New system allows class registration by phone

By Joseph Horst

With current and upcoming improvements in telecommunication lines, ECU will put itself on the cutting edge of technology within the next five years.

The existing telecommunications network is based on a coaxial cable system, similar to that used in cable TV. The present network is also a broadband network, meaning that it only served administrative purposes and very little academic

Costing about \$12-14 million, the new network will be comprised of fiber optic lines. The lines will include the entire ECU campus as well as the School of Medicine.

The network will not only cover all geographical and organizational areas, but it will also combine and integrate voice, data and video traffic into a single infrastructure. The combination will eliminate redundant management systems and software protocols.

Richard Brown, vice chancellor for business affairs, said the new system is designed with the needs of the campus as well as the students in mind.

"We want the students to have the capacity to dial from their room to the library (for electronic card catalogs or CD-ROM information)," Brown said. "We also want them to be able to use electronic mail to contact faculty or turn in assignments.

One of the biggest and possibly most needed improvements to the telecommunications system will be the addition of telephonic registration. When hooked up, a link will exist between the phone system and the SIS (Student Information Systems) database.

Students can then register for their classes over the phone, as is being done in other North Carolina colleges, like North Carolina State in Raleigh. The phone link will also allow students to be connected to an attendant if assistance is needed.

When contacting the attendant, the student's file will automatically be forwarded to the attendant's terminal. This capability will save time for both individuals and reduce the feeling of the student just being a number.

Another aspect of the new network will be the enhancement of student-faculty interaction. Instruction can now be done between separate rooms and buildings, with equipment being established for 10 teleconferencing and teleteaching rooms on campus.

Grant proposals and files can now be transferred almost instantaneously; databases would be available from faculty offices and labs.

Instruction would be done on a regional basis with the new network. The School of Medicine will be able to search on-line clinical and research databases; they will also be able to perform remote telemedia diagnosis.

Campus security will also benefit from the updating of the present telecommunications network.

Campus officers will be able to see the origin and other information on a 911 call — even from a residence hall room, which is currently not available on the system.

The idea of a single I.D. card to enter residence halls or other buildings after hours is also being discussed.

Residents in the residence halls will also be provided with access to major cable TV channels after the network is installed. This will improve not only entertainment offerings but also educational and emergency broadcasts as well.

Courtney Jones, SGA president, said she agrees with Brown on the virtually limitless possibilities that the network will offer ECU.

"I think we've been needing something like this for a long time," Jones said. "It's going to transform our campus. It's a very thorough plan that al-

lows for future improvements." Brown commented on the image that the network will portray about ECU.

"ECU is very well-positioned to move ahead of most universities with this type of network," Brown said. "We can take advantage of the most up-todate technologies and put [ECU] on the

The General Classroom Building has bad air. Although the university has improved ventilation in the building, the air still contains high levels of carbon dioxide. A final report of air quality in the GCB is pending.

Bad air plagues General Classroom

By Tracy Ford

Modifications were made to General Classroom Building ventilation system after a state survey reveled high carbon dioxide levels.

The North Carolina Department of Health and Environmental Resources conducted an air quality questionnaire lem. and survey to determine any health hazards that may be present to the faculty,

staff and students. "Apparently there had been several complaints with everything from headaches to skin rashes since we moved into the building four years ago," said Brian Harris of the Foreign Languages

Department. "What they were looking for were

furniture, carpeting and building ma- and recommendations to make any terials. Also they were checking for further changes to General Classcarbon dioxide levels," said Phil Lewis, room Building. of the Department of Environmental

Health and Safety. The ventilation system improvement lowered the carbon dioxide levels by introducing more fresh air into the building but did not solve the prob-

Faculty voiced their complaints of headaches, skin rashes and lethargy in the survey which prompted action

by the state. "Headaches can be caused by a number of things," Harris said. "I think headaches, eye, ear and throat irritait is clear that buildings with poor cir- tion and respiratory problems." culation that have high levels of carbon dioxide can cause health prob-

ECU is awaiting the final report

"We took additional readings and [the carbon dioxide levels] dropped," Lewis said. "Whether they're at an acceptable level now were not really sure."

According to Lewis, the carbon dioxide levels have dropped from the dangerous levels previously recorded and faculty and staff are not in danger of serious illness.

"Usually common complaints associated with indoor air would be

"I think we've taken a good step toward identifying the problem and hopefully toward some solutions." Harris said.

Candlelight vigil honors POW/MIA(s)

By Elizabeth Shimmel

Assistant News Editor

The Arnold Air Society of ECU's Air Force ROTC held a candlelight vigil Tuesday night to honor POW/MIA(s) during national POW/MIA awareness week.

The vigil officially recognized every POW/MIA from all wars, but also had a roll call of the names of specific POW/ MIA(s).

"This is something that provides awareness of POW/ MIA(s) to everyone," said Kevin McLaughlin, commander of the Arnold Air Society. "It is a very special recognition and we are proud of that."

The Arnold Air Society sponsored the event during the awareness week which started Nov. 7 and will end Friday, Nov. 13.

Other events sponsored by the Arnold Air Society this week include tying yellow ribbons around the trees on the mall, a formal retreat and a 24- the official taking down of hour vigil with cadets repre- the flag. senting a prisoner of war.

Students becoming workaholics

The burnout rate among students is increasing from year to year. "There is a sense, nationwide, that mental health staffs are seeing more distressed college students," said Philip Meilman, director of counseling at the College of William and Mary in Virginia. Students are working more part-time and full-time jobs while getting paid less for their efforts. Educators have complained that students often put academics on the back burner in order to concentrate on rent and tuition.

New York college begins publication

On Oct. 5, Adelphi University officials reached an agreement with editor Amy Demner that ended an ongoing dispute between the Delphian and the administration. The university shutdown the paper for six issues after an August 14 deadline was missed for the printing of a libel disclaimer. The disclaimer would say that the Delphian's views were not necessarily those of the school's or its students and disclaiming liability. In return, the administration agreed to cover the paper with libel insurance protecting the paper in the event of a lawsuit. Both the paper and the administration are pleased with the accord. "It was very equitable," Demner said. "The paper prints the paper ... and the college protects the paper."

Citadel to admit women

A South Carolina higher education commissioner, Fred Sheheen, told the military institution, The Citadel, that it should admit women or risk losing a court fight. The Citadel has been sued by three female veterans on the grounds that they should have access to day classes, instead of the separate school for women that The Citadel has now. Sheheen said that he can only recommend the action, not enforce it because of lack of legal authority. The only other state-run school that is military and allmale, Virginia Military Institute, recently won a federal appellate court ruling in October. The ruling said that VMI need not admit women, but they must provide equal opportunities for equal education.

Studies show that Florida's nine public universities will need at least 10,500 more dorm beds between 1992 and the year 2006 to keep up with increasing student demand. The state university system, currently enrolling 185,000 students, expects an additional 80,000 students in the next 14 years. A spokesman said that current dorms must also be renovated. Officials estimate the cost of adding the beds at \$200 million, and another \$200 million to upgrade existing dorms. Florida's current on-campus population comes to about 12 percent, under that of the national 30 percent figure.

DePuy asked to clarify wiretapping

The ECU wiretapping case demands further confusion of conflicting testimony. investigation. The U.S. attorney assigned to the case, David Folmar, decided in October to drop wiretapping that occurred at East Carolina the case, mainly because witnesses changed their testimony and made the case confusing.

"If you get people telling different stories on the witness stand than they told the FBI or the mains: Director of Public Safety James DePuy. grand jury, you cannot use that type of testimony against people," Folmar told The East Carolinian. "Their testimony would never hold up in crossexamination." Folmar wasn't the only one in the courtroom who was startled by the changes in testimony. Members of the jury said the case became muddy, and they acquitted the two defendants, Teddy Roberson, the former director of telecommunications, and John Burrus, a former Public Safety captain.

The jurors who acquitted Burrus and Roberson said the defendants were scapegoats. in testimony. Still the guilty party remains The jurors also said they thought Burrus' or Roberson's superiors authorized the wiretap rather than the two defendants.

The difficulty Folmar encountered in his prosecution, coupled with jurists' beliefs that the defendant's superiors are guilty and remain uncharged, indicates that the case deserves more investigation rather than be abandoned in the should, face a grand jury.

Investigations into the case of illegal University must continue. Two of the three employees named in the state audit report, Burrus and Roberson, have been acquitted, but one re-

These contradictions and denials have muddied the case, but nevertheless indicate the need for further investigation.

The public has the right to know who authorized the wiretapping that took place on ECU property in 1991. Roberson and Burrus lost their jobs, but they were found innocent. The university has paid over \$250,000 in out-of-court settlements to 16 people whose conversations were taped illegally. The federal prosecutor investigating the case is encumbered by changes

DePuy testified to the same grand jury that indicted Burrus and Roberson. DePuy was not indicted, which provides evidence towards his innocence, but both Burrus and Roberson testified that DePuy ordered a wiretap.

Nevertheless, we feel DePuy could, and

For those who will flee the there are several things each of us frain from using our vote to extort country, seeking a long-forgotten economic benefits for ourselves at corner of the globe where liberty the expense of others, understandtice as soon as we can. We must ingthat it always works both ways. country from the ruins, making it realize that the word "free" in re- We must stop using our governgard to government is a political ment to enforce religious and home. For all the generations to term, not an economic one; we moral standards, accepting that come, we must remember. freedom of religion applies to all religions, not the dominant de-

nomination. For now, the damage is done government is a watchdog to - those whom we have elected them letters of protest, but it will do little good — they're already in the system, free to do as they wish and to blame it on their opponents when the next election comes. We will pay for their mistakes. We will pay until the next election, or until this country crumbles, whichever comes first. Either alternative is possible.

All in all, our only hope for the future is that we learn from the suffering we are about to face economic decay will leave a scar on our memory that no media image or crafty rhetoric will wear ernment, we must be responsible away. For those who will die, ei-

their stand as politicians, not their must build a monument in our still exists, we must rebuild this a place they will feel proud to call

It is not the intention of this letter to invoke wrath at any given candidate or political party: all of them are infected. Bush, Clinton and Perot all have their own soguard over the rights of all, not an will remain in office for the next cialized medicine packages; and attack dog with which one group four to six years. We can write all of the political parties want to dabble in the economy, each applying its own brand of government control, each wanting to spread the disease in a different sector of the population. They are all equally worthless and corrupt.

The intention of this letter is to clarify our need for a new political philosophy, a new generation of voter and politician devoted to the rights of all citizens. This may necessitate the formation of a new political party, or an extensive revision of the platforms of existing ones. In any case, the need for change is unmistakable. For those who need proof, the coming years will provide more than enough.

Hands-on learning gained through Bermuda field school

By LeClair Harper

Staff Writer During the month of September, 11 ECU graduate students in the Maritime History

and Nautical Archaeology Program attended field school at the Bermuda Maritime Museum. The students conducted a shipwreck survey on the reefs around Bermuda. ECU students have been attending the

field school since 1984. These field schools give students the opportunity to work on shipwreck sites and use a variety of specialized equipment.

Students dove on the 16th century Spanish ship Galgo hoping to find structural remains. The ship had been salvaged for artifacts by treasure hunters in the 1960s.

"Unfortunately what we found out was that (previous salvers) did not leave the hull structure intact, and they, in all likelihood, destroyed it to get under it to make sure there were not other artifacts associated with it," said Gordon Watts, the underwater archaeologist in charge of the Bermuda field school.

The students surveyed the coral reef by being towed behind boats on specialized boards to locate previously known reefs. They used a state-of-the-art global positioning system to record accurate positions of the wrecks once they were found by the towboarders. "This is the first year that we've had the

Raleigh rave raises

equipment to fix an accurate location for wreck sites we discover," said Watts. "[One of] our objectives was to do a survey to get an accurate location and a preliminary assessment of all the shipwreck material that we've

One of the main goals of the field schools that ECU offers is to provide students with hands-on experience.

"Bermuda offers such a wide range of wrecks and sites to learn from," said graduate student Mike Krivor.

Students not only get the chance to see a variety of wrecks but also get to operate equipment such as the global positioning system and the magnetometer, a device that locates metal objects.

"As far as field experience, this is probably the most beneficial semester of all since I'm not mechanically inclined," Adrienne Askins said. "It's a chance to work with a lot of equipment I haven't worked with before, such as learning to drive the boat and running the different compressors."

Watts said that this experience is an essential part of the students' study and provides an understanding that can't be received in the classroom. "[The students] have already developed ideas about work to look for, and they've seen some of the sites - 18th

Beginning documents Stevie Ray's incredible journey from a street-wise kid play-There's always ing barrooms in Austin, Tx., to a blues legend admired by the likes of Eric Clapton, Buddy Guy and Robert

- Stevie Ray Vaughan Cray. Unlike his seven other albums, In the Beginning documents Stevie Ray's career before the first major record deal, when

he was simply known as Stevie Vaughan. Because the show would be broadcast live on KBLJ-FM in Austin, Stevie Ray realized this could be the break he and his band, Double Trouble, were looking for. They approached the

evening with an incredibly loose en-

"There's nothing like being in a place waiting for the concert to start," Stevie Ray once said. "I remember being energized when I was a kid, waiting for

Albert King, Fats Domino. I remember being 14 years old waiting to see Cream. There's always that energy out there.

> ing from the other side. There's a kind of calm just before we go on. I don't say much. Then I go out on stage and click! It's there."

On April 1, 1980, in a little bar in Austin called Streamboat 1874 it was definitely there. Taken from a two-

track recording of the simulcast radio broadcast, Stevie Ray went at the audience full force, as he did every night, resulting in one of the best concerts ever recorded.

After an opening plug for the concert's sponsors (i.e., Steam-Paradise Reelsound Recording) by the house an-

nouncer, Stevie Ray be-

gins the set on this nine-song CD with a powerful rendition of Freddie King's instrumental "In the Open." The Texas bluesman then breaks into an original groove called "Slide Thing"

which offers only the second — and best - recorded glimpse of Stevie Ray on slide guitar. Next up, Stevie Ray tips his hat to a

couple of his guitar heros, Eddie Jones

and Otis Rush, on the classic cover tunes of "Guitar Hurricane" and "All Your Love (I Miss Your Loving)."

He follows these songs with another cover song, "Tin Pan Alley," which would later surface on his second album, Couldn't Stand the Weather. This piece, which is almost eight minutes long and has a couple of screaming solos, is the high point of the concert and sounds even better than the studio ver-

Stevie Ray then returns with another original, "Love Struck Baby" and a Chester Burnett (a.k.a. Howlin' Wolf) song, "Tell Me," which were both included on S.R.V.'s 1983 debut album in

their studio format. "Shake For Me," a Willie Dixon song with an infectious groove, offers another listen to the frenetic guitar playing which made Stevie Ray a living legend among

his peers during his career. After a quick introduction of the band members, Chris "Whipper" Layton on drums and Jackie Newhouse on bass, Stevie Ray takes off again with another original song, "I'm Cryin'," to close out the album.

I only have a couple of complaints about this "new," live album: five songs were edited out of the officially released album (including a 10-minute rendition of the classic "Texas Flood") to reduce the concert to only 45 minutes.

Also, "I'm Cryin' " is mistakenly labeled "Live Another Day" in the liner notes, an unforgiveable sin considering Jimmie handled executive production duties for the album.

Despite these minor flaws, this is a remarkable album with some of the finest fret-work you will ever hear.

This concert marks the beginning of Stevie Ray's rise to the top and is a must for budding guitarists and blues fans

"Cinematic perfection arrives only a few times a year, if that. 'A River Runs Through It' has arrived."

Craig Sheffer, Brad Pitt and Tom Skerritt star in the drama, "A River Runs Through It," adapted from the acclaimed novella by Norman Mclean and directed by Bobert Redford.

Redford's 'River' runs as masterpiece

By Ike Shibley Staff Writer

Every so often a film comes along that can be lauded as a masterpiece, a consummate work of art. Films that fall into this category stir the soul, elicit strong emotions and provide immeasurable entertainment.

A River Runs Through It qualifies as a masterpiece. All facets of this film flawlessly fit into place. The characters seem so real because of the perfect comple-

ment of director, actors and script. A River Runs Through It was directed by Robert Redford, a man more known for his acting than his directing. Still, Redford has shown promise in his two previous directorial efforts Ordinary People and The Milagro Beanfield War.

Redford shows that the compassion he usually displays on screen is part of his very fiber. The wonderful treatment he gives this film verifies Redford's deep artistic sensibilities. He cares deeply about life, as exhibited by his art.

The actors Redford collected for A River Runs Through It mesh perfectly into the story. Tom Skerritt plays a stern Presbyterian minister devotedly raising his two sons, Paul (Brad Pitt, the hitchhiker in Thelma and life. Louise) and Norman (Craig Sheffer). Emily Lloyd, who gave a bratty performance in Wish You Were Here, gives a decidedly laid-back touch to the role of Jessie, the girl with whom Norman falls in love.

The real marvel in A River Runs Through It is the story.

Norman Maclean, who wrote the novella of the same name, oversaw the initial production phases of this film until his death shortly after shooting began. Maclean's story is an autobiographical account of life in Missoula, Mont.

Most of the story centers on the summer before Maclean went to work ers deeply. at the University of Chicago as an English professor. Maclean had spent six years at Dartmouth prior to this summer. The last summer of his youth serves as a metaphor for his family life up until that point.

Before this summer arrives in the film, a thorough family background is developed. It is this early development that allows the audience the chance to know the characters in later

Redford begins the film by reading from Maclean's book; "In our family there was no clear line between religion and fly-fishing." Fishing serves as a way to bring the family together. Amid the majestic mountains of Montana, the bonds between family members seem as clear as that

Love flows freely between these characters though the only way they seem to be able to express it is to fish together. None of the male characters hug, although they do occasionally shake hands. Watching the way the family relates will touch most view-

So much of this film explores the relationship between brothers and the relationship each brother has with his father. Norman is an obedient,

By Robert S. Todd **Sports Editor**

Before I touch on a subject that is much more important than touchdowns and the win column, let me talk a little about the game.

ECU will beat the Arkansas State Indians, 52-17. No contest. We will beat them so badly, I predict a Deke Owens field goal. If we lose, I will jab me eyes out with a pencil.

Both defenses are terrible. ASU is ranked 104th in the nation with

ECU a close 105th. However, ECU's offense is one of the country's best. ASU has not scored 20 points in a game all season. It is highly possible they could score their season high against us, but I'm trying to make the defense feel a little better about the loss to West

I was close on last weeks score —the final was 41-28, I picked it 34-28 (I gave the defense just a little too much credit). A mere touchdown is all that kept me from silencing my critics. Probably just luck. Let's see how I do this week.

There really isn't much left to say about the game.

There is, however, a serious problem with Arkansas State's nickname and mascot. With the above exception, there will be no references made to it on The East Carolinian sports page. It is a disgusting symbol of racism.

Athletic teams should not have a race of people as a nickname or dusion and followed suit. Why?

American Indian protest was said to have cast a shadow over an otherwise glowing World Series a year ago. Such priorities must be reversed in the Iroquoischief, recalled. "It was as if we minds of non-bigots. The World Series is not more important than civil rights.

nearly as much controversy, in part can relate with. due to the relative subsiding of the "tomahawk chop."

Don't begin to think this is an old must be addressed and the fact that it has yet to be solved speaks poorly of the media and athletics in general.

Most of the major media questioned the timing of the American Indian protest during the '91 Series — "Why did they wait until now?" was heard in press boxes and news rooms

Blatant Racism: The caricature of Arkansas State's mascot makes mockery of American Indians. The other "mascots" try to make a point.

across the country.

The American Indians didn't wait until now. They have been trying to get the point across for years. That is disheartening.

There has been protest on this issuefordecades and, in typical WASP fashion, the American Indian voice was muffled my the typically uncaring media — no matter how loudly they yelled.

By the late 1960s, Dartmouth dropped the "Indian" as their mascot. That was almost 33 years ago — long before most people reading this article were born.

In the early 1970s, Stanford and Syracusedroppedtheir"Indians" and "Saltine Warrior" nicknames, respectively, due to the feeling of mockery of American Indian culture. Nearly 20 yearslater, very few schools and teams have come to the same obvious con-

"Army had a mule for a mascot, Navy had a goat, Georgia had a bulldog and Syracuse had an Indian," Oren Lyons, a Syracuse alumnus and were less than human."

Feeling less than human might This season's Series did not spark not be a feeling many white people

Unfortunately, an American Indian child may look upon the Atlanta Braves' symbol with the same eyes an controversy. It is still a problem that African-American child uses when confronted with Sambo. Caricatures and mockery of a race has serious underlying consequences on achild. Even though sport is entertainment, and not to be taken too seriously, it should not be excused from respon-

Remember Amos & Andy?

Thought so.

In 1987, the efforts of a Sioux social worker and an advertising agency in Minneapolis helped shed light on the racism forced on American Indians by obvious, racially degrading names and logos. The advertising agency produced posters with mock team names, such as "San Diego Caucasians," "Kansas City Jews" and "The Niggers," followed by the Cleveland Indians. The bottom of the poster read: "Maybe now you know how Native Americans feel." The efforts paid off only locally. The rest of America remained oblivious to the

The Washington Redskins tout the most derogatory name in all of sports. To most American Indians, thenamecarriesconnotationsasdeep and painful as the word "nigger." Jack Kent Cooke, the team's owner, doesn't seem to care very much. How about you? Do you care about the pain that is being caused to an entire

This nation must wake up to the expanding wall of insensitivity built around the most oppressed culture and race in U.S. history. How may people would be comfortable with the East Carolina African-Americans or the Arkansas State Blacks? What about the Georgia Crackers or North Carolina Tar Babies? Does the New York Hymiesbotheryou? Howabout the Los Angeles Wet Backs or the Washington Gooks? The San Antonio Spics has a nice ring to it.

People better start listening and being a little - no, a lot - more considerate and tolerable of all the cultures in this country.

Have I made myself clear?

Warren's Pick

ASU not in same league as Bucs

By Warren Sumner **Assistant Sports Editor**

Anyone who enjoys watching "air attack" football should be in Ficklen Stadium Saturday to watch the ECU Pirates destroy Arkansas

After a two-game losing streak, the Pirates are looking for a victim and Perkins' unsuspecting 1-8 team will

do just fine. The Pirates, troubled by their inability to sustain critical offensive drives, will have no problem with ASU, who rates 102nd in pass defense and 107th in defending the run. Watch for Junior Smith and Charles Miles to each rush over 125 yards Saturday, as ASU opponents have averaged 290.6 yards on the ground this year. Even more devastating to ASU will be the Pirate passing game.

Despite losing their past two contests, the "Pirate Airlines" are still flyingstrong, with the Michael Anderson-led passing offense rated fourth in the nation. Look for Anderson to make Greenville's skies not at all friendly for Arkansas State, as he is

likely to have a career day. The Pirate defense, although statistically worse than the ASU unit, will outshine Arkansas State's offense and give Anderson and company plenty of opportunity to operate. Look for Tony Davis and Jerry Dillon to give ASU quarterbacks a nightmare behind the line and for the Pirate secondary to come up with more interceptions than in previous games. ECU's defensive unit will pitch a near shutout if they play to the level of intensity they played in the first and fourth quarters of the West Virginia game. With ASU ranked 106th in total and rushing offense, the Pirates should be able to contain the unit by concentrating on pass defense.

ASU, only averaging 82.6 rushing yards a game, does not possess the rushing power to give ECU the problems they have faced in their

Head Coach Ray Perkins, after an NFL coaching career, is doing an admirable job in helping ASU make the transition to a Division I-A program. Perkins and his team are finding out this season how difficult that transition will be.

If Perkins stays at ASU, who knows? Perhaps in a few years, they will develop into a formidable football power, but they aren't there yet. They aren't ready for Greenville's resident passing phenomenon. Perkins' team will lose, and lose big.

Someone fire up those air-raid sirens, the Pirates are back in town.

Crystal Balls

ECU Swim team rides wave of victories

By Brent St. Pierre Staff Writer

The ECU men's and women's swim teams road a wave to huge victories at William and Mary Saturday. The men defeated the Tribe 149-85 while the women cruised to a 146-96 victory. The men won 11 of 13 events while the women took care of business by winning 10 of 13 in their events.

ECU Head Coach Rick Kobe was ecstatic to say the least: "The times were really outstanding considering how early in the year it is. For the men the upper classmen were key, they did what they had to. For the women it was great to from freshmen, hopefully who can use this great victory as a springboard into our next meet Nov. 20th against Richmond."

The Pirate men's honor roll was spearheaded by Derick Nelson who won all three events in which he swam. Nelson was first in the 200meter free style with a time of 1:45.16, first in the 500-meter freestyle with a time of 4:48.70.

The southern Virginia water was equally inviting to the Lady Pirates as well.

Ruggers fall short on verge of best season

By Richard J. Hooton III Staff Writer

On Saturday, the East Carolina Rugby team lost a hard fought match to Mary Washington. This match decided which team would advance to the East Coast regional tournament. Both teams were chosen to represent their states as wild card teams. On this cold Saturday morning it would be the Virginia team which was victorious; they scored 19 points in the last 20 minutes of play to defeat the Pirates, 25-18.

The match was highlighted with hard hit-

ting and brutal rucks and mauls from both teams. East Carolina controlled much of the loose play. Chris Carney and Jason Webb kept the pressure on the Mary Washington backs and were causing major problems for the ball transition on their wing. Open field tackling became very rough and it was evident that high tackle penalties would not be called. Both teams took advantage of this, but it was Bob "Homer" Thomas (6-4, 260 pounds) who enjoyed it the most. Thomas was burying the Mary Washington ball-carriers; and as a result, tempers and "extracurricular" activities began to flare.

The only score Mary Washington could manage was a three-point penalty kick which made the score 8-6. This inability to convert

See Ruggers page 10

Batson

Continued from page 9

through the opening period as he established a school record. He had one reception in the game for three yards.

For the season, the 19-year old Batson has returned two punts for 95 yards and caught 26 passes for 288 yards and a pair of touchdowns.

In recognition of his accomplishment, AT&T has donated \$400 to the NCAA's Degree Completion Scholarship Fund.

Batson will be awarded an engraved plaque in recognition of his achievement.

"AT&T is proud to contribute to this college athletic program so that athletes — both present and future --- can continue their educations," Mary Reiling, national director of sponsorships and promotions for AT&T's Consumer Communications Services, said.

Ruggers

to zig-zag through their defense the Mary Washington team in and pass to Michael Culligan who all aspects of the match, save sped 30 meters for the Pirates' sec- one, the score. ond try of the day.

Stephenson's kick was wide right and the score stood, 13-6. East Carolina continued their certain onslaught as Jay Keller and Bert "the Donkey" Hewitt controlled the brain-scrambling rucks and mauls. With 25 minutes left to play, Carney scooped up the ball and began to drag two would-be tacklers into the try zone when he passed to Hewitt who scored an easy try to put the Pirates up 18-3.

However, Mary Washington did not give up as they rose to the occasion by scoring 19 unanswered points in the last 20 min-
