Proposed hike could double | Professor Donald tuition rates for students

By Joe Horst

A proposed tuition hike by the North Carolina State legislature could hurt the wallets of students at ECU and other N.C. state schools.

The Government Performance Audit Committee, which was asked by the state to review the appropriations, said that legislators should redefine part of the state's Constitution as to its "contemporary meaning" and "as far as is practicable."

The state Constitution says that tuition costs should be as close to free "as practicable."

"It is time to re-evaluate the concept of low cost and to determine what the meaning of that concept should be for the next several years," the report

Currently, ECU students pay about 10.9 percent of their total education costs. The recommendation would raise that level to about 25 percent within the next five years. For students, this means that the current cost per year of \$718 for tuition and fees at ECU would be more than doubled to the amount of \$1,632.

Al Matthews, vice chancellor for student life, said he thinks students could handle an increase because most other states charge higher tuition than ECU.

"It's going to cause some people some difficulty getting

Cassel dies at age 62

By Jennifer Wardrep Staff Writer

Dr. Donald F. Cassel, a 62year-old professor in ECU's Department of Industry and Technology, died Sunday of cardiac arrest in Pitt County Memorial Hospital. Funeral services for Cassel, a native of Warner, Alberta, Canada, were held Wednesday.

Cassel had been teaching at ECU for two years. He taught classes in industrial and metallurgy for the department and was described by colleagues as a well-rounded and well-liked

"He was great, a very intelligent fellow," said Dr. Darryl Davis, dean of the School of Industry and Technology. "He was everything from a piano teacher to a weapons expert to an expert in the treatment of metals. He was quite a charac-

Cassel had a history of heart problems, but never severe enough to require hospitalization, Davis said.

"The students just absolutely loved him," Davis said. "He spent a lot of time outside of class with them."

Cassel earned both his "North Carolina is known | Bachelor of Education and Masthe University of Alberta.

He began his teaching career as an industrial arts instructor for Parkland and Strathcona

counties in Alberta. Later, hc worked as a high school automotives instructor.

He also worked as a graduate assistant at the University of Northern Iowa while working on his Doctorate in Industrial Technology, which he received in 1989.

"This was sort of a postretirement career for him," said Davis. "Hedidn't start working. on his doctoral work until he was in his 50s."

While at ECU, Cassel remained actively involved in research related to heat treatment of metals and the historical development of military ordinance. He was also involved in the Alberta Teachers Association, the National Association: of Industrial Technology and the National Association of Industrial and Technical Teacher Educators.

Cassel initiated and coordinated a student exchange program with the Yamate School in Japan while he was teaching for the Edmonton Public School System.

Cassel's wife, Vera, has returned to Alberta, where the family will hold an additional memorial service.

Instead of flowers, the family has asked that memorials be made to the Arlington Street Baptist Church in Greenville, or the Department of Industry and Technology at

Student fees allocated to different projects

By Joe Horst

Construction plans for the new recreation center are moving faster than renovations of Joyner Library because of a two-year freeze placed on raises in student fees by the North Carolina Legislature.

Viewed as a building part of the educational program at ECU, the library must wait until the UNC Board of Governors concludes its study on student fees of institutions throughout the state. The recreation center does not fall under this umbrella; therefore, it does not have to wait for state appropriated money.

"'Self-liquidating' projects, such as the rec center, are functions that the state considers to not be part of the educational program," said Richard Brown, vice chancellor of business affairs.

"The recreation center is a feebased budget ... that will be funded by construction bonds which will be paid off by student fees," said Alfred Matthews, vice chancellor for student

The last increase in student fees happened two years ago before the Legislature imposed the freeze. Since the university usually raises fees on a gradual basis to cover rising costs, the freeze will force a massive hike to cover the two-year ban after it is lifted.

"The plan was that we would have small increases over the last two years, so there would never be a big jump," Matthews said. "My guess is that it [an increase] is going to be 30 or 40 dollars a semester."

Carolina educational institutions were affected by the freeze, except for two projects, Matthews said. "One was a UNCC Coliseum and the other was the expansion of Minges Coliseum," Matthews said. This raise constituted an additional \$15 a semester, or \$30 a year.

Food services and dorms are also exempt from the fee freeze because they are considered to be services to the campuses. Individuals in effect pay rent for the services provided.

Currently, students pay a total of \$124 for student activities' fees. The following is a breakdown of that total \$12.50 for Student Union, \$44 for intramurals, \$2 for Student Fund Accounting, \$6 for Minges operation costs, \$18 for Mendenhall and \$41.50 for student government.

Also, the university charges each student \$114 for health services, \$175 for athletics, \$15 for Ficklen debt, \$74 for Mendenhall debt, \$26 for the recreation center and \$50 for computing costs.

The Ficklen debt is comprised of recent construction costs on the stadium and maintenance performed on a routine basis. The Mendenhall debt pays off the costs of the new extension in Mendenhall which was started in the

If continued, the freeze may hurt some of the services offered at ECU, Matthews said.

For example, the health services offered here has been forced to dip into its reserve fund in order to match the growing cost of supplying students with necessary health care.

"We have cut into our reserve funds to such an extent, that if the freeze is not lifted this next year, we'll have to curtail services," Matthews said. "We would have to start charging for aspirin they get over the counter, we would maybe have to drop some services."

Matthews said he hopes to offset All raises in student fees by North the rise in fees by holding down any raises in housing and food services fees, which are unaffected by the freeze because of their status as services.

"We have a contract with A.R.A. that guarantees a cost of living increase," Matthews said. "Housing is again ... not classified as a fee by the systems."

U.S. forces bomb Iraq in retaliation

WASHINGTON (AP) - A United it at this time." States-led coalition bombed targets in Iraq cials said violated the agreement halting

the 1991 Persian Gulf War. The attack was confirmed by a variety of officials in the United States and France.

There was no immediate word on the sites selected for the action, which was launched under cover of darkness, nor on the number of aircraft involved, or whether to Iraq. any planes were lost in the raids.

One American official refused to discuss the targets of the action, but said, wouldn't minimize its scope."

An allied military officer stationed in nymity Saudi Arabia said in a brief telephone conversation Wednesday: "There is an allied

Safe sex delivered in newspapers

Readers of The Anchor, Rhode Island College's student newspaper, got a hint about the main subject of a recent issue when a condom, ever so discreetly wrapped in lime-green paper, arrived with each copy. The newspaper published a special safe sex issue and distributed 5,000 condoms. The condoms cost the school's student government \$502, said Jeff Wallace, the paper's editor. "By noon Wednesday, if you could find an issue on campus you were very lucky," said copy editor Joe Hutnak. The issue contained articles on various subjects, including questions about AIDS and gay rights, a condom drive-through store, having a blood test to test for HIV and a survey on virginity.

Graduates more likely to repay loans

Graduation is a key factor in the repayment of college loans, according to a study at the University of North Carolina at Greensboro that recommended universities develop stronger programs to encourage students to complete their education. Graduation lowers the probability of default by 10 percentage points, according to economic professor and coauthor of the study, Terry Seaks. College students who are most likely to leave college and fail to pay back loans tend to come from lower-income, black, or single-parent families. But the authors also said that other factors were at work and said their findings "should serve as a warning against too quickly singling out colleges with a disproportionate number of students from low-income, black or single-parent families."

Attempted suicide won't lead to eviction

A student who was evicted from an Iowa State University residence hall while he was recovering from a suicide attempt will be allowed to stay in his dormitory room, according to school officials who earlier had requested that he leave. After drinking a half a bottle of Jack Daniels bourbon and taking 11 sleeping pills, the unnamed student attempted to slash his wrists with a razor in a dorm bathroom. The student, who said he had been under intense pressure because of personal and family problems, appealed to the committee, which eventually met with him and reversed the decision. The student has agreed to undergo counseling for his emotional problems.

Clinton nears final decisions on

LITTLE ROCK, Ark. (AP) — President-elect Clinton is putting the finishing husband of Bloomsburg University's Investigators took blood and setouches on a White House team anchored by an array of trusted campaign aides while hedging on a pledge to chop the president's staff by 25 percent.

With his inauguration as the nation's 42nd presidentone week from today, Clinton has yet to announce much of his senior White House staff or the top deputies at major government departments.

Buthe has settled on many of his picks, and aides said Tuesday that a flurry of White House staff announcements was imminent, perhaps as early as today. Many of those said to be in line for administration posts were on hand in Little Rock.

Most are familiar faces from Clinton's winning campaign, including communications director George Stephanopoulos, press secretary Dee Dee Myers and Mark Gearan, a senior Clinton adviser who ran Vice President-elect Al Gore's campaign, and Clinton confidant Bruce Lindsey.

But there are also some new — and relatively new — additions. Included in this group is Howard Paster, a Washington lobbyist who had been heading the transition's congressional relations and is set to continue that work at the White House.

David Dreyer, a top adviser to House Majority Leader Richard Gephardt of Missouri, was recruited by Stephanopoulos to charges Monday in that attack and assume a major role in the communications | was held on \$75,000 bail. office, which will oversee the White House media-related operations.

Set to be announced with the senior White Housestaff is Clinton's choice of David Wilhelm as the next chairman of the Democratic National Committee, a post from which Wilhelm will direct Clinton's political operations.

Wilhelm, a Chicago political consultant who was Clinton's campaign manager, is view. working with other campaign consultants on an ambitious research and outreach program designed to help Clinton make policy decisions while laying the groundwork for a re-election run in four years.

University police chief's husband White House staff | accused in campus rape

new police chief is accused of raping a co-worker and is under investigation in four more attacks - one that occurred when he and his wife were in town for her job interview.

Michael Reece Boykin blamed his arrest on racism, and a university trustee said resentment and suspicion have dogged the couple since the wife took over campus security.

"Bloomsburg University is famous for shafting men of color," Boykin, who like his wife is black, said in a letter to university officials. "I did not relocate to this unfriendly, forbidden town to have my good name sul-

Boykin, 41, a university maintenance worker, is married to former Chicago police officer Margaret Boykin. They took their campus jobs

That afternoon, a student was raped in a gymnasium. Rapes on or near the campus followed on Nov. 27 and Dec. 11. On Dec. 18, one of Boykin's co-workers was raped in a university pickup truck, and she named him as the attacker.

He pleaded innocent to rape

District Attorney William S. Kreisher said state and Bloomsburg police were investigating the possibility that Boykin committed the other

He also said Boykin is a suspect in another campus-related rape on Dec. 15, 1991 — when the Boykins were in town for Mrs. Boykin's inter-

After the rapes started last semester, women walked in groups and those who lived off campus were offered dormitory rooms, though only a few took advantage of it. The univer-

BLOOMSBURG, Pa. (AP) — The sity also set up an escort system. men from Boykin after his arrest for comparison to evidence taken in the previous cases. Genetic tests linked some of the earlier rapes to the same

> person, Kreisher said. "But there was nobody to compare them to. We had no suspect until now," he said.

Bloomsburg, a town of 12,000 in north-central Pennsylvania, is mostly white. Only 206 of the university's 6,378 full-time students are black.

University trustee Howard Johnson, who is black, said the arrest has "overtones of being racially moti-

"There are people who don't want Maggie and her family here," he said. "They look at blacks as criminals, rapists and thieves."

University spokeswoman Susan Schantz said some in the community were not happy with Mrs. Boykin's appointment or the hiring of her hus-

She would not comment directly on whether the opposition was split along racial lines, but said, "You can go downtown and talk to any redneck if that's what you want to find out."

Mrs. Boykin, who has taken leave from her job, is paid up to \$41,804 per year. Her husband's pay is \$7.21 per

There was considerable grumbling when the Boykins were hired because a condition of Mrs. Boykin's employment was that her husband receive a job.

Schantz said it is customary to help an employee's spouse find work if a family is brought in from far away. "There will be people who are

going to say, 'I told you so," Johnson said. "People within his department didn't like the way he was hired. There was resentment."

Senators tell Bush to slow down on trade negotiations

states, have told President Bush that his rush to conclude a trade agreement by Friday could seriously damage the

'Your negotiators are rushing pell-mell to conclude a Uruguay Round Agreement, and in the process are offering new concessions that should not and need not be made," the senators wrote to Bush in a letter released Wednesday.

The senators include some of the chamber's most senior members, including Republican Strom Thurmond and Democrat Ernest "Fritz" Hollings of South Carolina and Republicans John Warner of Virginia and Jesse Helms of North Carolina.

"By weakening dumping and

WASHINGTON (AP) - Eleven countervailing duty laws, the draft senators, many from textile-producing agreement restricts U.S. industry's ability to redress unfair trade practices," the letter said.

The senators also criticized elimination of the "multifiber arrangement" which they said "would directly threaten 1.8 million U.S. textile jobs."

Hollings, who released the letter, said new tariff reductions would allow imports to undercut American-made goods. He and the other senators also said that allowing a multilateral trade organization to set trading rules improperly ceded American sovereignty.

Others signing the letter were Sens. Lauch Faircloth, D-N.C.; Richard Shelby, D-Ala.; Howell Heflin, D-Ala.; Jim Sasser, D-Tenn.; Harlan Mathews, D-Tenn.; Ben Nighthorse Campbell, D-Colo.; and William Cohen, R-Maine.

It comes like a flash is that an election is not typically the worst to occur.

At certain spots in the Car-flood—unexpected—and many are unprepared. Warning is necessary far in advance to make preparation - and even then, few will heed.

At the risk of being dismissed like the islander who told his neighbors far in advance that North America slips into the sea, the island was sinking, this columnist offers a warning: our country is headed for a fall. This claim is nothing new. For de- Clinton has presented some good But looking at those under- cades, historians have compared events in the United States to jor problems. those which preceded the fall of the Roman Empire. The water, at the time, was far too low for people to take these warnings seriously — but now, the threat is much more imminent, and the danger is more obvious. If one recounts the events preceding the first revolution in our country and compares them to current events, ominous parallels become evident.

The first stage in political action is dissent, evidenced by wonder: at what point did the the popular opinion that govpeople who lived in these vil- ernment has become destructive How does all this play out in lages realize their civilization of its powers. Before the first GNP in 1972 to 2.5 percent in the terms of benefits compared with was sinking and decide to move revolution, many colonists felt ine the problems, it may be useful year 2000. If current trends the costs? It is clear that estimating on? Certainly, one or two villag- that the English government was a dollar value will not be easy. It ers may have noticed the rising exploiting them. Their opinions, printed in pamphlets, circulated among the masses. Today, it is almost impossible to find a person who is satisfied with the government, and the media — both printed and audiovisual - are filled with voices of dissent.

The second stage is rebelmost common recollection of rebellion in eighteenth-century America was the Boston Tea Party, when colonists, frustrated until it was visible from their by economic oppression, dehomes; most would have left stroyed the property of merwhen the water began to fill the chants to demonstrate their anger at King George. A similar event happened in Los Angeles. While the immediate stimulus was the verdict of the King trial, many rioters admitted that the source of their anger was far deeper — their violence, more than anything else, was born of frustration, spawned by economic oppression and the destruction of merchants' property was to demonstrate their anger

The final stage is revolution — the unseating of one the collapse of the Berlin Wall, leader and his replacement by the massacre in Tienanmen another. Luckily, our present situation provides for a blood- take drastic action. We must wait Union — seems to have hap- less coup with every election, a and see how well our dam holds pened overnight. Political revolution fought with ballots back the rising tide — but at the change isn't as gradual as rising instead of bullets. The problem same time, we must prepare for

the choice of the best leader, but a dilemma that entails deciding who is the least reprehensible. This is the case in the last election: polls have shown that most of the people who voted for Clinton in November were not so much in favor of Clinton as they were disgusted with Bush. While, through the metapolitical tap-dance of the campaign, ideas, there are still several ma-

First of all, he is only one man and has little control over what happens within our country. The bodies that control domestic policy, the Senate and Congress, are largely composed of reelected incumbents — the same pack of sad clowns who have been running this country into the ground for years.

Furthermore, the 100-day plan Clinton touts, even if it passes, is impotent by design. Primarily, it consists of a few dabs of makeup to prettify a tumor that needs excision. The permanent and effective change this country needs is far deeper, beyond Clinton's expertise, control and, evidently, his perception.

Finally, the present economic situation is fragile. There are too many people living handto-mouth, people for whom a slight miscalculation in government policy can result in poverty and desperation. Returning to history, it has always been the In time, though, the water lion, most evident in acts of vio-poor and the desperate — coloby professor Myrick Freeman. most of the islanders realized that but spawned by discontent. LETTERS TO THE EDITOR

Students congratulated for behavior on Halloween

To the Editor:

A couple of weeks have passed since Halloween and to most of it may be just a blurred memory. The Division of Student Life and the Department of University Unions has completed an evaluation of our first annual Midnight Madness.

We were busy patting ourselves on the back at 4 a.m. Sunday morning after Halloween, but several of us commented as to the

of the students and their guests who participated in Midnight Madness. I would go one step further in stating that the com- time. ments I have heard from both students and staff is that the people who congregated downtown acted responsibly as well. To East Carolina University students and the city of Greenville,

congratulations and thanks. Too often we anticipate the

cooperation and positive attitude worst, but Halloween and Midnight Madness is a clear example that everyone can respect others, be courteous and have a good

The Tale of the Body Thief By Anne Rice Alfred Knopf, N.Y.

By John Bullard Staff Writer

For all you Anne Rice freaks out there who were waiting for the release of the new installment in The Vampire Chronicles, relief came just in time for Santa and the

New Year. Rice continues her series with The Tale of the Body Thief. The plot structure resembles Interview with a Vampire, the now-classic novel which began The Vampire Chronicles. Unlike in the middle books, Rice uses a limited cast of characters in Tale.

The small number of figures in the new story comes as a relief from the overwhelming numbers which paraded through The Vampire Lestat and The Queen of the Damned.

So who's back? Not many. In fact, Tale includes barely three vampires. Don't worry though: Lestat, everybody's favorite blood-sucker, is back, along with his first victim, Louis. A very brief scene contains Marius, who only shoots a dirty look at Lestat. That's it for vampires. For the mortals among immortals returns David Talbot, the paranormal expert.

For all those who don't recognize these names, there's nothing to worry about. Like the other novels in The Vampire Chronicles, you need not to have read the

previous books. New to the series comes, of course, the body thief. Rice also throws in a German shepherd and a nun, believe it or not, as Lestat's love interest in The Tale of the Body

The action of the story revolves around every vampire's dream of becoming mortal for a day. Lestat, our foolish fiend, gets just that. His opportunity arises from the mysterious body thief, an unknown mortal who can jump into other bodies, who offers him the chance to see the sun again. There's only one catch: Lestat must give

up his own vampire body for the allotted time. Of course, Lestat leaps at the offer without giving it much thought and the fun begins. After the spirits of Lestat and the body thief exchange anatomies, Lestat wakes to find that he has indeed become mortal and that all the money he stashed to use has been stolen by the body thief. Lestat realizes he is helpless and will probably never

get his immortal body back. Sick and lost in the streets, Lestat befriends a dog, makes out with a waitress, and falls in love with a nun. After giving the nun what she has been depriving herself of, Lestat heads for New Orleans and the vampire Louis.

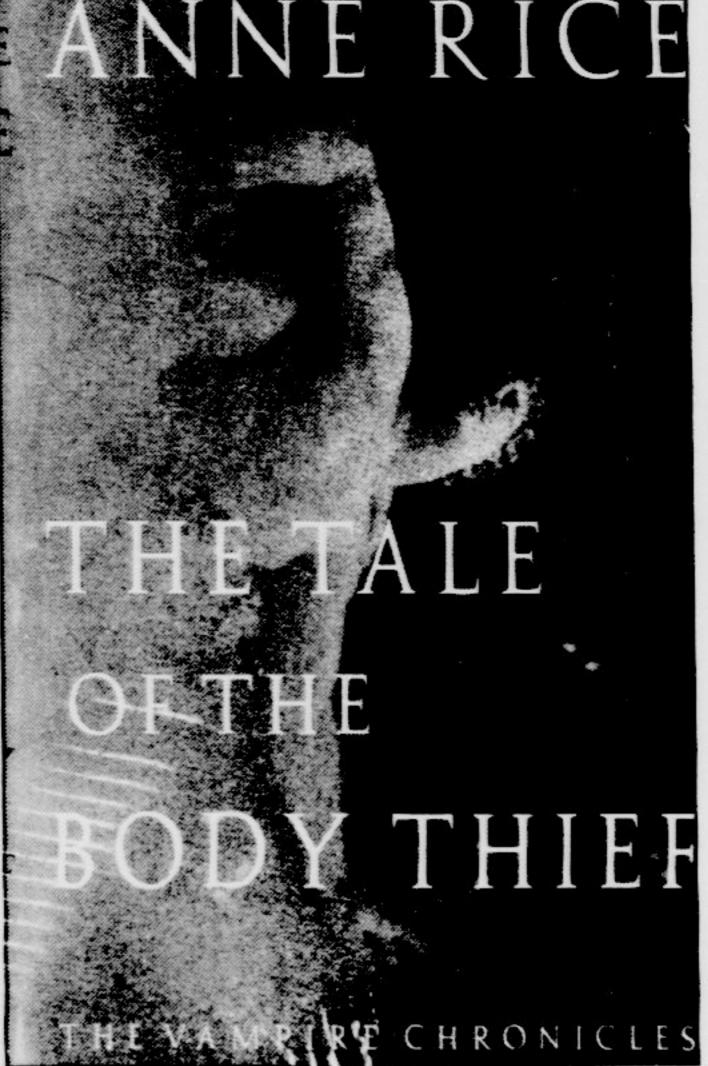

In Cajun country Lestat appeals to Louis, after convincing Louis that indeed it is he (Lestat) in another body. Louis refuses him in a torment of confusion. What is poor Lestat to do?

Following some convincing from Lestat, David Talbot, the mortal, then comes to the rescue. The retired head of the Talamasca (the world's leading paranormal society) helps Lestat to figure out who the mysterious body thief is and how to track him down.

From here Lestat and David use all their humanly power to pursue the body thief, who has been wrecking havocall over the globe. The chase, in typical Anne Rice fashion, takes us all around the world at lightning, heart-pounding pace.

With The Tale of the Body Thief, Anne Rice continues to captivate readers through the world of vampires Within Tale and its suspenseful plc Rice also gives some contic relief. The mortal Lestat's agitation with bowel movements and his rediscovering the use of the male member provides for some laughs in a couple

of very tense situations. Overall, The Tale of the Body Thief shows that Anne Rice can hold her readers' attention for four straight books. It's well worth reading, especially if you have a freeweekend. Nodoubt, all Vampire Chronicle faithfuls will seek it out. Many have picked up the second or third book first and have gone back to read the rest. Who knows? The Tale of the your starting point.

Body Thief may just be Anne Rice's latest addition to the Vampire chronicles takes a new twist in immortal storytelling

canvass. The outlines are defi-'Forever Young' fails as drama

By Gregory Dickens Staff Writer

In Forever Young, it is 1939 and Daniel McCormick (Mel Gibson) is the "hot dog" of the newly-formed Air Corps and in love with his childhood friend and sweetheart, Helen (Isabel Glaser).

However, before he can ask her to marry him, she immediately is involved in a accident that puts her in a coma. Daniel is shattered.

His only hope is to be frozen and reawakened when Helen revives. Butheawakens 50 years later.

Bewildered, he befriends aboy, Nat (Elijah Wood), and his single mother, Claire (Jamie Lee Curtis) as he tries to find Helen while undergoing a mysterious ailment.

These are really good actors trapped in a pathetic movie. Gibson's charm and demeanor makehimhardnottolikeandCurtis is an underappreciated comic ac-

God love 'em, they try really hard, bless their hearts.

But Jeffrey Abramshaswritten another smaltzy woe-unto-themale/medical tragedy love-story. Remember Regarding Henry? If not, watch Forever Young. It's the same movie. But this one is truly horrible.

In order to connect 1939 and 1992 cohesively within one charac- and almost immediately dis-

Daniel (Mel Gibson) gives young Nat (Elijah Wood) a flying lesson in "Forever Young," a flailing drama about life, love and death.

ter, that character has to be well- carded, such as Nat's friend tion of potentially-promising developed. Daniel is not. We and his brother. The fish-out-scenes and plot lines that learn nothing about him and of-water plot is not beliveable wither away into cliche and have no reason to like him, were itnotGibson's role. The possible romance between Daniel and Claire is dropped suddenly with mimimal change in interaction. Thewayin which Daniel is awakened from his sleep is preposterous. Characters are introduced

as Daniel adapts too well to predictability. everything. The too-cute boys wear out their charm fast and the ending is contrived and disappointing. There is even an obligatory Feds/good guys

If this were to have aired on television as a movie-ofthe-week, it would have been buried by any of the numerous Amy Fischer stories.

What an appropriate fate What is so frustrating for such an undeveloped about Forever Young is a collec- movie.

Pavement's 'Slanted' all but enchanting

Grunge has nothing to do with Seattle. It never has.

Grunge is cacophony, despair, missing bass notes, sounding like ass, unshaven, putrid, Johnny Rotten, carefully uncareful, randomly thoughtful. Grunge is Pavement: bear with them as they're bare as can be.

Pavement's newest offering, Slanted and Enchanted, was recorded in the first month of 1991, released in 1992 and here it is 1993. Anyway, finally put out on Matador Records (see Superchunk, old Teenage Fanclub), Slanted and Enchanted is a 14-track musical amalgam by three Stockton, Ca., scrubs.

Guitars collide, sometimes off-key, the drums sound like a used, beat-up three-piece Ludwig, the production sucks, and the bass is turned too low Gracefully, it's the songs that reign.

Recorded in a week, Slanted almost recorded on a four-track. On "In the Mouth a Desert," humming mimics the guitar solo to sound like a late 1980s Rod Stewart song.

In almost every song there's a maintenance of harmonic validity which gives any grungehead sonic orgasm at the sound of slapstick guitar distortion going loopy bonkers while the patient bass line meanders through its steady four note pattern, thereby providing a sem-

scribe does no justice, so here's a sam-

blance of coherence, or at least purpose. Theepicenter of Pavement's enigma must be the lyrics. Meager pecking at critical keys in search of words to de-

"Fun for an hour when he's gone/ can one trick nights feed 40 days? / In my

bed at the break of dawn she/shivered like a vein slashed bright and new/She's got the radio active, it makes/me feel ok (I don't feel ok)/Grip force the vials, strip the locks smash / the set and slash the beds and when it/looks like a wife's ex-plot we'll cover/all the rugs with cheap perfume..." (from "Perfum-V"); "And all the sterile striking it/defends an empty dock you cast away/a rain up on your forehead/where the mist's for hire if it's / just too clear / Let's spend our last/1/4 stance randomly/go down to the outlet once again/Painted portrait of minions and slaves/Crotch maidens and one-night plays / Are they the Bass. only ones who laugh?..." (from "Here," the album's best cut).

No doubt, the lyrical conundrum of Pavement's concoctions makes for refreshing intrigue and sloppy guitar music. Certainly not for everyone, Slanted and Enchanted deals a different dose of angst, not sounds so un professional as to have been necessarily mad, just very neatly skewed.

Slanted and Enchanted

Keep Serching: MC's solo effort considered lame

Rapper MC Serch's tune "Here It Comes" was one of the best singles in 1992. Sadly, the album from which it came, Return of the Product, fails to produce anything close to "Here It Comes." The record wears terribly thin about mid way through and sports three worthy cuts, including "Social Narcotics" and the

Perhaps the word Return in the album's title suggests a sequel of sorts (see Return of the Jedi), and everyone knows sequels are always worse than the original, so Serch's LP is therefore intended to be bad, right? Sorry Serch (and 3rd Bass) fans, that formula won't work because Return of the Product is Serch's debut effort, and his first since his split with Pete Nice and the unfortunate breakup of 3rd

Now Nice is doing his own thing too, and it looks like the derelicts of dialect, important staples in hard beat, streetwise, old school rap, are gone for good. Only fellow caucasians and New Yorkers Beastie Boys are as talented (and respected) as 3rd Bass was. Unfortunately, the magic duo that put out semi-crossover hit "Pop Goes the Weasel" (a righteous indictment on white not-rap treasonists such as Vanilla Ice) among other gems, and who dealt sly rhymes with smooth deliveries on fat beats for four years, are no more.

Serch's solo project seems to be no consolation, and he better find a new partner. His lyrics on Return are fine some b-boy, some preaching social conscience, some saying nothing—but the music in every tune except "Here It Comes" sounds last-minute, lame and

Like every rapper, Serch brags about his dope beats, fly basslines, kickin' lyrical messages, and so on. The problem is,

By Warren Sumner Staff Writer

Holiday travellers, college road-trippers, those who love to span America's highways in a desparate attempt to flee the monotony of everyday life: take heed, for your deliverance has

No more outrageous hotel bills, no more \$19.95-a-nightroach-infested-holes in the wall. American Youth Hostels provides an affordable, quality alternative to the unecessary expenses such travellers incur.

With prices ranging from \$7-\$15 a night, these dormitory-style hostels provide affordable travel lodging in a number of tourist spots around the world. Equipped with self-service kitchens, dining rooms and late-night access availability, the hostels provide the freedom and economy desired by vacationing college students.

Provided by the International

Youth Hostel Federation (IYHF), the largest travel organization in the world, there are 300 hostels spanning the United States and Canada (over 6,000 worldwide).

The purpose of the IYHF, according to its newsletter, is "to help all, especially young people, gain a greater understanding of the world and its people through its network of hostels and educational and recreational travel

Most hostels are located in major American cities and tourist spots around the world. For example, one Los Angeles hostel runs \$14 per night; an overnight stay in Miami runs \$10; and one night at a New York City hostel is affordable at \$18.75 a night. Normal hotel accomodations at their cheapest could run over three times those amounts.

In addition to lodging, the hostels provide free or low-cost recreational and social activities for their guests. There are locations in many historical districts

and in some of the nations most exotic locations. Guests can stay in a lighthouse on the California coast, or in a treehouse in a Georgia pine forest.

There is something for everyone in this program. For more information contact:

'Leap of Faith' feeds off unquestioning belief

By Gregory Dickens

When "Leap of Faith" opens, we see the town of Rustwater, Kan., the Comrelish Capitol of the World, on the verge of desolation. Unemployment is high, the corn crop threatens to be a total loss due to lack of rain and the town is fragmenting socially. Rustwater is becoming a haven of apathy, inertia and pessimism; its citizens have no hope and

nothing to believe in. Enter Jonas Nightingaleand His Angels of Glory, a caravan of con artists travelling in customized shuttles and tractor-trailers under theguiseofanomadicrevival. When one of the trucks breaks down and cannotberepaired for almost a week, Nightingale (Steve Martin) decides to pitch camp and swindle the locals. Aided by his majordomo, Janet (Debra Winger), who uses a laptop

sembleshistentsandsouvenirstands and advertises his message of how Rustwater can seek blessing and his injured leg. healing from Jesus through Jonas.

ity, is Janet with a personal micromuch-needed paychecks. Jonas promises relief spiritually and economically and "heals" the afflicted. He becomes Rustwater's celebrity

However, not all are

to access scam-related info, and an and tries to court Janet away from acter — Martin's best impressive choir, Nightingale as- Nightingale. A local waitress distrusts the revival despite her younger brother's belief that Jonas can heal

This is a subtle, affecting movie. The townspeople swallow it The premise of blind faith thrust doubtMartin's movie. whole. They are bedazzled by onto the con man who feeds off of Nightingale's theatrics and his"...sec-such unquestioning belief is not new; ond sight; the Call...," which, in real-there have been numerous takes on the "Rainmaker" theme. Martin as phone hook-up to Jonas and notes Nightingale is apathetic toward the supplied by planted members of the plight of the townspeople; his only audience. The congregations swoon interest is to bleed the town dry. He and give generous portions of their is devious, conniving, arrogant and, nipulating faith, nor from using worst of all, good at what he does.

Where other actors may have live audience allows him total comtions. He knows how to work a ingale? impressed. The town sheriff (Liam crowd; his stage choreography is a Neeson, trying hard to cover his Scot-combination of Irish folk and James tish burr with Midwest compone) Brown soul-stepping. Nightingale immediately is aware of Jonas' scam is an unlikeable but fascinating char-

since "Dirty, Rotten Scoundrels."Winger and LukasHaas support their scenes well, but this is without a

bold, considering it's release date and targetaudience (couples age 24-35). "Faith" doesn'tflinch from the implications of ma-

Christian doctorines to disguise a money-making operation. But the faltered, Martin's experience with a main point is this: is faith any less effective or noble when focused fort and control with the congrega- through someone like Jonas Night-

At one point in the movie, one character asks Nightingale if he is a fake and Jonas replies, "it doesn't matter as long as it works."

He (Steve Martin) knows how to work a crowd; his stage choreography is a combination of Irish folk and James Brown soulstepping.

> But is the "it" the faith or the scam? And can Jonas go through with the show without being affected by Rustwater's sincerity of belief? "Leap of Faith" is recommended for its intelligence, wit and presentation of the "power of belief" ques-

> The necessity of faith is posed on a scale the audience can appreci-

FITNESS FIZZICAL

This service is FREE to all ECU students. The Fitness Fizzicals Program assesses body composition, cardiovascular endurance, muscular strength & endurance, flexibility and blood pressure. Results help in formulating a personalized plan for improving and maintaining optimal fitness with testing conducted by the Human Performance Lab. (M-T-Th-F from 1-5pm). Appointments and wellness information may be obtained during hours of operation Monday-Thursday from 3:00pm-5:00pm in 107A CG. \$15 for faculty/staff.

BEGINNING WEIGHT TRAINING WORKSHOP

Held February 2 & 4 from 8-10pm in Christenbury Weight Room. Register in 204 Christenbury Gym from January 25-February 3. \$3 for students and \$5 for faculty/staff/dependent. Participants learn beginning weight training techniques applied to fixed and free weight equipment.

CLUB PED

Club Ped is a walking club for teams of four. Individuals passing various 'mileposts' and accomplish goals established during registration become eligible for awards. Residence hall groups, departmental offices, Greeks and all campus organizations are encouraged to enter groups. Pick up your "Walking Papers" when you register beginning January 11 in 204 Christenbury Gym. Co-Sponsored by Recreational Services and the Office of Health Promotion & Well-Being.

COMMIT-TO-FITNESS CLUB

Participants receive 3 points for each 1/2 hour of aerobic activity and hour of anaerobic activity. If you climb, walk, swim, lift weights, play basketball, or are involved in any other form of fitness routine, you're eligible to sign up. Members who reach 150 points during the 14 week program are eligible for t-shirt awards. Work out on your own and you're a winner!! To get more information and sign-up for the program, drop by 204 Christenbury Gymnasium.

Passes may be purchased in 204 Christenbury Gymnasium Monday-Friday from 8am-5pm after you receive climber eligibility.

Jesse Jackson issues demand to baseball owners

In other business:

GRAPEVINE, Texas (AP) — Baseball owners have heard what the Rev. Jesse Jackson has to say. Now they must decide what to do.

Jackson presented his 14-point agenda at a major league meeting Tues- give specifics. day, called on current players to join his campaign for the integration of front offices and threatened boycotts if teams don't develop affirmative action plans.

"The problems Rev. Jackson discussed will not be solved in one night or season," Texas Rangers owner George W. Bush said. "But I think his purpose was to make sure the consciousness of the decision-makers was aroused."

Milwaukee Brewers owner Bud Selig, chairman of the ruling executive council, called Jackson's speech reasoned and said he and National League president Bill White - who is black - will

formulate baseball's reply expeditiously. "He made a constructive and sensitive presentation this morning, and one that we will respond (to) with the dig-

nity it deserves," Selig said, declining to

Jackson, accompanied by a delegation that included the Rev. Al Sharpton, spoke to owners for about 45 minutes. Jackson had a short conversation with Cincinnati Reds owner Marge Schott, who made a surprise appearance at the meeting but didn't speak during it, according to Selig. Alleged racial remarks attributed to Schott renewed debate last fall about baseball's hiring practices.

"She has done grave injury to our society and to the game of baseball," Jackson said at a news conference. "She must be removed or suspended from baseball, at the least, for a period of time.

She must be fined and she must be reha-

Thompson takes control of her ship

By Warren Sumner **Assistant Sports Editor**

The ECU Women's basketball team is preparing for its first conference game when it travels to James Madison Friday to meet the Lady Dukes. The Lady Pirates are looking for a tough game against JMU, who has a 5-1 record while playing athome. Head Coach Rosie Thompson said that the team's disappointing 74-60 loss to Coppin State on Jan. 9 would offer little indication on how the team would fare against James Madison.

"We felt real good going into the Coppin State game," Thompson said. "But we just could not shoot the ball at all, and that was real disappointing considering how hard we played." Despite the Coppin State setback, Thompson said she is sure that the Lady Pirates will be an exciting and unpredictable team in the CAA.

"As far as the conference is concerned, its pretty wide-open, even though (in the pre-season) we were predicted to finish second in the conference...we're just seeing how the other teams have played, how they've performed against some of the competition we've played, its going to be one of those thingsthatyou'renotgoing to know what's going to happen until the very end. But at least with the experience on our team ... because they know what it takes to win, and because they all get along great... we should do real well, but it all and how aggressive we are on defense."Thompsonalsobelieves the chemistry she has seen in her team will be a great help to them in their conference play, particularly in the unselfishness they show on the offensive side of the ball.

Where's the 'D': Guard Toina Coley may be the best defensive player in the CAA. She is leading the conference in steals with 4.1 per game.

five people in double figures, that's shy about passing the ball to anybody and we love to run."

Thompson said that the play of Gaynor O'Donnell has helped the Pirate offense tremendously.

O'Donnell, a foreign student from Merseyside, England, leads

the nation in assists per game, with 10.25. She already holds ECU's cawill depend on how well we shoot the average. We're definitely not reer assists record with 615. While O'Donnell leads the passing attack, her backcourt mate Toina Coleyhas proven herself a defensive force to

be reckoned with. Coley, a 5-7 senior guard, is averaging 4.1 steals a game and according to Thompson can effec-

tively guard anyone, no matter what

height advantage they may have. "Anybody who's on the perimeter, regardless of how big they are...if they're their best outside shooter Toina usually gets the assignment. She sort of expects that

now, I guess," Thompson said. When talking about the Lady Pirates' scoring capabilities, Thompson turns immediately to 6-1 center Rhonda Smith. Smith, plagued by a knee injury since last season, is currently second in the CAA in scoring, averaging 16.3 points per game, and is third in the conference in rebound-

"Rhonda is a big factor probably because of the fact that she's 6-...she's real strong and has a real nice shooting touch. Whenever she gets in foul trouble everyone else has to pick it up a notch to make up for the size we lose inside."

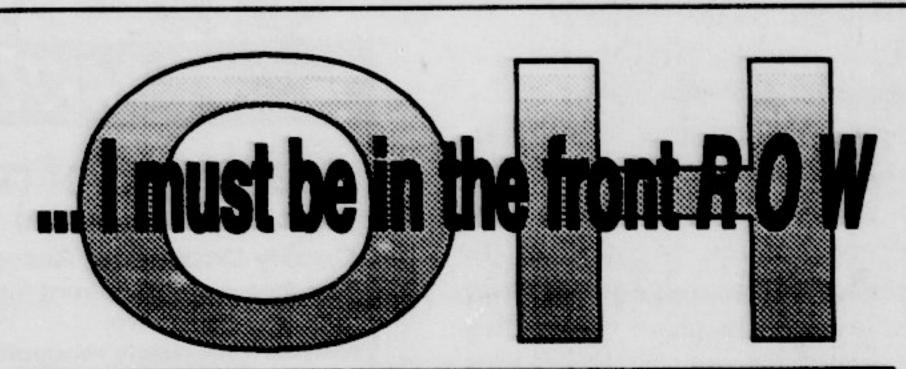

Thompson said that one thing that helps her relate to her players is he fact that she

has travelled the same road as they are on now. Thompson was a Lady from 1975-1980 and the only female player ever to have a

Rosie Thomp-

jersey retired at East Carolina. Thompson is ECU's all time leading scorer and rebounder and holds the East Carolina record for single season scoring. Thompson feels her past successes at ECU give her players something to relate to.

"I think that the players, when we ask them to do something can say, 'Hey she's at least done this before.U..I think those things help a

By Robert S. Todd Sports Editor

 ECUfootball will open against Syracuse on ESPN. The game has been moved back to Thursday, Sept. 9, from Saturday, Sept. 11 for the

"That certainly speaks well for the rapid growth of our program at a national level. It's exciting for our players, students and fans. We look forward to having ESPN back in Greenville," East Carolina athletic director Dave Hart told reporters.

Last season, ESPN broadcast the East Carolina-Southern Mississippi contest, the first-ever live national telecast from Greenville. The Pirates' ship sank, 38-21, causing many fans to believe ECU would never appear on national television again.

It is a good thing the Orangemen had such a successful season. The Bucs opened and closed their 1991 season on ESPN. ECU has appeared on six national telecasts in its football history.

 The ECU football team received verbal commitments from J.H. Rose's Dante Randolph and Sarasota (Fla.) Cardinal Mooney's John Peacock. Peacock played linebacker, wide receiver and fullback but is likely to see action at linebacker for the Bucs. Peacock runs a 4.59 40yard dash and bench presses 375 pounds.

 ECU may need Peacock on both sides of the ball next season. Although unconfirmed, linebacker Tony Davis and wide receiver Dia Hicks are rumored to be ineligible for next season. Athletic Director Dave Hart and Head football coach Steve Logan will not be available to confirm or deny the rumor until sometime next week.

• The ECU men's basketball team is the parent of a six-game loosing streak (all on the road and two in overtime). The Pirates' offense is like a donut — there is nothing in the middle.

Opposing defenses can feast on the outside shooters and not worry about ECU pounding the ball in the paint. Proof positive is the combined shooting of Lester Lyons, Ronnell Peterson, "Ice" Kareem Richardson, and Anton Gill. In the first five games they combined to

shoot 51 percent. In the last six games they have fallen to 37 percent. Forward James Lewis and swing-man Curley Youngare the only Pirates shooting over 50 percent for the season.

See ROW page 18

Football championship may become reality

BOSTON (AP) - The executive director of the NCAA reportedly will call for consideration of a one-game championship playoff in Division 1-A college football, which would be played after all the bowl games. Dick Schultz was expected to suggest

the playoff system in his annual "State of the NCAA" speech today in Dallas, The Boston Globe reported. While Schultz cannot force the mem-

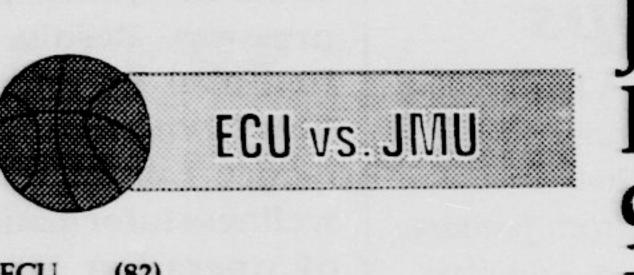

bership to adopt the plan, he will suggest the schools consider it as a way to generate more money in the same manner as the NCAA basketball tournament. The idea of a college football champi-

onship playoff has been around for years, but has met stiff opposition from the bowl Coachesand college administrators also have generally opposed playoffs, arguing

they didn't want to extend the season any The extra revenue, however, could be attractive to athletic directors who must deal with rising costs and the implementa-

certain requirements. This year, the No. 1 and No. 2 ranked teams met in the Sugar Bowl, with secondranked Alabama defeating Miami for the national title. But such match-upshave been | ECU

IMU sinks Pirates' ship, 98-82

By Warren Sumner **Assistant Sports Editor**

The ECU Pirate basketball squad, trying to break a five-game losing streak, fell once again, 98-82, to a powerful James Madison squad.

The loss furthered the Pirate skid to six in a row.

The Pirates trailed for most of the game, as stellar first-half performances from JMU guards Bryan Edwards and Kent Culuko buried the Pirates.

Edwards and Culuko, sporting 10 first-half points each, were backed up by the rebounding of forward Clayton Ritter as he snatched down five boards in the first period.

Despite the productivity of Pirate guards Ronnell Peterson and Anton Gill with eight points each, the Dukes ended the half enjoying an eight-point advantage.

When play resumed in the second half, the Dukes pulled further ahead of the Pirates after they began committing costly fouls. The Dukes hit 36 of 44 second-half free throws to offset a 13-point performance by Pirate guard Lester

The Pirates, after the final seconds elapsed, stood 4-6 on the season, wondering when their bad luck would end. | Richmond

Lemieux stalled by Hodgkin's

PITTSBURGH (AP) - Mario Lemieux's career has been part triumph and part tragedy, replete with scoring titles and Stanley Cup championships, but also with repeated medical setbacks.

Still, neither the Pittsburgh Penguins nor the NHL were prepared for this stunning news: Lemieux, hockey's predominate and highest-paid star, has cancer.

Lemieux, the NHL's leading scorer, already may have started four to five weeks of radiation treatment for Hodgkin's disease, a usually treatable form of cancer that attacks the lymph

Lemieux, 27, was diagnosed in the early stages of the disease after a large lymph node was removed from his neck, according to a statement approved Tuesday by team physician Dr. Charles Burke.

The disease is confined to the abnormal lymph node, and subsequent tests have shown no evidence of any other problems, the doctor said. The Penguins said Lemieux could resume playing in four to six weeks, though doctors said those projections seem overly optimistic.

"I don't know what more that guy is going to have to go through," Penguins winger Troy Loney said. "I just feel for him. I couldn't care less when he comes

One other thing: The game will be a snooze.

The Super Bowl has become so predictable that even the British bookies, whose NFL handle is about the same as test cricket in Vegas, got the line right on the first try.

They pegged NFC entries San Francisco at 6-5 and Dallas at 2-1; AFC entries Miami and Buffalowere both at 5-1.

It shouldn't be that easy. The conferences draw talent from the same labor and management pools, they play by the same rules, they even share most of the same accountants. And yet, the same side always wins.

So what gives?

Well, unless one of the players on either side in this year's "ultimate" game has the "ultimate" answer, debate on this issue could easily stretch into the next century.

For a while, AFC people insisted that it was simply a "cyclical thing."

"He is too important, he is too talented. It has got to be frustrating, not only for him and the Penguins but the whole NHL.

"More importantly, he has to worry about his health now. He has a difficult time ahead of him."

Penguins general manager Craig Patrick was in California, reportedly meeting with team owner Howard Baldwin, but is to return for a news conference Friday that Lemieux will also attend.

A typical treatment for Hodgkin's consists of five to 10 minutes of radiation five times a week for four to five weeks.

The fact that Lemieux will undergo radiation therapy is an indication that doctors found the cancer in its early stages, said Dr. Dennis Meisner, an oncologist at Shadyside Hospital in Pittsburgh.

Meisner said the Penguins' contention that the type of Hodgkin's diagnosed in Lemieux's case is the "most favorable" may be misleading.

"It is a cancer, and all types of cancer are very serious," Meisner said. "As a cancer, it can become life-threatening."

If the disease is limited to one lymph node that was removed, it

is classified as Stage One rienced the back pain that has Hodgkin's disease, named for Hodgkin's, which has a cure rate forced him to miss more than 100

ECU Student Stores: More than just books—your dollars support student scholars

May I help you?

Who prices these books? The Maffia?

How many days have we been standing in this line?

All right, who farted?!

Maybe I can borrow it from somebody.

Do you take checks?

May I see your I.D?

Leave your booksack here, please.

I'm only working here during the rush.

Words people say during the U.B.E./Student Store Rush.

Fratboy: Hey, Barbie, how was your Christmas? Fratgirl: Oh, it was killer, Ken!

This class better be worth this much

Highway robbery!

money.

Thank God for credit cards.

I like to get used books that already have the important parts hi-lighted so I don't have to do

Oh, &\$#@\$%, there ain't no more used books!!!

Fred's Corner

DELLE ---WELL WE MADE IT TO WASHIGTON DC. IT'S A PRETTY COOL PLACE. ALTHOUGH ANY CITY WITH CEMETARY FOR A TOURIST ATTRACTION YOU'VE GOT TO WONDER ABOUT . ANYWAY, WE HAD SOME SLIGHT PROBLEMS GETTING HERE ...

Rich's Nuthouse THIS IS GOING TO BE MY SEMESTER! I CAN FEEL IT IN MY GUTS! THAT'S INDIGES-TION, EARNIE.

By Whiteley and Brown

WE WERE A LITTLE OFF COURSE . WELL ,OKAY, WE WERE LOST. LUCKY FOR US WE FOUND A SO WE STOPPED AND ASKED FOR DIRECTIONS: NOT ONLY DID WE GET DIRECTIONS, BUT SCOTT MADE SOME NEW FRIENDS AS WELL.

The World of Ghannon and Elvis YOU'D BETTER WATCH YOUR TONE OF VOICE WITH THAT GUY ... HE'S A HIGHLY -DECORATED OFFICER.

Rich's Nuthouse

by Haselrig OH, THAT'S WHY. THIS IS A NEW ONE. THEY MUST BE OUT OF THE USED. I WONDER HOW MUCH...

Just case you didn't catch it the first time.....

Campus Confusion NO, SHE DOESN'T KNOW HOW TO USE A GUN.

by Ben Moore I HOPE BEN DION'T TAKE ME TO SERIOUS

THURSDAY January 14, 6:00pm East Carolinian We wanna pack the comics page full of good strips this semester, so, aspiring comic strippers, get your hair folicles over here!

Whether your influences come from comic strips, comic books, political cartoons, animated cartoons, stand up comedians, or spandex manufacturers, we can work with you!

Requested Guests: Ghannon Whiteley, Christopher Brown, Chris Kemple, Sean Parnell, Eric Manning, Alex Ferguson, MarkBrett, Kubeai, Mark Hodge, Eric Sullivan, Jeff Grubbs, Tim Cantrell, and Kevin Chaisson

Note: You can work on a temporary basis or indefinitely. Students in sophomore year and higher are preferred.

...and for you Cartoon Goddesses who didn't pick up Tuesday's paper....

We need new

FEMALE CARTOONISTS,

Look, Ladies! Men are not the only humans who have something to say in the comic strip medium. If you have the interest and potential talent to excel in the comic strip arts, why not consider being a part of the PIRATE COMICS page? Sure, it's hard work, but you get printed and

it's fun. Just pick up a phone and contact the Haselrig Dude at home (758-4545) or work(757-6366) or come to today's meeting.
