

I shall compare the German Pedagogium -
nasium with our high school.

In the German school religion is taught
each year; with us religion is not taught.

German comes three times per WK for
all four years; with us it begins in the
second year and is five times per WK for
first year taught and four times per WK for
each other year taught.

Latin is taught four times per WK; with
us five times per WK.

French comes four times per WK for
four years with them, with us it is five,
four, four, four.

Eng. runs three times per WK with them
and four times with us.

History runs two, three, three, three, with
them and four, four, four, five with us.

Geography comes once a WK in the first
and again once a WK in the third year while
with us it comes twice a WK in the
first year.

Arith. and Math. is identical in the
two schools so far as time is concerned.

Natural Science runs four, five, five, five
with them, and two four, five, five with us.
Drawing is the same in the two schools.

Our school offers a Commercial course.
Our pupils elect subjects and grad-
uate by points called "Credits"; the Ger.
pupil graduates by courses.
