ECLIPSES IN 1864.

There will be only Two Eclipses this year, and both of the Sun, as follows:

I. A Central Eclipse of the Sun, May 5th, in the afternoon. This will not be visible in the United States east of the Mississippi River, except a small fragment in Wisconsin and the western part of Illinois, in which States, and also in the States west of it, the eclipse will be *very small*, and may be seen just at *sunset*. At San Francisco it begins at 4 h. 28 m. P. M., and ends at 6 h. 49 m. Size about 9 digits

II. An Annular Eclipse of the Sun, Oct. 30th, invisible in the United States, except a mere contact of limbs in New Mexico and Texas.
