according to law declares as follows to law in relation to the foregoing objected claim that she did file the declaration March 3 1880 for Pension according to act of Congress June 22nd 1874 Sec. 4723 which reads as this All colored persons who enlisted in the U.S. Army during the war of the Rebellion who are now prohibited from receiving Bounty and Pension on account of being slaves should be placed on the same footing as to Bounty and Pension as though they had not been slaves at the date of their enlistments now and on the objectionable grounds relative to the claim it seems that Commissioners of Pension objected the claim on this Technical grounds on the grounds she fails to furnish the Affidavits of E. Thorge and Lane and you hold that is not sufficient to return the contrary presumptions raised by the Record such presumption cannot be over come in as much as such alleged since under the Emancipation Proclamation which you say did not become operation until Jan 1st 1863 and however you say it was not computed until that date to muster in Regiments as soldiers or sailors in the U.S. Military or naval services if that were true then the act of June 22nd 1874 would be void and void but you say independently of the foregoing consideration it well the observed that that appellants claim not having been filed until March 3rd 1880 the same is barred by the express in habitation contain the third Paragraph of Section 4693

Peggie Grant

R.I. which you says provides that no claim of a man enlist person (Intestate) on account of a disability receive while temporary rendering service, shall be valid unless prosecuted to a successful issue prior to the fourth day of July 1874 now relative to Sec. 4693 she declares that she entered her claim, by reason her son was only sworn in Regular Enlisted Soldier and perform the same duties & rest of the soldier until he died as is stated by affidavit of reliable and truthfull and credible person who was present, when he enlisted and saw him perform duty like the rest of the soldiers with his military uniform on like the rest, and that her claim was entertain in Pension Department every since March the 3 / 1880 up to Jan 3 1887 and she had not been inform of that part of Sec. 4963 and holds that part of Sec 4963 do not allude to her claim by reason that 3d paragraph it says for the time being which he was not enlisted for the time being, but enlisted until his Regiment was discharge as several other men of the same Regiment, Randall Staton he remain until the Regt was discharge and several others in the same Regiment I hold my son was only enlisted and he died while in the U.S Army that I am entitled to the same pension as all other widows & mothers according act 1874 22 Jan. Sec. 4729 and further that I was a poor ignorant woman and know not the Law, and in relation to Ettrage and Jan she did not know where they were and she was not able to get that she did not know any thing about so she furnish the evidence of two of his comrades who was with him at the time according to Law now since the making a great deal Inquiring she fines great many people that was present and saw him knew all about him at time enlisted and at the time he died therefore she believing that she can prove or give satisfaction as to his enlistment and she ask your Honor to please reconsider the objections and give her what is legal now her according to Law that she is poor & dependent woman and now under suffering condition that she do here by appoint Indick Douglas of a new term of C.

 he has been Discharge of U. S. Army that
 we see him pretty much two or three times
 a week every since he has been Discharge
 That we know that the claimant has been
 suffering from the effects of gun shot wound
 of left hip or thigh. That we know from
 his appearance and what we see that the
 effect of that wound is growing worse and
 worse. The effect of the wound has effected the
 whole leg and foot and has cause impairment
 of the leg and foot cause him to suffer a
 great deal that the leg and foot is over $\frac{3}{4}$
 impaired and he has to drag it That at
 times it swell up and he cannot do
 any heavy labor. That at times he is unable
 to do anything That he complains of his
 side left side pains darting up and

 That when he walks That it appears that

 like that leg and foot is too long for the

 walks very peculiar by Reason of the effect
 of the wound That at times his foot and

 when it strikes the ground it strikes
 the ground on the left side of the foot
 which impairs his walk we know this

the carriage caught his leg and mash it Broke the bone of the right leg just between the ankle and shot knee I was about 25 or 35 yards from the claimant when the gun burst I saw him when he fell I was shot on duty at the time the men went to him and took him up and I met them at the gate of the Fort with Corporal Wm H. practice of medicine continually since that period -
I certify further that I know Roscoe Jones of this city
and have known him and treated him professionally
since 1870 - as appears from my books - I have seen
professionally at intervals of 10 - 20 & 30 days - his disability
increasing yearly - he suffers constantly with pains in
his left arm side, and back especially greater in wet
weather has chronic lumbago - and with partial paralysis
of the left side & especially a weakness of intellect - which
has increased yearly until he is now quite in-
imbecile for at least the past 8 yrs he has been wholly
unable to do any manual labor thereby being incapacitated
from earning a living for himself or those dependent on
him - he is a man of good regular habit - and in my
opinion the increase in his disability has not been caused
by vicious habits
