

North Carolina

Pasquotank County -

To the Chamber of Commerce &
Elizabeth City -

Let your Committee to whom
was referred the question of Establish-
ing graded & Normal Schools in
Elizabeth City, - beg leave to report
favorably on both propositions. We further
think that both schools both an Educational
& business ground are necessary
we would respectfully urge upon
the members of this body that steps
be taken to properly treat this
plans to bring the matter before
our next general assembly.
As is generally known there
is a great dearth of School
Teachers throughout this whole
section & we believe that a
graded School would be great-
ly handicapped for lack of Teachers,
without the normal school.
And as your committee are in-
formed that there are preparing
plans to have the general as-
sembly vacate the normal
at school with at some other

Town or so it is probable the question
will come before the general As-
sembly or to the Town that will
offer greatest inducement - for
the location of the school within
its limits, it is incumbent
upon our people to be prepared
to meet any offer coming from
any other town - For as we see
its no enterprise could come
to our Town, with greater promise
of material & educational ad-
vantages than a city Normal
school -

Respectfully submitted

J. B. Dyer
for the Committee
