## MARRIAGES IN WASHINGTON.

Taylor-Clark-Campbell-Foreman.

[Special to Reflect or.]

WASHINGTON, N. C., April 18.—Last evening St. Peter's Episcopal church, in this town, was crowded with friends to witness the marriage of Mr. Joe F. Taylor, one of our most prominent young merchants, and Miss Lalla R. Clark, the charming daughter of Capt. James E. Clark. The ceremony was performed by Rev. N. Harding at 9:15 o'clock. Miss Bettie Hoyt played the wedding march. The bride and groom left this morning for a visit to northern cities.

To night Mr. J. W. Campbell, a popular real estate agent, and Miss Edith Foreman, will be married at the home of the bride on Second street, by Rev. N. Harding.

## A Grand Sermon.

The services at the Baptist church last night were well attended, notwithstanding it "rained." Rev. Mr. Oliver's sermon was something new to many old Bible readers. It was a grand discourse on the responsibility resting upon those, out of Christ, trying to live by the Law.

Mr. Oliver's subject at the services this morning was prayer, urging that those who approach God should feel the need of what they asked for and should expect to receive it. It was an excellent sermon, full of feeling and tenderness.

Go to church to night!

## Married.

WHITLEY-JAMES.—Mr. T. F. Whitley, Coast Line Agent at Parmele, was married by the Rev. R. W. Hines, to Miss Dora M. James at the residence of the bride's father, Mr. B. M. W. James, at Grindool, Pitt county, on April 17th, at 8 o'clock A. M. The bride and groom left on the north bound train for Washington D. C., and other cities, with best wishes for a long and happy life from a host of friends.

## ROPE AROUND HIS NECK.

That Was the Kind of Necktie Mr. R. Williams Wore Sunday Night.

Further Attempts at Incendiarism.

It was reported Monday that Mr. Rob't Williams, a white man who is employed by Mr. B. N. Fields, was taken out in the woods Sunday night, about 8:30 o'clock, by a crowd of masked men, who attempted to make him tell something about the fires that have been destroying Kinston. Many of our citizens thought that Mr. Williams knew something about the first fire at least. A rope was put around his neck and he was swung up several times, so goes the report, but if he knew anything he did not divulge it, and we understand that his friends consider him quite a hero.

Mr. Jno C. Wooten says the crowd passed his house taking Williams out, and that the latter made a great deal of fuss screaming when opposite his house. Mr. Wooten went out to investigate. He saw a large number of determined men, he says, and before he got far one of those on guard behind the rest shoved a pistol in his face and advised him to go back, which advice he took.

All sorts of rumors were in circulation, and on Monday but little else was talked in Kinston.

Isaiah Hill and Henry York, colored, were going home last Thursday night and saw two men fooling at the side of the wooden building owned by Mr. J. B. Cummings, behind Mr. W. S. Fields' bar. The men ran through the lot back of Mr. Cummings' store, upon being nailed. Hill and York had no weapons with them. Upon examination a lot of shucks saturated with kerosene were found in the chimney corner.

About 3:30 o'clock Sunday morning Dr. Jno. A. Bullock found the store of Charles F. Dunn, colored, to be on fire inside. It was broken open with an ax and the fire put out before any damage of consequence was done. It seems that the firebug entered the side door with a false key, took the large lamp down and poured the oil in a cracker box and set fire to a piece of paper to connect with the oil in the box, giving him time to get out before it flamed up.—Kinston Free Press.

The County Alliance had a meeting here to day, but the attendance was small.

and commissioned by Governor of North Carolina and elected another man and then the matter will go to the courts. It looks as if everything done by the Legislature is to go to the courts. Unless we will not let the Governor will be elected and the courts will be the only ones to decide the matter.

What is Happening Over the State.

Ground will soon be broken for the Baptist Female University at Raleigh.

Gen. C. A. Battle, of Newberne, will deliver the address at the celebration of Memorial Day, in Washington, May 10th.

Wm. H. Farman, father of State Auditor Robert M. Farman, died in Asheville Tuesday of paralysis, aged 73 years.

The two year old daughter of Mr. Campen fell out doors and broke her hip last evening.—Washington Progress.

The well which Mr. Will Cook is boring for the Goldsboro Lumber Company's mill at Dover has now reached a depth of 260 feet. 220 feet of the depth is through solid rock.—Newberne Journal.

News comes that Mr. Joe Latham (of Edgcomb) a few nights ago shot his father-in-law, Mr. Dixon. They had some misunderstanding when Dixon started into Latham's house and Latham fearing Dixon was coming upon him armed shot him in the leg and the arm. These are facts as we heard them, but we learned no further particulars.—Scotland Neck Democrat.

EVERY AFTERNOON (EXCEPT SUNDAY).

Postmaster General Wilson states that the sale of stamps for the last quarter of 1895 amounted to \$19,405,571, which was the largest in the history of the government for a like period. He considered this a barometer indicating the revival of business. The total receipts from other sources of the Post Office Department for the last quarter of 1894 were \$1,164,207 more than for the corresponding period of 1893.

It has been reported that Senator Ransom, who was appointed Minister to Mexico, is not eligible on account of some constitutional provision, but an investigation shows that he didn't qualify until after his term of service as Senator had expired and therefore the report is without foundation and he will not have to be reappointed as has been claimed.

How many people know that the Legislature incorporated in its revenue bill a provision levying a tax of 2 per cent. upon all purchases of seed? It did. Any merchant or other person who buys seed—clover, lucerne, millet or any other kind of seed—must pay a tax of 2 per cent. upon his purchase. In the same paragraph all persons who buy or sell drugs are taxed 2 per cent. upon their purchases of these. We said, two or three weeks ago, that the story of that Legislature had not been half told, and every few days afford fresh proof of the statement.—Charlotte Observer.

The penitentiary directors appointed by the Legislature are in Raleigh and Capt. Buck Kitchen is there to be elected Superintendent of the Penitentiary. No quorum was present Wednesday but S. Othe Wilson was doing his best telegraphing and trying to get them on the field. While this is going on Governor Carr has appointed and Commissioned men to take the place of these fellows

who did not get enough votes in the Legislature to elect them. The Fusionists will probably meet and elect Capt. Kitchen Superintendent. The old directors and those appointed and commissioned by Governor Carr will meet and elect another man and then the matter will go to the courts. It looks as if everything done by the Douglasites is to go through the courts. Unless we are mistaken the Governor will be sustained and Capt. Kitchen will not get to the penitentiary.

### LOCAL NOTES AND TOBACCO JOTTINGS.

BY O. L. JOINER.

If anyone has kept an accurate test of the rain fall we should be glad if they would tell us what it has been in this section up to now.

The Pitt county farmers to day as a whole are further advanced in modern agriculture and are better equipped to successfully conduct a scientific system of farming, we venture to say, than any county in the eastern part of the State. How would it compare with some of our sister counties fifteen years ago?

Last Monday we went up on the north side of the river to the Reives farm owned by Mr. G. A. Stancill, to meet him there to look at his tobacco. After finishing our business we together rode through the farm. It is truly an old southern farm ten years ago adapted and used only as a cotton and corn farm. It is a very large plantation and we noticed several squads of hands dotted here and there all over it and we asked him why this was, and he said that as he was not much of a tobacco farmer he relied principally on corn, grain and hogs so he had to work hands to the best advantage possible and that he divided his land off in crops and gave each crop an equal number of hands. By this means he could tell which hands paid the best, which fields produced the best crops, and last he says he is enabled to keep his work nearer up because each squad naturally works against the others for fear of having their wages docked. This is a capital

idea and it strikes us that every farmer in the country who cultivates more than a one horse crop would do well to pattern after this fashion. It also enables him to tell accurately the value of all his farm hands and how much he should pay each one, basing his calculations on the amount paid his lead or highest priced hand and the amount of work done by this one. With the same amount of manures and cultivation he can soon tell exactly which fields are paying, and calculating from this base any intelligent observer can soon tell what is needed to build up and improve the impoverished fields. There are numbers of farms in this and adjoining counties that are not paying their owners 4 per cent on their value and by pursuing this method in detail, even under present conditions, we see no reason why farming should not be made profitable. Of course in order to get the full benefit from this system and to know exactly what you are doing one must start at the beginning of the first expense and keep an accurate account of all the minute expenses attached to each farm. This done intelligently at the end of the year or when the crop is sold only a few minutes work will show the exact standing of each crop and how much profit or loss.

### A Sunny Face.

Wear one. It is your privilege. It has the qualities of mercy; it is twice blessed. It blesses its owner and all who come under its benign influence; it is a daily boon to him who wears it, and a constant benediction to all his friends. Men and women, youth and children, seek the friendship of the sunny faced. All doors are opened to those who smile. All social circles welcome cheerfulness. A sunny face is an open sesame to heart and home. By it burdens are lightened, cares dispelled, sorrows banished, and hope made to reign triumphant where fear and doubt and despondency had held high carnival.

Get the glow and radiance from such nearness to the throne as God permits to His own. Bring from holy and divine communion a face luminous with light and let it glow and shine on all around. A little child on the street of a great city wishes to cross at a point where the surging throng and passing vehicles made the feat dangerous to the strong and especially to the weak, paused, and then asked a sunny-faced gentleman to carry her across. It was the sunny face that won the child's confidence. Childhood makes no mistakes.

### Practicing Illegally.

The Mt. Airy News says that at the last term of Surry court eight young men were reported to the grand jury for practicing medicine illegally and the grand jury was instructed by the Solicitor to return six bills against each one of them. The News says this was done, and in each case, with possibly one exception, the Solicitor suspended judgment upon the payment of costs. Each of the young men was mulched to the tune of \$30, \$24 of which went into the pocket of the Solicitor. Now the question arises, "could not the practice of medicine been regulated by the Solicitor sending one bill against the offenders as well as six?"

The law was not enacted to benefit Solicitors, but for the protection of the citizens of the State against quacks and incompetents. It is a good law and we are

heartily in favor of it, and are glad this county was not made an exception to its operations. But we think it should be amended so that Solicitors will not be allowed to operate it in their own interests. If necessary to punish offenders let them be fined and let the fine go to swell the school fund and not to swell the pile in the pocket of a grasping Solicitor.

### Doc Had the Papers.

A few days ago, Doc Patterson, a colored man who works on Mr. G. M. Shives' place at Mount Holly, was warned out to work the road. It occurred to Doc that he had worked the road about enough for one darky, but he didn't know his age, couldn't tell exactly whether he was road free or not. So he hunted up his tax receipts and took them to Mr. Shives to count up his age by. There were even twenty of these receipts from the sheriff, footing up a total of \$58.88. This darkey had paid his tax year after for twenty years and had the papers to show it. He is one of a thousand, of this sort. The count showed that he was forty-one years old. He had to work the road, but he had his tax papers just the same.—Gastonia Gazette.

As a rule it is much worse for a man to be left with several children than for a woman to be so afflicted, but an exception to the rule happened not many miles from Reidsville a few years ago. A farmer was left with two small children by the death of his wife, but he did not break up. He kept them at home, and did the cooking and washing until they got large enough to help him; and he raised them smart, too. In an adjoining county a crowd of children were bereaved of their parents, but they held together the oldest, a mere lad, taking the place of father and mother; and they grew up with the respect and confidence of all who knew them. All of them have done well. How true is the old saying, "Where there's a will there's a way."—Webster's Weekly.

Talk and work for the upbuilding of home interests.

## University Summer School.

The Summer School at Chapel Hill affords unusual opportunities to young men and women desiring University education, as well as to teachers and those preparing to teach. Instruction will be given mainly by University professors, in English, Literature, Anglo-Saxon, History, Latin, Greek, Algebra, Geometry, Trigonometry and Chemistry. Teachers will be given an opportunity to see exemplified by experts the best methods of teaching all the subjects usually taught in the preparatory schools. Certificates of satisfactory work and attendance, duly signed by the President of the University and the professors, will be given to those who complete the course and stand the examination. Miss Mathilde Coffin, of Detroit, Michigan, a celebrated teacher of young children, will have charge of the primary work.

The tuition fee of \$5.00 admits to all instruction during the five weeks session of the school, June 25th, to July 26th, 1895.
