Kenneth H. Winston (I am in the dissenting opinion of the act that was committed, it is wrong; but also it is wrong for the school of East Carolina University to try the students involved here on campus, pass judgement on them as disciplinary measure, and then take charge out on the very same students in the local Circuit Court.)

I do not agree that the criminal charges should be dropped. I am signing this petition, because I believe that justice has been done. As a firm believer in criminal law as practiced in the United States, I believe that the courts should be used as forum. If the four are guilty, then that is to be decided by our courts.
