## LOCAL NOTES AND TOBACCO JOTTINGS

BY O. L. JOYNER.

Mess. Geo. Thomas, of Roxboro, and W. L. Ferrell, of Durham, came in on this morning's train. We learn that Mr. Ferrell will locate on this market.

The heavy rains are seriously damaging tobacco crops now standing on the hill.

Mr. B. T. Bailey and wife came in Tuesday night from Clarksville, Va., and are stopping at the College. Mr. Bailey will auctioneer for the Eastern Warehouse this year.

Mr. W. Z. Mitchell, of Bullock & Mitchell, Oxford, N. C., came down last night and will spend a few days on the market.

Mr. A. A. Andrews, of Durham, has come to locate on this market.

Quite a number of our buyers will go down to Kinston to-night and be there during the opening days.

We learn that several tobacco barns were burned last week. Mr. J. W. Allen lost one, and we learn that it was very good tobacco. It requires very careful hands to work around a tobacco barn when the tobacco is in process of curing.

Owing to the increasing demand for Electric Goods C. J. Rogers will remain in Greenville one week longer. Now is the time to secure one of his belts.

## Weather Crop Bulletin.

The reports of correspondents of the Weekly Weather Crop Bulletin, issued by the North Carolina State Weather Service, for the week ending Saturday, August 10th, 1895, indicate a very warm, sunny week, with local showers. The temperature rose steadily during the week, with maximum temperatures on Saturday above 94 degrees, and a mean about 8 degrees above the normal. A good many very beneficial local rains occurred which greatly benefitted crops, but many sections in the northern part of the Eastern, and in the Central and Western Districts are suffering from drought, which is chiefly affecting gardens and corn. However, at many places where the drought was most severe last week fine showers have fallen this week. With a good season next week a splendid crop of corn will be assured. Tobacco cures are very good. Farmers are sowing turnips and beginning fodder-pulling in South.

**EASTERN DISTRICT.**—Reports from this district are nearly all favorable, and crops have made fine progress. The weather was very warm, with local showers nearly every day, except at some places, chiefly in the northern portions of the district, where not enough rain has fallen. There has been abundant sunshine. On Sunday, August 4th, a heavy washing rain occurred in the southeast corner of the State, without great damage. Light hail reported from two points. There are a few sections in this district which can be said to be seriously suffering for want of rain. Corn especially doing very well; fodder-pulling has begun in the South. Tobacco crop good and curing up fine. The majority of reports indicate improvement in cotton, which with late fall make a good crop report. Sowing turnips, and early planted have come up well. Field peas good. Sweet potatoes doing well, and second crop of Irish potatoes being planted. Rice doing well. Rains reported. Falkland 2.05 inches; Richlands, 1.25, Pantego, 1.10; Point Caswell, 0.50, Mount Olive, 2.00; Trenton, 1.06; Jacksonville, 1.40; Wilmington, 2.30, Southport 2.37.

## A Warning to Cigarette Smoking Boys.

Speaking of the evils of cigarette smoking, a prominent physician says:

"A good deal has been said about the evils of cigarette smoking. I am talking now to boys remember. The effect upon grown men is of course not so marked.

"A cigarette fiend will lie and steal just as a morphine or opium fiend will lie and steal. Cigarette smoking blunts the whole moral nature. It has an appalling effect upon the system. It first stimulates and then stupefies the nerves. It sends boys into consumption. It gives them enlargement of the heart and it sends them to the insane asylum. I am physician to several boys' schools and I am often called in to prescribe for palpitation of the heart. In nine cases out of ten it is caused by the cigarette habit. Every physician knows the cigarette habit. I have seen bright boys turned into dunces and straightforward, honest boys made into miserable cowards by cigarette smoking. I am not exaggerating. I am speaking the truth, as every physician and nearly all of the teachers know."

The rain did not lower the temperature.

Trouble at Winston.

A serious riot between whites and blacks was narrowly averted at Winston Sunday night. It was given out in the colored churches during the day that an attempt was going to be made to lynch Arthur Tuttle, on trial there for murder of policeman Vickers last May. After church, about 150 negroes organized and marched to the jail where they remained for several hours. They were armed with pistols and guns. Mayor Gray went to the jail and assured the negroes there was no danger of lynching and begged them to disperse. Sheriff McArthur and two of Winston's lawyers also addressed the negroes, assuring them that there was no danger of lynching. Judge Brown, who is holding court, notified the negroes that they were violating the law, telling them that Tuttle should have a fair trial and that he would be responsible for Tuttle's protection. The negroes said they would leave if the sheriff would put a guard of twenty men around the jail. This was done but many of the mob refused to go away. Sheriff McArthur then ordered out the Forsyth regiment besides a number of deputies, who were sworn in. Judge Brown also instructed the sheriff to arrest those who did not leave. The mob began firing on the officers, several of whom were struck with small bird shot, but none were seriously wounded. The Riflemen fired several volleys into the crowd, causing the negroes to disperse in quick order. Fourteen of the rioters were arrested by officers and put in jail.

In his youth John A. King, of Chicago, was a mule engineer on the Erie canal. Now he is very wealthy and president of a big national bank. This shows what perseverance with a mule will do.

A Pretty, Happy Girl.

There are many plain young girls whose faces are lined with discontent and unhappiness. There is a drawn, perplexed expression between the eyes, and corners of the mouth have a decided droop. These are the girls who have a settled idea that they are plain beyond remedy, and the distressing belief has deepened the lines of dissatisfaction; but in reality there is only a cloud over the face, cast by the habit of unhappiness.

A pretty story by which we can all profit is told in an exchange as follows:

One morning a certain girl whose face was under this cloud walked out across the sunshine of the common. For a moment the lightness of the morning had lifted the gloom and her thoughts were unusually pleasant.

"What a pretty, happy girl that is we just passed," she heard one of two ladies passing say to the other.

She looked quickly around, with envy in her heart, to see the pretty girl, but she was the only girl in sight.

"Why, they mean me! No one ever called me pretty before! It must be because I am smiling!"

Again, as she was getting on a horse car, she heard (the ladies were out in her favor) "Do you see that pretty girl?"

"Well, I declare. I am always going to look happy if this is what comes of it! I have been called homely all my life, and here twice in one day I've been called pretty."—Ram's Horn.

## A JAP'S VIEWS.

### American Visitors to the Land of the Rising Sun.

Many Tourists Have Been Looking That Way — For Ordinary Travelers It Is a Better Trip Than to England or the Continent.

A Japanese of distinction in his own country has come to this for the purpose, as he says, of "looking at things." In an interview with a reporter of the New York Sun, he spoke of the good esteem in which Americans are held by the Japanese. "Never before," he said, "were there as many Americans in Japan as there are this year. The tourists are to be seen not only in Yokohama and other seaports, but in out-of-the-way places, which they explore that they may get glimpses of the old-time Japanese life and customs. If they cannot put up at big hotels they are always able to find some place to stay, for the natives are of a hospitable nature, and have all heard of the Americans. In Yokohama we have always been accustomed to Americans, and I am sure that as many as two thousand of them have lived there longer than I can remember. But there are restrictions upon foreigners who want to travel over the country, and it is not everybody who can gain permission to do so.

"I am sure that Japan will yet be a great resort for American tourists. Before coming to New York I had visited Europe, and the thing that has struck me most since I arrived here is that this country is very much like the European countries I have seen. The streets there and here are the same; the residences and business buildings are the same; so are the manners and customs, the garb, the religion, the theaters, the food, and everything else. I do not understand why so many Americans go to England, or France, or Germany every year, and why they do not go to some country that is different from their own. When the American travels in Japan he sees things unlike any he ever saw before. The people are of another race; we have an ancient history and many things of antiquity; we have arts that are all our own; we have a social system that has descended to us from prehistoric times; you can go into Buddhist temples or into playhouses unlike yours; you can everywhere notice the abiding influence of our two great religions, which you call pagan; you can see novelties of every kind, all on hands, in a country which is healthy and beautiful and orderly, and which is inhabited by a people whom foreigners characterize as excessive in their politeness. Japan is not a second edition of Europe; it is unlike any other nation in the world; it is a country for American tourists who want change; and I think that thousands

of them will go every year hereafter.

"I think that more of the usual number of Americans have traveled to Japan this year because of the revelations made during the war with China. The war has brought more fame to Japan than all the other events that have occurred since the mythological ages. It has given the world at large some knowledge of Japanese life and character and history. It has taught mankind that we are not a country of barbarians or simpletons, and that we are not like the Chinese or the Hindoos or any other Asiatics. It has made many intelligent Americans curious to learn more about us. It has been the means of attracting hundreds of Americans to the country which owes so much to Americans. If as many Americans as have gone to Europe this summer had thought of going to Japan both countries would be benefited. Besides the war, the many books about Japan recently written by American and European authors have aided in creating a new interest in it. There must be very many of these books. Of all the foreigners who have ever visited my country, Mr. Lafcadio Hearn has the best understanding of it. He was observant when last here. He is very subtle. He got into communication with the soul and heart of Japan. I think that both he and the poet Arnold are much too flattering to us in their books, and I could criticize same things that they say. It was their kindly spirit. One might believe that no American can read their language about my country without desiring to visit it. They may be assured that visitors will be welcome, more especially if Russia does not interfere with us. Yet another thing that has tended to promote the American interest in Japan is the coming of Japanese among you. There must be several thousand of Japanese in the United States, and many of them have got acquainted with your people, and have entered into business relations with them."

### Huge Debt of Australasia.

A writer in a Melbourne paper puts the total amount of the public and private debts owing to Great Britain by the seven Australasia colonies at £1,575,000,000.

### King of Prussia.

"William West, King of Prussia," is an autograph creating a good deal of speculation at the Parker house just now. Persons having but little geographical knowledge of Uncle Sam's domain are ignorant of the whereabouts of "King of Prussia" in Pennsylvania state, yet that is where that little town is located, and Mr. West is not royalty's own, nor has he any claim of relationship to his royal highness of Prussia. His handwriting, however, is above nobility's scrawl, and many a conjecture is advanced concerning it.

A popular young man residing a mile west of Winston paid dearly for a visit Friday morning. He was one of the special venire drawn for the Tuttle jury and was promptly on hand, but thinking his name would not be reached for several hours, went to the home of his sweetheart where he remained too long to the good of his bank account. His name was drawn but he failed to answer to the roll-call. When he appeared in the courtroom and made himself known Friday afternoon Judge Brown notified him that his absence would cost him \$20, with no cost attachments. His Honor added that by paying this amount his young friend would be excused without any further ceremony. He paid his cash to Clerk Wills and left the court-room a sadder but wiser young man.—Salisbury Herald.

### Ran Away With a White Woman.

A correspondent informs the Raleigh Press that Rev. Anderson Ives, colored, whose home is in Halifax county, but who has lately been engaged in missionary work in Pennsylvania, has run away with the wife of a white man up there, notwithstanding that he has a family of his own. Three truants have been captured.
