MEMORANDUM TO: President, County Medical Society

Re: Sabin Oral Poliomyelitis Immunization Campaign

Within a very few days all 100 counties in North Carolina will have completed a locally sponsored Sabin Oral Poliomyelitis Immunization Campaign.

In order that the State Medical Society may be in a position to announce total immunization figures for the state and therefore reflect creditably upon the outstanding public service rendered by your local society and the medical profession of the state, we need information about the total number of immunizations in your county.

Please complete the enclosed questionnaire at your earliest convenience and return it to the State Medical Society Headquarters Office, P. O. Box 790, Raleigh, N. C.

Your prompt cooperation will be greatly appreciated.

Richard S. Kelly, M. D., Chairman  
Committee on Child Health and Poliomyelitis
