

The opening of the Dr. Jesse R. Peel LGBTQ Center is a celebration of his (bigger than!) life. Dr. Peel is a physician and AIDS activist. For more than 40 years he has endeavored to improve the lives of his patients, his city of Atlanta and the people of eastern North Carolina. Please take a moment to reflect on his courage, persistence and his innate ability to see the good in all of us.

“We are all pirates!”

The Peel Center is the safest place at ECU.

We must enlarge this safe zone

Include each other
