Pitt County Taxables.

The tax lists just completed by the Register of Deeds show the following taxables in Pitt County as returned during the month of June:

White polls 2,353, colored 1,509 total 3,862.

Acres land, 389,838, value, \$1,758,741

Town lots, 728, value 327,082

Horses, 2,620, value 100,471

Mules, 1,852, value 73,872

Goats, 1,031, value 568

Cattle 9,829, value 58,020

Hogs, 29,137, value 32,291

Sheep, 1,962, value 1,959

Value farm utensils, 37,632

Value mechanic tools, 5,492

Value household furniture, 96,943

Value provisions, 80,057

Value fire arms, 7,172

Value libraries, 3,794

Value scientific instruments, 3,182

Money on hand, 95,437

Salvent credits, 294,923

Stocks, 1,196

Shares incorporated companies, 3,840

Other personal property, 254,856

Total property listed \$3,237,528

Of this \$3,174,732 was listed by whites and \$62,796 by colored people.

Big excitement up the street this morning Frank Wilson had put a beautiful black eye on high prices for trying to enter his store. Eugene and Ashley were on hand to assist him, backed up by Will James who soon fired him. Frank Wilson's new Clothing is all in and is beautiful. Go and see it, you'll be sure to buy.

This list shows an increase of \$22,183 over the total valuation for last year and an increase of 181 polls. The amount of money on hand was larger than it has been in several years, which shows the people of Pitt county are in good financial condition.

It is somewhat remarkable that the value of fire arms is nearly twice as much as the value of libraries given in, and is nearly \$2,000 more than the value of mechanic tools.

After You.

A well known barrister relates the following story with great gusto. Some time ago he had under cross-examination a youth from the country who rejoiced in the name of Samson, and whose replies were provocative of much laughter in the court.

"And so," questioned the barrister, "you wish the court to believe that you are a peacefully disposed and inoffensive kind of person?"

"And that you have no desire to follow in the steps of your illustrious namesake and smite the Philistines?"

"No, I've not," answered the witness, "and if I had the desire I ain't got the power at present."

"Then you think you would be unable to cope successfully with 1,000 enemies and utterly rout

them with the jawbone of an ass?" "Well," answered the ruffled Samson, "I might have a try when you have done with the weapon."

Some counties in the State are coming forward with their first bale of cotton. Pitt farmers have their attention so much on tobacco that looking after cotton gets no thought yet.

Prof. Goshann, the world-renowned mind reader, will be in Greenville Monday. He will give a street test in the afternoon and an entertainment in the Opera House at night. His feats are marvelous.

Flags Over School-Houses.

The Catholics and Lutherans of Illinois and protesting vigorously against the law of that State providing for putting the United States flag over the school houses, and are finding warm supporters of their protest outside of their own denominations. The Chicago Tribune questions the constitutionality of the law, and in one county in the State, at least, where great objection to the law is manifested, the public school guardians have decided to test in the courts the point raised by the Tribune.

The Springfield (Mass.) Republican regards the law as a very unwise one. Patriotism, it says, is not to be manufactured in that way. In a country particularly whose first principle of government is the non-interference of government with individual action where the rights of others are respected, such enactments must be regarded as somewhat out of place. Compulsory and general flag flying, it adds, tends rather to belittle the symbol and deaden the sentiment which the sight of it should awaken.

That is the sensible view to take of the matter. Yet we recall that when the Legislature of Virginia refused to pass a law compelling the flying of flags over the public school houses of this State, some of our northern and western contemporaries nearly went into hysterics.—Richmond Dispatch.

According to Poor's Manual, the number of miles of railroad operated in the United States in 1894 was 175,444 an increase of 2,074 over 1893. The decreases of the year were: In tons of freight moved, nearly 11 per cent.; in freight mileage, 9.12 per cent.; in passengers carried 7.25 per cent.; in passenger mileage, 10.20 per cent.; in earnings from passengers, 11.25 per cent.; in miscellaneous earnings, 3.36 per cent.; in earnings of elevated roads, 9.41 per cent.; in total gross earnings 11.64 per cent.; in net earnings 11.53 per cent.; in earnings per ton per mile 4.70 per cent. But we learn that from all quarters comes the information that the business of 1895 will be a great improvement over that of 1894.

The mule is frolicsome and mischievous, but not as a rule revengeful, though there are exceptions to this, as in the case of a mule in an Ohio coal mine, which had patiently submitted to being cruelly beaten by its driver, but which the other day reversed the order of proceedings by jumping on the driver and tramping and biting him almost to death. As assistance came in time to prevent the mule from doing him up for good.

The Tax on Tobacco and Whiskey.

The fusionists have denounced the Democrats severely for not repealing the tax on whiskey and tobacco.

When they came into power it was expected that their faith would be proven by their works, but such was not the case.

On the contrary they have levied a special tax of one-half cent a pound on tobacco in addition to the United States tax and the State ad valorem tax, and instead of repealing the tax on whiskey they have doubled it. Whereas the purchase tax on whiskey under the Democratic law was one per cent under the fusion law it is two per cent.

It was necessary to increase taxation to supply money for the extravagances of the legislature, and all taxes were increased. With one exception no tax was reduced. This was the tax on billiard tables.

It is said that the keeper of a billiard saloon employed a member of the Big Five, and at his demand the tax was reduced two thirds. To make up this loss the legislature levied a tax on drugs and garden seed.

Such is fusion reform!—Ruth erfordton Democrat

Nice Distinction.

Caution and cowardice some-times run pretty closely together; but they are always distinguish-able, nevertheless. Even a child can generally see a difference, as in the following case mentioned by an exchange:

Teacher.—Johnny, can you define for us the difference be-tween "caution" and "cowardice?"

Johnny.—Yessum. When you're scart to go out on a boat an' stay at home for fear it'll sink, and the boat comes in all right, it's "cowardice."

Teacher.—Well?

Johnny.—And if you're scart and stay home, and the boat does sink, then it's caution."

When soil is poor, shrewd farmers fertilize;

When trade is dull, wise merchants advertise.

"Befo' de war," a negro boy who was sharply reproved for having stolen and eaten a turkey, replied;

"Well, massa, you see you got less turkey, but you got dat much more niggah!"

Lives of newsmen all remind us,
Honest toil don't stand a chance.
The more we work there grew behind us.

Bigger patches on our pants
On those pants once new and glossy,
Now of stripes of different hue
All because the debtors linger,
And don't pay up what is due.
Let us then be up and doing
Pay your bills however small—
Or, when the autumn winds are sighing
We shall have no pants at all."

THE VERDICT.

That Pitt is the Best Bright Tobacco County in the State.

Never has there been a time since the war that prospects were so bright for Pitt county as now. Never has there been a time since the war when there was so much money being paid to the toiling farmers during the month of August and September as at the present time.

That Pitt county is on a boom is the universal verdict. Strangers who come to our market all say, what a great county Pitt must be! A prominent tobaccoist, of Danville, who has been on the market a few days, was heard to say before leaving that this was the finest bright tobacco market in the South. He has been in the tobacco business all his life. Rev. Dr. Payne, of Washington, was on the floor of the Eastern to-day and was enthusiastic in his utterances of the wonderful county of Pitt, and predicted a great future for the county. He said he had been living all his life in the country about Winston

and western North Carolina, and had seen the golden weed all his days, but never had he witnessed such a scene as on that break to-day.

Two Granville county men who had been down here curing tobacco were returning home, and heard talking about Pitt county while they stood waiting for the morning train. One said he never had seen such a place as this county for bright tobacco; that some other sections might surpass it on heavy wrappers, but Pitt can beat the world on growing bright cutters. Both said they were going to move to Pitt next year.

And it is with every one. On the warehouse sales or through the country people are just astonished at what this good old county is doing.

Truly, there is much to think about the future of Pitt county and Greenville. It is noticeable that business in every department is rapidly improving, and we expect yet to see the town alive with factories. Develop other enterprises in proportion to the growth of our tobacco industries and you will see right here one of the most progressive towns in the State.
