PHONE No. 13.

WASHINGTON,

BEAUFORT COUNTY, NORTH CAROLINA.

Washington, a rapidly growing town of 6,500 inhabitants, is situated on a beautiful eminence overlooking the broad waters of Pamlico river, an arm of Pamlico sound, at the head of deep water navigation.

Its facilities for transportation are unsurpassed, and its geographical position is unequalled. By fast freight it is within 18 hours of 10,000,000 urban population. As a location for manufacturing industries of all kinds, it offers most exceptional natural advantages. It is one of the greatest lumber manufacturing towns in North Carolina. Its fish and oyster interests give support to thousands of people on the adjacent waters, and is a growing business, assuming vast proportions, and now offers a most inviting field for investments, either for men of small means or capitalists.

In the heart of a great bright tobacco growing, trucking and berry producing district, the steady, certain growth of the town is assured; values are appreciating.

To the home owner, planter, farmer, trader, stock raiser and fruit grower, in fact

the death rate for Washington is 15 per 1,000.

A most delightful winter resort,—sportsmen find quail and duck abundant.

The fertility and variety of soil, magnificent climate, diversity of agricultural products, just laws, light taxes, good schools, cultured and hospitable people, all go to make Washington and its environs the most favored agricultural and residence location in America—an Ideal Home.

For a fuller description of our advantages, and for information relative to manufacturing sites, homes, farms, town lots, timber, investments, agricultural, trucking and fruit lands, address

Hon. W. M. CHAUNCEY, Mayor,

GRIMES REAL ESTATE CO.,

WASHINGTON, N. C.
