Around the State (AP) – Scott Rhoney is try- ing to solve an environmental mys- tery: How is mercury getting into some lakes and rivers in southeast- ern North Carolina? Rhoney and other researchers are looking to the sky for the an- swer. They think the mercury may be entering the atmosphere from a nickel-smelting plant in Cuba or a gold-mining operation in Brazil, then falling to the earth in rain. Or the culprit might be a North Carolina plant. (AP) – State officials planned to eat fish before rolling cameras Wednesday to restore consumer confidence in North Carolina's sea-	recreational center at least a semes- ter behind, some students have questioned who will pay for this delay. One major concern for SGA President Ian Eastman and his Executive Assistant Chris Arline is what will happen to the money col- lected from fall student fees, which was designated to be used to open the rec center. "The rec center will need a cer- tain budget to operate per year," said Richard Brown, vice chancel- lor for business affairs. "The money (\$20 per student) represented the operating budget assuming the rec center would open in January." The \$20 fee tacked on to stu- dent fees was actually reduced from a proposed \$35 fee, according to	divided in half for each semester. "We were comfortable with the \$20 because the money coming in was only dealing with the center opening in late spring," Matthews said. The first installment of the in- crease was collected with fall tuition and designated to be used for start up costs of the rec center, but now the money is sitting in a reserve fund account until it is determined how it will be spent. Matthews said between \$350- 500,000 is needed to purchase move- able equipment including weight ma- chines, free weights and nets. An ad- ditional \$75,000 is needed to purchase a climbing tower. Matthews said these expenses are necessary regardless of the opening time.	<text><text><text><text></text></text></text></text>	rather than \$40, this past year," Eastman said. A proposal must be presented before Thanksgiving Break and will be finalized in a Board of Trustees meeting on Dec. 8. A question touched on the topic of waiving or refunding the recre- ational center fees for graduating stu- dents, since the center will not be fin- ished by their graduation date. "The fees should be refunded," Eastman said. Efforts are under way to allevi-	s funds. graduates. In conclusion, the as- sembly agreed a future meeting would be open to the public con- cerning the recreational center fees. "Nancy Mize, director of rec- reational services, is in charge of a membership policy of two years, and there will be a reduced fee," Dean of Students Ronald Speier

Our View

How sweet it is. After months of hard work by our athletic department, a deal has been reached to resume the ECU vs. N.C. State football series. It is a long-awaited rivalry of what should be some exciting games to come.

Beginning next year, the Pirates will battle it out with the

Serving the ECU community since 1925, The East Carolinian publishes 12,000 copies every Tuesday and Thursday. The lead editorial in each edition is the opinion of the Editorial Board. The East Carolinian welcomes letters to the editor, limited to 250 words, which may be edited for decency or brevity. The East Carolinian reserves the right to edit or reject letters for publication. All letters must be signed. Letters should be addressed to Opinion Editor, The East Carolinian, Publications Building, ECU, Greenville, NC 27858-4353. For information, call (919) 328-6366.

Oh ... how long we've waited for a matchup with N.C. State. Thanks to our hardworking athletic department and members of the N.C. legislature, the dream is finally coming true. Who's the best in the state? We'll soon find out.

Wolfpack and we at the TEC couldn't be happier. The last time these two schools fought it out on the field was in 1992 at the Peach Bowl. It was ECU's Cinderella season that ended with a record of 11-1, a victory over State in the Peach Bowl and a national ranking of ninth in the country. During the bowl game, the Pirates rallied back to take the game by a 37-34 decision. That would be the last time the two teams would line up across from one another on the field for another four years. ECU does not have an in-state rival like our counterparts around the state. We hope the Pirate vs. Wolfpack match-up will become a long standing tradition that will be as climatic as the Wolfpack vs. Tarheel match-up has come to be. Not only will the football program benefit, but so will the fans. Since the '92 season both Pirate and Wolfpack fans have been awaiting another clash between these two programs. The regular series was terminated because of an incident that happened in Raleigh one football Saturday afternoon. The series, which previously had been played from 1970-1987, was brought to a halt during the '87 season after an ECU victory. ECU won the game 32-14, and ECU fans proceeded onto the field where they were later joined by Wolfpack fans. Students from both schools were crammed onto the field, tribute to the ending of the series.

and eventually trouble broke loose. That incident helped con-When ECU and State met during the Peach Bowl, the fans were ecstatic but no major problems arose like those compared to the incident in '87. We think it is safe to assume that the fans and players will be ready to face N.C. State, and will want to have a long play-

ing tradition with the Wolfpack. It will be an exciting series and finally a chance at an instate rival for the Pirates. The first game is set to be played in Charlotte at the Carolina's Stadium and then ECU will visit Raleigh in 1999. N.C. State will grace Dowdy-Ficklen with their presence in the year 2000. What a way to begin a century.

Taking back freedom Aah Freedom! You're finally out have. If you simply tell your room

of the dorms. Your roommate and yourself have your entire college future planned out. The two of you have just signed a lease for your new apartment and all looks good. You're even on the ECU bus route.

(Time advance two days) You're all moved in now! Everything is in place, the stereo is set up just right, all the pictures are perfectly hung and centered on the walls. The food has all been purchased. It's all been neathy unpacked and placed in the cabinets. Your food in these two and your roommates in the other two.

Nothing can ruin this great feel-
