

[ca. 1925?]

Genesis 1: 28 "Be fruitful, and multiply, and replenish the earth, and subdue it & God gave man dominion over every thing that moveth upon the earth & every beast & every fowl that is in the air." Gen. 2: 2 "and he rested on the seventh day from all his work which he had made."

John 5: 17 "But Jesus answered them, My Father worketh hitherto, and I work."

John 14: 10 "but the Father that dwelleth in me he doeth the works."

John 14: 12 "Verily, verily, I say unto you, He that believeth on me, the works that I do shall he do also; and greater works than these shall he do; because I go unto the Father."

If God is working just how are his works being made manifest unto man? Is it not possible that these changes we note and call evolution are the physical manifestations of Gods activities today. Changes of are certainly taking place, we see

the results in the improvement  
of the breeds of various kinds of stock,  
in the improvements in seed corn,  
cotton and the plant life in general, in  
improved chickens and other fowls,  
if God is working changes in the  
creeping things upon the earth,  
upon trees and plants that yieldeth  
seed, and if the fowls of the air are  
changing under the working of God,  
why should Man alone be the  
same, ever the same and no  
changes? Where are the men  
women of huge physical stature  
referred to in Gen. 6:4. Num. 13:33  
II Saml 21:20. What  
became of them? Has God destroyed  
them or has God changed them  
until they are like other men  
in stature. How about the giant with the  
6 fingers on each hand & the 6 toes on each  
foot? How did this come about, + Goliath of  
Gath about 11' 6" high. Have his descendants

disappeared or been worked down to ordinary human size. In any event God is doing it. God developed these Giants & God has changed them. Is that Evolution or what?

God is at work and I am not willing to oppose Him to compare any pet theory that I may have. If God is working then what we call evolution I do not want to oppose God. The bible does not say any thing any where so far as I know that is in opposition to evolution. I believe it is on the side of the evolutionist, if on either side. I am of the opinion there is more in the bible in favor of evolution than there is against it.

If we take the plant at 2 million and  
interest at 5% then it cost  
the State \$331. \* get an Elementary  
teacher A grade. \$662. Primary or  
Gr. Grade B + \$1324. for an A  
Grade teacher H.S. Primary or Gr. Grade.

Compare these costs with costs  
anywhere else in the State or  
out. I am willing to be put  
upon a Comparative Cost basis  
with any one.
