GREENVILLE, N. C., JUNE 24, 1895.

No. 168

Local Trains and Boat Schedule.

Passenger and mail train going north, arrives 8:22 A. M. Going South, arrives 6:37 P. M.

North Bound Freight, arrives 6:45 A. M., leaves 10:15 A. M.

South Bound Freight, arrives 1:51 P. M., leaves 2:11 P. M.

Steamer Myers arrives from Washington Monday, Wednesday and Friday leaves for Washington Tuesday, Thursday and Saturday.

LOCAL NOTES AND TOBACCO JOTTINGS.

BY O. L. JOYNER.

There seems to be an erroneous idea abroad in the minds of some men that the Tobacco Growers Association was organized here at this place for the exclusive purpose of discussing and deciding upon the future course of our farmers in regard to the patented looping system, whether or not it should be used by our people, &c.

While this matter has a rightful place in the discussion of the different topics for which the association was organized, yet it is not the permanent nor all important at all object of the association. In fact when the first meeting was called there was no knowledge of any such thing as a patent on the looping method of curing tobacco and hence we repeat that while it is right and proper that it should be discussed, it is not, by far, the only object of the Tobacco Growers Association.

There are a good many who seem to think that after some disposition has been made of this much talked of looping system, why then the association will disband and all go home, when in reality the business of the association has not really been touched. It is perfectly natural that such a conclusion should be reached, because just prior to the first meeting this patent system of curing tobacco was sprung upon the people and hence as a natural consequence was the first matter that came up for discussion. As no permanent organization had been effected this matter came up regularly at every meeting and it be

came general that the only object of the association was to dispose of the looping system.

At its meeting here on Saturday, happily and fortunately, the matter was finally placed before the association and a partial report made from the committee appointed to investigate the course to be pursued to set aside the patent. This report is full and final so far as the proceedings to be taken in order to annul the patent is concerned, and for the benefit of those interested who were not here, we give a synopsis of the report which is: The Commissioner of Patents says he has no authority to set aside a patent and the only course to be pursued is to bring suit in the U. S. circuit court of this State in the name of the Attorney General and to prove there that patent was in common use for two years or more before patent was issued. Now this is the only course left to the farmers and the only thing that the association will have to do with this matter in the future is to decide whether they will bring suit or not.

At the next meeting of the association we hope to have a large attendance. There is business to come up that will be very important to the tobacco growers everywhere.

Let everybody come and within less than a year if every farmer who attends regularly is not benefited by the association far more than by any other means that he has ever gained information on tobacco culture then this writer will give it up that there is nothing in union. Heretofore the looping system only has been discussed. Hereafter we will get down to the business of the association and it will be entertaining and interesting to all.

Greenville Lodge A. F. & A. M. will have installation of officers to-night.

Whales are reported to be worth from \$1,000 to \$2,000. The REFLECTOR would not mind taking a few on subscription.

EVERY AFTERNOON (EXCEPT SUNDAY)

THE GROWERS IN SESSION.

An Enthusiastic Meeting—Many Prominent Features Argued.

The Tobacco Growers Association met in the Court House, Greenville, June 22d, 1895 according to adjournment. In the absence of J. J. Laughinghouse Esq., the President, Mr. W. M. King was called to the chair.

Minutes of last meeting were read and approved. Mr. A. J. Moye suggested that in the minutes when Mr. Joyner appeared it should be prefaced by his initials which were O. L. Joyner.

Mr. E. A. Moye submitted Rules and Regulations governing the Association, which on motion received and adopted:—as follows.

ARTICLE 1.

SECTION 1. This organization shall be known as the Eastern Tobacco Growers Association.

SEC. 2. The objects of the Association shall be to unite the tobacco growers of Eastern North Carolina, that they may by concert of action be enabled to advance their interests and by mutual aid and co-operation be in a position not only to advance their interests but to protect the same when necessary.

SEC. 3. The Association shall be composed of those who are engaged in growing tobacco and those who are interested in its culture and sale.

SEC. 4. The officers of the Association shall consist of a President, Vice-President and Secretary, who shall be elected annually and hold their offices for the term of one year.

SEC. 5. The officers shall be elected at the last regular meeting held in the month of June of each and every year by a majority of the members present either by ballot or viva voce as the Association sees proper.

SEC. 6. There shall be appointed at the annual meeting in June a committee to be known as the "Committee on Information," to be composed of six members residing in different sections of the tobacco growing territory, whose business it shall be to observe closely the crop condition, to note as nearly as possible the mean temperature and average rain fall for the immediate section in which each lives, to make note of any ravages that may be infecting the tobacco fields and in general to make a thorough report at each meeting of the Association, and also to make a report of any other matter coming under their observation pertaining to the tobacco crop.

ARTICLE 2.

SEC. 1. The duties of the President shall be those belonging to presiding officers.

SEC. 2. The Vice-President shall in the absence of the President perform

his duties. In case of the absence of the President and Vice-President at any meeting, the Association can elect temporarily a presiding officer for that meeting.

SEC. 3. The duty of the Secretary shall be to keep accurate proceedings of the meetings, attend to the correspondence of the Association and shall also be Treasurer of the Association and shall receive and disburse the funds as the Association shall direct.

ARTICLE 3.

SEC. 1. There shall be no fees or dues connected with the Association, but all necessary funds shall be raised by voluntary contribution.

ARTICLE 4.

SEC. 1. The meetings of the Association shall be held at Greenville on Saturday before the 2nd and 4th Sundays in each month.

O. L. JOYNER,
E. A. MOYE, } Com.
C. D. ROUNTREE.

It was moved by E. A. Moye that these Rules and Regulations may be changed by a two-thirds vote of the members present at any regular meeting.

E. A. Moye of the Committee on data in regard to patent laws &c. made his report to make a test case it would be necessary that proceedings should be instituted by the Attorney General in U. S. Court, as the Commissioner of Patents has no authority to set aside a patent that has been issued by the patent office. This information comes direct from the Department of the Interior, and that it was the opinion of one of the leading lawyers such a suit would cost \$500 while another one said that it would cost \$5,000.

A. J. Moye thought differently and was confident that any one could use it, and if the Court did decide against them they could only get three times the damage done. This he stated on the authority of a leading attorney in the U. S. Court. E. A. Moye explained his report and was, he said, would be the last man to advice his or any other people to violate, law and to use this patent looping process without first buying it was contrary to the law.

G. T. Tyson stated that one way out of the looping process trouble would be to cut the stalk, and keep out of the clutches of "Uncle Sam."

A. J. Moye spoke of the great benefits to be derived by the addition of an insurance feature to his Association alluding to the recent hail destruction in the county, when, if we would assure ourselves even \$1 per acre in to-

bacco, would be of lasting benefit to the infortunates.

Guilford Cox read the claim as set forth by the patent looping process, and stated the loop, as the patent calls for, he used many years before the issuance of the patent but for other purposes than tobacco, and explained his connection with a machine for planting rice, and his investment was a loss. L. F. Evans stated that no test case could be brought by this Association before any court, and stated the only way that it could be brought, then it might be ten years before any decision would be reached.

Mr. Harris moved that this Association disclaim all responsibility for any one using this patent looping process, any resolutions having been passed to the contrary notwithstanding, the latter being offered by A. J. Moye which was added.

E. A. Moye took the floor and explained in forcible language, how it was a lawyer had been consulted and that he was the last man to advise his people to take the law in their hands.

G. T. Tyson wanted harmony and that he was for law, and while the patent was legally right it was not morally.

Fred Phillips had with him a stick and leaves of tobacco and explained his process for stripping tobacco for curing which met with much general favor and is in no way an infringement on the patent looping process.

O. L. Joyner stated he had prepared an affidavit in blank for any person who had used their process prior to its being patented for signatures, but after the explanation he had heard, that such would not be taken as evidence he did not produce it.

On motion the Association proceeded with the election of officers. It was withdrawn to hear from Mr. Williams who said it would be ample time for the people to take the matter under advisement when some authorize agent should come around to sell the patent, but in the meantime post notices that would keep drummers, loafers, strangers and tramps off their premises.

The Association then proceeded with the election of officers, as follows.

J. J. Laughinghouse President,
G. F. Evans vice President, E. M. Pace Secretary.

No further business appearing the Association adjourned to meet Saturday before second Sunday in July.

W. M. KING,
E. M. PACE, Pres. pro tem.
Secretary.

The Washington *Pathfinder* recently offered a prize for the best original history of the United States in 100 words. Out of 911 contestants, the prize was awarded to W. T. Gooden, of Pana, Ill., for the following: "The revival of learning, commercial rivalry and religious zeal in Europe led to Columbus's discovery of America in 1492. Conflicting territorial claims and parental animosity involved English, French and Spanish colonists in wars culminating in English supremacy in 1763. England's oppression alienated colonial affection, induced revolution, hastened independence. Common cause and danger begat colonial union; the weakness of the Confederation demanded a Federal Republic. Party differences tempted legislation. Negro slavery precipitated civil strife, secession, emancipation. Federal authority supreme, reorganization succeeded. Religious freedom, an unmuzzled press, invention, internal improvement and universal education have conspired to prosper at home and honor abroad."

A New Scheme for Revenue.

It is a pretty good scheme Charlotte is working on the dogs, this year. It is a scheme for revenue only. Heretofore, dogs without a tax paid tag were killed. A good many canine lives were saved and tax evaded by the owners keeping the dogs tied up. Killing dogs is not the object this year. The sanitary police, who know every house in Charlotte, know also every dog. When they find a dog not tax-paid, they do not kill the dog. They require the owner to take out a tax paid tag, or appear before the mayor and be fined. This law is working finely and more dog tags are being sold than ever before heard of in Charlotte. —Charlotte News.

First-Class Work.

Fusion Officers Favor Mixed Schools.

We are getting a precious lot
of County Examiners under the
Fusion law. The new Fusion ex-
aminer of Polk county, says the
Rutherford Democrat, stuck up a
notice saying that all applicants
who were present on the first of
July "will pay a fee of \$100 at all
other times \$150." Rather high.

The Brevard Hustler says that
the Fusion examiner in Transyl-
vania could not get a third grade
teacher's certificate, and has been
sending his children to a mixed
school of whites and negroes.

Does any honest or patriotic
citizen want, as the head of the
county school system, a man who
sends his children to mixed
schools? This is worse than the
Douglass miscegenation resolu-
tion.—*Raleigh News and Observer.*

Take Time.

Let us take time for the good-bye
kiss. We shall go to the day's
work with a sweeter spirit for it.
Let us take time to speak kind
words to those we love. By and
by, when they can no longer hear
us, our foolishness will seem
more wise than our best wisdom.
Let us take time to be pleasant.
The small courtesies which we
often omit because they are small
will some day look larger to us
than one wealth which we have
coveted or the fame for which
we have struggled. Let us take
time to get acquainted with our
families. The wealth you are
accumulating may be a doubtful
blessing to the son who is a
stranger to you. Your beautifully
kept house, busy mother, can
never be a home to the daughter
whom you have no time to
caress.—*Christian Herald.*

Sprouted in His Eye.

A few days ago one of our cit-
izens was very much annoyed by
a very small gravel in his eye:
besides, it pained him very much.
Not being able to sleep from its
effects, his wife induced him to
let her put a flax seed in his eye.
In a short while he was entirely
relieved and told his wife that he
believed both the gravel and the
seed had come out, as he could
not feel either. No further at-
tention was given the matter until
a few days later, when she saw
something in the corner of the
eye, and upon examination dis-
covered that it was the flax seed,
which had sprouted.—*Wilkesboro*

He Delighted Greenville People.

Dr. J. C. Kilgo, President of Trinity College, arrived here Saturday evening and preached to large congregations in the Methodist church both Sunday morning and night. The people of Greenville were fortunate in having an opportunity of hearing such an able man and we hear nothing but expressions of delight from his sermons. He is a brilliant man, an eloquent speaker, and throws such earnestness and enthusiasm in his discourses as to command the closest attention to every utterance. Greenville hopes to be favored with other visits from him. Dr. Kilgo is the best President Trinity has had and he is adding much interest to that excellent institution.

June Crops.

The State Agricultural Department has just made up its June report of the crops, which average up as follows:

Wheat is reported at 88 per cent. This is really very nearly a normal crop.

Oats are also a little short, 84 being the average.

Rice: The reported average is 87 for this crop, which is mostly confined to the east.

Cotton: This crop is still reported very low; has fallen off two points since last report. This is a low and unsatisfactory condition, and is represented in figures at 68.

Corn is also low, 83 being the reported average.

Peanuts: This crop is also short, and reported at 84.

Tobacco: This crop has fallen off, chargeable to cool, unfavorable weather from 94 last month to 83 2-3 for this June showing.

LIFE'S MERRY-GO-ROUND.

These Got Seats in the Band Wagon.

Mr. W. H. Cox, went to Norfolk today.

Judge Geo. H. Brown, of Washington, is in town.

Rev. C. M. Billings left this morning to spend a few days at Carthage.

Solicitor C. M. Bernard and family left this morning for Wrightsville to spend a month.

Dr. J. C. Kilgo was the guest of Mr. Alfred Forbes while here. He left for Durham today.

Ex-Senator and Mrs. T. J. Jarvis returned home Saturday evening from their visit to Tennessee.

Mrs. N. L. Shaw, of Warrenton, has been spending some days with her sister Mrs. A. J. Johnson, near town.

Bishop A. W. Wilson, of Baltimore, is expected this evening and will preach in the Methodist church to-night.

Register of Deeds W. M. King left this morning for Oxford to attend the meeting of the Grand Lodge of Masons.

Superior Court Clerk E. A. Moye, M. W. H. Long, Mrs. Delphia Quinley, Mrs. Georgia Pearce and little son Blount, and Misses Nannie King and Sadie Short left this afternoon for the Teachers' Assembly at Morehead.

Stand by the Newspaper.

Does it pay to advertise?

Ask our leading enterprising men and they will to the man say "Yes."

But suppose it does not directly will you refuse to lend a helping hand to one of the most necessary promoters of your town, financially, numerically, sanitarily, and intellectually?

Take your newspapers away and what kind of a town would you have? What class of people would longer remain in your midst? Intelligence would give away to ignorance; push and enterprise to stagnation and chaos; health to disease; cleanliness to filth, and we would be of all people most miserable. Then are you not willing to feed this man of power which lends you a helping hand in a thousand and one way? Put muscle and strength to its arms by the use of printer's ink. Don't be satisfied to live simply for your own self, but let some of your interest be in your public enterprises.

Love citizens are always on the lookout for live business houses and they know them only when they find them interested in public enterprises. The people who advertise are the people who want your town to grow. Then encourage them by giving them your cash.—Durham Sun.
