COMMENCEMENT.

PITT FEMALE SEMINARY.

A Successful Closing Entertainment—Distinctions and Scholarship—Prof Goode will Leave Greenville.

It was a large and well behaved audience that assembled in the Opera House, Tuesday evening, to witness the closing exercises of Pitt Female Seminary. This institution has given a number of very pleasant entertainments to our people, and this closing one fell behind none of the others in interest.

The following programme was rendered with utmost precision and in perfect order:

 Announcement of Distinctions.
 Sweet and Low, Chorus Class.

Every piece was full of interest and presented in a faultless manner. The audience was especially delighted with the drills and exercises by classes. It was almost marvellous to see the smaller pupils go through their parts so accurately, but it shows what can be accomplished by thorough training. It was evident on every hand that the work at the Seminary has been of the very highest order.

ANNOUNCEMENT OF DISTINCTIONS.

Just before the last number on the programme was rendered Prof. Goode made the following announcement of distinctions for the term, none of those mentioned falling below 85 on examination:

The scholarship for highest average in all English studies was won by Miss Addie Johnston by only one and a fraction over Miss Maud Blow.

Prof Goode for himself and assistants returned thanks to the patrons and announced that this session would close his labors here, as he had decided to go elsewhere. The reason given for

this decision was that a school here did not draw patronage from elsewhere, and that the local patronage was not sufficient to sustain it.

The REFLECTOR believes the people of Greenville are making a mistake in allowing Prof. Goode to leave. There has been no better teacher here, and no better advancement has been made by the pupils than under his instruction. He is just the kind of man needed to carry on a good school, and that the patronage given him was not sufficient to maintain it does not speak well for the town.

PRACTICAL ODD-FELLOWSHIP.

That true Odd Fellowship never fails in the opportunity for doing good and following the principles as taught in our order is shown by the following, which we notice in the *National Rebekah*: The almost fatal accident that befell the wife of an Odd Fellow living in Eaglewood, Ill., happened on an evening in October. She was left alone with her baby boy, when in attempting to light a kerosene lamp it exploded, setting fire to her clothing. In an instant she ran screaming from the house. After running a few rods she remembered her baby, whom in the first moments of fright and agony she had forgotten, and retracing her steps she entered her home, now almost developed in flames, and catching up a blanket she wrapped it about her baby, but upon looking around she found the door had closed upon her and there remained nothing for her to do but to jump from a window to the ground, several feet below, which she did and was picked up by sympathizing friends and neighbors.

The baby was found to have escaped unharmed, but the poor mother was most horribly burned, nothing remaining of her clothing but the bands of her skirts around her waist and parts of her corset which aided in protecting the spine, to which it is claimed she partly owes her life.

Bro. Fitzgerald has been a member of the Second Regiment, National Guards, for sometime, and when the doctor who had charge of the case, and who took a special interest in it, said that if a sufficient number could be found that would volunteer he would attempt the difficult operation of skin grafting.

Among the members of the Second regiment none could be found. Bro. Fitzgerald had been a member of the Order of Odd Fellows but a short time, and during that time he had been elected secretary of his lodge, but

the fire that consumed his home had also destroyed the property of the lodge he had in his keeping, therefore he was reluctant to call upon them, then almost strangers, for so great a favor. But as soon as the doctor's desire was made known, a hundred Odd Fellows presented themselves, loyal to a brother, even to give their flesh and blood.

The wonderful operation of skin grafting has been going on in this case ever since October, and the Brother's wife is now able to be about the room but still far from well, yet life is spared, through the noble deeds of the Odd Fellows. Over 5,000 pieces of skin have been grafted upon the arms, shoulders and back of the suffering sister, taken from nearly one hundred persons.

Brother Fitzgerald has been obliged to give his entire time in attending his beloved wife, and the Odd Fellows have done all in their power to aid him during the long months of anxiety. Who can, being cognizant of such facts, and it's only one of many, say that Odd Fellowship amounts to nothing.—*Three Links.*

The Word "Wife."

What do you think the beautiful word "wife" comes from? It is the great word with which the English and Latin languages conquered the French and Greeks. I hope the French will one day get a word for it instead of that of "femme." But what does it come from? The great value of the Saxon words is that they mean something. Wife means "weaver." You must either be housewives of house moths, remember that. In the deep sense, you must either weave men's fortunes and embroider them, or feed upon and bring them to decay. Wherever a true wife comes, home is always around her. The stars may be over her head, the glow-worm in the night's cold grass may be the fire at her feet; but home is where she is, and for a noble woman, it stretches far around her, better than houses ceiled with cedar, or painted with vermilion, shedding its quiet life for those who are homeless. This I believe is woman's true place and power.—*Ruskin.*

Arrow Points.

In this world we should get ready for living.

Many of our greatest troubles are imaginary.

It is easier to do right than to find plausible excuses for doing wrong.

The enthusiasm displayed by the politician would be called fanaticism in the religion of the religious world.

Men who spend their time in talking about the faults of their neighbors make poor servants of God.

Men who are really in earnest about serving God never quit because somebody else does wrong.

The man who serves God all his life will at death pass out of the shadows of this world into the light of heaven.

Sam's Salary.

It pays to be an evangelist, after the order of men. It is said that Sam Jones conducted a meeting in St. Louis three weeks and in that time collected nearly \$6,000. After paying all expenses he netted a trifle over \$1,100 per week. It will thus be seen that there is big money in evangelistic work as conducted after the methods of Sam Jones. But "my, my," poor sinners, how that amount would have helped out the local fellows who have to hustle around to get up their salary before Conference. But people get wild in times of religious excitement as much so as in any other excitement.

Nearly all the best men we know are hurrying themselves to get through some kind of task. They seem to be laboring under the conviction that a great deal depends on their finishing what they have taken in hand. Who shall say this is not a noble view to take of life? The very soul of duty is in it. Every man's work is for him, at least supremely important. He cannot slight it without forfeiting some part of his self-respect and losing to some degree the favor of friends. But let us not get too busy with our daily toils to remember that the end and design of all is to make us perfect men. More activity of an aimless sort adds nothing to the dignity of the human spirit but rather detracts from it. Do not facts confirm this assertion?—*Wilmington Messenger.*

LOCAL NOTES AND TOBACCO JOTTINGS.

BY O. L. JOYNER.

Messrs. J. W. Morgan and B. E. Parham will not spend the summer off this year.

Crops are beginning to need rain. Tobacco is suffering least of any other crop, while corn especially needs rain.

Just such weather as we have been having this spring is the right kind to cause tobacco to grow up spindling and button out before it is much more than half grown. Some will say, "Oh, well, mine is buttoning with twelve, fourteen and sixteen leaves and that is a plenty." True, that is a sufficient number to leave on the plant but you can be very sure when you see tobacco buttoning out this early that it is not in a healthy condition and when any crop is not growing in a healthy state the best results can't possibly be expected. One of the best remedies for early buttoning, we have heard old and experienced tobacco farmers say, is to absolutely change its growth. Check it so to speak, which can be done in several ways, but the best is by deep and close plowing. By doing this you up-set the top roots and at the same time loosen the dirt and form a new and mellow dirt for the feelers to start off in. A great many times such deep plowing is so necessary that really the tobacco looks like it is ruined, but don't tear up the roots and it will do the work.

INCENDIARIES BURN ANOTHER HOUSE.

Store Broken Into and Attempt Made to Burn That also—Negro Arrested.

[Special to Reflector.]

KINSTON, N. C., June 12.—This morning about 2:15 o'clock the house of Mr. Sol Oettinger was discovered on fire, and in forty minutes it was burned to the ground. It was set on fire and the flames had made such headway when discovered that they could not to extinguished. The house was worth \$3,000. Most of the furniture was saved, but in a badly damaged condition.

While the fire was in progress at Mr. Oettinger's the store of P. B. Borden was broken into. Blood was found on the ground outside the window and on the floor inside the store, showing that the party breaking in the store had cut himself on the broken glass of the window. Some burned paper inside the store indicated that an effort was also made to fire this building but it was not successful. No goods were missed from the store except some cigars and cigarettes.

A negro boy named Henry Sanders was arrested last night for breaking in the house of Mrs. H. Cummings on Saturday night. He was given a hearing before the Mayor to-day and held in a \$500 bond. The bond was not given up to 2 P. M.
