Briefs

Around the State

After a weekend of snow, skies cleared and temperatures dropped to bitter lows around North Carolina this morning.

Record cold was reported at spots around the state. At the Raleigh-Durham International Airport, the mercury fell to zero degrees, breaking a 1971 record of 5 degrees for the month of February. In Wilmington, the temperature dropped to 17 degrees, tying a 1985 record.

The winter storm has been blamed for 11 deaths in North Carolina, including that of a Winston-Salem high school student killed Sunday when a tree fell on

LUMBERTON, N.C. (AP) -The prosecutor in the trial of the man charged with killing Michael Jordan's father says he'll have about two and a half days of evidence remaining after the state's key witness finishes testifying.

Larry Martin Demery has testified 5 1/2 days, including a hearing without the jury present, in the murder trial of Daniel Andre Green. Demery faces hours more examination by attorneys, District Attorney Johnson Britt said Sun-

Around the Country

MOSES LAKE, Wash. (AP) Math teacher Jon Lane rushed to the algebra classroom two doors down after hearing gunfire and the sound of students crying.

He dove behind the teacher's desk when he saw bloody bodies on the floor, students cowering in their desks and a 14-yearold boy standing in a corner in a trenchcoat with a hunting rifle. The young gunman ordered him to

Police and grateful parents hailed Lane as a hero for disarming the boy after his bloody rampage Friday left a Frontier Junior High teacher and two students dead and a third classmate seriously wounded.

CHEEKTOWAGA, N.Y. (AP) -The No. 6 bus from Buffalo's in ner city got a route change Monday that will finally take it to one of the main entrances of an upscale suburban mall.

For years, the bus could get no closer to Walden Galleria than a stop on the far side of a seven-lane thoroughfare with no sidewalks. Then Cynthia Wiggins, a black teenager who worked in the mall's food court, was run down and killed by a dump truck as she tried to cross the busy highway.

Around the World

CAIRO, Egypt (AP) - Egypt will open four pyramids in June in a region long closed to the public to attract tourists away from the overwhelmed pyramids at Giza.

Two of the ruins, including the so-called "bent pyramid," are considered some of the first attempts at pyramid building.

Team places fifth overall

Students travel to Houston for national convention to compete in finals

Stephanle Ann Eaton

Students in the construction management department represented ECU at a National Association of Home Builders Convention held in Houston.

Texas. At the national convention on Jan. 25, these students competed against 17 universities from all over the United States. The students were asked to plan a \$114 million construction project. The students had to estimate utilities, discuss landscaping, financing, where to put in roads and an abundance of other topics.

When the competition was over, ECU walked away with two awards. ECU came in fifth place overall in the competition. Arizona State received first place, Purdue received second place, Brigham Young received third place and the fourth place award was given to the University of North

Florida. "I am really proud of the students." said ECU's faculty coach, Jim Kennedy.

"They did a lot of hard work." Kennedy said ECU beat the schools of Texas A&M, University of Florida, Michigan, Illinois State and many other top rated institutions.

"These schools had construction programs that had been competing in this competition for years," Kennedy said. This was ECU's first time competing in this type of competition. Their

strong third place showing at the regional conference in Atlanta and their fifth place finish at the national competition helped ECU receive the "Rookie of the Year" award.

Kennedy said not only was this a competition, but it also gave the students who went the opportunity to be exposed to seminars and job fairs. The four seniors who went received multiple interviews. The six students who represented ECU at the national competition were

Dante Berini, Jason Ellington, Chris Edwards, Brian Relay, Mike Zurey and Heather Banks. "This was a great opportunity for students," Kennedy said. "I hope that

we can go back and compete next year."

How to reach us

On Nov. 17, ECU placed third at the Associated School of Construction Southeast Region in Atlanta. This victory allowed the students to travel to

Texas A&M prof arrested for taking student bribe

An art professor at Texas A&M University resigned in December after police said he offered to give a student an A in exchange for \$100. Jose Martinez, on faculty with the university for more than 15 years, was arrested after he accepted money from freshman Christopher Cruz, who was wired to campus police.

Baby death stuns U of Georgia

The brutal murder of a newborn baby - found in a residence hal restroom and stabbed in the heart - sent a chill through the University of Georgia.

A custodian cleaning the women's restroom of Oglethrope House residence hall on Jan. 8 found the seven-pound baby boy stuffed inside a trash can. The infant had stab wounds to the heart and other parts of his body.

NCSU club finds homes for old textbooks

When the fall semester ended, many students traded in their textbooks for a lot less than they paid for them at local bookstores.

The only thing worse than getting next to nothing for your book is finding out that the bookstore does not even want to buy it back, because new editions have been published or the professor has changed books.

These books usually end up in the trash or as door stops. But thanks to the Lorax Environmental Club at North Carolina State, unwanted textbooks now can be relocated to a place where they will be appreciated.

Committee recommends dining overhaul at UNC-Chapel Hill

A student congress committee agreed to let students vote on a plan that would gut Lenoir Dining Hall, raise student fees and make the university responsible for financial losses in food service.

The Student Affairs Committee forwarded a bill to congress that would let students vote on some of the recommendations generated by the Food Services Advisory Task Force. Two-thirds of congress must agree to place the referendum on the Feb. 13 ballot. The board of trustees must approve any fee increases.

UMC Research shows plus/minus grading causes little change in G.P.A.s

After its first semester, the grade on plus/minus grading system at the University of Missouri-Columbia is starting to come in. Some UMC professors believe it is too early to judge the plus/minus

Despite affecting many individual students' grades, plus/minus grading had only a minor affect on overall averages, according to the registrar's

report on grade distribution from the fall semester. The report showed that the mean grade point average for the fall semester was 2.852, a slight drop from the 2.868 mean grade point aver-

age from the fall 1994 semester.

This is a free service for all non-profit campus and community organizations.

East Carolina University

Our View

Think of February and what comes to mind? Sweet romance, candy, flowers and, oh yeah, it's a leap year too. February is also Black History month.

It's a time to reflect on the African history of our culture. But these reflections may not be so easy to come by when we consider that the vast majority of Black history has been written by Europeans and other non-Africans, and what we've been taught in school may present skewed images of reality.

Luckily, America's society is opening its eyes, and the African American culture is becoming more available to those who seek it. Groups such as Allied Blacks for Leadership and Equality (ABLE), the opening of the Ledonia Wright Cultural Center last fall and the office of minority affairs provide opportunities for every ECU student to learn more about their own and other students' cultures.

According to Dr. Brian Haynes, director of minority affairs at ECU, Black History Week was introduced by Carter G. Woodson, also known as the father of negro history, in 1926. This week was established in response to the segregation prevalent in America at the time. Woodson chose the month of February because it is the birth month of historical figures Frederick Douglas and Abraham Lincoln, signer of the Emancipation Proclamation.

Black History Week progressively evolved into Black History month in the late '60s, Haynes said.

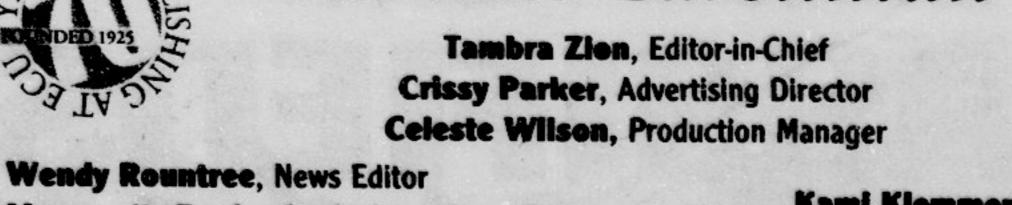

When we think of prominent African American role models, Martin Luther King Jr. and Malcolm X may come to mind. But did you know that street lights, golf tees and even ice cream were invented by African Americans?

Considering the fact that Africans were in America before Europeans, it may be time to learn about a culture long forgotten or disregarded in the first half of this century. Our celebration of African culture will last throughout the month and several activities are planned to bring awareness throughout the ECU community.

The Ledonia Wright African American Cultural Center is sponsoring at least six events, many of them free-of-charge. Through these sessions, male and female students can learn about self-love and relationships, focusing on the past to learn about the present. And on Feb. 25, Clifton Davis will present "God's Trombones." For more information about how you can get involved, pick up the phone and call the Ledonia Wright Center at 328-1680.

Violence hits everyone

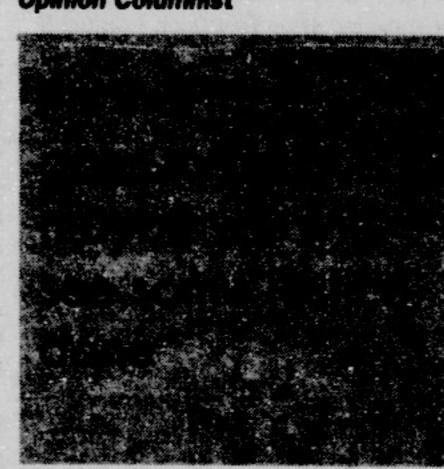

Move over Al Capone, here come some really sinister and nasty people! I couldn't help but read this amazing article in Newsweek about an upstart gang that's controlled by its cult-like leader who, ironically

enough is sitting in a Chicago jail cell. It almost sounds like another David Koresh-Timothy McVeigh story, with a few plot twists. However, the thing that caught my attention was the violence that this mythical cult/gang had administered

to those people that got in its way. baseball bat beatings characterized by making the transgressor look like a "pumpkin head," after the group had finished its business. Sometimes the punishments were worse. Not only that, but the leader of this regime, the Gangster Disciples, are in jail and have it's very close. Larry Hoover is the often wretched place to live. supposedly been there for 22 years, convicted of murder. It is really appalling to find out

that this murderer and cult leader has been able to coerce minds and make his orders as the supreme being. A Wrong. false deity, who's behind Illinois State Penitentiary bars, that no one has ever people in the GD's way. What kind of formation for the feds in the cracking death."

Eric Bartels

person are we dealing with?

His name is not Adolph Hitler, but kingpin of all kingpins in Chicago, very similar to his predecessor who roamed the Chicago streets using thuggery as a means of getting his way. Now you find his heir apparently inner-city youth and adults carry out looking to control Chicago once again.

down of one of the biggest mid-western/Chicago drug cartels and more importantly, super gangs. Not since the Crips and the Bloods have we seen this much press.

It's really a terrible thing considering the fact that this gang has more of a mythical and cult-like presence in the Chicago area and in approximately 35 states with more than roughly 50,000 members roaming

One good thing about the government's findings is that some GD members and their devious leader, now supposedly reformed, will stand trial for drug conspiracy this week. Isn't it nice to find that our govern ment has ways of destroying these evil gangs that only make our world an

As this trial goes to court, maybe we will see some justice done. But if not, don't cross the leaders of the movement, because you may end up like Charles "Big Chuck" Dorsey, who took over gang operations back in August. "Dorsey did not follow orders Not so though, considering the and assumed he was higher than IRS's findings of a Chicago concert Hoover, but that's treason," said Chimet can control the drug trade and promoters' financial files. Comedian set to rock Wright

Brandon Waddell Assistant Lifestyle Editor

"The war on drugs ... crack destroyed the ghetto, as if [the ghetto] wasn't that bad before," chuckled Chris Rock. "You see, there's a civil war among people, blacks against niggers ... black people are really divided and the niggers are spoiling it for black people. There's gay people and there's faggots."

Armed with a fresh, new comedic routine, Chris Rock is set to shock ECU Thursday night. Touring a collegiate circuit, Rock is coming from New Orleans to Greenville this week and will also be on this week's episode of "Martin."

Rock has come a long way since his humble beginnings in the neighborhood of Bedford-Stuyvesant in Brooklyn, New York.

"I grew up on the nicest block in the ghetto and was bused to a white school in Brooklyn," Rock said.

At the tender age of 18, Rock was performing at New York's Comedy Strip. Rock's performance was supposed to be the final headlining act, but at the request of Eddie Murphy, it was pushed up to earlier in the evening. Murphy wanted to see the young comic, and after the show, Rock was invited to perform with Murphy on his HBO special, "Uptown Comedy Express."

"I started out in white comedy dubs. There weren't any black ones, so I think that's helped me to appeal to both blacks and whites," explained

Rock in a recent phone interview. enjoyed exponential success in the day Night Live." He got his first film asks. good way to check out some classic movies. For example, I was recently my friends when it hit me. I had never seen a Russ Meyer film.

Innocently, I asked one of my buddies what Meyer is known for as a Chris Rock's stand-up routine director. He laughed and casually walked over to the "adult" section of the store, where he picked up Meyer's Kill! When I saw the cover of the video "Where else in the world do box, I knew what Meyer was known

It was a night with the guys, so "An Evening with ..." Chris Rock why not?

desert just for kicks. Led by the darkly seductive Tura Satana, our little darlings eventually murder a man with poor fashion taste and kidnap his Gidget-like girlfriend.

Why did they do it? Well, because it's just what these women do. They do what they want to who they want. No apologies.

Meyer wastes no time with bor-Heading to the video store is a ing stuff like exposition or character background. No sir. He jumps right into the game and sets up what seems looking r something to watch with to be a fugitive film. You know, the kind of movie where the murderers

run away with a kidnapped victim. Well, he kind of does that, but somewhere along the way our heroines find out about an old, crippled man (listed in the credits as "The Old Man") who is rumored to have a lot of money stashed away. You need money if you're going to run off with a kidnapped victim, so our healthy trio

go to the man's farm. From here, the film just becomes a little bizarre. We are introduced to Faster Pussycat follows the ex- the crippled old man (who seems to

MORRISON

Friends How Long Has This Been Going On

Van Morrison with

Georgie Fame &

Jay Myers

How long has this been going were the king of melancholic contemplation and you turn out one of the most joyful records you've ever so upbeat.

Even the most professional crooners - Sinatra, Bennett, Cole, Crosby - would have a hard time recording an album in a single day, especially one that resonates with

as much emotional clarity as this. But that's exactly what Van Morrison did when he got together at Ronnie Scott's London jazz club with some of his close friends on the third day of May, 1995. We were in finals and Van was swinging.

Among those present at this live jam were longtime Morrison bandmates Georgie Fame (organ) and Pee Wee Ellis (saxophone), who have about as much renown in the blues, jazz and soul scene as Morrison does as a singer/ songwriter. From arrangements to solos to scats, their effect on this record is felt across the board.

Morrison covers many of the artists who influenced him in the early days: Mose Allison ("Your Mind is on Vacation" and "Don't Worry About a Thing"), Louis Jordan ("Early in the Morning"), George & Ira Gershwin ("How Long Has This Been Going On?"), and Cannonball Adderly ("Sack o' Woe"). Only a few original Morrison tunes turn up here ("All Saint's Day," "Heathrow Shuffle," "I Will Be There" and

"Moondance"). Although many of these tracks are wonderful reinterpretations, especially "Early in the Morning" and on, Van? Here I was, thinking you "Don't Worry About a Thing," the standout track is the seven minute plus version of Van's own hit, "Moondance." Not merely a cover, done. I had forgotten Van could be this is a major reworking. Just listening to the opening intro, you'll have a hard time understanding how this could be the same song. The tempo and intonation have all

Bucket

"A Drop in the Bucket" is just what it claims to be: a very tiny drop in the great screaming bucket of American media opinion. Take it as you will.

Mark Brett Lifestyle Editor

A great man died recently. He wasn't a general, or a politician, or even a famous movie star. In fact, I'd be willing to bet that most of my audience has never even heard of him. But that doesn't make Jerry Siegel any less great.

Why? Because, while you may not know the man, you most certainly know his work. You know the legacy he left America. It's a heroic legacy, one that has become synonymous with America's highest ideals. But you still don't know what I'm talking about.

Does this ring any bells? Look! Up in the sky!

How about this? Truth, justice and the American way.

That's right, Jerry Siegel was the creator of Superman. In 1938, he and artist Joe Shuster (who died himself a few years back) brought Superman to life in the pages of Action Comics. The release of that comic book was a galvanizing moment in American history; its import is still being felt today.

Superman's impact on the American comic book industry, for example, is staggering. Within a year of his debut, Superman comics were selling in the millions, and he had spawned a host of imitators. The entire comics publishing industry is built on a foundation laid down by the Man of Steel. Decades of colorful superhero adventures have been published, and every one of them is a Superman story at the core. Without Siegel, Shuster and Superman, comic books probably wouldn't exist today.

But the existence of the American comic book industry isn't what makes Siegel a great man. Sure, comics are neat, and to fans like myself they mean a lot. Siegel is a hero to me.

But all of America lost something when Jerry Siegel died, whether you like comic books or

Superman is an important figure in American popular culture. While he certainly wasn't the first larger than life hero figure, he was definitely the largest. Other heroes were crack shots or good fighters. Superman could pick cars up over his head! Bullets just bounced off his chest! He could leap over tall buildings in a single bound! Evil didn't stand a chance.

America needed a hero like that in 1938. We were still staggering from the Great Depression, and Nazi aggression in

Home winning streak ends

Amanda Ross Sports Editor

The ECU men's basketball team's home winning streak ended

at nine with an 89-73 loss to American. Saturday's game was the first home loss for the Pirates

this season and their second loss to American this year. There wasn't a lot of could be said about game, except for the fact

that 5,011 fans braved the. nasty weather to support the Pirates. Even inside Minges it was cold. During pre-game warm-ups, players were rub-

to a three point lead after an Othello rates not even hitting the 50 percent stay warm. Head Coach Joe Dooley was pleased with the attendance. "It showed some character by jumper, to put ECU up 5-0. However,

the ECU fans to come out in this type the Eagles finally scored with a Thoof weather and we appreciate it," Dooley said. "After that, that was probably the only highlight of the day

Staff Notes

Strike up another victory for first year coach Anne Donovan and her Lady Pirates. The Lady Bucs needed a win after a disappointing loss to UNC-Charlotte, and they came away with a close one when they defeated the Lady

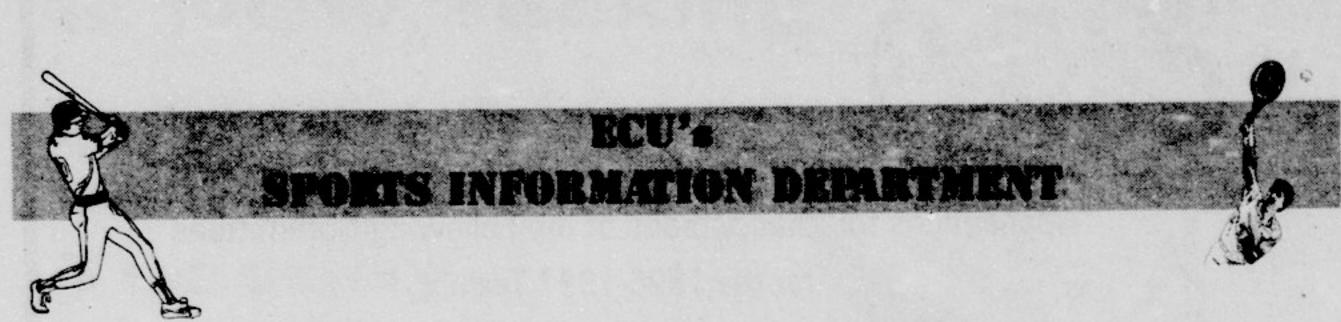

Seahawks of UNC-W 60-57 in CAA play this past Friday in the Port city. Donovan's troops were led by junior shooting guard Justine Allpress who registered 17 points four assists, two steals and one rebound. Following close behind Allpress was center Tomekia Blackmon with 11, and Danielle

Charlesworth who added 10 points of her own. ECU led at the half 36-30 by shooting 52 % from the field and a much improved 83% from the charity stripe. The Lady Bucs continued their percentage by finishing the game 25-50 from the floor and 6-7 from the free throw line. This much needed victory puts the Lady Pirates at 7-10 on the over-all mark and 3-5 in the CAA standings.

With the win in Trask Coliseum, the Lady Pirates keep the Lady Seahawks in the conference cellar by leaving UNC-W winless in conference play. The next challenge for the Lady Pirates will come on Wednesday night. Due to the winter weather, Sunday's game against ODU was canceled. They will travel to Norfolk, Va. to face the conference leading Lady Monarchs of ODU.
