## THE TOWN OF "USED TO-BE."

Grandma lives in a funny place,  
The town of "Used-to-be,"  
There streets are "turnpikes" and people are "folks,"  
And a nice hot supper a "tea."  
"Where is the town of "Used-to-be?"  
In Grandma's memory bright.  
"The way?" Upstairs, to grandma's room  
The cozy one on the right.  
"When you can go there?" Twilight's best,  
For the dreamy glow in the gate  
Lights the way to the town of "Used-to-be,"  
And nobody need to wait.  
Then ho, for an hour in the dear old town,  
And hey, for the husking-bee,  
And oh, the dancing in stiff brocade,  
And ah; the trysting tree.  
And ugh; the sermons, two hours long,  
And three of them, Sabbath day,  
In a "meeting-house," so cold and drear,  
Where the "foot stove" held its sway.  
But if grandma shows you a summer scene,  
In a farmhouse and orchard fair,  
With rows of cheeses on dairy shelves,  
And bees in the clover sweet air.  
And there, beyond, in the kitchen wide,  
Grandma, herself, at the wheel,  
Spinning, singing, a fair young bride,  
You say, for you can but feel—  
"What a dear, dear town of "Used-to-be."  
But grandma's voice drops low,  
And she says, with a half-sad, half sweet smile,  
"Twas all so long ago."

## Children's Tea Party.

Friday evening, at the residence of Mrs. M. A. Jarvis was had one of the pleasantest little entertainments of the season. About two months ago Mrs. Jarvis formed a society known as "The Little Workers" from the children of the Baptist church, and they have under her guidance been illustrating that they are properly named. Yesterday they gave their first little tea party. About fifty were invited and were highly entertained by these little children from half past 4 o'clock until 6. The exercises consisted of reading Scripture, reading reports of work, receipts and disbursements, recitations, choruses, recitation with bells, songs, drills, &c., in which a large number of the children participated. Near the close of the entertainment ice-cream and cake were served.  
We don't know when we have seen a happier little gathering than this assemblage of many of the sweetest little children in the town. It was a joy to look on at them. Mrs. Jarvis deserves much credit for the work she is doing with these children and for the trouble and care in giving them such a pleasant evening.

## Ways to Help a Town.

The best way to give a city a good name is to get rid of drawbacks and then move right along with a business management which will command the confidence of the stranger as well as the home people. Evils can never be removed or rectified as long as the masses quietly submit to them.—Durham Sun.  
No town can grow, as it ought, without a united citizenship, and the man who devotes his time and talents to feuds and setting class against class is unworthy of citizenship.—Burlington News.

### Matters Of Interest Over the State

There is an epidemic of measles at the Oxford Orphan Asylum.

On Thursday morning fire did \$20,000 damage to the kitchen and dining room of Battery Park hotel, Asheville.

The Waynesville dispensary (liquor traffic conducted by the town) has made a profit of \$1,936.47 the past year.

The Waynesville Courier learned that Hiram McCracken, of Haywood county, planted a cedar about 50 years ago when he first began house-keeping and it grew almost in front of his door. Recently he had the tree cut down, sawed into lumber, and from it had four beautiful bedsteads made, one for each of his daughters, and the other for his son's wife, who lives at his home.

A sensational affair occurred in Beaufort at a very late hour on the night of Tuesday, April 15th. Wm. Rice, a young white barber of that town, was shot by Miss Belle Beveridge a middle aged maiden lady of that town, as he was trying to effect an entrance into her home. His purpose was evidently other than robbery as her possessions are not considered such as to tempt a burglar. The ball entered near his heart, and at last accounts had not been extracted—his condition was so critical that it could not be.

## Accidental Shooting.

At Mr. Alex Hudnell's logging camp about nine miles up the river an almost fatal shooting occurred at 3 o'clock Sunday. One of the hands was extracting a shell from a repeating rifle when the hammer accidentally fell exploding a cartridge, the bullet passing through the wall of the room, through a mattress and bedding, into the back of Mr. McPaul, through his lungs and liver. Dr. Jones, of Grimesland was called and assisted by Dr. Joshua Taylor the bullet was taken from his abdomen. His condition was very critical at last account.—Washington Gazette.

## BOYS' CLOTHING.

"A Mrs. Hopkins Boy."

Why do makers who produce inferior Clothing so often choose the Boys for victims? They must think the mothers can't tell.

But it gives us a brilliant chance,—we find they can discriminate. "Money back if you want it" doesn't go with poor Clothing. Spring Suits are here,—everything that's handsome and right. Bring the lad to-day and to-mor-

row and examine the gay and jaunty styles. Don't forget that we lead in Gentlemen Clothing and can suit you every time.

## SUCCESS. WHAT A PLEASANT SENSATION

DO you wonder that we feel we have succeeded somewhat, when we see the ladies throw up their hands and exclaim "My, My! How pretty, how pretty!" And the same of the exquisite styles in Black Dress Goods—Mohairs, Crepons, &c., in the handsones designs ever known before. We can only suggest to you now that in wash goods, such as Percales, Ducks, Dimities, Organdies, &c., we are not behind. See us and you will not leave without purchasing. We can suit all in Clothing, a new, neat line to select from.

SATURDAY, APRIL 18TH, 1896.

At a meeting of the executive committee of the National Association of Democratic Clubs held in Washington, it was decided to hold the next national convention of the association at St. Louis, on September 30th next. The committee adopted a resolution thanking all who helped to make the Jefferson birthday pilgrimage to Monticello a success. After adjourning the committee called in a body at the White House, to pay their respects to President Cleveland.

Although the charge has not directly been made, the inference from the repeated refusals of Senator Mitchell, of Oregon, who is in charge of the resolution, to set a date for taking a vote on the question of seating Col. Dupont as Senator from Delaware, is that he is afraid to have a vote taken. Senator Gorman evidently does not take much stock in the talk of adjournment in May, as he remarked when Senator Mitchell tried to give his reasons for not setting a date for a vote, that it meant it would be put off until after June 1st.

Notwithstanding pressure to relax the strict enforcement of the immigration laws brought by agents of the steamship lines, Commissioner Stump of the Immigration Bureau says the letter of the law will be strictly enforced and that if it becomes necessary to relieve the overcrowded station in New York harbor the Italian immigrants will be put back upon the steamers which brought them over until their right to land is established. The steamship men knew the law when they brought those paupers over here.

Two Republican members of the House who have been indulging in dreams of the figure they would cut in the Speaker's chair of the next House, provided, of course, that the Republicans continue to control that body, were very much disgusted when it was authoritatively denied that Speaker Reed intended to retire from public life if he failed to get nominated for President. Their dream is over, unless they can get Reed nominated at St. Louis, as they know he can be Speaker as long as he remains in the House and the House remains Republican. Hopkins, of Illinois, and Barrett, of Massachusetts are the members referred to.

There is no longer any reason for doubt as to where Speaker Reed stands. The platform adopted by the Maine Republicans this week was submitted to Mr. Reed for his approval and for the purpose of allowing him to make any desired changes therein several days before the convention met. Mr. Reed

revised the platform and made several changes in its wording, so that it may be considered as a personal declaration of principles held by him. He deserves more credit that McKinley for his handling of the financial question, he doesn't try to straddle it but comes out squarely against silver and in favor of gold.

Speaker Reed is now the object of the McKinleyites hatred to a marked extent. They realize that if McKinley fails to capture the Republican nomination it will be because of Reed's opposition, which is making itself felt in a much stronger manner than some people deemed possible. A prominent McKinleyite said under conditions which prevent the use of his name: "Reed may possibly succeed in keeping McKinley out of the nomination, but it won't do him any good. Not only will McKinley's friends work against Reed, if they find themselves unable to win, but they will endeavor to throw the nomination to some man who will not treat Reed any better than Harrison did during his term."

Representative Livingston, of Georgia succeeded in getting applause from both sides of the House in a few remarks he made, which he called explanatory of the increase from \$2,000,000 which was the amount appropriated last year, to \$11,000,000, which was carried by the Fortification appropriation bill passed this week. Said Mr. Livingston: "I congratulate the country that it is now conceded that McKinley will be the next republican nominee and that the A. P. A. will beat him. (This was loudly applauded by the McKinley republicans.) It is also acknowledged that the Jeffersonian democracy will control the Chicago convention and give relief to the country. After March 4, next the country will be safe." This was applauded by all. Proceeding Mr. Livingston said it was common sense to prepare for war, even when it wasn't anticipated. At this point Mr. Walsh, of New York, interrupted to ask if Mr. Livingston knew that England had sent 45 rapid-fire guns to Kingston, Canada, for the protection of the lakes. "It matters not," replied Mr. Livingston, "if she has sent 45,000 guns. We can, in the event of war, take Canada in three weeks, no matter how many guns or men she might send there." That brought the loudest applause of all.

## Another Product of Fusion.

Hardly a day passes that the papers do not tell of some peculiar and astounding action by the freak products of the late legislature. A gentleman who returned to Winston a few days ago from a visit to Moore county tells the Sentinel a colored man was tried before one of the new magistrates in that county, several days ago, on the charge of beating his wife with a board. A young lawyer appeared for the defendant and plead earnestly for the release of the old darkey. The magistrate ruled, however, that Sambo was guilty of manslaughter and he entered up his judgment accordingly. In addition to this, he decided that the wife was entitled to a divorce, and he granted her one without any further discussion. Of course neither judgment will hold good.

## Pharmacy Examination.

A meeting of the State Board of Pharmacy will be held in the city of Raleigh, on Tuesday and Wednesday, May 5th and 6th, for the examination of candidates for license to practice pharmacy. Examinations will begin at 9 o'clock Tuesday morning, at which time all candidates are expected to be present. Any further information may be had from the Secretary of the Board, Wm. Simpson, Raleigh, N. C.

SCIENCE AND INDUSTRY.

—The coffee crop of Venezuela amounts to \$15,000,000 a year in value. The average crop is 60,000 tons of coffee. Two-thirds of this product is exported, mostly to England. Maracaibo is one of the centers of trade; Maracaibo coffee is known everywhere.

—A long series of experiments, in which dogs were fed alternately with each substance during four consecutive periods, has shown, it is stated, that natural butter and manufactured oleomargarine are practically equal in digestibility and nutritive value.

—A correspondent writes to Nature that carp are very fond of the larvae of mosquitoes, and, as this fish thrives in the only kind of water in which the larvae of the mosquitoes can live, he suggests that these fish might be employed to exterminate this pestiferous insect.

—Africa is becoming a very good customer of the Pacific states. Lumber and flour are the staples of the trade, and the shipments are rapidly growing in importance. The largest shipment of flour ever made from the Puget Sound region for African ports was being loaded a few days ago at Port Blakely. It consisted of 8,000 sacks.

—About 15,000 tons of starch have been made from potatoes this season in the three states of Wisconsin, Minnesota and North Dakota. Not far from 3,500,000 bushels of potatoes have been thus used, and yet this represents about half the product of the potato belt. The farmers have received an average price of ten cents a bushel for the potatoes.

—The latest discovery of a new star was made by a woman without looking at the heavens. Mrs. Fleming, of the Harvard observatory, found it from standard photographs a few days ago, attention having been directed to it by a peculiarity of the spectrum taken in Peru last July. The new star is in the constellation Centaurus, and appears to have changed into a gaseous nebula.

—The saltiness of the sea has much to do with the ocean currents, which distribute the heat of the tropics over the colder regions of the earth. Currents are largely due to the difference between the specific gravity of sea water and the fresh water of rains. Thus when rain falls on a certain part of the ocean the effort of the heavier salt water of the ocean to establish an equilibrium causes a current.

—The minute creatures that have lived in the sea for ages past have left enduring monuments in the shape of islands, rocks and continents. If the sea had not been salty, these marine animals could not have existed and secreted the hard substance known as a "calcareous skeleton," which has largely contributed to the growth of continents. Among these early inhabitants of the sea were corals, crinoids, sea urchins and star fishes.

THREE TIMES THREE.

California Woman Who Never Condescended to Anything Short of Triplets.

In an almost inaccessible mountain fastness in Mendocino county, 18 miles northeast of Ukiah, is the home of nine children, all triplets. The mother of this remarkable family is Mrs. George Walters. All the children are well and happy, and the last trio are as healthy a set of youngsters as can be found anywhere.

The Walters home is in an out-of-the-way part of the Mendocino forest district. Two of the sets of triplets were by Mrs. Walters' first husband, Orrin Walters, a Missourian. Three years elapsed between the birth of the first and second triplets, and 12 years between the birth of the second and third sets.

Mrs. Walters' maiden name was Ellen Elaine Emmery. She was born in Quebec about 1855. She met her first husband during the Centennial exposition at Philadelphia. After their marriage they moved to Alton, Mo. It was at Alton in 1897 the first triplets were born. They were named Wheeler Henry, James Rutherford, and Martha Christine, being two boys and one girl. The family moved to California in the fall of 1898, and settled at first in Inyo county. From there they moved to the Little Bear valley, San Bernardino county. There, in October, 1892, the second triplets were born. They were all girls, and were named Matilda Ann, Rebecca Elizabeth, and Marie Louise. While out on a prospecting tour, seeking a fortune for his fast-growing family, Mr. Oates became lost in the vast deserts of western Arizona, and was never again heard from.

The widow then determined to move to the upper part of the state with her six children. They traveled north by easy stages, and on the way she met Mr. Walters. He helped her and her children along the way, proposed marriage, and was promptly accepted. They kept on their journey north, seeking for some far-away valley, where they could set up their home. They found it in the location already described. There in June, 1894, the last triplets were born. They were named Grover Eldon, Jasper Otis, and Ruth Ellen. The children of the first two sets of triplets do not resemble one another at all, but the last, the babies, look so much alike that they cannot be told apart. The only way to distinguish them is to dress them differently, and when put to bed they wear different kinds of night dresses, so that the mother can tell which is which.

# CATARRH.

## His Worst Enemy Defeated by

P. P. P., Lippman's  
Great Remedy.

FOR THREE YEARS HE SUFFERED--COULD

HARDLY BREATHE AT NIGHT--ONE

NOSTRIL CLOSED FOR 10 YEARS.

Mr. A. M. Ramsey, of DeLeon, Texas, was a sufferer from Catarrh in its worst form. Truly, his description of his sufferings seem little short of marvelous. Instead of seeking his couch, glad for the night coming, he went to it with terror, realizing that another long, weary, wakeful night and a struggle to breathe was before him. He could not sleep on either side for two years. P. P. P., Lippman's Great Remedy, cured him in quick time.

DE LEON, TEXAS.  
Messrs. LIPPMAN BROS., Savannah, Ga.  
Gents: I have used nearly four bottles of P. P. P. I was afflicted with the crown of my head to the soles of my feet. Your P. P. P. has cured my difficulty of breathing, smothering, palpitation of the heart, and has relieved me of all pain. One nostril was closed for ten years, but now I can breathe through it readily.  
I have not slept on either side for two years; in fact, I dreaded to see night come. Now I sleep soundly in any position all night.  
I am 50 years old, but expect soon to be able to take hold of the plow handles. I feel glad that I was lucky enough to get P. P. P., and I heartily recommend it to my friends and the public generally.  
Yours respectfully,  
A. M. RAMSEY.

THE STATE OF TEXAS—County of Comanche.—Before the undersigned authority on this day, personally appeared A. M. Ramsey, who, after being duly sworn, says on oath that the foregoing statement made by him relative to the virtue of P. P. P. medicine is true.  
A. M. RAMSEY.  
Sworn to and subscribed before me this August 4th, 1891.

### Continues to Shine.

The comb of the Planters Warehouse has been ornamented with lightning rods and a handsome weather vane mounted with a gilded eagle placed on the tower over the front of the building. These ornaments make the Planters shine at a great distance.

### Nice Plants.

Tobacco plants are humping themselves now and Mr. R. B. Bynum, of Farmville township, goes up head for showing the largest one up to date. To-day he brought us a plant the leaves of which measured 3 1/4 x 6 1/2 inches. He said he has many more as large as the one he brought.

### Used Another Man's Name.

We learn from the Salisbury Herald that a man in that town is a bit upset over his name getting connected with the stolen horse and buggy that a man sold to Policeman Cox on last Saturday. Some one here wrote to the editor of the Herald that the man who brought the horse and buggy here said his name was W. H. Perry and that he was from Salisbury. It turns out that there is a man by that name in Salisbury and he was very quick to let it be known that he had not been away from home in several months and that he was not the man who stole a horse.

## NO MORE COLD WEATHER.

I am now prepared to furnish Ice in any quantity, and will keep well supplied throughout the summer. All orders in town delivered without extra charge. When you want to be served promptly send me your orders.
