April 23, 1970

Dear Carroll: -

I was filled with pride by the report in this week's Harnett County News that you are included in "Outstanding young Men of America". This feeling is in full accord with my joy felt over the distinguished achievements of the Attorney-Generals office under Robert Morgan and others, including yourself. All of you have made a name for yourselves and reflected honor upon our County and State. You have certainly set examples of what young Dedicated Men can do to bring America out of confusion and chaos.

I hope it not out of place further to express the sincere hope that you will more and more assume leadership in the religious activities and life of our Church and Community. No greater field of service, in my opinion, exists for one to help in molding a more secure, finer society. Nor is there any conflict, in my opinion, in the attainment of leadership in public life in asserting leadership in church affairs. I have rejoiced to see you accept some leadership positions. Some of us must turn over more and more responsibility for such vital needs. Some time when convenient, I'd love the privilege of sharing with you some of my feelings.

Sincerely
Leslie H. Campbell
