired to an emotional peak, but our players wanted to get back on the winning side very badly."

Southerland was the Pirates top ground gainer with 83 yards in 13 carries while Green had 61 yards in six attempts.

The Pirates will play host to the Spiders of Richmond this Saturday night at 7:00.

ECU cross country team on the comeback trail

East Carolina cross country, a minor fall sport but considered a part of the track team, is making an impressive comeback. The team, which is composed of seven to ten runners (of which only the top 5 score), has not been able to win a single meet the past four years. But the winning trend started two weeks ago at the Pembroke Invitational, and continued on this past weekend at Campbell College, where the

running Pirates competed in a four-way meet.

Competing in the meet were North Carolina's two premier track clubs, North Carolina Track Club and Godiva Track Club, as well as ECU and host team Campbell. The Pirate Harriers lost by one point to the powerful Godiva Track Club, when their fifth man had to slow up the last half mile of the five mile race due

to severe stomach cramps. ECU easily handled the North Carolina Track Club and Campbell.

Individually, David Hankins of the North Carolina Track Club won the meet, followed closely by Jim Dill of East Carolina at second. Dill, a junior from Gaithersburg, Maryland, led the race from the start over the hilly European course, only succumbing to Hankins in the final yards of the race. A European course

contains several barriers (two to four feet) to jump, creeks to cross and ditches to hurdle. Dill commented, "This was my type of course, one that requires more strength than speed. But after pushing the pace for four miles I just didn't have it at the finish."

The surprise of the Pirate team had to be Ray McDaniels, a freshman out of Virginia Beach. McDaniels, the only Harrier on a track scholarship, finished second for ECU and sixth overall. Other ECU finishers were Charlie Powell in seventh, Ray Moore in eleventh, Jerry Cook in fourteenth, John White in sixteenth, James McCollough in twenty seventh and Robbie Williams in twenty eighth.

Overall, the young Pirate

team made an impressive showing against the two track clubs and Campbell College.

Their next meet will be the North Carolina State Cross Country Championships at N.C. State on October 22nd. The Pirates hope to improve last year's seventh place state finish and qualify men for the NCAA Regional meet at Furman University on November 5th.

The Pirate record is now two wins and one loss with a second place finish at the Pembroke Invitational.

All in all the ECU cross country team is on a winning trend. If this is so then they should be a real boost for the sprint-dominated ECU track team.

ECU booters go 0-2 over week

By CHRIS HOLLOMAN
Assistant Sports Editor

The East Carolina soccer team suffered two losses this past week to Duke and St. Andrews. The game against Duke was played at home and the St. Andrews game was away.

In the match against Duke, the Pirates only score came on an unassisted goal by Phil Martin.

In speaking of the game, head coach Brad Smith was disappointed in the team's play as a whole.

"It was a matter of Duke wanting to win more than we did," Smith said. "They really put it to us, but I feel we still could have won. Our players didn't look like they wanted to win and that was my fault."

"We have been working all year on short-kick passing situa-

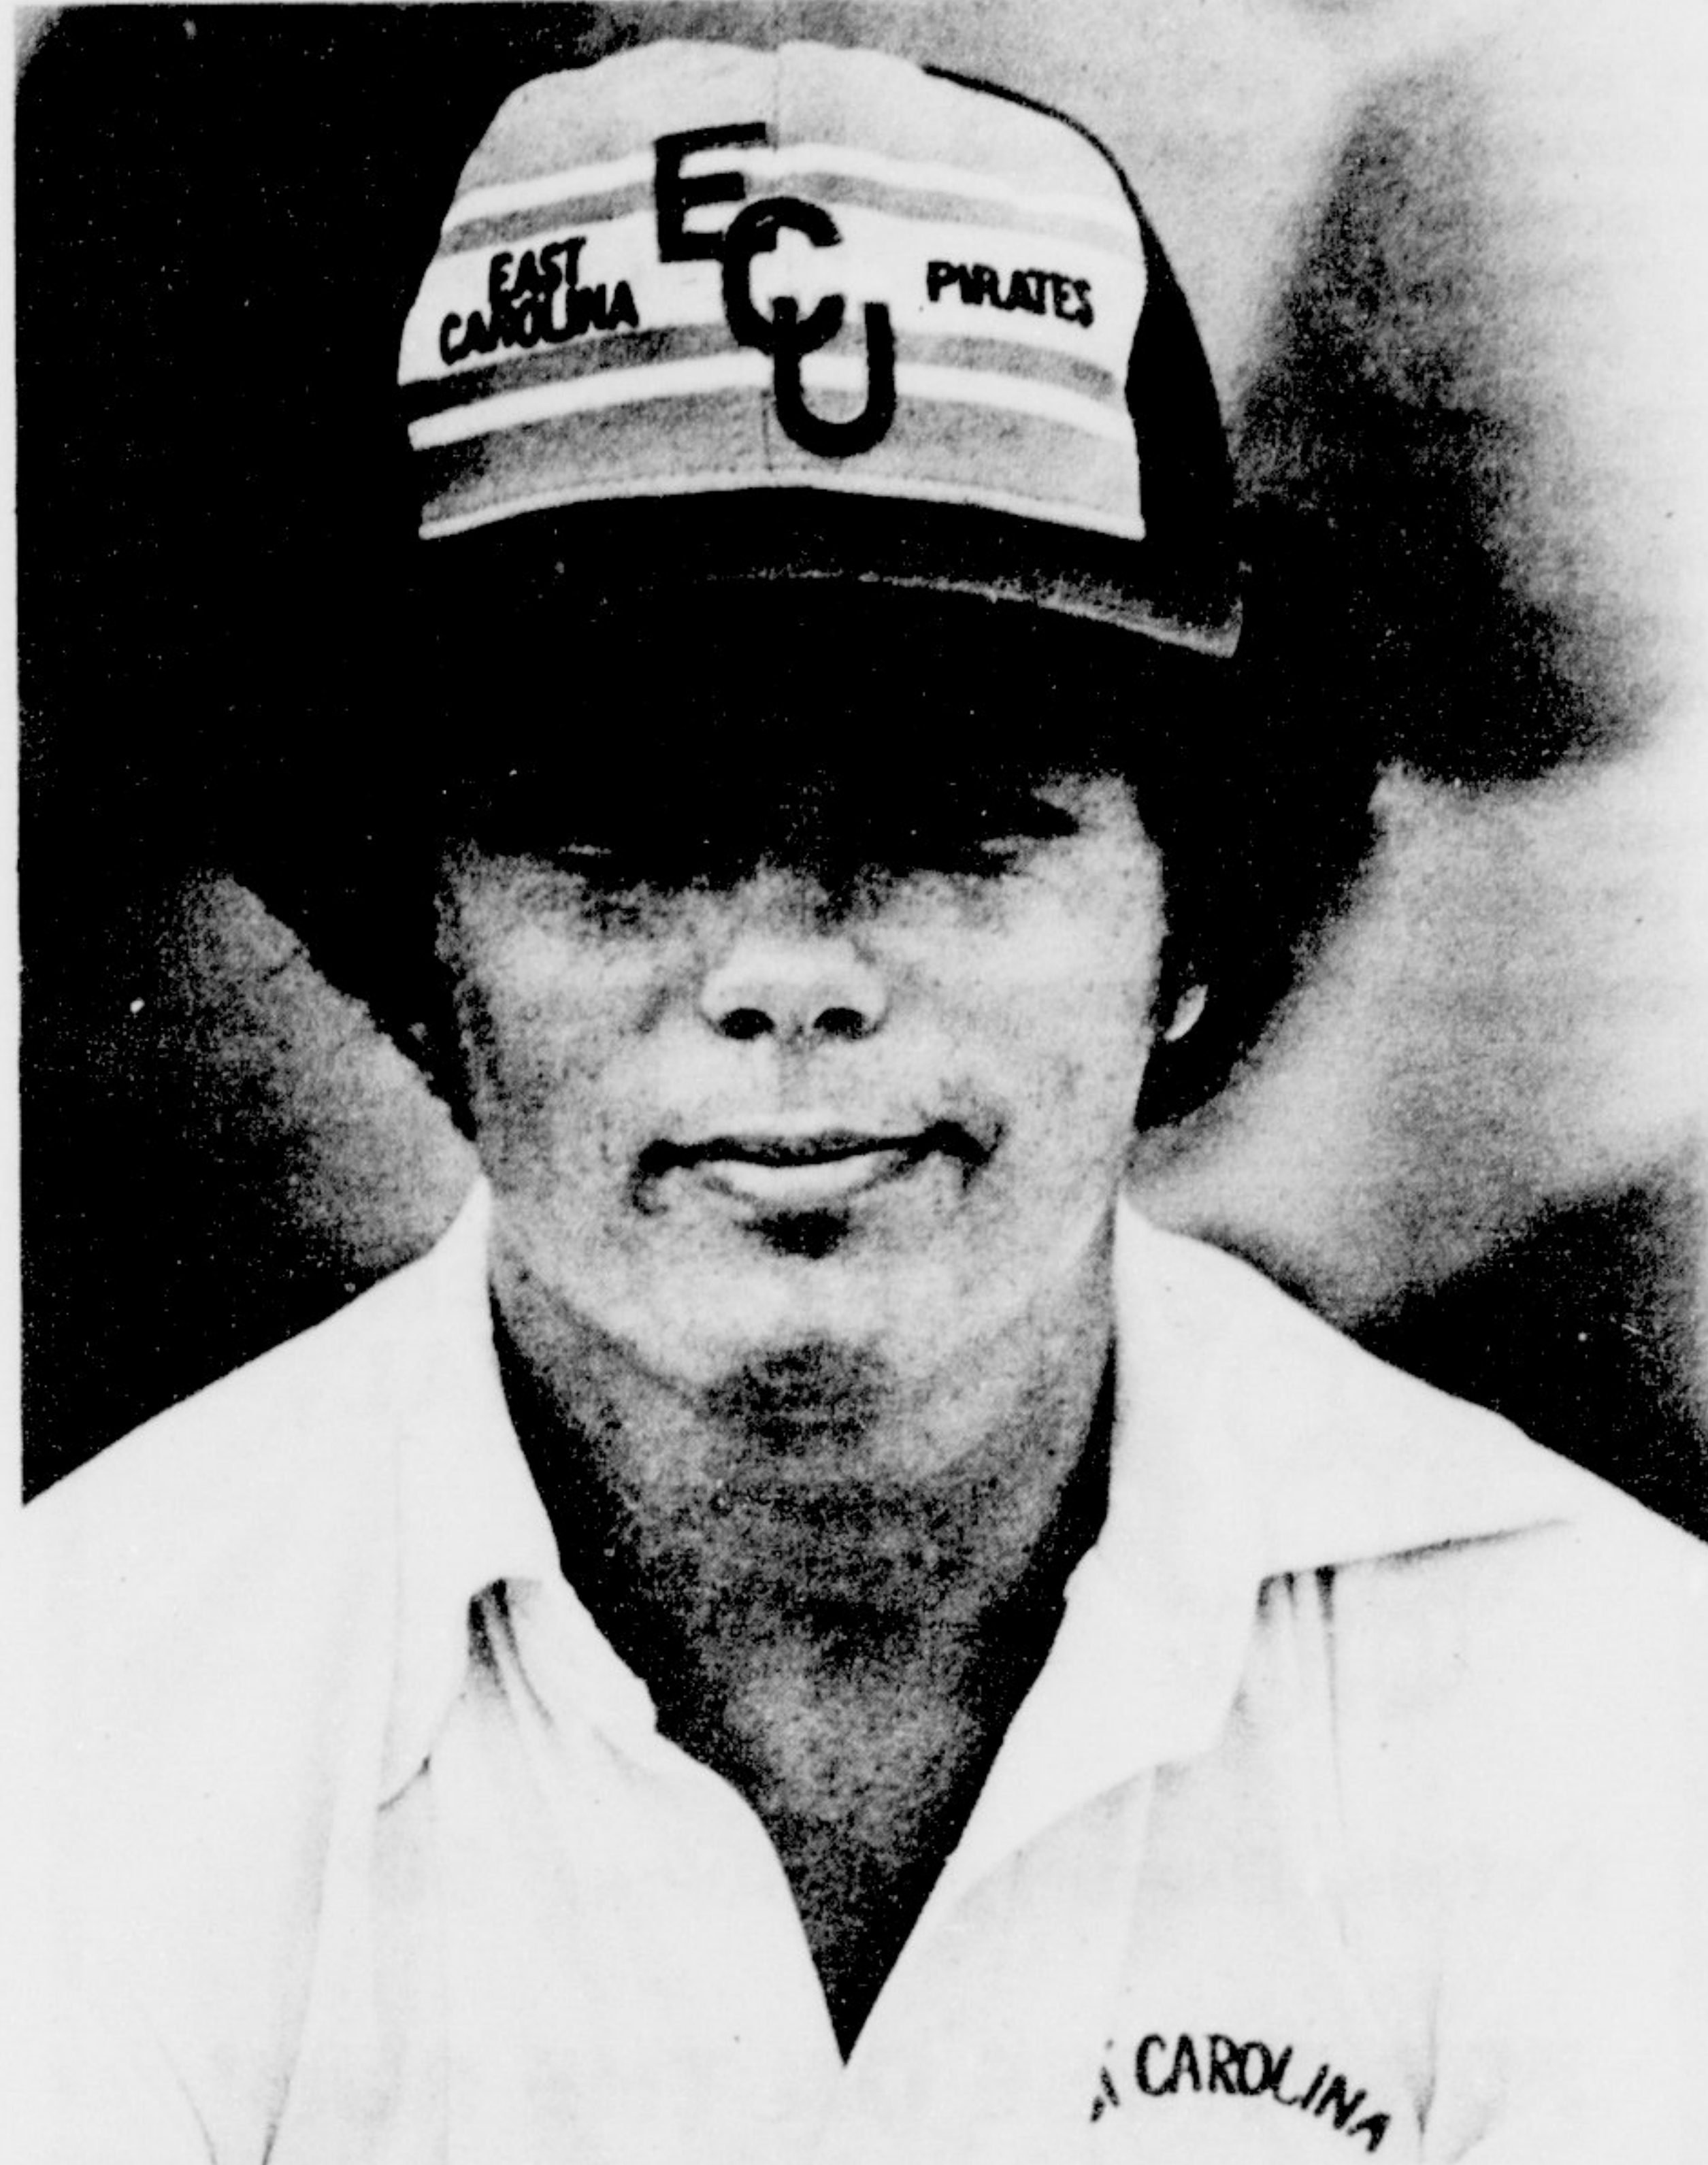

tions, and against Duke we simply got away from our basic offense and tried to pass long."

In speaking on the game against St. Andrews coach Smith was quite vocal about the poor play in the shutout. However, he felt quite optimistic on the future of the team.

"I guess the fact we played on homecoming could have hurt," Smith said. "Homecoming is such a big thing to the students here and soccer players are no exception. They're minds were in Greenville and not on the game, so that's probably why we lost. We just didn't go to the ball. St. Andrews scored on four corner kicks and then missed a penalty kick."

"Right now we need more concentration and senior leadership. We have a very young team with half the guys being either freshmen or sophomores. I feel that we will develop into a good team as soon as we have the kind of experience you can get only by playing. I feel sure that the team will come around because we have some excellent talent."

On the 15th the Pirates are at UNC-W. On the 18th they will play their last home game of the year in a big match against N.C. State.

Non-credit instruction classes offered

ECU NEWS BUREAU

Instruction in swimming, scuba diving, and basketball officiating is included in this fall's non-credit evening course offerings at East Carolina University.

"Adults Only Swimming," scheduled to meet Tuesdays and Thursdays Oct. 11-Nov. 10 from 7 to 8 p.m., will provide swimming instruction for persons 16 years old or older.

Ray Scharf, ECU swim coach and aquatic supervisor, will teach the classes. Safety and swimming skills will be taught, with emphasis on free floating mechanical principles of the basic strokes.

The scuba course, meeting Tuesdays and Thursdays, Oct. 13-Nov. 8, from 7:30 to 10:30 p.m., will prepare swimmers who enjoy water sports to become safe, competent and well-informed divers.

Classes will be taught by Robert Eastep, recognized throughout the southeast as an outstanding scuba instructor. Most class dives will take place in

the ECU diving tank, with an additional session to be scheduled in a coastal location.

"Basketball Officiating," set for Mondays, Oct. 10-Nov. 28, from 7:30 to 9:30 p.m., will provide participants with a working understanding of basketball rules, mechanics, positions and interpretations.

While its major purpose is to enable students to officiate at junior and senior high school

basketball games, the course is also beneficial to basketball spectators, player and coaches.

Instructor is John Grimsley, whose 24 years of experience as a basketball official includes several ACC and Southern Conference events.

Further information about these and other evening courses is available from the Office of Non-Credit Programs, Division of Continuing Education, East

Carolina University, Greenville, N.C. telephone 757-6143.
