Express my pleasure
at being with you today.

The responsibility now
resting upon the people
of America to advance
the world's Civilization
while over $\frac{1}{2}$ in area +
population of world is
striving to kill each other
and to blot out our
present civilization.

The place the teacher
occupies in our civili-
zation — One generation
without education + we
have

the world in barbarism.

Teaching must become a profession and we must be compelled to recognize it as a profession even if the House did table our bill without giving it due consideration.

But the teacher must get the necessary preparation for her work.

Some accusations
made against us
1, Not practical

2, Teach for money

We must be paid more
than a carver earns,
more than a coal carrier
more than a dog catcher
earns.

3, Not prepared, Every
true teacher knows
she needs preparation for
the work

What are duty as teachers
is

1. To give the working tools, R. W. A. Geog. & Hist
2. Help the individual to find the thing he is best fitted for.
(Davis Vocational & Moral Guidance, Ginn & Co)
3. Ed. must be individual and specific.

We must help these boys & girls to find themselves

We must instill high ideals of morality. —
and relations to one ~~to~~
another.

We must develop the religious instinct.

To do these things with intelligence we must be trained. We cannot lead in the way of life unless we know that way
