

Md. Has. 41 Accredited H. Ss.

We have State Supt. & One Assist.

Each County has a County Supt.

Each County except Calvert, Chas,
and St Marys has from 1 to 4 Accredited H. Ss.

The State Supt. Cannot do more
than barely inspect these H. Ss.

Where the States aid goes its
authority should go.

County Supt. Cannot do the
supervising for lack of time &
often not prepared for it.

The State should supply a man who
would unify the system of H. Ss. who
would help the County Supts and
be of invaluable aid to the
H. S. Prin. & teachers.

X

He could organize our Secondary
school unify our system and
help us to solve many perplexing
problems in ~~Sanitation, ventilation~~
He would be a kind of clearing
house for ideas combined with
a ~~clear~~ bureau of information.
Is it worth while to have such
a person in our State System?
It seems to me that it is, that
he is the most needed individ-
ual in our System.
