EAST CAROLINA TEACHERS COLLEGE

The East Carolina Teachers College is a professional school for teachers. It is of college grade offering four-year college courses and is prepared to render a larger service to all public school teachers whether in city, town or country. Every course offered is intended to help the student to become a more efficient teacher.

The calendar year is divided into four terms, any three of which make a school year for those who teach. The summer term is on the same basis as the other terms. The entire school plant is in full operation and every opportunity is given to the students who attend the summer term that the school is able to offer at any other time.

This is the last eight-weeks' summer term that this College will offer. Twelve weeks will be offered in 1924.

SCOPE OF WORK

The specific work of this College is to prepare teachers for any phase of public school work in the primary grades, the grammar grades, and the high school.

The courses of study offered for the 1923 summer term fit into the scheme of the State Department of Education for the training and certification of teachers. Each course has a distinct value in the salary schedule, and the State Department gives definite credits for satisfactory work in each and all of these courses.

The State Department of Education considers three summer terms in this institution the equivalent of one year's work in this or any other standard college; therefore, teachers should plan to begin a series of summer term courses in this college this summer in order to get the benefit of the salary schedule as soon as possible.

Three summer terms of eight weeks each in this institution are considered the equivalent of four six-weeks summer schools. This makes it possible for the ambitious teacher who teaches in the regular session and goes to school in the summer to save one year in every four-year period, which is a big item in economy of time, to say nothing of the greater efficiency of service. The consciousness of increasing efficiency in the service rendered is the keenest joy that the real teacher experiences.

THOSE WHO SHOULD ATTEND OUR SUMMER TERM

1. Graduates of standard high schools.
2. Graduates of this College.
3. Graduates of any two-year normal school.
- 4. College graduates who have not had the required professional work.
5. All who have previously taken any part of our College work.
6. Teachers holding an Elementary Certificate, Class B.
7. Teachers holding an Elementary Certificate, Class A.
8. Teachers holding any Primary Certificate.
9. Teachers holding any Grammar Grade Certificate.
10. Those who wish to work off conditions in the fourth year high school.

Please note: No County Summer School course will be given here this summer.

THE HILL AS SEEN FROM FIFTH STREET

I. A TWO-YEAR NORMAL COURSE.

II. A FOUR-YEAR COLLEGE COURSE.

The Two-Year Normal course leads to a diploma, which entitles the holder to a Primary or Grammar Grade Certificate, Class B. This course is so arranged that a student can take special work in Primary or Grammar Grade Methods, depending upon the type of certificate she wishes to secure.

The Four-Year College course leads to the A.B. degree, which entitles the holder to a Primary, Grammar Grade or High School Teacher's Certificate, Class A. The work of this course has been so arranged that a student may take special subjects leading to the desired certificate. Special courses have also been arranged for those students who have secured the diploma from the Two-Year Normal course and who wish to continue their work toward the A.B. degree.

All work given in either the Two-Year Normal or the Four-Year College course will count toward graduation from this institution.

In addition to the above courses the fourth year of high school work will be offered. This course is given primarily for the benefit of those who have high school conditions to work off. However, anyone desiring the work may take it.

ACADEMIC COURSE

English, 5 periods	Mathematics, 5 periods
History, 5 periods	Science, 5 periods

There are numbers of high school students throughout North Carolina who, for one cause or another, lack one or two units of completing the high school credits required for college entrance or for the State certificate. For the benefit of this class of students,

we are offering the last year of high school work this summer to enable them to save a year in their educational career, or to save them from the handicap of entering college unprepared. The high school work offered is in English, History, Mathematics and Science of the fourth year high school grade. We cannot give the foreign languages this summer.

LECTURES AND RECREATION

Lectures of an entertaining nature, moving pictures each week, and other forms of entertainment and recreation are interspersed with the summer's work. The Community Sing on the last Sunday evening of the session the last two summers was so delightful and inspiring that the great concourse of people assembled on the school campus voted unanimously to make the Sing an annual event. It will, therefore, be repeated this summer.

MUSIC—PIANO

There is a growing demand in the country districts for teachers who can teach Instrumental Music in connection with the regular school work. In order to meet this demand and in recognition of the value of music in making the school the center of the social life of the community, this school is offering the summer term students special lessons in piano. The tuition is \$12.50 for the term of eight weeks. This includes the use of a piano for practice.

INFIRMARY

The school infirmary is kept open for the summer term just as it is for any other term. Dormitory students have the full benefit of the infirmary in case of sickness. This includes the services of the school physician, the attention of the nurse, and the use of the infirmary, but does not include the cost of filling prescriptions.

BOOKS

The school furnishes text-books to the summer term students. The school also sells text-books to students at cost.

LIBRARY

The school has a well selected pedagogical and reference library. A good collection of standard fiction and many bulletins, magazines and newspapers are available to all students.

THE DINING HALL

STUDENT'S OUTFIT

Each student who lives in one of the dormitories is expected to bring for her own use the following articles: Two pairs of sheets, one pair of blankets, two counterpanes (only single beds are used), two pillowcases, six towels and six table napkins.

RESERVATION OF ROOMS

Rooms in the dormitories will not be reserved longer than June 15th, and then only upon a written request.

TERM CREDITS

Students who wish to get school credit for the term's work must be present seven consecutive weeks and take the school examinations at the close of the term. If you register later than June 20, you cannot get credit for the work of the term.

THE MODEL SCHOOL

Classes of children are taught in the Model School during the summer, and all students in the College for the summer term may observe actual classwork under direction of members of the faculty and see how the principles of teaching are applied by experienced and skillful teachers.

EXPENSES

Board, room, light and laundry, 8 weeks.....	40.00
	<hr/>

These expenses apply to those students who live in the dormitories and are for the entire term of eight weeks. If the dormitory students prefer to do so, they may pay \$25.00 when they register and the balance of \$20.00 on July 10.

Those students who do not live in the dormitories pay the registration fee of \$5.00.

The *fee* is payable on the day of registration, and there is no reduction or refund in this fee.

Tuition for Piano lessons and practice (extra) \$12.50.

The teachers of North Carolina have the right to demand the best there is, and this College intends to meet that demand. We will do for you all that the funds at our disposal will permit.

In making application for admission (see last leaf of this bulletin) fill in each space with care. *Be sure to have the blank for your "High School Credits" accurately filled and properly signed and send it in with your application if you do not hold a State certificate. If you cannot get it filled and signed in time to send with your application, do it as soon as possible. Failure to do this may result in your failure to secure the High School Credits to which you are entitled both here and in the State office.*

TO RENEW OR TO RAISE STATE CERTIFICATE

The regulations of the State Department of Education require full-term attendance for State credits on renewing or raising of certificates. Any term's work of the courses offered in this bulletin is accepted as credit toward renewing or raising of certificates if the student makes passing grades.

REGULATIONS GOVERNING CERTIFICATES

The certification plan herein outlined will govern the issuance of certificates to all new applicants. The certificates will be dated as of July 1, 1923.

The State certificates held by all the teachers now in service have been classified on the basis of their rating in the salary schedule during the school year 1920-21. Certificates based on this classification will be issued.

Teachers and school officers are urged to study the certification plan so that they may thoroughly understand the new requirements for the issuance and raising of certificates.

HOW CERTIFICATES ARE ISSUED

(a) UPON THE BASIS OF TRAINING.

Certificates are issued upon college or normal school or high school training. If the transcript of a college or a school record shows that the applicant has met the requirements of the certificate applied for, the certificate will be issued. When this certificate is countersigned by the superintendent under whom the holder applies to teach, it becomes a valid certificate in all public schools of the State for the work specified on its face, as long as it is kept in force.

A superintendent's signature on a certificate indicates that the holder is of good moral character, and otherwise, aside from scholarship, fitted for teaching.

(b) UPON THE BASIS OF EXAMINATION.

The academic credit for the High School Teacher's Certificate, Class C, may be obtained not only by training, but also by State examination. This is the only certificate valid to teach in the high school for which academic credits may be obtained by the State examination. The professional credit is not allowed by examination, but must be secured in summer schools.

The academic credit for the Elementary Teacher's Certificate, Class B, may be obtained not only by training, but also by State examination. This is the only certificate valid to

teach in the elementary school, for which academic credits may be obtained by State examination. The professional credit is not allowed by examination, but must be secured in summer schools.

TEACHERS' CERTIFICATES

The following Teachers' Certificates are issued:

1. High School, Classes A, B and C.
2. Grammar Grade, Classes A, B and C.
3. Primary, Classes A, B and C.
4. Elementary, Classes A and B.

Each certificate is divided into three classes, of which Class A is the highest and represents the highest academic and professional training required for that certificate. The difference, as a rule, between Class A and Class B, or between Class B and Class C, is one year of standard college work. However, an applicant having the academic credits for one class of certificate but failing to present the professional credit for that class will be issued the certificate of the next lower class.

NOTE.—An applicant securing a certificate of a lower class because of failure to present the proper professional credits, may secure the higher certificate whenever the professional requirements have been met.

NOTE 2.—If an applicant fails to secure the proper professional credits in college they may be secured in an approved summer school. Credits for one approved summer school are the equivalent of six semester hours of college credits.

NOTE 3.—Credits for four approved summer schools of six weeks each will be accepted as the equivalent of one year of college work and will serve to raise the certificate from Class C to Class B and from Class B to Class A under the following conditions:

At least one-half of the credits of four summer schools shall be secured from those academic subjects that serve to broaden one's culture which will be accepted by the institution in part fulfillment for graduation. The power of the teacher to instruct should be increased through the acquisition of sound scholarship. If the summer school or professional credits secured should be confined only to the field of methods or the strictly professional courses, a certificate might be raised without sufficiently increasing the teacher's culture. However, the Superintendent of Public Instruction is authorized to accept long and successful experience in exceptional cases in lieu of part fulfillment of the above requirements.

HIGH SCHOOL TEACHER'S CERTIFICATE

All High School Teachers' Certificates issued under these rules and regulations are valid for five years and will be renewed at the expiration when the holder presents the proper renewal requirements.

All teachers now holding High School Teacher's Certificates, who have been rated in Class A, B or C, in the salary schedule, will be issued a High School Teachers' Certificate of like class, valid for five years, when the renewal requirements are met.

READ CAREFULLY

The School Budget Act provides for a graduated salary schedule based on the qualifications and professional attainments of teachers. It makes a clear distinction between trained and untrained teachers. No other system could be just and offer the proper incentives to the teachers who are willing to equip themselves for the responsible work of teaching the children of our State.

It has been the policy of this school from its beginning to co-operate heartily with the State Department of Education in carrying out its policies. Now that a definite scheme of teacher training and certification of teachers is adopted by the State Department, this College is going to give every particle of strength and influence it has to help make it a success. -Every course you take here fits into the State scheme with full credits and definite salary values.

The wise and progressive teacher will begin *at once* some definite course of training to raise the grade of her certificate as rapidly as possible. There is no other way by which any teacher may participate in the benefits of the salary schedule.

The courses of study offered in our 1923 Summer Term are approved by the State Department, and full credit will be given for every course we are offering. In selecting the school you will attend and the course you will take, it is well for you to keep in mind the fact that *three* summer terms here are accepted by the State Department as the equivalent of four six-weeks summer schools.

"We are living in a time that demands the most *intensive* training for those who are going to teach school, and the coming generation will rise up and bless the teachers of today who have the vision and the courage to make the best possible preparation for their work."
